

ANNUAL REPORT

2023/2024

DRAFT ANNUAL REPORT

CHAPTER 1: EXECUTIVE MAYOR’S FOREWORD AND EXECUTIVE SUMMARY	1
COMPONENT A: EXECUTIVE MAYOR’S FOREWORD.....	1
COMPONENT B: MUNICIPAL MANAGER’S OVERVIEW.....	5
COMPONENT C: EXECUTIVE SUMMARY AND MUNICIPAL OVERVIEW	7
1.1 INTRODUCTION.....	7
1.2 STRATEGIC OBJECTIVES	10
1.3 CORE PRINCIPLES IN EXECUTING THE STRATEGY	11
1.4 INSTITUTIONAL STRUCTURES AND PROCESSES ALIGNMENT.....	11
1.5 GOVERNANCE TOOLS.....	12
1.6 DEMOGRAPHICAL OVERVIEW OF THE GREATER GEORGE AT A GLANCE	13
1.7 STATE OF THE GREATER GEORGE	14
1.8 WARD DEMARCATION	15
1.9 SOCIO-ECONOMIC CONTEXT.....	16
1.10 BASIC SERVICE DELIVERY HIGHLIGHTS AND CHALLENGES	40
1.11 PROPORTION OF HOUSEHOLDS WITH MINIMUM ACCESS TO BASIC SERVICES.....	45
1.12 FINANCIAL VIABILITY HIGHLIGHTS	45
1.13 FINANCIAL VIABILITY CHALLENGES.....	46
1.14 FINANCIAL OVERVIEW.....	46
1.15 MUNICIPAL STANDARD CHART OF ACCOUNTS	48
1.16 ORGANISATIONAL DEVELOPMENT OVERVIEW.....	48
1.17 MFMA COMPETENCIES	48
1.18 AUDITOR GENERAL REPORT	49
1.19 STATUTORY ANNUAL REPORT PROCESS	50
CHAPTER 2: GOOD GOVERNANCE AND PUBLIC PARTICIPATION	51
2.1 INTRODUCTION.....	51
2.2 NATIONAL KEY PERFORMANCE INDICATORS - GOOD GOVERNANCE AND PUBLIC PARTICIPATION	51
2.3 PERFORMANCE HIGHLIGHTS - GOOD GOVERNANCE AND PUBLIC PARTICIPATION.....	51
2.4 CHALLENGES - GOOD GOVERNANCE AND PUBLIC PARTICIPATION.....	52
2.5 PUBLIC SATISFACTION WITH MUNICIPAL SERVICES.....	52
COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE.....	52
2.6 POLITICAL GOVERNANCE STRUCTURE.....	52
2.7 EXECUTIVE MAYORAL COMMITTEE.....	53
2.8 COUNCIL – 01 JULY 2022 TO 30 JUNE 2024.....	54
2.9 STRATEGIC GOVERNANCE STRUCTURE.....	73
COMPONENT B: PUBLIC ACCOUNTABILITY.....	73
2.10 INTERGOVERNMENTAL RELATIONS	74
COMPONENT C: CORPORATE GOVERNANCE.....	94
2.11 RISK MANAGEMENT.....	94
2.12 ANTICORRUPTION AND ANTIFRAUD RELATED STRATEGIES	100
2.13 FUNCTIONS OF THE AUDIT COMMITTEE	100
2.14 INTERNAL AUDITING	102
2.15 SUPPLY CHAIN MANAGEMENT	103
2.16 BY-LAWS AND POLICIES	114
2.17 MUNICIPAL WEBSITE.....	115
2.18 COMMUNICATION.....	116
CHAPTER 3: SERVICE DELIVERY PERFORMANCE	120
3.1 OVERVIEW OF PERFORMANCE WITHIN THE ORGANISATION.....	120
3.2 ORGANISATIONAL PERFORMANCE.....	120
3.3 INDIVIDUAL PERFORMANCE (S57 EMPLOYEES).....	121
3.4 STRATEGIC PERFORMANCE: TOP LAYER (TL) (SERVICE DELIVERY BUDGET IMPLEMENTATION PLAN (SDBIP)	122
3.5 OVERALL PERFORMANCE.....	123
3.6 ACTUAL PERFORMANCE AGAINST KPIS SET IN TERMS OF THE TL SDBIP 2023/24	124
3.7 SERVICE PROVIDER PERFORMANCE.....	141
COMPONENT A: BASIC SERVICES.....	162
3.8 MUNICIPAL FUNCTIONS	162
3.9 NATIONAL KEY PERFORMANCE INDICATORS – BASIC SERVICE DELIVERY.....	163
3.10 WATER PROVISION	163
3.11 WASTEWATER (SANITATION) PROVISION.....	172
3.12 WASTEWATER (SANITATION) PROVISION: HIGHLIGHTS	172
3.13 WASTEWATER (SANITATION) PROVISION: CHALLENGES.....	173

3.14	WASTEWATER (SANITATION) PROVISION: EMPLOYEES	174
3.15	CAPITAL EXPENDITURE 2022/23: WASTEWATER (SANITATION) SERVICES	174
3.16	ELECTRICITY	177
3.17	WASTE MANAGEMENT (REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND RECYCLING)	184
3.18	INTEGRATED HUMAN SETTLEMENTS	188
3.19	FREE BASIC SERVICES AND INDIGENT SUPPORT	193
3.20	FINANCIAL PERFORMANCE 2023/24: COST TO MUNICIPALITY OF FREE BASIC SERVICES (FBS) DELIVERED	195
	COMPONENT B: ROADS, TRANSPORT AND STORMWATER	196
3.21	ROADS.....	196
3.22	STORMWATER DRAINAGE	208
	COMPONENT C: PLANNING AND ECONOMIC DEVELOPMENT	211
3.23	PLANNING AND DEVELOPMENT	211
3.24	ECONOMIC DEVELOPMENT	221
	COMPONENT D: COMMUNITY AND SOCIAL SERVICES.....	230
3.25	LIBRARIES	230
3.26	COMMUNITY HALLS, FACILITIES AND THUSONG CENTRES	232
3.27	COMMUNITY DEVELOPMENT	236
3.28	CEMETERIES.....	240
	COMPONENT E: ENVIRONMENTAL PROTECTION	242
3.29	ENVIRONMENTAL PROTECTION	242
3.30	POLLUTION CONTROL	245
3.31	AIR QUALITY	246
	COMPONENT F: SECURITY AND SAFETY.....	247
3.32	TRAFFIC AND LICENSING	247
3.33	LAW ENFORCEMENT.....	250
3.34	FIRE SERVICES AND DISASTER MANAGEMENT.....	252
	COMPONENT G: SPORT AND RECREATION.....	255
3.35	SPORT AND RECREATION	255
	COMPONENT H: CORPORATE POLICY OFFICES AND OTHER SERVICES	258
3.36	OFFICE OF THE MUNICIPAL MANAGER	258
3.37	CORPORATE SERVICES (ADMINISTRATION -COMMITTEE SERVICES, RECORDS MANAGEMENT AND TELECOMMUNICATION).....	261
3.38	FINANCIAL SERVICES.....	264
3.39	HUMAN RESOURCES SERVICES	267
3.40	INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES.....	270
3.41	LEGAL SERVICES.....	272
3.42	MUNICIPAL COURT	273
	COMPONENT G: MISCELLANEOUS	274
3.43	EXTENDED PUBLIC WORKS PROGRAMME (EPWP).....	274
3.44	EXTENDED PUBLIC WORKS PROGRAMME (EPWP) WORK OPPORTUNITIES.....	275
	COMPONENT J: ORGANISATIONAL PERFORMANCE SCORECARD	276
3.45	PERFORMANCE MANAGEMENT	276
3.46	DEVELOPMENTAL AND SERVICE DELIVERY PRIORITIES 2024/25	279

CHAPTER 4: ORGANISATIONAL DEVELOPMENT PERFORMANCE.....288

4.1	INTRODUCTION TO THE MUNICIPAL WORKFORCE.....	288
4.2	B-BBEE COMPLIANCE PERFORMANCE INFORMATION	288
4.3	EMPLOYMENT EQUITY	289
4.4	OCCUPATIONAL CATEGORIES - RACE.....	290
4.5	OCCUPATION LEVEL: RACE	290
4.6	OCCUPATIONAL LEVEL: RACE WITHIN DEPARTMENTS.....	291
4.7	VACANCY RATE	291
4.8	TURNOVER RATE	292
4.9	MANAGING THE MUNICIPAL WORKFORCE	293
4.10	SICK LEAVE	293
4.11	HUMAN RESOURCES POLICIES AND PLANS	294
4.12	CAPACITY BUILDING OF THE MUNICIPAL WORKFORCE.....	294
4.13	SKILLS MATRIX	294
4.14	SKILLS DEVELOPMENT – TRAINING PROVIDED AND BUDGET ALLOCATION	295
4.15	MANAGING THE MUNICIPAL WORKFORCE EXPENDITURE.....	297
4.16	MUNICIPAL FINANCE MANAGEMENT ACT (MFMA) COMPETENCIES	297
4.17	EMPLOYEE WELLNESS.....	298
4.18	INTERNSHIP AND IN-SERVICE TRAINING	299
4.19	EMPLOYEE EXPENDITURE.....	300

CHAPTER 5: FINANCIAL PERFORMANCE302

COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE302

5.1 FINANCIAL SUMMARY302

5.2 REVENUE COLLECTION BY VOTE304

5.3 FINANCIAL PERFORMANCE PER MUNICIPAL FUNCTION305

5.4 GRANTS308

5.5 ASSET MANAGEMENT313

5.6 REPAIRS AND MAINTENANCE313

5.7 FINANCIAL RATIOS BASED ON KEY PERFORMANCE INDICATORS313

5.8 IDP REGULATION FINANCIAL VIABILITY INDICATORS313

5.9 BORROWING MANAGEMENT314

5.10 EMPLOYEE COSTS314

COMPONENT B: SPENDING AGAINST CAPITAL BUDGET314

5.11 CAPITAL EXPENDITURE314

5.12 CASH FLOW317

5.13 GROSS OUTSTANDING DEBTORS PER SERVICE318

5.14 DEBTORS AGE ANALYSIS318

5.15 BORROWING AND INVESTMENTS318

5.16 ACTUAL BORROWINGS319

5.17 MUNICIPAL COST CONTAINMENT319

5.18 MUNICIPAL INVESTMENTS320

CHAPTER 6: AUDITOR GENERAL AUDIT FINDINGS321

6.1 INTRODUCTION321

COMPONENT A: AUDITOR-GENERAL OPINION 2022/23321

6.2 AUDITOR GENERAL REPORT 2022/23321

COMPONENT B: AUDITOR-GENERAL OPINION 2023/24329

6.3 AUDITOR GENERAL REPORT 2023/24329

ANNEXURE A: ANNUAL FINANCIAL STATEMENTS 2022/23341

ANNEXURE B: ANNUAL PERFORMANCE REPORT 2022/23342

ANNEXURE C: AUDIT AND PERFORMANCE AUDIT COMMITTEE ANNUAL REPORT 2022/23343

ANNEXURE D: REPORT OF THE AUDITOR-GENERAL OF SOUTH AFRICA 2022/23344

DRAFT

CHAPTER 1: EXECUTIVE MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

COMPONENT A: EXECUTIVE MAYOR'S FOREWORD

The recent census data from Statistics South Africa delineates the remarkable growth trajectory of the city of George. Between 2011 and 2022, the population of George surged from 193 672 to 294 929, representing a significant expansion over the eleven-year period.

This growth is also reflected in the number of households, which increased from 53 549 to 85 931. As a result, George has solidified its position as the largest municipality in the Western Cape, second only to Cape Town, and the province's largest intermediary city.

While a more detailed analysis of the census data is forthcoming, these preliminary figures underscore the need to anticipate and plan for further development and infrastructure demands. The rapid expansion of George necessitates proactive, forward-thinking, and strategic urban planning to support the city's growing community.

The growth is reflected in the following indicators which show the increase in economic activity:

Indicators	2020/21	2021/22	2022/23	2023/24
Outeniqua Sensitive Coastal Areas Regulations applications	34	53	62	42
Rezoning applications	25	33	40	35
Subdivision applications	27	26	35	27
Applications received	1 650	1 999	2 106	1853
Applications approved	1 434	1 565	1 712	1864
Value of plans approved	R1, 443, 348, 738	R1,953,317,592.	R246,393,295.	R 2,111,168,189.
Total applications processed (new and amended) (Total/Value)	1440 – R1,642,713,604.	2244 – R2,351,174,929.	3967 – R6,392,969,500.	4093 – R5,586,737,196.
Cubic metres of water used by Industry	439 786	552 075	672 145	672 145

In order to continue on our trajectory to be the city of choice for investment and prosperity, we remain committed to our five strategic objectives, namely:

- Develop and Grow George;
- Safe, Clean, Green, and Responsive;
- Affordable Quality Service;
- Participative Partnerships; and
- Good Governance and Human Capital.

All our strategic documents have been aligned with Provincial and National Government policies and directives, including the following:

- Sustainable Development Goals
- National Development Plan
- The Twelve Government Outcomes
- National Spatial Development Perspective
- Western Cape Government's Vision-Inspired Priorities; namely:
 - Safe and Cohesive Communities;
 - Growth and Jobs;
 - Empowering People;
 - Mobility and Spatial Transformation; and
 - Innovation and Culture.
- Other frameworks include:
 - Integrated Urban Development Framework;
 - Medium-Term Strategic Framework;
 - Western Cape Provincial Spatial Development Framework; and
 - Garden Route District IDP.

Our vision to position George as a forward-thinking, nationally competitive, and globally connected business hub is ambitious. By focusing on SMART technology, resource efficiency, and strategic land use, George is laying a groundwork for a sustainable future. Prioritizing increased densities within the city not only strengthens urban efficiency but also enhances accessibility to opportunities for residents. The GoGeorge transport system exemplifies this commitment to connectivity, playing a vital role in bringing people closer to economic and social opportunities.

Building safe communities, achieving service delivery excellence, and ensuring that basic services are accessible in informal settlements and backyard dwellings reflect George's commitment to inclusivity and social cohesion. This holistic approach, with a strong emphasis on integrated development, not only addresses current needs but also paves the way for a future where economic inclusion and shared prosperity are within reach for all residents. This foundation will enable future generations to enjoy a city that is resilient, inclusive, and rich with opportunities.

I wish to share some noteworthy achievements over the past year:

- In 2022, George Municipality achieved an impressive third place ranking in Ratings Afrika's Municipal Financial Sustainability Index (MFSI), a notable accomplishment given the Index's comprehensive assessment across South Africa's largest municipalities. Out of 257 municipalities, the MFSI evaluated 112 municipalities and eight metros, scoring each on a scale of one to 100 across six key financial components: operating performance,

liquidity management, debt governance, budget practices, affordability, and infrastructure development. This high-ranking highlights George Municipality’s solid financial practices, reflecting its effective management and commitment to long-term financial health, which bolsters its capacity to provide sustainable services and infrastructure to its growing population.

- In the May 2023 Budget Speech, the significant growth in George Municipality's Capital Budget, now nearing R2.5 billion over the next three years, was highlighted. This record investment, doubling the Expenditure Budget from 2020 to 2024 at an annual growth rate of 19%, contrasts sharply with the prior five years' slower growth rate of 8%. Managing this growth requires a careful balance of revenue streams, internally generated funds, grants, and cost-reflective tariffs, supplemented by strategic loans to support infrastructure expansion. Revenue enhancement projects, such as leveraging GIS, implementing smart meters, ensuring accurate water readings, addressing leaks, and correct billing, are pivotal to sustaining this accelerated development.
- The low economic forecast and growth, the increase in unemployment and the above inflation increases in the general costs of living have impacted on the affordability of municipal accounts. The debtor’s collection rate of 93.67% is a 2% increase from the 91.87% reported in the previous financial year. This improvement has brought our performance closer to the norm of 95%.
- George Municipality aligned its Indigent Policy with National Treasury guidelines and Auditor-General recommendations, specifically updating the definition of "household income." These adjustments are phased in as indigent statuses and household incomes are reassessed. The policy offers significant relief to registered indigent households, including full subsidies on water and electricity basic charges, as well as additional free services such as refuse removal and sewerage disposal, helping to ease the cost burden for vulnerable households. The municipality provides the following relief:
 - Water: 100% subsidy on the basic charge and 6kl free per month (per household);
 - Electricity: 100% subsidy on the basic charge (20Amp and higher) and up to 70kWh free per month (per household). This is 20kwh in excess of 50kwh which is the permitted norm. Indigent households that use less than 400kwh (inclusive of the 70kwh) of electricity per month are charged at a lower electricity tariff;
 - Eskom supply area: Free 50kWh units per month;
 - Refuse removal: 100% subsidy per month;
 - Sewerage disposal: 100% subsidy per month; and
 - Council also assists with the writing off of arrears and with the repairs of water leakages and faulty electricity pre-paid meters for those who are indigent

The details of the increase in indigent benefits are as follows:

Benefit	Approved Indigents Benefit:	
	2022/23	2023/24
	Rand	Rand
Water basic charge	127.65 (111.00 + 15%)	159.98 (139.11 + 15%)
Water: 6kl	134.14 (6 x 19.44 x 1.15)	135.45 (6 x 19.63 x 1.15)
Property tax	102.74 (150 000 x 0.008219)	112.05 (230 000 x 0.0058455)
Sewerage	312.66 (271.88 x 1.15)	340.80 (296.35 x 1.15)
Refuse	318.55 (277.00 x 1.15)	340.40 (296.00 x 1.15)
Electricity: 70 FBE	126.90 (70 x 181.28/100)	145.61 (70 x 208.02/100)

The Municipality has made substantial progress in modernizing its aging water distribution infrastructure. Through extensive repairs and upgrades, raw water pipelines received investments, targeting previous issues to ensure improved reliability and service delivery. These improvements are further supported by new installations of meters, valves, and telemetry systems, reinforcing the overall effectiveness of the water distribution network.

SMART water meters are being installed across George Municipality, providing accurate digital readings and allowing the early detection of leaks, improved efficiency, and enhanced water billing accuracy. This initiative marks a significant step in modernizing the municipality's infrastructure and resource management.

In the 2021/22 Annual Report, the challenges posed by Eskom's struggles to local government were highlighted. Addressing load-shedding remains a priority, with a series of projects planned over the next three years to establish sustainable, alternative power sources and reduce dependence on Eskom. Among these initiatives is the wheeling project, launched in May 2021, which enables the transfer of power across networks, allowing businesses to generate or source electricity independently. The project includes an automated billing system, enhancing the wheeling process for broader future applications and paving the way for a more resilient local energy landscape.

George Municipality is committed to enhancing its infrastructure to support future economic growth and improve service delivery. In the three-year Medium-Term Revenue and Expenditure Framework (MTREF) beginning with the 2022/23 financial year, the Municipality has allocated R2.479 billion for capital infrastructure investment. This amount represents an increase of R1.434 billion, or 137.26%, compared to the previous MTREF budget period, underscoring a significant investment in the region's development.

In our commitment to long-term sustainability, operational excellence for the City of George is essential. This report highlights our progress toward achieving this vital goal. I extend my heartfelt gratitude to all officials for their dedication and tireless efforts in making George a beacon of hope for our community. Your hard work sets us apart from others. I am confident that the skills and commitment of our outstanding Administration, who will continue to drive us forward, ensuring that future citizens enjoy even greater happiness, health, and prosperity than we do today.

As we commenced drafting this Annual Report, Statistics South Africa (STATSSA) released the results of the October 2022 national census. These results proved that which we have all long suspected – that the city of George is flourishing, and we need to prepare for a growth trajectory hitherto unseen.

Alderman Jacquique von Brandis
Executive Mayor

COMPONENT B: MUNICIPAL MANAGER'S OVERVIEW

George continues to be the largest economic hub in the Garden Route District, contributing 40% of the district's GDP and serving as the primary regional node for service provision. Over the past five years, the City has encountered significant challenges, including drought, load-shedding, devastating floods, and the global COVID-19 pandemic. These trials have tested the resilience of our residents, officials, management team, and stakeholders. Nevertheless, the City has demonstrated remarkable strength, maintaining continuity in basic service delivery and expanding its reach. This collective resilience positions us well for a promising future.

Throughout the financial year, we successfully maintained a positive payment culture through effective credit control measures. This achievement is reflected in the Municipality's ability to fund its operations and meet its debt obligations. We remain committed to providing affordable, high-quality services efficiently and effectively to all residents.

The Municipality has completed another year of enhanced service delivery without compromising liquidity. We have sustainably contributed to our reserves, allowing for future capital expansion and refurbishment. We improved our financial sustainability, reporting a cash and cash equivalent balance of R843.8 million. Our current ratio stood at 1.5:1 (current assets to current liabilities), aligning well with the acceptable range of 1.5 to 2:1.

The traceability of all debtors remains a significant challenge in our debt collection process. Factors such as a low economic forecast, rising unemployment, and above-inflation increases in the general cost of living have negatively impacted residents' ability to afford municipal accounts. The payment ratio was closely monitored monthly and various credit control actions were strictly implemented, including the collection of arrear debts through prepaid meters. This yielded positive results as there is an increase of 2% year on year in the collection ratio.

This notable increase in planned capital expenditure underscores the Municipality's strategic focus on prioritizing infrastructure maintenance, replacement, and improvement to enable effective service delivery.

Our Capital Cost (interest paid and redemption) accounted for 4.12% of total operating expenditure, slightly up from 3.6% in the prior year, and remains below the norm of 6% to 8%. This indicates our capacity to take on additional financing through borrowing for infrastructure projects. Furthermore, our debt-to-revenue ratio stand at 14% on June 30, 2024, increased from 13.83% the previous year and well below the National Treasury norm of 45%. This suggests that there is further room for financing capital expenditure through external loan funds in the coming financial years. Additional details regarding our financial viability are provided within this report.

George has firmly established itself as a preferred investment destination for both international and local investors. Our commitment to strong governance provides a welcoming environment for investors, ensuring a seamless and premium investment experience. By focusing on automation, accessibility, and innovation, we streamline municipal processes and continually seek ways to improve our operations.

Enterprise-wide risk management remains a top priority for George Municipality and is consistently included as a standing item on management meeting agendas. This approach fosters the early identification and mitigation of risks. Over the past year, we have updated the risk register to include several key considerations.

Through these measures, we strive to enhance our risk management practices, ensuring a resilient environment that supports ongoing investment and growth in George.

Amongst the top strategic risks identified were:

- The construction and operations of the new District landfill site;
- Attracting investment and providing an enabling environment for growth in George;
- Electricity, energy and load-shedding resilience and mitigation;
- Climate change resilience and mitigation;
- Water security and water management; and
- Invasion and illegal occupation of land

Further details of the strategic risks are captured in the Annual Report.

The Auditor-General of South Africa (AGSA) conducted the mandated external audit in compliance with the Public Audit Act requirements and has issued an unqualified opinion on the 2023/24 annual financial statements. Notably, there were no material findings related to compliance matters or the annual performance report. This marks the third consecutive year since the 2020/2021 financial year that we have achieved this commendable result, often referred to as a "clean audit." This accomplishment reflects the diligent efforts of our administration to continuously enhance service delivery while maintaining the highest standards in our administrative processes.

Our clean audit not only reflects our commitment to transparency and accountability but also enhances our eligibility for additional grant opportunities. We are actively applying for these grants, which will significantly benefit the broader George community, particularly in areas that require upliftment. The Auditor-General has recognized the substantial progress our municipality has made over the past financial years, specifically commending the implementation of consequence management. This initiative ensures that officials are held accountable and perform their duties diligently and efficiently.

We remain steadfast in our commitment to clean governance and will continue striving to improve and modernize our systems and processes throughout the municipality.

I would like to extend my heartfelt gratitude to everyone who contributed to making the 2023/234 financial year a success. While we acknowledge that there is still much work to be done, we are encouraged by the progress we have made. Our focus and innovative spirit drives us to find new ways to deliver basic services and enhance the quality of life for all our valued citizens. Together, we will continue to build a brighter future for the community of George.

Mr Godfrey Louw
Acting Municipal Manager

COMPONENT C: EXECUTIVE SUMMARY AND MUNICIPAL OVERVIEW

1.1 Introduction

This 2023/24 Annual Report addresses the performance of the George Municipality, in the Western Cape, South Africa, in respect of its core legislative obligations. Local government must create a participatory framework that defines and enhances the relationship between elected leaders and their communities. This requires that the municipal councils provide regular and predictable reporting on programme performance and the general state of affairs in their locality.

The report reflects on the performance of the George Municipality for the period of 1 July 2023 to 30 June 2024. The layout of the annual report is prepared in terms of Section 121(1) of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA), in terms of which the Municipality must prepare for each financial year.

The Annual Report comprises six chapters with the following broad overview:

- Chapter 1:** An overview of the Municipality's overarching strategy, accountability processes, social and demographic profile, and key highlights and challenges regarding finance, institutional transformation, and key basic service delivery.
- Chapter 2:** Details about the governmental workings of the Municipality and addressing the key aspects of good governance.
- Chapter 3:** Highlights the Municipality's performance for the year, with a focus on service delivery and the Municipality's predetermined objectives.
- Chapter 4:** Provides insight into the Municipality's human resources and organisational management areas, focussing on organisational structure and legislation.
- Chapter 5:** An overview of the Municipality's financial performance, reflecting on the Municipality's financial position, assets, cash flow, and intergovernmental grants received by the Municipality.
- Chapter 6:** An overview of the audit key findings as per the Auditor-General of South Africa.

Appendices

The purpose is to establish a transformed and well-governed municipal environment that remains robust and will continue to stimulate the growth and well-being of the constituents of the George municipal areas.

The report aims to reflect the City's commitment to a measured and integrated approach to strategy and operational or business practices; as well reporting on its economic, social, and environmental impacts. By using an integrated reporting format, and applying globally recognised governance and sustainability reporting frameworks, it aims to offer stakeholders a clear view of how the City's strategy, governance, performance, and prospects – i.e., in the context of its external environment – lead to the creation of value over the short-, medium- and long-term.

The City aims to establish and maintain constructive and informed relationships with its various stakeholders.

The integrity of the integrated annual report is overseen by the Municipal Public Accounts Committee (MPAC), as well as the Audit Committee who considered this report as part of Council's oversight process between January and March 2025. The Auditor General South Africa audited the municipal reported financial and non-financial performance. The report has also been made available to all stakeholders.

The report is limited to performance reporting as it relates to the Municipality during the 2023/24 financial year. This Draft Annual Report was tabled to Council in January 2025 for the period 1 July 2023 to 30 June 2024. The Council of the Municipality of George acknowledges its responsibility to ensure the integrity of the 2023/24 Annual Report and confirms having collectively reviewed the content of the Report and agrees that it addresses issues that are material and provides a fair representation of the integrated annual performance of the Municipality.

VISION AND MISSION STATEMENT

THE GEORGE MUNICIPALITY HAS COMMITTED ITSELF TO THE FOLLOWING VISION AND MISSION:

Vision

“A City for a Sustainable Future”

Mission

To deliver affordable quality services; develop and grow George; keep George clean, safe and green; ensure good governance and human capital in George and to participate in George

IN ALL OUR WORK AND ENGAGEMENTS WITH THE COMMUNITY AND OTHER STAKEHOLDERS, WE SUBSCRIBE TO THE FOLLOWING

Equal Opportunity

As servants of the public, we undertake to perform the functions and operations of the Municipality in an honest and ethical manner.

Compassion

As responsible public servants, we pledge to perform our duties in a manner that is open to oversight and public scrutiny. This commitment is shaped by our understanding to give an account of our actions to individuals, groups and organisations.

Sustainability

We, as custodians of hope, will work tirelessly at transforming our Municipality, communities and broader society by unlocking the endless possibilities that our valley holds and treasures. This commitment is shaped by our understanding of the historical, spatial, social and economic inequalities in our valley.

Good Governance and Integrity

We will continuously review our systems, procedures and processes to make them less bureaucratic and more responsive to customer needs. We will acknowledge and reward initiatives that show creativity and ingenuity. The Municipality is a responsive municipal entity with zero tolerance for corruption and illegal actions.

Innovation and Entrepreneurial Solutions

As a Municipality, we will strive to deliver excellent services for all areas within the greater George.

Values

1.2 Strategic Objectives

The strategic objectives within a Municipality are the building blocks of the Council’s strategy. The strategic objectives as depicted in the diagram below illustrate the expansion of the vision statement and create structure around how the Municipality will achieve its strategic goals. The SDBIP is developed in a more detailed way to indicate the deliverables against the activities that should be met in a certain timeframe.

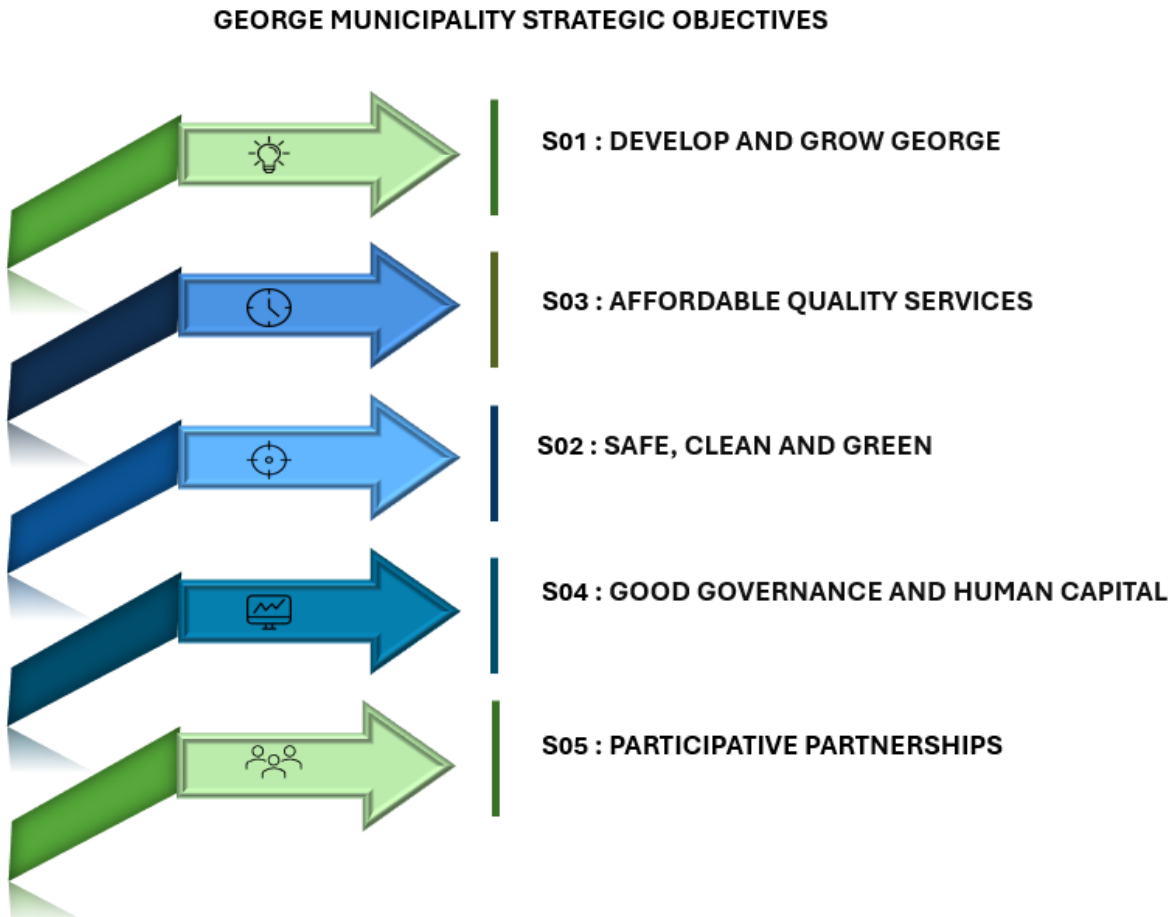

Figure 1: Strategic Objectives

1.3 Core Principles in Executing the Strategy

This section refers to the linkage between political leadership, the administration and the community. The diagram below illustrates the three components a Municipality should encompass:

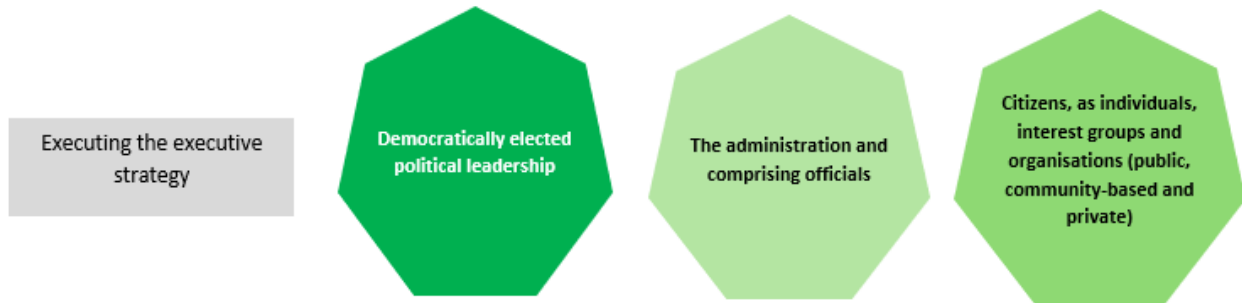

Figure 2: Core Principles in Executing Strategy

For municipal management to be sustainable, close collaboration between political leadership and the administration is essential. Democratically elected political leadership is ultimately accountable for determining the course of policy. The administration implements policy and offers counsel.

The only way to achieve sustainable urban management, according to international best practices, is through meaningful community partnerships in which residents assume complete responsibility for the improvement of their neighbourhoods. George Municipality is dedicated to ensuring that its most impoverished communities experience genuine social and economic progress by means of meaningful community participation and ownership. The fact that communities are legally a part of the Municipality is not widely recognised. Nevertheless, due to this circumstance, local communities are unable to assume the roles of mere critics or passive observers. Participation of local communities in the planning and execution of initiatives and projects within their respective localities is essential.

Ward-based planning is an element of community participation that aims to achieve the following result: a ward-specific plan for each of the twenty-eight wards. With evident ties to IDPs, ward-based plans are a form of participatory planning intended to encourage community action. These strategies galvanise citizens and communities to assume accountability for their own futures and articulate the outcomes that communities perceive as desirable. Additionally, these strategies aid in expediting the execution of the IDP. This ensures that community members, ward councillors, ward committees, the business community, non-governmental organisations (NGOs), and community-based organisations (CBOs), as well as all other stakeholders in the greater George, assume collective responsibility for the IDP's priority areas.

Participatory processes afford forward-thinking local leaders the chance to execute a unified agenda and demonstrate concrete and quantifiable outcomes by collectively attending to the priorities of the ward.

1.4 Institutional Structures and Processes Alignment

The Municipality prioritises judicious arrangements that ensure congruence between its organisational strategies and external environments. This provides the most effective assistance in carrying out the organization's long-term objectives and purposes, which necessitates that all external and internal stakeholder engagements are in agreement with and dedicated to realising the organization's vision.

By placing a strong emphasis on action in relation to deliverables, the administration ensures that decision-making is effective and efficient and that services are provided to all citizens.

To mitigate the risk of unanticipated problems and facilitate rapid decision-making, planning techniques bridge the distance between local experiential knowledge, the technical requirements of strategy development, and the need for

strategic frameworks that can accommodate such decisions. By means of comprehensive, structured information exchange and strategic planning seminars, this process seeks to establish a foundational stance regarding the direction of the town's development and administration. In support of the strategy, provisions are established to influence present-day decisions and shape future endeavours, and the initial plan is formulated. The strategy serves as the foundational strategic framework upon which technical work is subsequently constructed.

1.5 Governance Tools

Policy: entails establishing the stance of the government and providing guidance for action on matters where there are distinct alternatives (e.g., whether to concentrate on public or private transport, whether to expand or confine a settlement).

Planning: Defining the form, location, and timing of resource concentrations in a functional or spatial manner constitutes planning.

Legislation: (potentially) directing, constraining, and rewarding the conduct of various social actors (in the interest of all citizens).

Regulation: In the best interests of all citizens, regulation is the process of directing, constraining, and potentially rewarding (potentially) the behaviour of various actors in society.

Fiscal measures consist of taxes, service fees, and charges that are implemented to direct action in support of policy and legislation (as fiscal "incentives").

Financial measures: comprise investments in infrastructure, facilities, and programmes that support spatial, sectoral, or functional area policies and plans, as well as the priorities and areas of government expenditure.

Institutional measures: include decision-making structures, the distribution of responsibilities and powers, agreements and relationships between the government and other actors, the capacity and competency of human resources, and measurement mechanisms within and between the government and other actors.

Asset management: The strategy implemented for the administration of government assets, including land and public facilities.

Knowledge and information management: the government's investment in and distribution of information regarding current or anticipated conditions that necessitate management.

Advocacy: The "positive" and "negative" stances adopted by the government on various issues constitute advocacy. This may be accomplished via the media, public engagements and meetings, and other such events.

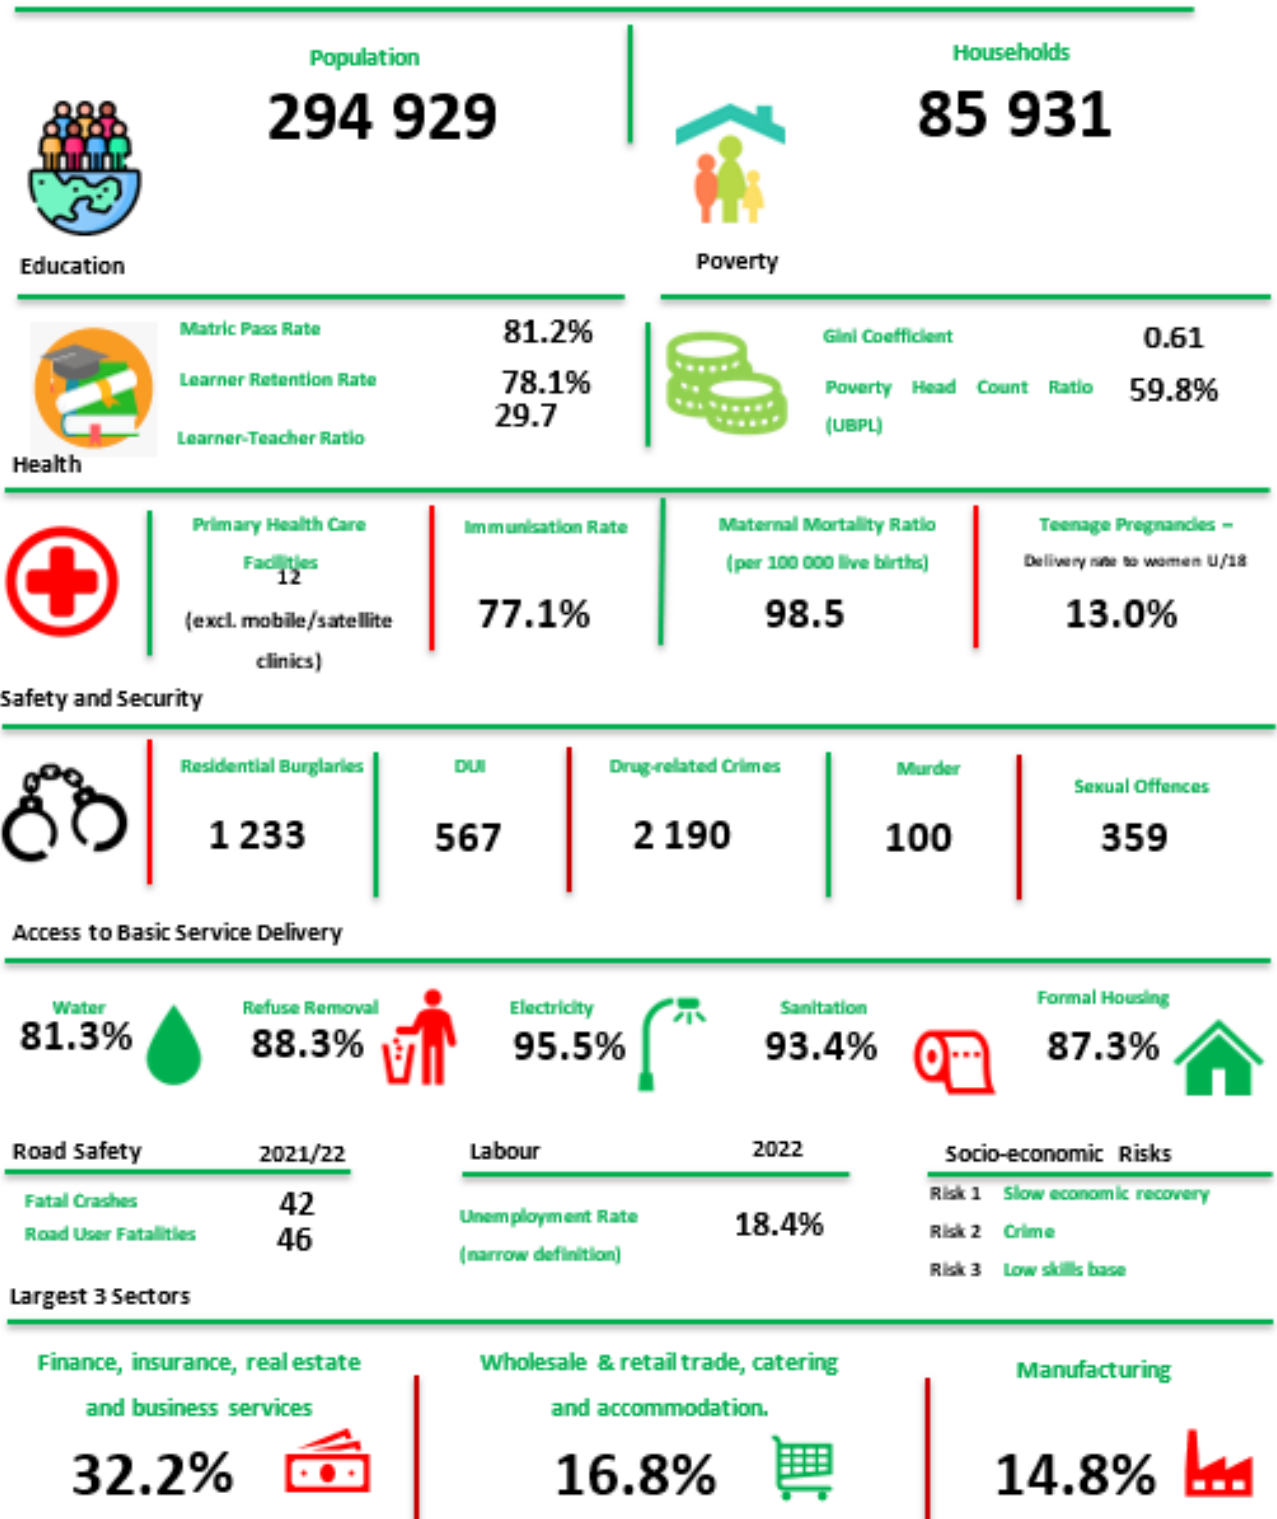

To ensure alignment between Council's strategic processes is adhered to, the municipal accountability cycle needs to be implemented:

Figure 3: Accountability Process Flow

1.6 Demographical Overview of the Greater George at a Glance

Table 1: Socio-economic Summary

Demographics

Source: Western Cape, Social-Economic Profile 2023

1.7 State of the Greater George

The municipal area is 5191 km² and spans the Southern Cape and Little Karoo regions of the Western Cape Province and is situated halfway between Cape Town and Port Elizabeth. The area administered by the George Municipality forms part of the larger Garden Route District Municipality's jurisdictional area. The George Municipal Area is bordered by the Oudtshoorn- and Mossel Bay Municipal areas (Western Cape province; Garden Route District) in the west and north-west and by the Dr Beyers Naude- and Kou-Kamma Municipal areas to the north, north-east and east (Eastern Cape province: Sarah Baartman District) and by the Knysna- and Bitou Municipalities (Western Cape province; Garden Route District) to the south and southeast. George Municipality administers a vast and diverse geographic area that extends from the dry and climatically extreme Little Karoo in the north to the wetter more temperate Garden Route in the south. It is an area of considerable natural assets and beauty, including expansive mountains and forests, wilderness areas, a varied coastline, and extensive lakes, rivers and estuaries. Its natural assets include parts of the Garden Route National Park and the Baviaanskloof Wilderness Area. The municipal area also includes fertile farmlands and timber plantations along the coastal plain, fruit orchards in the Langkloof and arid grazing areas in the Little Karoo.

Three important national roads/ routes, the N2, N9 (R62) and N12, traverse the area, and George Regional Airport serves the Southern Cape and Little Karoo, including the neighbouring towns of Mossel Bay, Oudtshoorn, Knysna and Plettenberg Bay. The George City area is the primary urban centre of the Municipality. 84% of the municipal area's population is located here. Wilderness, Uniondale and Haarlem respectively host the bulk of the remaining urban population. 9% of the municipal area's population is rural. The rural population is declining evidenced by a negative population growth rate per annum of -4% between 2011 and 2016 (StatsSA, 2016).

George is identified, as the primary service centre of the entire Garden Route region, offering most of the higher order services and facilities one would expect to receive in a metropolitan city, including modern airport infrastructure. It houses the primary administrative and regional offices of companies (and government departments) offering services in the region but is also the heart of the vast tourism offering and a thriving agricultural sector specialising in export quality berries and other agricultural produce used in beer making and other Agri-processing activities. The Regional Scholarship and Innovation Fund (RSIF) also notes the importance of the continuity of critical biodiversity areas. The Garden Route District IDP (2021 Review) supports investment in George based on its role as a regional node but also places emphasis on the protection of the Garden Route (Southern Cape Coastal belt) as a global biodiversity hotspot (Conservation International) and part of the Cape Floristic Region (CFR) (World Heritage status: UNESCO and IUCN).

George has a significantly higher population (double) than the largest town in the Garden Route, Mossel Bay (DSD2021). In 2019, George Municipality contributed over 40% (R18.6 billion) of the GDP to the economy of the Garden Route. The economy of George is more than twice as big as the next biggest Garden Route municipal economy of Mossel Bay, and almost four times as big as the third biggest Garden Route economy: Knysna. It is worth noting that between 2015 and 2019, whilst the annual average economic growth rate of both the Garden Route and Western Cape averaged 1% during this period, George Municipality grew at an average annual growth rate of 1.5% per annum – indicative of a more vibrant and resilient economy (Western Cape Provincial Treasury – Municipal Economic Review (MERO) 2021).

Other main towns include Uniondale and Wilderness with service hinterlands geographically separated from George and surrounds. Small rural or tourism settlements include Haarlem, Herold's Bay, Victoria Bay, Touwsrante, Hoekwil and Kleinkrantz as well as various hamlets and rural places such as Avontuur, De Vlugt, Herold and Noll. Main Routes include the N9 to Graaf Reinette, the N12 linking to Oudtshoorn, Beaufort West and linking to the N1, together with the R62 in the Langkloof connecting the rural hinterland to the east (Gqeberha) and the N2. This is the 'coastal corridor' linking Cape Town to Gqeberha.

