C2 PRICING INSTRUCTIONS

1. State the rates and prices in Rand unless instructed otherwise in the tender conditions.
2. Include in the rates, prices, and the tendered total of the prices (if any) all duties, taxes (except Value Added Tax (VAT), and other levies payable by the successful tenderer, such duties, taxes and levies being those applicable 14 days before the closing time stated in the General Tender Information.
3. All prices tendered must include all expenses, disbursements and costs (e.g. transport, accommodation etc.) that may be required for the execution of the tenderer's obligations in terms of the Contract, and shall cover the cost of all general risks, liabilities and obligations set forth or implied in the Contract as well as overhead charges and profit (in the event that the tender is successful). All prices tendered will be final and binding.
4. All prices shall be tendered in accordance with the units specified in this schedule.
5. Where a value is given in the Quantity column, a Rate and Price (the product of the Quantity and Rate) is required to be inserted in the relevant columns.

An item against which no rate (or rates, in the case of rate categories if provided) is/are entered, or if anything other than a rate or a nil rate (for example, a zero, a dash or the word "included" or abbreviations thereof) is entered against an item, it will also be evaluated as a nil rate having been entered against that item, i.e. that there is no charge for that item.
7. Provide fixed rates and prices for the duration of the contract that are not subject to adjustment except as otherwise provided for in the Conditions of Contract and as amplified in the Special Conditions of Contract.
8. An illustration of how the final tender price will be calculated is given below. This section is not for completion by tenderers:

Comparative prices will be calculated based on estimated and projected quantities as given below:
