TOP LAYER (TL) SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP) 2024/2025: PER STRATEGIC OBJECTIVE(SO)	87

Executive Summary

The Municipality is required to produce a Service Delivery and Budget Implementation Plan to show the following;

- Monthly projections of revenue and expenditure for the operating and capital budgets
- Quarterly service delivery targets and performance indicators.

Each month the Municipal Manager must present the Mayor with a report showing how income and spending is progressing against these projections.

Every quarter the Mayor must report to Council on the progress of the budget.

Revenue Projections 2024/25

The following graph shows how the Municipality's operating revenue is expected to accrue over the financial year.

Operating Expenditure

The following graph shows how the Municipality's operating budget is expected to be spent over the financial year.

Service Delivery Targets and Performance Indicators

Each Directorate must provide quarterly targets so that performance can be monitored throughout the year. The Municipal Manager's and Director's performance contracts must contain these targets. The targets cannot be changed during the year unless Council approves the changes. The performance targets for 2024/25 are contained in the accompanying Estimates Annexure document.

Introduction

As a high-capacity municipality in terms of implementation of the Municipal Finance Management Act, George produced its first Service Delivery and Budget Implementation Plan for 2005/06.

A Service Delivery and Budget Implementation Plan is defined in chapter 1 of the Act as a detailed plan approved by the Executive Mayor for implementing the municipality's delivery of municipal services and its annual budget.

Essentially a business plan, the SDBIP is an integral part of the financial planning process. Although its approval is required after the budget its preparation has occurred in tandem with the budget process. The SDBIP is the connection between the budget and management performance agreements, and it includes detailed information on how the budget will be implemented – by means of forecast cash flows – and service delivery targets and performance indicators.

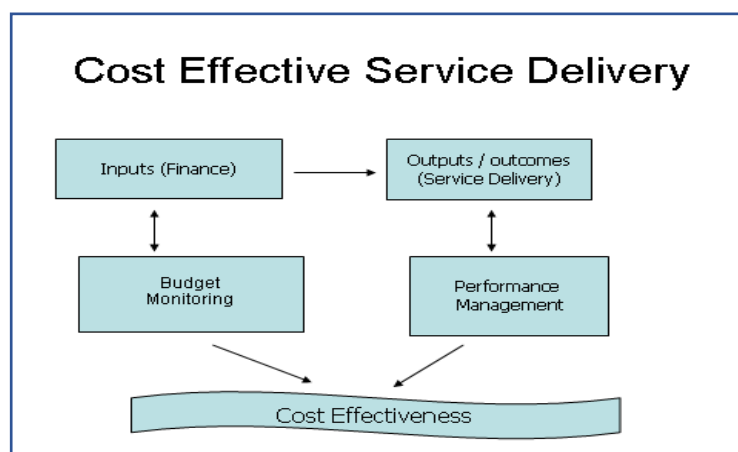

The Components of a SDBIP

The five necessary components of a SDBIP are

1. Monthly projections of revenue to be collected for each source
2. Monthly projections of expenditure (operating and capital) and revenue for each vote
3. Quarterly projections of service delivery targets and performance indicators for each vote
4. Ward information for expenditure and service delivery
5. Capital works plans.

The SDBIP is the formal link between organisational performance and the budget. It also provides a means to measure cost effective service delivery by linking the inputs – the budget – to the service outputs and outcomes.

Budgetary control and performance monitoring combine to measure the cost effectiveness of service delivery.

The SDBIP Concept

National Treasury, in MFMA circular 13, outlined the concept of the SDBIP. It is a contract between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration over the next twelve months.

It is a management, implementation and monitoring tool that will assist the Executive Mayor, Councilors, Municipal Manager, Senior Managers and community. It is also a performance monitoring tool that enables the Municipal Manager to monitor the performance of senior managers. The MFMA requires that the performance agreements of senior managers be linked to the measurable performance objectives in the SDBIP.

As a vital monitoring tool, the SDBIP should help enable the Executive Mayor and Municipal Manager to be pro-active and take remedial steps in the event of poor performance.

The SDBIP is considered as a layered plan. Whilst only the top layer is made public at council, the budget and performance targets should be broken down into smaller targets and cascaded to middle-level and junior managers. Directorates should be producing their own SDBIP's which roll up into the municipality's SDBIP.

MFMA requirement - Approval of the SDBIP

Under the MFMA the process for approval of the SDBIP is covered under Chapter 7 - Responsibilities of Mayors and Chapter 8 - Responsibilities of municipal officials.

Under chapter 8 the Accounting Officer must submit a draft of the SDBIP to the Executive Mayor within 14 days of the budget being approved as well as drafts of the annual performance agreements required in the Municipal Systems Act.

Chapter 7 of the MFMA requires the Executive Mayor to "take all reasonable steps" to ensure that the SDBIP is approved by the mayor within 28 days after the approval of the budget and that the SDBIP is made public no later than 14 days after that.

National Treasury' MFMA circular 55 requires that municipalities should submit and table a draft SDBIP together with the Draft Budget and IDP.

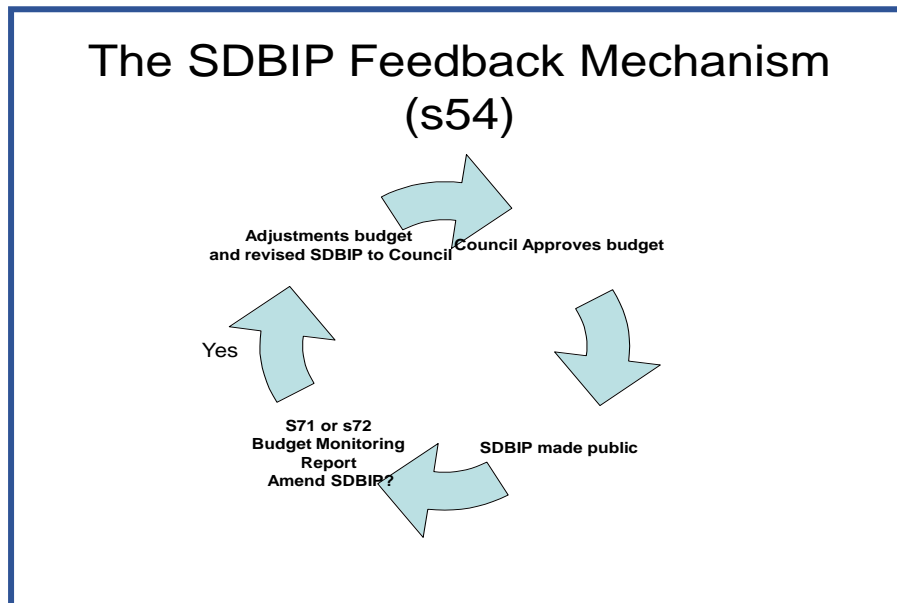

MFMA requirement – Implementation & monitoring

Section 54 sets out the responsibilities of the Executive Mayor regarding budgetary control and the early identification of financial problems.

When a budget monitoring report is received under section 71 or 72 of the MFMA, the Executive Mayor must check whether the budget is being implemented in accordance with the SDBIP. If it is decided to amend the SDBIP, any revisions to the service delivery targets and performance indicators must be made with the approval of council following an adjustments budget. The Executive Mayor must issue instructions to the accounting officer to ensure that the budget is implemented in terms of the SDBIP.

The revised SDBIP must be promptly made available to the public.

The following diagram illustrates this process;

The SDBIP process in George

The production of the SDBIP has been coordinated in the Financial Services Directorate although all directorates have been involved with its development.

The detailed budget monthly estimates and the detailed quarterly performance indicators are contained in the SDBIP estimates annexure.

Operating Expenditure

The annual operating budget has been broken down into monthly projections by applying the trends of previous years' spending to each line item in the budget.

The projections in the estimates annexure are shown by Service Delivery Unit and by expenditure type.