Below is a map of the municipalities of Garden Route District:

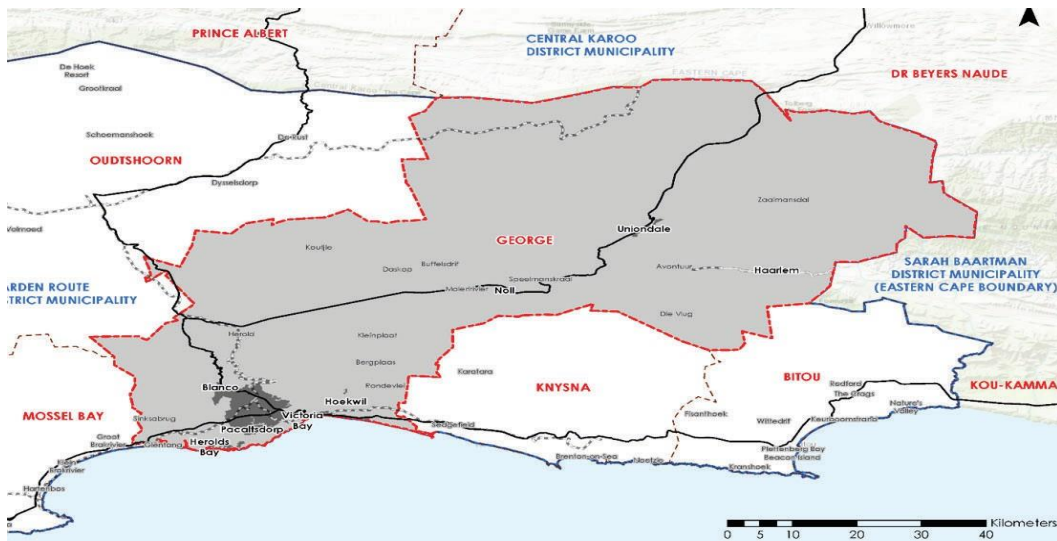

Figure 4: Locality Map of Greater George in Relation to Garden Route District Boundaries

Below is a map of the Garden Route District in relation to the provincial district boundaries. The Western Cape Province makes up 10.6% of the country’s land surface and encompasses an area of 129 462 km². The province spatial area includes 1 metropolitan area (City of Cape Town), 5 district municipal areas (Central Karoo, Garden Route, Overberg, Cape Winelands and West Coast) and 24 local municipalities.

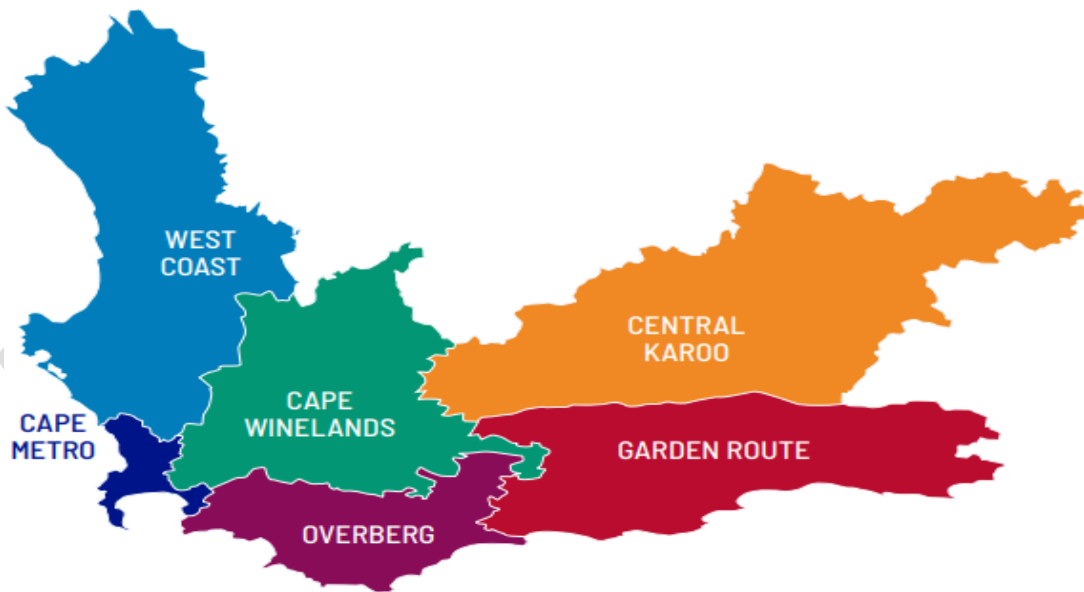

Figure 5: Locality of Garden Route District in Relation to Provincial Boundaries

1.8 Ward Demarcation

The George Municipality is currently structured into the following 28 wards:

Table 2: Municipal Ward Demarcation

1.9 Socio-Economic Context

All socio-economic information is sourced from the Local Government Socio-Economic Profile 2023.

1.9.1 Population and Household Growth

With a population of 294 929 inhabitants in 2022, the George Municipality was the most densely populated Municipality in the region. The significant demographic presence of this area can be ascribed to its critical function as the administrative and commercial centre of the Garden Route District (GRD). It is worth mentioning that George represents the second most rapidly growing municipal jurisdiction in the district. Predictions indicate that the population will increase by an average of 1.3% per annum between 2023 and 2027, with immigration to this region serving as the primary driver.

The George municipal area, comprising 85,931 registered households as of 2022, demonstrates an average household size of 3.4 persons. With respect to household size, this number places George in the third position among the municipal areas comprising the district. However, it is expected that this metric will decline by 2024, possibly because of an influx of solitary individuals of working age who are relocating to the metropolitan area and smaller families. As a result, it is anticipated that the expansion of households will exceed the growth of the population. Additionally, it is important to highlight that the count of households reported in the 2022 Census surpasses the figure used in the computation of the Local Government Equitable Share by 18.4%. This indicates a greater increase in the number of households from 2011 to 2022 compared to what was anticipated. The consequences of this divergence extend to the delivery of municipal services and the necessary infrastructure.

Source: Western Cape, Social – Economic Profile 2023

Figure 6: Estimated Population Growth and Household Growth

1.9.2 Gender, Age and Race Dynamics

A more in-depth analysis of the demographic composition within the municipal area reveals that 68.9% of its residents fall within the economically active age group of 15 to 64 years. The presence of a substantial working-age population is of particular significance within a burgeoning economic hub. While the overall population distribution leans slightly in favour of females, there is a notable surplus of males within the 25 to 34 age bracket, indicative of an influx of working-age males migrating to the municipal area, ostensibly in pursuit of employment opportunities. Moreover, a segment comprising 22.9% of the population is aged below 14 years, thereby engendering a comparatively high dependency on the working-age cohort. This sizable youth contingent underscores a mounting demand for educational resources and future employment prospects within the George municipal area. Additionally, a sizable elderly population, constituting 8.2% of the total, signifies that the municipal area is an attractive destination for retirement, a pattern observed across the scenic expanse of the Garden Route. The insights derived from the age distribution patterns are instrumental for municipal planning, particularly concerning the availability of housing and government services tailored to meet the diverse needs of distinct age groups.

Furthermore, the prominent racial demographic category in the municipal area is the coloured population, representing 44.4% of the total population, followed by the black African population at 35% and the white population at 18.4%. The Indian or Asian demographic group is the minority, accounting for merely 0.4% of the municipal populace.

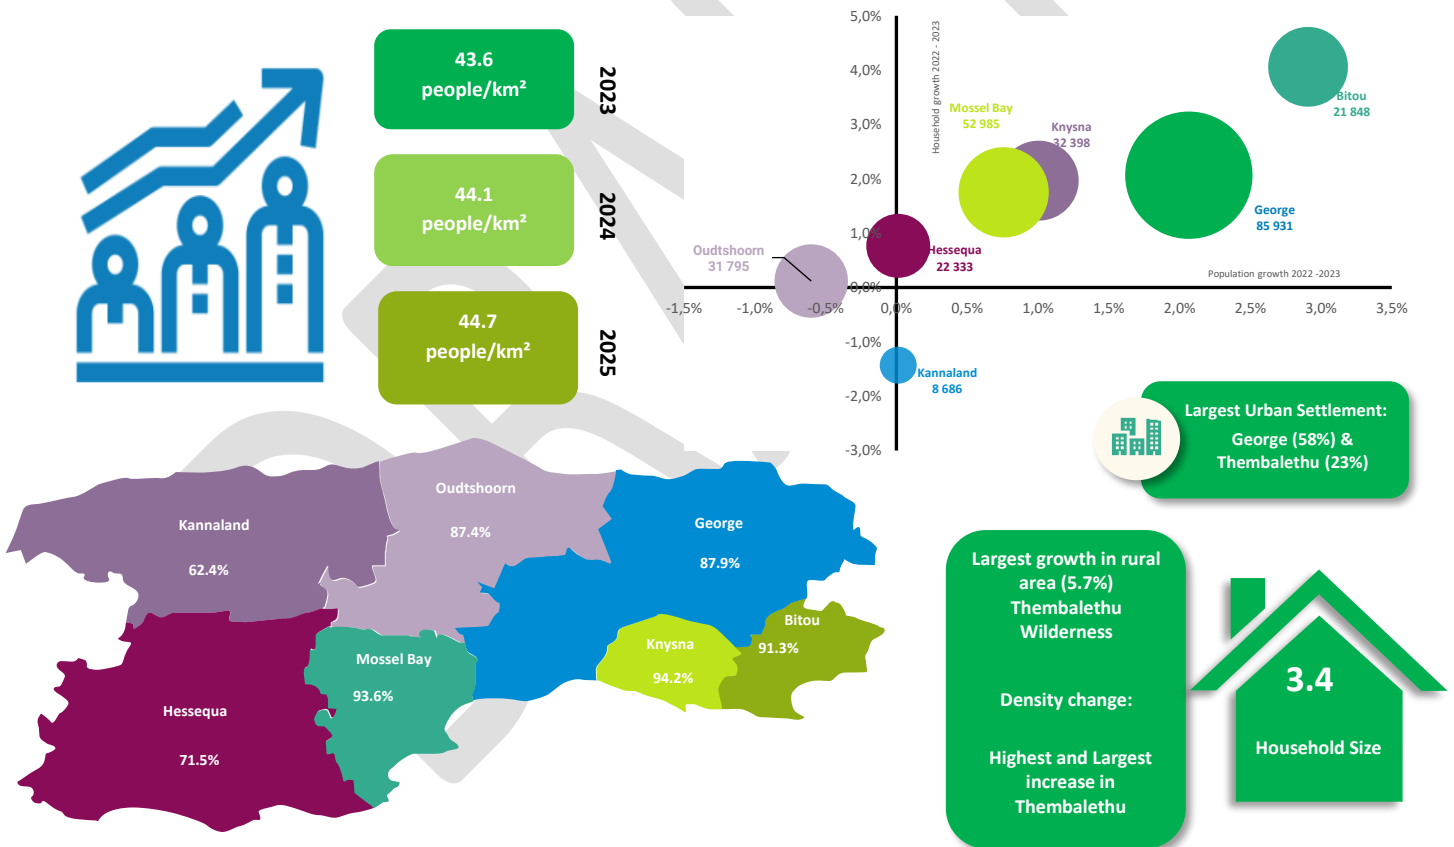

Source: Western Cape, Social-Economic Profile 2023

Figure 7: Population and Racial Split

1.9.3 Level of Urbanisation and Population Density

The George municipal area stands out because of its unique circumstances. Despite it being the economic hub, it has the fourth highest level of urbanisation (87%) in the district. Although the urban population grew, certain developments around the town of George extended into the rural area, thereby raising the rural share. Notably, there was a significant urban population within the town of George, where most people (57.9%) reside. Thembaletu township, situated within the confines of George, and the coastal town of Wilderness have also made noteworthy contributions to the escalating trend of urbanization. It is worth highlighting that Thembaletu stands out for its elevated population density, which has surged from 21.4% of the George municipal population in 2001 to 23.3% in 2021.

The George municipal area is 5 191 km² and spans the Southern Cape and Little Karoo regions of the Western Cape. In 2023, it had a population density of 43.6 persons per km² and is expected to rise to 44.7 by 2025. The concentration of the population gravitates toward the town of George, magnetized by the economic opportunities, social amenities, and connectivity advantages it offers. However, Thembaletu distinguishes itself as the most densely populated locale, primarily fuelled by the comparatively greater affordability of housing options, drawing individuals migrating into the municipal area.

Source: Western Cape, Socio-Economic Profile 2023

Figure 8: Level of Urbanisation and Population Density

1.9.4 Education

Education and training improve access to employment opportunities and help sustain and accelerate overall development. Quality Education is the 4th Sustainable Development Goal, while the National Development Plan (NDP) emphasises the link between education and employment as well as the significant contribution it makes to the development of the capabilities and well-being of the population.

1.9.5 The learner enrollment and learner-teacher ratio

Ensuring that school aged children have access to schools and are enrolled in schools allows the community to meet the future skills demands in a growing economic hub. A more informed and productive society is instrumental in improving the overall quality of life. In 2022, the George municipal area had the highest number of enrolled learners within the GRD, a natural consequence of the greater population size. It experienced notable growth in learner enrolment, witnessing an increase of 1 091 pupils between 2020 and 2022. This expansion is attributed to the concurrent growth of the working-age population in the locality, a phenomenon driven by the availability of employment opportunities and enhanced economic prospects. Typically, families relocating to the area for employment often include school-age children, thereby amplifying the enrolment of learners.

This influx of learners has fortunately been accompanied by an increased number of teachers, resulting in a reduction in the learner-teacher ratio, which, by 2022, had descended below the provincial and GRD average.

Source: Western Cape, Socio-Economic Profile 2023

Figure 9: Learner Enrolment

Source: Western Cape, Socio-Economic Profile 2023

Figure 10: Learner Teacher Ratio 2020-2022

1.9.6 Education and Infrastructure facilities

Education and skills development play a vital role in shaping the future socioeconomic landscape of the municipal area. They empower the population and significantly impact the local economy’s development and its human resource capacity. The Western Cape Education Department is committed to this cause, ensuring access to education for the children of the municipal area with the availability of 50 schools. Nearly three-quarters (72%) of these schools operate as no fee schools. This is positive to note, given that a substantial 24 per cent of learners cited financial constraints as the primary reason for prematurely dropping out of school in 2021. A concerning trend of urban sprawl in the municipal area is however affecting available land for potential school developments, affecting the future availability of proximate schools for a growing populace.

1.9.7 Learner Retention

Economic centres such as George offers economic incentives for completing education more so than is present for its more rural counterparts. The George municipal area by implication has the highest learner retention rate in the district. It is also noteworthy that the learner retention rate has been on an upward trend, boding well for the future economic potential of the municipal area.

Source: Western Cape, Socio-Economic Profile 2023

Figure 11: Learner Retention 2020-2022

1.9.8 Education Outcomes (Matric Pass Rates)

Lower learner-teacher ratios typically foster robust learner-teacher relationships, enabling the utilisation of personalised teaching approaches, and ultimately contributing to improved academic performance. This effect is not fully present in the George municipal area which has the second lowest matric pass rate in the region and saw a slight dip in both the matric pass rate and the bachelor pass rate between 2021 and 2022. Furthermore, subject outcomes reflect that a major reason for this is poor mathematics, maths literacy and physical science outcomes. This needs to be addressed as high performance in these subjects are crucial in the enfolding fourth industrial revolution. With a growing demand for skilled labour in the municipal area, matric certificates and higher education qualifications are becoming increasingly important as a lever to lift families out of poverty and contribute to economic development. It is imperative that the determinants influencing the overall quality of education be considered in the quest for optimal educational outcomes. It is however positive to note that over the 2011 to 2022 period, the percentage of persons over the age of 20 without schooling

(2.4%) has declined and those with higher education (13.9%) increased, albeit by small margins of less than 2% in both instances.

