SPECIFICATIONS

1 INTRODUCTION

The Contract entails the provision of water and electricity meter reading services on behalf of George Municipality. The Municipality herewith extends this invitation to call for tenders from experienced meter reading companies/service providers, who meet the eligibility criteria as set out in the conditions of the tender.

2 BACKGROUND

The George Municipality requires water and electricity meter reading services for a period from the date of implementation until 30 June 2026. The service provider will provide the meter reading services for the Greater George, George Industrial Area, Pacaltsdorp, Wilderness, Herolds Bay, Rural Areas, Uniondale and Haarlem.

The municipality is busy implementing a smart water meter project that will run for a three (3) year period to replace all domestic water meters which will in turn reduce the number of water meters to be read over the period of the tender term. The conversion of all credit electricity meters to prepaid meters in households is also a project that the municipality has prioritized for the next two (2) financial years that will eliminate all credit electricity meters to be read.

George Municipality has a total of 1 820 credit electricity meters and 39 153 water meters (excluding smart water meters). The average number of meters per route list is 254. The normal reading cycle is from the 15th of each month until the 15th of the following month.

The meter reading process generates a substantial percentage of the municipality’s income and therefore the municipality could suffer significant losses, if the meter readings provided are not accurate. There is also a significant customer service focus associated with the meter reading process that impacts on the municipality’s image. The successful bidder must be committed to strict confidentiality both during and after the meter reading task. Bidder must ensure that no conflict of interest occurs during the meter reading process and if any potential conflict arises, the tenderer must advise the municipality accordingly. The bidder will be required to prepare a project plan and adhere to the time schedules as agreed by the George Municipality.

The Municipality will provide the successful bidder with the following data electronically:

- Current information of meters;
- Specific / relevant information to enable the service provider to carry out its duties;
- Route lists with the relevant street addresses, meter numbers, type of meter (for water or electricity);

- Alpha-Numeric notices e.g., meters cannot be read;

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38(1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD9) must be completed and submitted with the bid:
 - 1 **Includes price quotations, advertised competitive bids, limited bids and proposals.**
 - 2 **Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.**