The following should be considered in the Final SDBIP;

- ✳ There is a risk of building into the plan undesirable trends. For example, the graph above shows a high-level of spending anticipated in the final month of the financial year. This is a regular and common occurrence in municipal finance but not necessarily desirable.
- ✳ The estimates are based on percentage spending per month and do not consider any over or under spending on particular items.
- ✳ The projections for the draft SDBIP indicates expenditure will be spent and revenue will be received evenly throughout the twelve months.

The operating expenditure budget, excluding recharges, for 2024/25 is R3,501 billion.

Operating Income

Previous year trends have been used to provide the estimates for 2024/25 and the previous comments on the shortcomings in this methodology apply to revenue as well. The information is shown by department and by the national standard for showing revenue source. The estimates are based on budgeted income rather than cash collected.

The operating income budget for 2024/25 is R3,942 billion.

Capital Expenditure

As far as the cash flow forecasts of the Capital Expenditure for 2024/25 are concerned, the projections contained in this document are speculative. The cash flow forecasts will be revised and refined in the finalization of the final SDBIP for 2024/25.

The Capital budget for 2024/25 is R1,224 billion.

Service Delivery Targets and Performance Indicators

Several meetings were held with directorates and the performance indicators and targets developed. These targets have been included in the 2024/25 SDBIP.

The targets and indicators attempt to measure a range of activities in the municipality. It will be the responsibility of directorates to provide information on progress towards achieving these targets on a quarterly basis.

Definition of a Vote

The MFMA requires that operational and capital expenditure by vote is shown in the SDBIP. The MFMA defines a vote as one of the main sections of the budget.

A circular from National Treasury clarifies this further by providing details of the Government Finance Statistics classifications which aims to provide a consistent basis for defining a vote so that information can be gathered for comparative purposes.

The SDBIP shows the projections by George Service Delivery Unit as these are the most relevant for monitoring purposes and is in line with the municipality's new virement policy. However, the SDBIP estimates annexure also includes a table for each directorate showing where each Service Delivery Unit sits in relation to the GFS service classification.

Monitoring and the adjustments budget process

The section 71 and 72 budget monitoring reports required under the MFMA should provide a consolidated analysis of the Municipality's financial position including year-end projections.

As detailed earlier, the Executive Mayor must consider these reports under s54 of the MFMA and then decide as to whether the SDBIP should be amended.

The Adjustments Budget concept is governed by various provisions in the MFMA and is aimed at instilling and establishing an increased level of discipline, responsibility and accountability in the municipality's finances. In simple terms, funds can be transferred within a vote but any movements between votes can only be agreed by an adjustments budget.

Appendix 1 sets out the protocol for monitoring the budgets agreed as part of the 2024/25 SDBIP.

Appendix 1 – Protocol for revision of SDBIP

The Executive Mayor must decide on receipt of a section 71 or 72 budget monitoring report whether to amend the SDBIP in the light of the information received.

This protocol sets out the various steps that should be followed to allow the Executive Mayor's obligations under section 54 of the MFMA to be fulfilled.

Protocol

Financial Services (Budget Office) will provide the Municipal Manager with information as required under section 71 and 72 of the MFMA and this information will be submitted to the Executive Mayor by the 10th working day of each month.

The information will show a comparison of actual performance against the planned income and expenditure included in the SDBIP.

For capital projects, each variance of $\pm 10\%$ or R10, 000 whichever is the greater will be highlighted. The Executive Mayor will then ask the Director responsible for that project for a written report covering;

- ✦ The reason for the variance
- ✦ If necessary, what corrective measures have been put in place.
- ✦ Whether the start and finish dates of the capital project need amending.
- ✦ Whether the project specification will need to be amended.
- ✦ Revised monthly estimates of expenditure for the project.

The Director must supply this information within one week of the request from the Executive Mayor.

Following the receipt of these reports the Executive Mayor will make one of the following decisions;

- ✦ Note the report of the Director.
- ✦ Note the report of the Director and keep the project under review.
- ✦ Request the Director to attend a Performance Review meeting with the Executive Mayor, Municipal Manager and Director Financial Services to examine the reasons for the variation, the potential for bringing the project back on track and the likely impact on service delivery. Following this meeting, the Executive Mayor will then decide whether the SDBIP should be amended.