Figure 12: Education Outcomes

Source: Western Cape, Socio-Economic Profile 2023

Figure 13: Subject Outcomes

1.9.9 Health

In 2022, a mere 15.8 per cent of the South African population had access to medical aid, underscoring the significance of government healthcare facilities in delivering essential primary healthcare services to the majority of the country's residents. Within the George municipal area, there was a total of 12 primary healthcare facilities. Additionally, the George municipal area had 4 mobile/satellite clinics, along with one district hospital and one regional hospital, catering to the healthcare needs of the residents. It is noteworthy that this municipal area accounted for 20.8 per cent of the healthcare facilities present in the broader Garden Route District.

Furthermore, with the development of one additional ART treatment site and 2 additional TB clinics, the residents in the municipal area had access to 18 ART treatment sites and 15 TB clinics in 2022, further enhancing the availability of critical TB and ART treatment services available for households. This is especially necessary with the rising number of ART and TB patients registered for treatment within the municipal area from 2021/22 to 2022/23.

Enhancing the quantity of functional ambulances contributes to an expanded reach of emergency medical services across the municipal area. In the 2022/23 fiscal year, the area had 9 Provincial ambulances, translating to 0.4 ambulances per 10 000 residents. This represents a decline compared to the prior fiscal year, hereby reflecting the challenge of keeping pace with the expanding population. It should however be noted that this figure pertains exclusively to Provincial ambulances and does not include private service providers.

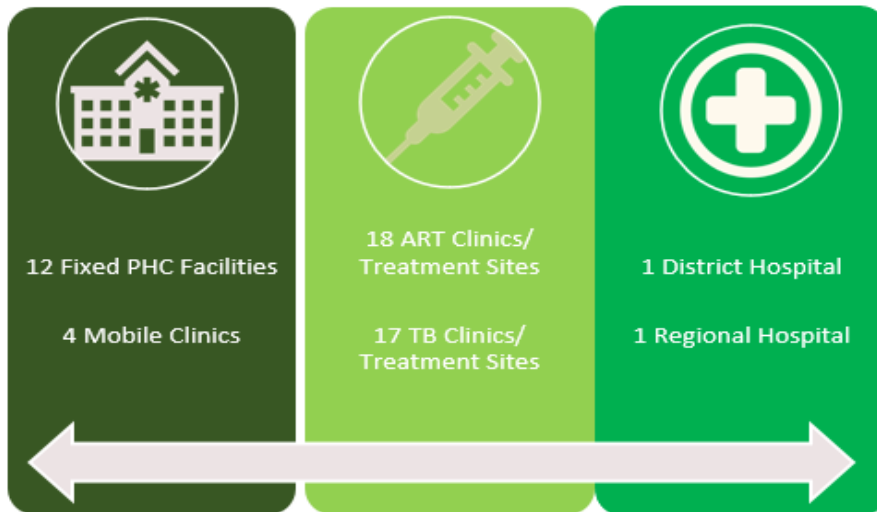

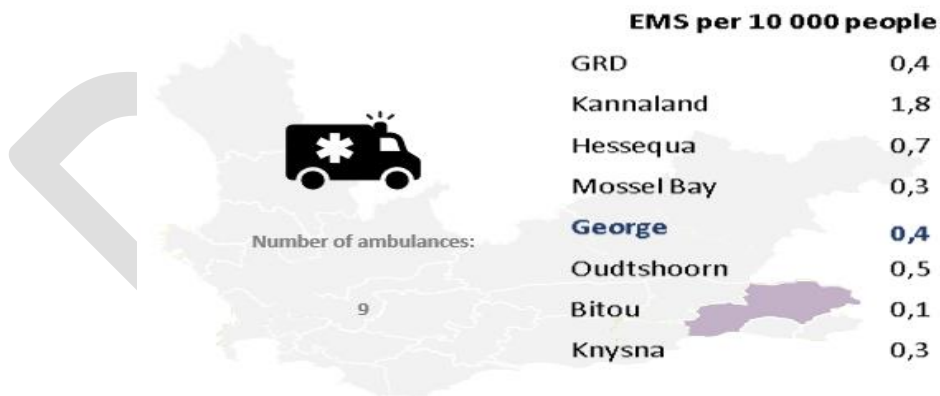

Figure 14: Health Care Facilities

Source: Western Cape, Socio-Economic Profile 2023

Figure 15: Emergency Medical Services

1.9.10 Maternal and Child Health

Within the George municipal area, there has been an observable decline in teenage pregnancies. In 2022/23, 398 deliveries (13%) occurred among females under the age of 20, which is slightly lower than the district rate of 14.8%. The decrease in teenage pregnancies coincided with an increase in pregnancy terminations, with 652 pregnancy terminations reported in 2022/23. The high rate of teenage pregnancies reflects a need for expanded family planning initiatives and support services within the municipal area and greater GRD, as unplanned pregnancies pose a risk to the future quality of life of teenagers.

2 789 children under the age of one were immunised, translating to an immunisation coverage rate of 77.1%. This exhibits a reduction thereby placing a greater proportion of young children at risk of serious illness. The prevalence of malnourished children under the age of five, particularly those suffering from severe acute malnutrition, per 100,000 individuals in the municipal area, saw a marginal decline from 2021/22 to 2022/23. Furthermore, the percentage of infants born with a birth weight of less than 2.5 kilograms also decreased over this period. In both cases, the municipal area has not yet reverted to pre-pandemic levels. While the reductions in poverty and government feeding schemes have contributed to the marginal decline in malnourished children, there remains a continued challenge in terms of households' access to nourishing food.

With 3 maternal deaths and 38 babies dying before 28 days of life, the municipal area has amongst the highest maternal and neonatal mortality rates in the province, presenting a concerning development especially as these rates have increased from 2021/22 to 2022/23. This emphasizes the need for improved antenatal and postnatal care.

Figure 18: Tuberculosis and HIV/AIDS

1.9.11 Poverty

The Upper Bound Poverty Line (UBPL) headcount ratio is the proportion of the population living below the UBPL i.e., that cannot afford to purchase adequate levels of food and non-food items. The UBPL in South Africa is R1 417 (in April 2022 prices) per person per month. In 2022, 59.8% of the George municipal population fell below the UBPL. This figure improved marginally from the 61.5% recorded in 2019, indicating progress despite the challenging economic conditions facing households across the country.

While the municipal area exhibits lower levels of poverty compared to the District and Western Cape rates, the situation is far from comforting, given the significant number of households experiencing the adverse effects of poverty. These consequences include lower life expectancy, malnutrition, food insecurity, heightened exposure to crime and substance abuse, reduced educational attainment, and substandard living conditions. Therefore, the NDP sets the ambitious goal of eradicating poverty by 2030. To alleviate these negative impacts of poverty, the Department of Social Development George SASSA office issues grants to 137 236 individuals. Beneficiaries of child support grants constituted 61.1% of this total, with 32 110 pensioners receiving old age grants, thus offering vital income support to these households.

a) GDP Per Capita

During the timeframe spanning from 2016 to 2022, the regional economy exhibited a growth rate surpassing that of the population, resulting in a notable upswing in the GDP per capita i.e., GDP per person. Over this period, GDP per capita experienced a robust increase of 21.9 per cent, indicative of enhanced standards of living and heightened economic well-being within the George municipal area. At R109 780, the GDP per capita exceeded the district average (R97 562) but remained below that of the Western Cape (R113 327), pointing to potential areas for further improvement.

However, it is imperative to acknowledge that the distribution of GDP per capita within the George municipal area is not uniform. Disparities prevail, with a segment of the population enjoying affluence, while others grapple with financial challenges in an economic landscape characterized by inflation, escalating interest rates, and unemployment.

Source: Western Cape, Socio-Economic Profile 2021, 2023

Figure 19: GDP per Capita

b) Income Inequality

South Africa suffers among the highest levels of inequality in the world when measured by the commonly used Gini index. Inequality manifests itself through a skewed income distribution, unequal access to opportunities, and regional disparities. The National Development Plan (NDP) has set a target of reducing income inequality in South Africa, endeavouring to lower the Gini coefficient from 0.7 in 2010 to 0.6 by 2030. The George municipal area nearly meets that goal at 0.61 but has amongst the most unequal distributions of income in the province. This reflects the discrepancy between persons with well remunerated jobs in George as well as affluent households living on the coast, compared to the lower income earned by rural farm workers in areas such as George Rural, Haarlem and Uniondale as well as households residing in the numerous informal settlements across the municipal area. Income inequality is also more pronounced among the coloured and black African demographic groups where some households have built wealth, whilst others have yet to escape the poverty trap.

Source: Western Cape, Socio-Economic Profile 2023

Figure 20: Income Inequality

c) Poverty

The Upper Bound Poverty Line (UBPL) headcount ratio is the proportion of the population living below the UBPL i.e., that cannot afford to purchase adequate levels of food and non-food items. The UBPL in South Africa is R1 417 (in April 2022 prices) per person per month. In 2022, 59.8% of the George municipal population fell below the UBPL. This figure improved marginally from the 61.5% recorded in 2019, indicating progress despite the challenging economic conditions facing households across the country.

While the municipal area exhibits lower levels of poverty compared to the District and Western Cape rates, the situation is far from comforting, given the significant number of households experiencing the adverse effects of poverty. These consequences include lower life expectancy, malnutrition, food insecurity, heightened exposure to crime and substance abuse, reduced educational attainment, and substandard living conditions. Therefore, the NDP sets the ambitious goal of eradicating poverty by 2030. To alleviate these negative impacts of poverty, the Department of Social Development George SASSA office issues grants to 137 236 individuals. Beneficiaries of child support grants constituted 61.1% of this total, with 32 110 pensioners receiving old age grants, thus offering vital income support to these households.

Figure 21: Poverty Line

1.9.12 Basic Service Delivery

The Constitution stipulates that every citizen has the right to access adequate housing and that the state must take reasonable legislative and other measures within its available resources to achieve the progressive realisation of this right. Access to housing also includes access to services such as potable water, basic sanitation, safe energy sources and refuse removal services, to ensure that households enjoy a decent standard of living.

This section assesses the extent to which this objective has been realised by examining the progress reflected in the 2022 Census data.

a) Housing and Household Services

There has been a notable rise in the percentage of households with access to formal housing, escalating from 83.9% in 2011 to 87.3% in 2022. This achievement is attributed to a substantial volume of housing units constructed by the state, catering to the housing needs of low-income households. It is noteworthy that within the George City area, all but 6% of properties within the entry-level market (valued under R300 000) are government-subsidized properties, as reported in the Housing Market Studies for Intermediate Cities/Larger Towns in the Western Cape: George City Area Report of 2022.

Nonetheless, there is still room for improvement within the George municipal area, as it trails behind the GRD, where 89.0% of households inhabit formal dwellings. This discrepancy can be primarily attributed to the presence of informal settlements in the George municipal area, where the supply of entry-level housing fails to keep pace with the escalating demand in this growing economic hub.

The increase in the proportion of households residing in formal dwellings was accompanied by a 5.4% surge in households equipped with flush toilets, a 4.5% increase in households using electricity for lighting, and a substantial 11% increment in households enjoying access to piped water within their dwellings. In contrast, access to regular refuse removal showed only a modest increase of 0.2%. However, it remains pertinent to acknowledge that the George municipal area still lags in terms of providing essential services across all categories. This lag underscores the challenges faced by the Municipality in keeping pace with the growing demand for services, as well as the difficulties associated with extending services to rural farmlands and informal settlements.

b) Free Basic Services

Municipalities provide free basic services to households that are financially vulnerable and struggle to pay for services. There was a significant surge in registered indigent households in 2020 attributable to the adverse economic impact of the COVID-19 pandemic, which resulted in income losses impeding households' capacity to cover their municipal service expenses. In 2021, a slight reduction occurred, and by 2022, a return to levels resembling the pre-COVID period was evident. The stressed economic conditions will however continue to exert pressure on household incomes and thereby keep demand for free basic services at elevated levels.

1.9.13 Safety and Security

a) Crime Rates in GRD and George Municipality

The high levels of poverty and inequality give rise to elevated crime levels necessitating the development of the Western Cape Safety Plan. In it, the Western Cape Government (WCG) expresses their vision to ensure that the province is a place where all people feel secure and live free from fear. The George Municipality shares this goal, as it is not spared from the safety concerns present throughout the Province and GRD.

Crime levels in the George municipal area rose from 2021/22 to 2022/23. It is important to highlight that COVID-19 lockdown regulations implemented in 2020/21 played a role in the overall decrease in crime during that year. The primary factors contributing to crime in the George Municipality and the greater region of the Garden Route include the absence of surveillance cameras in high-risk areas, inadequate lighting, high unemployment rates, drug and alcohol abuse, instances of domestic violence, repeat offences by released prisoners, the seasonal influx of labourers and social intolerance.

The George municipal area exhibits elevated occurrences of contact crimes such as murder and sexual offences, when compared to the GRD. However, the GRD contends with elevated crime rates across all other categories delineated in the infographic. It is essential to acknowledge that these other crime categories, including drug-related offences, burglaries, and commercial crimes, are exacerbated by elevated poverty levels, which are more pronounced in other municipal areas relative to George.

b) Total Reported Cases of Crime

Murder is defined as the unlawful and intentional killing of another person. 100 murders were reported in the municipal area, largely attributed to gangsterism.

The George community speaks out against gang related violence, indicating that they are tired of being victimized in their communities. Similarly, common assault (assault that involves the use of force or violence against another person without causing serious bodily harm) is at elevated levels with 1 724 cases reported, influenced by gangsterism, substance abuse as well as gender-based violence.

South Africa is amongst the top 5 countries in the world with respect to reports of rape. George is no exception with 359 cases of sexual offences (including rape, sex work, pornography, public indecency and human trafficking) reported within the George municipal area, down from 401 in 2021/22. It should be noted that many cases of sexual offences go unreported. Substance abuse drives up drug-related crimes (a situation where the perpetrator is found to be in possession of, under the influence of, or selling illegal drugs) with 2 190 cases reported, and saw the largest rise from the 2021/22 levels. In addition, driving under the influence of drugs or alcohol (where the driver of a vehicle is found to be over the legal blood alcohol limit) had 567 reported cases. Alcohol use is a leading factor in road traffic crashes. Substance abuse places a burden on health care and police services, disrupts families and bears significant social and economic costs within communities.

Substance abuse and poverty further contribute to residential burglaries (the unlawful entry of a residential structure with the intent to commit a crime, usually a theft) with 1 234 cases reported in the George municipal area, while difficult economic times are met with a rise in commercial crimes (theft, fraud or dishonesty committed against a business by an employee that results in the business suffering financial loss) as an easy way for employees to maintain their standard of living in addition to this, 937 cases of malicious property damage, severely impact local businesses, especially SMMEs. Failure to curb such crimes can lead to a vicious cycle of declining economic activity and joblessness that fuels poverty and gives rise to other crimes across the district.

Curbing crime is crucial to realizing the vision of the WCG which is “a safer Western Cape where everyone prospers”.

Figure 23: Actual Number of Crimes Reported

1.9.14 GDP Performance

The George municipal economy was valued at R22.8 billion in 2021, constituting 39.9% of the GRD economy and serving as the commercial hub of the region. Sectors such as finance (32.2%), trade (16.8%) and manufacturing (14.8%) are leading the way in terms of GDP contributions.

In 2022, the finance sector was one of only four sectors (along with transport; community services, and agriculture) that have recovered beyond pre-pandemic levels. It was boosted by developments in the call centre industry as well as high interest rates.

The trade sector is also central to George municipal area, but following a 13.0% contraction in 2020, it has not yet fully recovered from the impacts of COVID-19. Several new stores opening, including a Spar in George and Wilderness and a Pick n Pay in Pacaltsdorp bodes well for the sector in 2022. As part of the trade sector, tourism flourishes in the beautiful landscape of the George municipal area. It is crucial, particularly in the coastal town of Wilderness as it is dependent on short-term accommodation activities. The tourism sector was however heavily impacted by the COVID-19 lock-down regulations and showed only a marginal improvement as a percentage of GDP from 2021 to 2022. In some measure, this reflects reduced purchasing power on the part of households that have been battered by high inflation and rising interest rates.

