SECTION 2.2: PRICING DATA

Pricing Instructions mean the criteria as set out below, read together with all Parts of this contract document, which it will be assumed in the contract that the tenderer has taken into account when developing his prices.

2.2.1 The short descriptions and category number given in the pricing schedule below are brief descriptions used to identify the activities for which prices are required.

2.2.2 The ward-based contractor must submit a log sheet monthly with the driven kms to claim for kms. The vehicle must be fitted with a tracker accessible to the implementer.

2.2.3 While it is entirely at the tenderer's discretion as regards to the pricing schedule below, guideline tariffs of fees or indicative time-based fee rates are gazetted annually, which are useful documents that will give tenderers some idea of industry norms against which they may compare their rates, sums, percentage fees and/or prices as applicable.

2.2.4 For the purpose of the pricing schedule, the following words shall have the meanings hereby assigned to them:

Unit: The unit of measurement for each item.

Quantity: The number of units of work for each item.

Rate: The agreed payment per unit of measurement.

Amount: The product of the quantity and the agreed rate for an item.

2.2.5 A rate, sum, percentage fee and/or price as applicable, is to be entered against each item in the pricing schedule. An item against which no price is entered will be considered as a no offer and will not be evaluated.

2.2.6 The rates, sums, percentage fees and prices in the pricing schedule are to be fully inclusive prices described under the several items. Such prices and rates are to cover all costs and expenses that may be required in and for the execution of the work described, and shall cover the cost of all general risks, liabilities, and obligations set forth or implied in the Contract Data, as well as overhead charges and profit.

2.2.7 Where quantities are given in the pricing schedule, these are provisional and do not necessarily represent the actual amount of work to be done. The quantities of work accepted and certified for payment will be used for determining payments due and not the quantities given in the pricing schedule. In respect of time-based services, the allocation of staff must be agreed with the employer before such services are rendered.

2.2.8 All rates, sum, percentage fees or prices (as applicable) tendered in the pricing schedule shall be final and binding throughout the period of the contract.

2.2.9 Prices should be inclusive of VAT and all other costs to execute the project.

2.2.10 Only firm pricing will be accepted, non-firm prices (including prices subject to rates of exchange variations) will not be considered. **The prices for years two (2) and three (3) should include annual escalations.**

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38(1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:

Bid rigging is, therefore, an agreement between competitors not to compete.**