If it is decided to amend the capital programme and SDBIP, to maintain overall service delivery, Directors will be asked to put forward schemes currently scheduled for year 2 or 3 of the capital programme that can be implemented sooner. The financial implications of these suggestions will be assessed by the Director of Financial Services and a recommendation made to the Executive Mayor as to which ones would be possible to proceed with and an adjustments budget prepared.

For operating expenditure and revenue, the Executive Mayor will review the variances in the monthly budget monitoring report and, notwithstanding the requirements for an adjustments budget, request from Directors an explanation of all variances $\pm 10\%$ of the monthly budget forecast. Directors will be asked to explain whether the service delivery targets included in the SDBIP can still be achieved.

The Executive Mayor will then decide whether the SDBIP should be amended in the light of these explanations.

At the end of each quarter, Directors must supply the Municipal Manager with the actual performance against each of the performance indicator targets. This information must be submitted to the Executive Mayor by the 10th working day after each quarter along with the budget monitoring information for that quarter as provided by Financial Services (Budget Office).

If the actual performance on any indicator varies from the planned performance the Executive Mayor can ask the responsible Director for a written report asking for an explanation of the variance and, if the performance is worse than projected, what measures have been put in place to ensure that the projected level of performance can be met in the future.

The Executive Mayor will then review these reports and decide whether the SDBIP should be amended.

Requirements of Municipal Finance Management Act

Chapter 1 - Definitions

SDBIP means a detailed plan approved by the mayor of a municipality in terms of section 53 (1) (c) (ii) for implementing the municipality's delivery of municipal services and its annual budget, and which must indicate-

(a) projections for each month of-

Revenue to be collected, by source; and

Operational and capital expenditure by vote

(b) service delivery targets and performance indicators for each quarter and

(c) any other matters that may be prescribed.

and includes any revisions of such plan by the mayor in terms of section 54 (1) (c)

Chapter 8 – Responsibilities of Municipal Officials

Section 69 Budget Implementation

Section 69 (3) The Accounting Officer must no later than 14 days after the approval of the budget submit to the mayor

(a) A draft service delivery and budget implementation plan for the budget year; and

(b) Drafts of the annual performance agreements as required in terms of section 57 (1) (b) of the Municipal Systems Act for the municipal manager and all senior managers

Chapter 7 – Responsibilities of Mayors

Section 53 – Budget Processes and related matters

Section 53 (1) (c) The mayor of a municipality must take all reasonable steps to ensure-

(ii) That the municipality's service delivery and budget implementation plan is approved by the mayor within 28 days after the approval of the budget; and

(iii) That the annual performance agreements as required in terms of section 57 (1) (b) of the Municipal Systems Act for the Municipal Manager and all senior managers-

(bb) are linked to the measurable performance objectives approved with the budget and to the service delivery and budget implementation plan.

Section 53 (3)

(a) The mayor must ensure that the revenue and expenditure projections for each month and the service delivery targets and performance indicators for each quarter, as set out in the service delivery and budget implementation plan, are made public no later than 14 days after the approval of the service delivery and budget implementation plan.

Section 54 Budgetary control and early identification of financial problems

On receipt of a statement or report submitted by the accounting officer of the municipality in terms of section 71 or 72 the mayor must-

(1) (b) check whether the municipality's approved budget is implemented in accordance with the service delivery and budget implementation plan;

(c) consider and, if necessary, make any revisions to the service delivery and budget implementation plan, provided that all revisions to the service delivery targets and performance indicators in the plan may only be made with the approval of council following the approval of an adjustments budget

(d) issue any appropriate instructions to the accounting officer to ensure-

(i) that the budget is implemented in accordance with the service delivery and budget implementation plan

(3) The mayor must ensure that any revisions of the service delivery and budget implementation plan are made public promptly.