The George municipal area has a thriving agriculture sector specialising in mixed farming and non-perennial crops, vegetable production and cultivating pome and stone fruits. The municipal area is considered a hub for dairy processing, with Clover and Lancewood, amongst others, operating in the area. Herolds Bay, Uniondale, Haarlem and Waboomskraal economies rely extensively on agriculture. The sector was the best performing in terms of growth from its 2019 value due to favourable commodity prices and farming conditions. A decline is anticipated in 2022, due to rising input costs and commodity price reductions. The agriculture sector has nevertheless made a significant contribution to international trade in 2022, as it was the only sector to record a positive trade balance in 2022.

The overall trade balance of the George municipal area has been deteriorating in recent years, primarily because of the declining trade balance of the manufacturing sector, despite it being the third largest sector in the municipal area. Local farmers and agricultural manufacturers specialise in, inter alia, the production and export of berries and machinery used in beer-making. Imports into the George municipal area are largely everyday consumer goods such as trunks, suitcases, vanity cases and the like (R96.6 million), knitted or crocheted shirts (R90.5 million) and coffee (R87.2 million) for resale nationally.

The transport sector performed well, having recovered from pre-pandemic levels and having the highest estimated GDP growth in 2022. The transport sector benefited from an increase in arrivals at George Airport, which grew from 539 637 in 2021 to 747 848 in 2022. The local freight industry benefits from the fact that both the N2 and the N12 pass through George. Despite the comparatively good performance, the sector remains vulnerable amid the slow recovery of tourism and high petrol prices.

Sectors that have yet to recover from the contractions in GDP growth recorded in 2020 include the general government, mining, manufacturing, electricity, gas and water and construction sectors. Amid load-shedding concerns and a fiscally constrained government sector, the GDP of the George municipal area is forecast to expand by only 0.9% in 2023. Continued decline is anticipated for the agriculture sector, given high input prices and a reduction in international commodity prices. However, this trend is expected to ease in 2024 as markets normalise. Strong growth on the part of the finance, transport and community services sectors is expected to stabilise the economy in 2024, with GDP growth of 1.7% forecast for the year and 1.8% forecast for 2025.

Figure 27: International Trade, 2022

Figure 28: Tourism % of GDP

1.9.15 Economy and Labour Market Performance

a) Labour Market Performance

Figure 29: Labour Market Performance

The town of George is the epicentre of general government services and retail activities. The larger municipal area, in turn, has a thriving agriculture sector specialising in mixed farming and non-perennial crops. The municipal area is considered a hub for dairy processing, providing 829 formal jobs in 2022. Beyond George, tourism is an important local employer, with the short-term accommodation industry being the largest employer in Wilderness. The Herolds Bay, Uniondale, Haarlem and Waboomskraal economies rely extensively on agriculture, largely creating jobs in mixed farming, vegetable production and cultivating pome and stone fruits. It is estimated that George’s total employed will amount to 77 843 workers in 2022. Since the tertiary sector is the largest contributor to GDP and employment, most workers in the George municipal area are either semi-skilled (31.6%) or skilled (28.0%). Over the last decade, most new formal employment opportunities have been for skilled workers – a testament to George’s growth as a commercial hub in the GRD.

In 2022, GDP grew by 3.3%, facilitating the post-COVID-19 economic recovery. However, when compared to the 2019 GDP level, the growth was modest at 3.0%. Even so, employment recovery has not kept pace with the GDP rebound. In 2022, the economy added 4 560 jobs, marking the first year of job creation since 2020. Nevertheless, it remains 5.0% below pre-pandemic employment levels. From 2019, the skilled cohort was the only category to recover from the COVID-19 pandemic with 1.6% growth in employment levels since 2019. This reflects the resilience of skilled employment during times of economic decline. The semi-skilled (-4.9%) and low-skilled cohorts (-6.9%) have yet to reach pre-pandemic levels. The informal sector also plays an integral role in employment, with 18.3% of workers being employed informally, typically in the construction, trade and transport sectors. Informal traders are a valuable source of employment in the trade sector – with licensed traders increasing from 80 in 2021 to 102 in 2022. Unfortunately, the informal sector has not been the required buffer during 2020 and 2021, resulting in its employment levels still at 10.3% below its 2019 totals.

The resurgence in job creation in 2022 was however predominantly driven by the informal sector, which added 4 493 jobs, signifying a substantial rebound following a period of poor performance from 2020 to 2021. This resurgence contributed to the first decline in the unemployment rate since 2018. Beginning at 13.9% in 2018 and peaking at 19.6% in 2021, the unemployment rate registered a welcome decrease to 18.4% in 2022, aided by strong job growth. This contributed to the observed decline in poverty levels within the municipal area.

b) Wage Distribution

As the administrative capital of the GRD, George naturally has a concentration of government offices and administrative functions. This led to more government jobs, with workers here earning the highest median incomes. In 2022, around 12.1% of them earned salaries ranging from R25 600 to R51 200. Skilled professionals found meaningful employment in various government departments, contributing to the area's economic strength. In 2021, the George municipal area also had the highest number of taxpayers in the district, accounting for 35.3% of the taxpayers in the GRD.

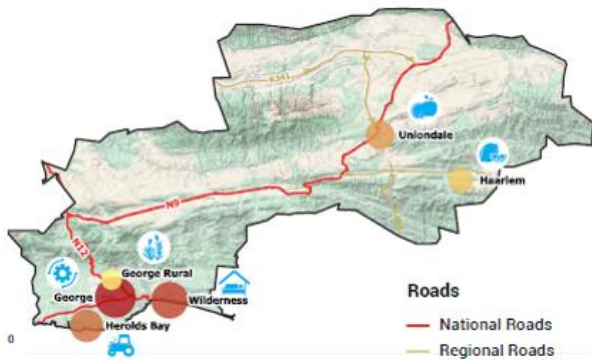

Figure 30: Formal Employment by Town, 2022

Figure 31: Skill Level Contribution, 2022

Figure 32: Wage Distribution per Municipal Area 2022

Figure 33: Main Sector for Employment

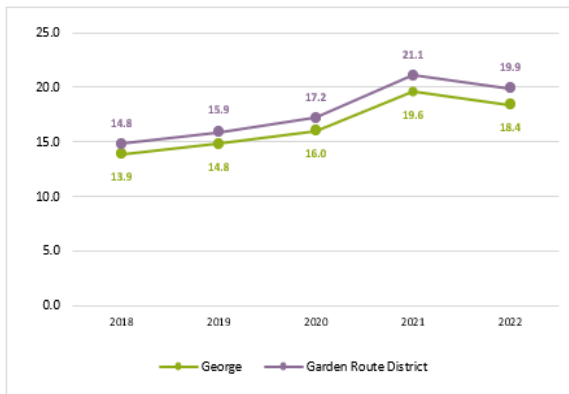

Figure 34: Unemployment Rates 2018-2022

Figure 35: Net Employment per Sector 2019-2022

1.9.16 Vulnerability and Risk Factor

a) Sea Level and Storm Surges

Although we expect fewer storm systems to reach the Western Cape in future, increased sea temperatures could mean increased storm activity and slightly stronger winds. At the same time, the thermal expansion of the oceans will result in 0.25m – 0.75m of sea level rise by 2050, with associated swash run up of roughly 3.0m – 3.5m above the mean sea level (excluding tidal influence). Sandy shores are most affected – some areas in the Garden Route have seen beaches retreat landward at a rate of 0.6 m per year. This directly affects infrastructure and detracts from the amenity value of the coastline - during the September 2023 storm surge, extensive damage was caused, and beaches were closed.

b) Drought

According to the CSIR Green Book, George has a high potential exposure to an increase in drought. Currently, 1.9 years per decade are at risk of drought, and this will increase to 3.1 out of every 10 years by 2050. Water, and related sanitation services, is a key ingredient for socio-economic development, food security and healthy ecosystems, and are vital for reducing the burden of disease and improving the health, welfare and productivity of populations. A deteriorating water catchment system, through ecosystem loss (transformation or land use change) and alien infestation, or watercourse and wetland modification, will lead to lower inputs into the water supply systems, and a lower overall water security due to lower natural retention and lower quality of water. During extended drought periods, even end users far from major source areas are likely to experience shortages as the overall system runs low.

Temperature Change (2050 compared to historic)	
Mean temperature Increase (District)	1.2°C Higher
Additional days per year with daily maximum temperature above 30°C (George)	19 Days

Source: Western Cape, Socio-Economic Profile 2023

Temperature Change (2050 compared to historic)						
Year	2000	2010	2020	2030	2040	2050
Dry years	1.9	2	2	2	2.1	3.1
Wet years	8.1	8	8	8	7.9	6.9

Source: Western Cape, Socio-Economic Profile 2023

c) Temperatures

Average temperature has been increasing since the 1900s. Projections indicate that George can expect an additional 19 extremely hot days per year by 2050, which will affect food security, exposure to extreme heat, health and water quality.

d) Vegetation Fires

Although critical for a healthy ecosystem, fire is a significant threat to human lives, food security, socio-economic activities and livelihoods, as well as infrastructure and other assets. Furthermore, in many areas, land has been converted from natural vegetation to other land-cover types - some of which significantly modify the fuel loads (e.g., the establishment of forest plantations and the spread of several introduced tree species such as pines, hakea, wattles and eucalypts). Fires in vegetation with high fuel loads increase soil erosion and runoff, which negatively affects ecosystem services and increases the impact of floods, among other factors. Where severe fires have occurred due to high fuel loads, resulting soil erosion leads to the sedimentation of rivers and dams and therefore declining water quality (and increased water treatment costs).

Local municipalities are ranked according to their vulnerability relative to all 25 municipalities in the province (Rank). A higher ranking (out of 25) indicates the Municipality is comparatively worse off.

An additional score (out of 10) is provided for vulnerability factors relative to all 213 municipalities in the country (Score).

e) Floods

Floods result in millions or billions of Rands in damage to building structures or lost productivity, the loss of livelihoods and in some cases the loss of lives. A 2016 report calculated that four severe weather events between 2011 and 2014 caused more than R1.6 billion worth of damage in the Western Cape, and in the recent September 2023 severe weather event, flood-related infrastructure damage alone amounted to R2 billion. Flooding is also one of the main disaster risks affected by climate change. Changes in rainfall volume, intensity and timing will alter flood risk profiles and necessitate a constant reconsideration of risks and risk reduction measures.

Table 3: Vulnerabilities

Municipality	Socio-Economic		Economic		Physical		Environmental	
	The indicator shows the vulnerability of households living in the Municipality with regards to the household’s age composition, education and health status, access to basic services, and safety and security [2011 baseline]		Vulnerability of the Municipality to external shocks is based on the economic diversity, size of the economy, labour force, GDP growth rate and the income inequality present in the Municipality [2011 baseline]		Physical vulnerability addresses the physical fabric and connectedness of the settlements in the Municipality. The more remote and/or structurally vulnerable, the higher the physical vulnerability score		Env. vulnerability represents the conflict between preserving the natural environment & growth pressures associated with population growth, urbanisation, and economic development. It measures air quality, environmental governance, & the competition between the ecology and urban encroachment	
	Rank	Score	Rank	Score	Rank	Score	Rank	Score
Bitou	19	2.32	25	6.5	24	7.17	21	6.84
George	9	1.6	16	3.38	22	6.03	8	4.36
Hessequa	10	1.6	13	2.96	11	5.28	16	5.12

Table 4: Hazards

George Overall Population Growth Pressure: Continuous medium growth pressure in most settlements *	
Six of the Top 10 Risks in the Garden Route are environmental in nature (Provincial Disaster Risk Register)	George’s identified Hydro-meteorological Hazards to settlements as observed by the CSIR (The Greenbook *)
1. Human Diseases (Covid-19)	
2. Hazmat Incidents: Roads / Rail / Sea	
3. Alien Invasive Plants	An overall increased drought tendency.
4. Wildfires	Subject to possible wildfires occurring in wildland-urban interface with settlements, with low potential increase in exposure of settlements to wildfires.
5. Coastal Erosion	Low to moderate increase in short-term coastal erosion exposure.
6. Sanitation/Waste Disruption	
7. Drought	Low potential increase in exposure to heat extremes, whilst having an overall increased drought tendency, with a high potential increase in exposure of settlements to drought.
8. Electricity Disruption	
9. Floods (Stormwater/Riverine/Coastal)	Low to moderate increase in short-term coastal flooding exposure. Very low increase in exposure to flooding in settlements.
10. Severe Wind	

1.10 Basic Service Delivery Highlights and Challenges

1.10.1 Key Basic Services Delivery Highlights

The following key basic service areas were achieved by the Municipality:

Table 5: Key Basic Service Area Highlights

Service Area	Highlight	Description
Roads and Transport	Infrastructure	Completed the following road construction projects, with associated stormwater infrastructure: <ul style="list-style-type: none"> • Tabata Street (Phase 1 to 2) • Golf Street (Phase 1 to 2) • Ngcakani Street (Phase 1A and 2) • Delville Park Roads (Phase 1) • Resealing of various roads • Upgrading of gravel roads to paved roadways • Nqwemesha Street
		Commencement of the following road construction projects, with associated stormwater infrastructure: <ul style="list-style-type: none"> • Ngcakani Street (Phase 1B) • Ngcakani Street (Phase 3) • Beer Street (Phase 1) • Beer Street (Phase 2) • O’Connel Street • Tabata Street (Phase 3) • PW Botha Avenue • Mission Street (Pacaltsdorp) • Protea Street (Phase 1) • Protea Street (Phase 1) • Haydn, Heather & Rose streets • Wellington intersection • Airway street curb improvements • Rooidraai Road • Bank Street • Delville Park Roads (Phase 2)
	Public Transport	During the period under review, an application for in-year funding was submitted to the Department of Transport (DoT) and the Western Cape Mobility Department (WCMD). These applications were successful and resulted in the following in-year allocations being received: <ul style="list-style-type: none"> • R450 million from DoT towards infrastructure upgrades on the network routes. The funding received was not fully utilized by 30 June 2026 (2 financial years) and arrangements are in place to obtain approval for the funds to roll over into the new financial year.
	Fleet	An order of 11 new MAN buses was delivered in the 2022/23 financial year to provide a sufficient fleet that will support the roll-out of Phase 4A of the GO GEORGE bus service
	Industry and Operating Licenses	Engagements with industry and community stakeholders continued in preparation for the roll-out of services to Phase 4A, Thembalethu. A municipal Public Transport Operating License Committee was formalised and several processes were implemented to better investigate and consider every Operating License application made to the Planning Authority.
IRMP	The service provider appointed to conduct a full review of the Integrated Transport Plan (ITP) completed most of the research and engagements required to complete the document. A multi-disciplinary team was established representing various stakeholders both within the Municipality	

Service Area	Highlight	Description
		and externally. This team regularly engaged to workshop and review progress.
Water	Infrastructure	The Municipality continued with the extension of the New George WTW with an additional 20 MI/d treatment capacity and completed the rehabilitation of the Old George WTW (6 MI/d Module). Extractor fans were installed for the chlorine buildings at the WTWs.
		The Garden Route dam suction pipework rehabilitation was completed.
		The rehabilitation of the Kaaimans raw water pump station was completed.
		Continued with the installation of Smart water meters to monitor water usage more effectively and to reduce Non-Revenue Water and Water Losses.
		Started with the construction of the new 14.5 MI reservoir and 2.4 MI water tower for Pacaltsdorp and the new Thembaletu (East) reservoir, water tower and pump station.
		Designs were completed for the construction of the additional raw water balancing dams for George.
		The upgrade of the Airport bulk water pipeline was completed. Sections of the old water reticulation networks and sewer drainage networks were replaced (Implementation of the Pipeline Replacement Programmes).
	The Municipality continued with the upgrading of the Conville water reticulation networks (Phases 1 & 2) and the Parkdene water reticulation network (Phase 1).	
Fleet	Additional Bakkies were purchased to assist with complaints as part of operations (leakages, pipe failures etc.)	
Waste Water (Sanitation)	Infrastructure	Generators were installed at some of the main Sewer Pump Stations and Wastewater Treatment Works, in order to ensure that the plants remain operational during loadshedding periods.
		The Municipality continued with the upgrading of the Thembaletu bulk sewer upgrades
		The Municipality continued with the upgrading of the Meul Street, Schaapkop and Thembaletu 6 sewer pump stations.
		The Municipality completed the reinstatement of the 3.5 MI/d capacity at the Gwaing WWTW. The current capacity of the plant was increased to 11MI/day through this process.
	Fleet	Additional Honey Sucker trucks were purchased for the sewer pump stations and for the emptying of tanks.
		Additional Jet Machine Units were purchased for the clearing of sewer blockages.
Electricity	Electrification	Informal Electrification: The following electrification projects were completed in the financial year Telkom Electrification is 100% complete. Sityebi-tyebi Electrification is 100% complete. Dameni Electrification is 100% complete. The electrical contractor has been appointed to attend the next phase of 500 residential units (Phase 5) for the electrification of the informal areas in Thembaletu. Orders have been placed for the material and construction will commence in the 2024/25 financial year.
		Formal Electrification: The designs for Area 1 of the Thembaletu UISP project were completed and some of the material was procured. The SCM process is in the final stages to appoint a contractor for the formal electrification construction works.
	Substations	The following 66/11kV substation projects are currently under construction:

Service Area	Highlight	Description
		<ul style="list-style-type: none"> The final commissioning for the new 66/11kV substation in Thembaletlu is almost completed and the substation is ready to be energised, but the energising of the 66kV supply to the substation has been delayed due to informal housing under the 66kV power lines. Strengthening project at Glenwood Substation, with additional capacity being brought into the 3rd bay, to cater for anticipated growth. Strengthening project at Protea Substation, with additional capacity established by increasing the transformer capacity, to cater for anticipated growth. Upgrading and reconfiguring of George substation. Establishment of transformer capacity at Proefplaas substation. <p>Establishment of transformer capacity at Harolds Bay substation.</p>
	Solar PV Plants	<p>The following PV Solar Plants were commissioned:</p> <ul style="list-style-type: none"> Outeniqua WWTW – 400kWp plant Gwaing WWTW – 500kWp plant Electrotechnical Building – The plant is commissioned and operational MVR Building – The plant is commissioned and operational Tourism Facility – The plant is commissioned and operational <p>1MWp PV Plant</p>
Refuse removal	IUDG Funding for the procurement of yellow plant and fleet to fight illegal dumping	Two (2) TLB, two (2) tipper trucks and two (2) skip trucks were procured from the IUDG funding after DFFE approved the application of the municipality for the procurement of yellow plan as part of the IUDG.
	Funding for the finalisation of the compost plant was approved by DEFFE. Service providers were appointed by DEFFE	A Funding application was submitted to the Department of Fishery, Forestry and Environment (DEFFE) for the finalisation of the current construction of the compost facility. Funding has been approved for - and will be rolled out - over 18 months.
	Appointment of EPWP Workers	225 EPWP workers were appointed through the Cleaning and Greening Project of DFFE
	External audits	External audits were conducted at the waste disposal facilities and the waste transfer stations.
Integrated Human Settlements	Metro Grounds Housing Project	30 houses completed and handed over to the approved beneficiaries. 30 Title deeds handed over. 220 houses on practical completion.
	Thembaletlu UISP	Approval was received in May 2024 from the Provincial Department of Infrastructure for the construction of 100 BNG units.
	Emergency Allocation of Accommodation	A total of 87 Emergency Structures were provided to families whose houses were damaged through fire or storm.
Planning and Development	2023MSDF: 1st Review	The First Review Report relating to the 2023 MSDF was submitted to Council in June 2024
	GM: Backyarder Housing Strategic Framework	The draft strategy document was adopted by Council in September 2023. It is the first strategy of its kind within a local Municipality.
	Urban Design Guidelines for High-Density-, Social- and Affordable Housing	<p>Urban Design Guidelines for High-Density-, Social- and Affordable Housing was adopted by Council in July 2023</p> <p>The aim of the guidelines was to encourage all role players to create positive living environments when planning high density developments and to consider the integration of such developments with the adjacent urban environment.</p>

The detailed highlights and challenges will be discussed in Chapter 3 under each respective service.

Despite the highlights, general challenges were experienced by the Municipality as outlined below. However, actions were put in place to address these challenges:

1.10.2 Key Basic Services Challenges

The following general challenges were experienced by the Municipality:

Table 6: Key Basic Service Challenges

Department	Service Area	Challenge	Actions to address
Civil Engineering	Roads and Transport	Public Transport funding	During 2023/24, the GIPTN initiated investigations into additional funding sources to provide further income to the GIPTN. The proposals include offering advertising on GIPTN infrastructure and facilities, the provision of ad-support Wi-Fi on GO GEORGE buses and the charging of Public transport charges as part of Road development charges. These are anticipated to be implemented in the 2024/25 financial year.
		Infrastructure	Infrastructure budget constraints remained a reality and while the Municipal Pavement Management System and Stormwater Master Plans indicated priorities for road and stormwater repairs/upgrades, insufficient budget meant that projects could not be undertaken or had to be partially completed and/or projects had to be reprioritised. Further to this, the GO GEORGE infrastructure provision and maintenance projects had the same outcome. Insufficient budget continued to hamper the expansion, upgrading and maintenance of infrastructure for the GIPTN.
	Water and Sewer	Blue Drop Accreditation	Various legal and legislative requirements were neglected in the preceding years. The Directorate appointed consultants to assist the GM with the updating of the water safetyplans and performing water treatment plant audits as part of the Blue Drop assessment process as required by the DWS. Many of the Blue Drop requirements are being addressed in-house by the Directorate including various infrastructure audits. The aim is to achieve the maximum possible score during the next assessment period.
		Infrastructure	Some of the key challenges of George Municipality are to identify adequate funds for the rehabilitation and maintenance of their existing infrastructure, which is critical to ensure the sustainability of the services that are provided by the Municipality.

Department	Service Area	Challenge	Actions to address
		Resources	Flood events had an extreme impact on the bulk water and sewer infrastructure. This created challenges for the Directorate and resulted in more manpower being needed and overtime expenditure. Also: Current financial and human resources are inadequate to effectively implement all the required Water Conservation and Water Demand Management measures.
		Public Awareness	Public to be made aware not to abuse the sewer systems and illegal dumping of objects in the sewer systems causing blockages and failures. Public to be made aware of water saving initiatives.
Community Services	Safety and Security	Safety and Security	<p>The lack of a Municipal by-law regulating public transport matters continued to frustrate enforcement activities to support the GO GEORGE bus service. Ongoing illegal minibus taxi operators also continued to operate illegally along GIPTN routes and elsewhere across the municipality.</p> <p>The finalisation of procurement and installation of equipment for the Public Transport Enforcement Unit continued to be delayed, with a large number of the procurement processes only having commenced during the 2022/23 financial period following the approval of the Safety and Security Plan.</p> <ul style="list-style-type: none"> • The by law on public transport has been promulgated and is thus completed. • Enforcement actions are ongoing and can thus be removed. • No funding is available for the installation of technology and can thus be removed.
		Waste Management	<p>Appointment of EPWP workers to clean up dump sites, conduct awareness programs, clean illegal dumps weekly, provision of waste skips for temporary storage of waste, apply by-laws.</p> <p>Identification of suitable to construct a new landfill site for the disposal of builder’s rubble and bulky waste.</p>
	Electricity	<p>Theft and Vandalism</p> <p>Ageing Infrastructure</p>	<p>Theft and vandalism of infrastructure results in extended power outages and wastage of resources, through repetitive outages.</p> <p>Cable replacements and switchgear replacements on a medium voltage level, to create a more sustainable network.</p>
Planning and Development	Human Settlements	Suitable land for further human settlements development	Implementation of the new Human Settlements Plan.

Department	Service Area	Challenge	Actions to address
		Invasion and Illegal occupation of land	Increased vigilance and community awareness of the illegal occupations and how it affects the rollout of new housing opportunities.

1.11 Proportion of Households with Minimum Access to Basic Services

The source of the information below indicates municipal statistics:

Table 7: Proportion of Formal Households With Minimum Level Of Basic Services

Proportion of Households with minimum level of Basic services	2021/22	2022/23	2023/24
Electricity service connections	100%	100%	100%
Water available within 200m of dwelling	98%	98%	98%
Sanitation - households with at least Ventilated Improved Pit (VIP) services	98.8%	98%	99%
Waste collection - kerbside collection once a week	99.8%	96%	96%

Figure 36: Proportion of Households with Access To Basic Services

1.12 Financial Viability Highlights

Table 8: Municipal Viability Highlights

Highlight	Description
Long Term Financial Plan	The Municipality developed a long-term financial planning tool, that can be updated on a regular basis for strategic planning.
Current ratio	The Municipality maintained a current ratio of 1.33:1. This is slightly below the norm of 1.5 to 2:1.
Collection rate	The low economic forecast and growth, the increase in unemployment and the above inflation increases in the

Highlight	Description
	general costs of living have impacted the affordability of municipal accounts. The debtor’s collection rate of 93.67% is a 2% increase from the 91.87% reported in the previous financial year. This improvement has brought our performance closer to the norm of 95%.
Liability Management	Capital Cost (Interest Paid and Redemption) represent 3.98% of total operating expenditure. This indicates that the Municipality has the capacity to take on additional financing from borrowing to invest in infrastructure projects.
mSCOA Specimen Financial Statements	The Municipality implemented the National Treasury mSCOA specimen annual financial statements preparation template, where the financial statements are compiled utilizing the data strings extracted from the financial system.
Debt Management	The Municipality’s total non-current debt represents 22.68% of the total operational revenue. This compares favourably with the norm of 45% and is an indication that the Municipality has the capacity to take on additional financing from borrowings.
Achievement of an Unqualified Audit opinion with no findings for the 2023/24 financial year	The opinion of the Auditor General was that the financial statements present fairly, in all material respects, the financial position of the George Municipality as of 30 June 2024.
Collection of arrear debt through the prepaid meter system up to 50%	The Municipality continuously makes efforts to improve the overall efficiency and effectiveness of processes that subscribe to good governance and proactive financial planning in very challenging economic circumstances.
The Municipality is also in the process of installing smart water meters	Some of the key benefits are that it will be possible to digitally obtain highly accurate meter readings, detect leakages, reduce inefficiencies, and improve the overall effectiveness of water billing.

1.13 Financial Viability Challenges

Table 9: Financial Viability Challenges

Challenge	Description
Financial Viability	The traceability of all debtors poses a challenge to the debt collection process. Low economic growth, increase in unemployment and above inflation increases in the cost of water impacts on affordability of municipal accounts
Revenue Leakage	An integrated revenue enhancement approach was followed to combat revenue leakages.
Achievement of an average debt collection ratio of 93.67% below the target of 95% due to the impact of the rising cost of living due to the underperforming national economy	The payment ratio was closely monitored monthly and various credit control actions were strictly implemented, including the collection of arrear debts through prepaid meters up to. This yielded positive results as there is an increase of 2% year on year in the collection ratio.
Increasing outstanding debt: The Municipality’s outstanding debt for the period from 1 July 2023 to 30 June 2024 increased from R473.7m. to R505m. The biggest contributor to long outstanding debt relates to water debt resulting from water leakages in indigent households	Smart water meters are being installed to improve the efficiency water meter readings and detect water leakages, this will reduce the number of queries relating to estimates and prevent debt from escalating due to water leakages.

1.14 Financial Overview

According to Section 43 of the Local Government: Municipal Systems Act 32 of 2000 and the Local Government: Municipal Planning and Performance Management Regulations of 2001, the following table summarises George Municipality's performance for each National Key Performance Indicators

The following key performance indicators are linked to the National Key Performance Indicator (KPI): Municipal Financial Viability and Management.

Table 10: Municipal KPIs for Financial Viability

Description	2021/22	2022/23	2023/24
Cost Coverage: The norm is 1-3 months. This ratio gives an indication of the Municipality's ability to meet at least its monthly fixed operating commitments from cash and short-term, investment without collecting any additional revenue during that month. The monthly cost coverage is within the norm. It will take 2.44 months for George Municipality to cover expenditures out of available cash and liquid assets.			
Calculation (Available cash + Investment - Unspent grants)/monthly fixed operational expenditure	3.15 months	2.19 months	2.44 months
Total Outstanding service debtors to revenue: Measures how much money is still owed by the community for water, electricity, waste removal and sanitation as compared to how much money has been paid for these services.			
Calculation: Total outstanding service debtors)/annual revenue received for services	11.60%	13.72%	13.37%
Debt Coverage: If the result of the Ratio Analysis indicates less than 45% then the Municipality still has the capacity to take increased funding from borrowings, however, this should be considered within the cash flow requirements of the Municipality.			
Calculation: (Overdraft + Finance lease obligation + Borrowings) / (Total operating revenue - Conditional grants) x 100	13.83%	14.00%	22.68%

Table 11: Financial Viability and Management Financial Overview (000')

Details	Original budget	Adjustment Budget	Actual
	R'000		
Income			
Grants (Operating and Capital)	1 097 195 988	2 047 206 060	1 260 693 775

Less Expenditure	3 065 058 376	3 175 368 406	2 948 786 409
Net surplus / (deficit)	514 872 925	1 370 058 678	621 590 185

1.14.1 Operating Ratios

Employee costs are below the national norm of between 35% to 40%, whilst this represents a positive outcome, it requires monitoring to ensure sufficient capacity for a fast-growing city. Repairs and maintenance are below the norm, which indicates that expenditure on repairs and maintenance will have to be increased in future budgets to maintain Council's assets. Finance charges are 11.81% lower than the norm of 15%. This can be attributed mainly to our ability to fund our capital programmes to some extent from our own sources (CRR) and not rely heavily on external finance.

Table 12: Operating Ratios

Detail	Expected Norm	Actual
Employee Cost	35%- 40%	24.87%

1.15 Municipal Standard Chart of Accounts

The MFMA Circular No. 80: Municipal Financial Systems and Processes requirements in support of the Municipal Standard Chart of Accounts (mSCOA) which was issued in terms of the Local Government: Municipal Finance Management, 2003 (Act No. 56 of 2003) (MFMA). In MFMA SCOA Circular 1 it was indicated that mSCOA is a business reform rather than a mere financial reform and requires a multi-dimensional relationship.

The municipal standard chart of accounts has been implemented in George Municipality since 01 July 2017. The Municipality is in continuous engagement with the service provider, National Treasury and other municipalities through various working groups as well as online platforms to improve mSCOA compliance and functionality.

1.16 Organisational Development Overview

The Municipality regarding municipal transformation and organisational development achieved the following highlights:

Table 14: Organisational Development Highlights

Highlights	Description
Filling of critical posts	Critical posts are filled as and when required with the availability of funds.
Individual Performance Management	The Municipality has phased in individual performance management to all staff within the organisation.

1.17 MFMA Competencies

In terms of section 83(1) of the MFMA, the accounting officer, senior managers, chief financial officer, non-financial managers and other financial officials of a Municipality must meet the prescribed financial management competency levels that are key to the successful implementation of the MFMA. National Treasury prescribed such financial management competencies in Government Notice 493, dated 15 June 2007.

To assist the officials in acquiring the prescribed financial competencies, National Treasury, with the collaboration of various stakeholders and role players in the local government sphere, developed an outcome-based NQF Level 6 qualification in municipal finance management. In terms of the Government Notice 493 of 15 June 2007, "(1) No Municipality or municipal entity may, with effect, as of 1 January 2013 (exempted until 30 September 2015 as per Government Notice 179 of 14 March 2014), employ a person as a financial official if that person does not meet the competency levels prescribed for the relevant position in terms of these Regulations."

The table below provides details of the financial competency development progress as required by the regulation (Government Notice 493 of 15 June 2007):

Table 15: Financial Competency Development: Progress Report

Description	A Total number of officials employed by Municipality (Regulation 14(4)(a) and (c))	B Total number of officials employed by municipal entities (Regulation 14(4)(a) and (c))	Consolidated: Total of A and B	Consolidated: Competency assessments completed (Regulation 14(4)(b) and (d))	Consolidated: Total number of officials whose performance agreements comply with Regulation 16 (Regulation 14(4)(f))	Consolidated: Total number of officials that meet prescribed competency levels (Regulation 14(4)(e))

Total	101	0	101	0	9	88

1.18 Auditor General Report

The Auditor-General of South Africa has a constitutional mandate and, as the Supreme Audit Institution (SAI) of South Africa, exists to strengthen the country’s democracy by enabling oversight, accountability and governance in the public sector through auditing, thereby building public confidence. In short, the Auditor-General checks the spending of public money by looking at whether it has been used ideally and for the purposes intended. This process is concluded by annually checking all government spending.

The diagram below indicates the audit outcome progress from 2019/20 to 2023/24.

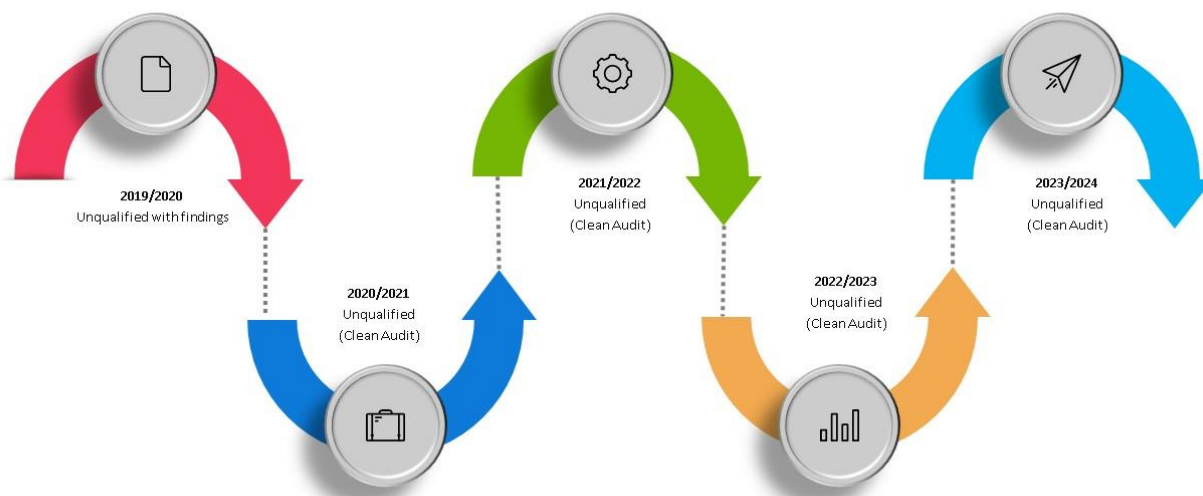

Figure 37: Audit Outcomes From 2019/20 To 2022/23

1.19 Statutory Annual Report Process

To meet the statutory processes governing the 2023/24 audit and annual report process the following activities are required:

Table 16: Statutory Annual Report Process

No	Activity	Timeframe
1	Finalise the Fourth Quarter Report for the previous financial year	July 2024
2	Submit draft year 2023/24 Annual Performance Report to Internal Audit and Auditor-General	August 2024
3	Municipality submits draft consolidated annual financial statements and performance report to Auditor-General	August 2024
4	Annual Performance Report as submitted to Auditor-General to be provided as input to the IDP Analysis Phase	January 2025
5	Mayor tables the unaudited Annual Report	January 2025
6	Auditor-General audits Annual Report including consolidated Annual Financial Statements and Performance data	September 2024– January 2025
7	Municipalities receive and start to address the Auditor-General’s comments	January 2025
8	Mayor tables Annual Report and Audited Financial Statements to Council complete with the Auditor-General’s Report	January 2025
9	Audited Annual Report is made public, and representation is invited	February 2025
10	Municipal Public Accounts Committee (MPAC) assesses the Annual Report	February – March 2025
11	Council adopts Oversight Report	March 2025
12	Oversight report is made public	April 2025
13	Oversight report is submitted to the Auditor-General and relevant provincial departments	April 2025

CHAPTER 2: GOOD GOVERNANCE AND PUBLIC PARTICIPATION

2.1 Introduction

Good Governance is a government approach committed to creating a system founded on strengthening democracy, promoting transparency, building public administrative capacity and responding to public needs. It is measured by eight factors namely participation, rule of law, transparency, responsiveness, consensus-oriented, accountability, effectiveness and efficiency, equitability, and inclusivity. Within the context of good governance, corruption is minimised, the views of minorities are considered and the voices of the most vulnerable in society are heard in decision-making. It is also responsive to the present and future needs of society.

2.2 National Key Performance Indicators - Good Governance and Public Participation

The following table indicates the Municipality’s performance in terms of the National Key Performance Indicators required in terms of the Local Government: Municipal Planning and the Performance Management Regulations 796 of 2001 and section 43 of the MSA. This key performance indicator is linked to the National Key Performance Area - Good Governance and Public Participation.

Table 17: National KPI - Good Governance and Public Participation

KPA and Indicators	2019/20	2020/21	2021/22	2022/23	2023/24
The percentage of a Municipality’s capital budget spent on capital projects identified for a particular financial year in terms of the Municipality’s integrated development plan.	70.25%	86.57%	96.56%	64.05%**	55.72%**

** Performance Comment: In both the current and previous financial year, National Treasury allocated substantial additional grant funding to George Municipality. George Municipality received R431.6 million in March 2023. In the 2023/24 year, George Municipality received R439 million (excluding VAT) on 29 March 2024, again late in the fiscal year. Consequently, the original capital expenditure budget increased from R636.5 million to R1 437.4 million due in part to prior year rollovers and additional funding received. The R439 million allocated in March 2024 was for the Public Transport Network Grant (PTNG). Furthermore, George faced heavy rains in 2023, accumulating over 1200mm. Severe weather in April 2024 caused rainfall between 100mm and 220mm, resulting in delays across various projects. Despite this, by 30 June 2024, 110.63% of the original budget had been spent.

Notably, the Civil Engineering Services (CES) directorate achieved an unprecedented capital project expenditure of R704 million in the 2023/24 fiscal year—a staggering 606% increase since 2019/20, when only R99.6 million was spent. This upsurge in funding facilitated numerous large-scale complex projects despite minimal increases in project management resources.

The KPI measuring capital expenditure will be revised to redefine its scope more realistically. A new target will be established for the original annual budget spend, and a separate KPI will be introduced to account for significant additional funding received during the financial year.

2.3 Performance Highlights - Good Governance and Public Participation

Table 18: Highlights of Good Governance and Public Participation

Highlight	Description
Audit Outcomes	Clean Audit for four consecutive years.
Communication	The Municipality stays abreast with communication trends. Public participation has been rolled out via online streaming and all council meetings can be accessed electronically via YouTube.

Highlight	Description
Compliance	The Municipality adhered to all laws and regulations in terms of compliance.
Council	New Council was established and remained stable and well-functioning throughout 2021/22. And remained stable and well-functioning throughout 2023/24.
Public Participation	The new Council had the opportunity to participate in the IDP sessions held in January 2023 and April 2023 with all 28 wards. The Municipality also has a Municipal App, the MySmartCity App which allows the community to always communicate with the Municipality as well as log service delivery complaints and provide inputs on the IDP and Budget on the App and via e-mail.
S.80 and S.79 Committees of Council	The establishment of functional S.80 and S.79 Committees of Council and held meetings regularly.

2.4 Challenges - Good Governance and Public Participation

Table 19: Challenges of Good Governance and Public Participation

Description	Actions to address
Vacancies in ward committees	Planned frequent recruitment process in line with the ward committee policy to fill ward committee vacancies.
Roll out training to all 28 Ward Committees	In-house Ward Committee training provided to all Ward Committees
Maintaining an effective and operational ward committee system	The office of the Speaker and Public Participation ensured the effective operation of Ward Committees
Continued IGR Public Participation requests from provincial and national departments at short notice	Utilise the DDM model with District Municipality to enhance communication.
No dedicated unit for municipal-wide public participation	The Municipality is reviewing its Municipal Structure

2.5 Public satisfaction with municipal services

No formal community surveys were developed – the community makes use of the social space to state their satisfaction or dissatisfaction with services and the Municipality will try their utmost best to address the needs of the public.

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

2.6 Political Governance Structure

Section 153 (3) of the Constitution of the Republic of South Africa states that a Municipality must: (a) structure and manage its administration, budgeting and planning processes to give priority to the basic needs of the community as well as promote the social and economic development of the community, and (b) participate in national and provincial development programmes.

The Council performs both legislative and executive functions. It focuses on legislative, oversight and participatory roles, and has delegated its executive function to the Executive Mayor and the Mayoral Committee. Its primary role is to debate issues publicly as well as facilitate political debates and discussions. Apart from their functions as policymakers, Councillors are also actively involved with community work and in the various social programmes in the municipal area.

George Municipality is represented by 55 councillors of whom 28 were elected directly as ward councillors. The rest of the councillors were elected based on the proportion of votes cast for the different political parties. The political composition of the Council is as follows.

Table 20: Political representation

Political Party	Allocation of seats	Gender	
		Male	Female
African Christian Democratic Party (ACDP)	1	1	-
African National Congress (ANC)	10	9	1
Democratic Alliance (DA)	26	17	9
Economic Freedom Fighters (EFF)	2	1	1
Freedom Front Plus (VF+)	4	4	-
GOOD	6	3	3
Patriotic Alliance (PA)	1	1	-
Plaaslike Bersorgde Inwoners (PBI)	5	3	2
Total	55	39	16

Figure 38: Political Structure

2.7 Executive Mayoral Committee

The Municipality's political executive branch is led by the Executive Mayor, with the assistance of the Mayoral Committee. Since the Executive Mayor has been given executive authority to manage day-to-day operations, he or she is at the centre of the system of government. This includes a broad strategic and political obligation. The Executive Mayor has exclusive executive authority and the Council delegates certain authorities to him or her. This is the main component of the executive model.

The Mayoral Committee and the Executive Mayor collaborate when making decisions, despite the Executive Mayor being responsible for the strategic direction and performance of the Municipality.

2.8 Council – 01 July 2022 to 30 June 2024

Below is a table below that categorises the councillors within their specific political parties and wards.

Table 21: Council for the period 01 July 2023 to 30 June 2024

2.8.2 Portfolio Committees

In terms of Section 80 of the Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998), if a council has an executive committee, it may, in terms of Section 79, appoint committees of councillors to assist the executive committee or executive mayor. Section 80 stipulates that committees are permanent committees that specialise in a specific functional area of the Municipality and, in some instances, may make decisions on specific functional issues. They advise the executive committee on policy matters and make recommendations to the council.

The tables below show a comparison of the portfolio committees and meeting dates from 01 July 2023 until 30 June 2024.

2.8.2.1 Corporate Services and Human Resources Committee

2.9 Strategic Governance Structure

The Municipal Manager is the Chief Accounting Officer of the Municipality and the head of the administration and serves as chief custodian of service delivery and implementation of political priorities. The municipal manager is assisted by the directors, which constitutes the Management Team, whose structure is outlined in the diagram below. All the executive team have signed performance agreements for the year under review.

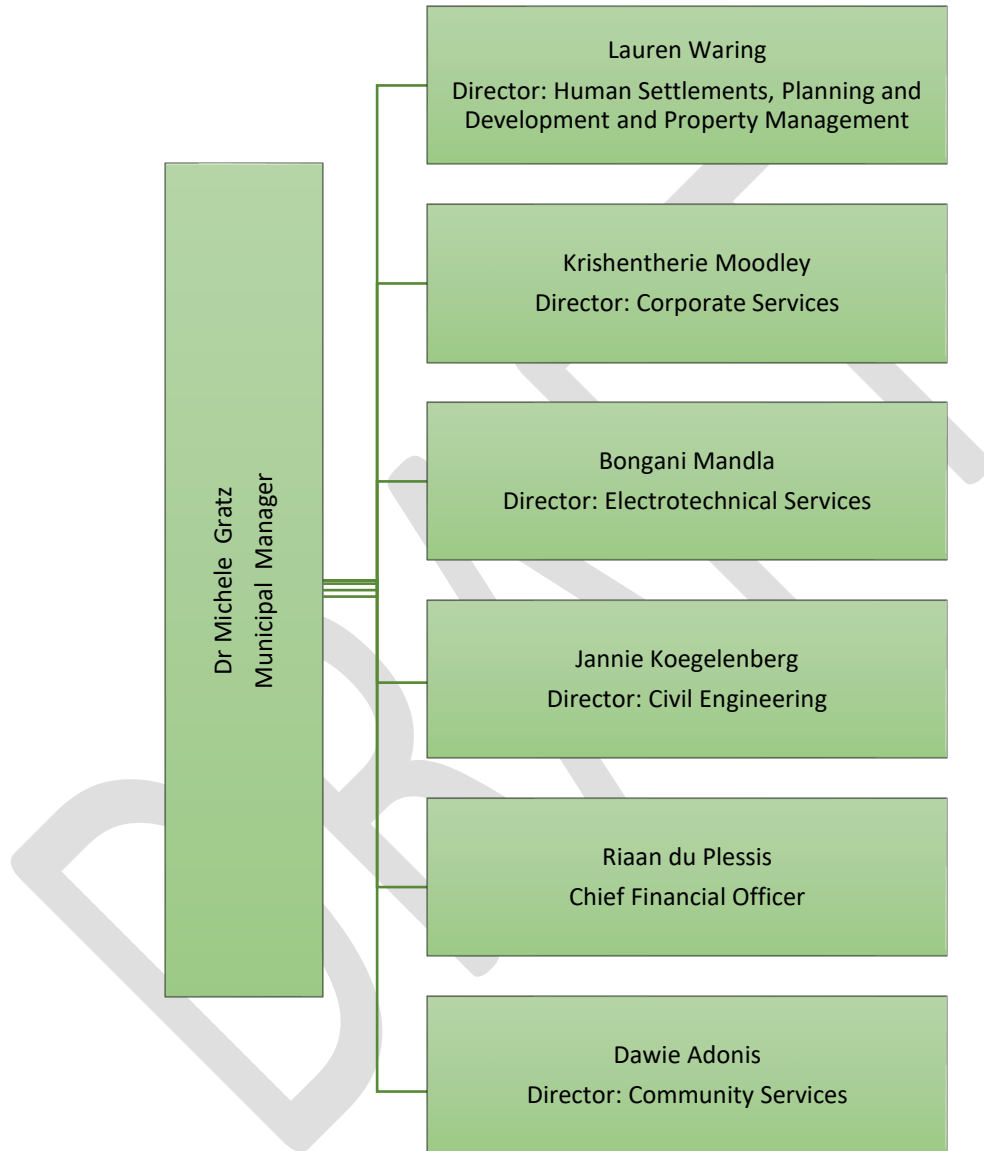

Figure 39: Top Management Structure

COMPONENT B: PUBLIC ACCOUNTABILITY

MSA section 15(b) requires a Municipality to establish and organise its administration to facilitate a culture of accountability amongst its staff. Section 16(i) states that a Municipality must develop a system of municipal governance that complements formal representative governance with a system of participatory governance. Section 18(i)(d) requires a Municipality to supply its community with information concerning municipal governance, management and development.

The participation outlined above is required in terms of the:

- drafting, implementation and review of the IDP;
- establishment, implementation, monitoring and review of the performance management system;
- monitoring and review of performance, including the outcomes and impact of such performance; and
- preparation of the municipal budget.

2.10 Intergovernmental Relations

2.10.1 National Intergovernmental Structures

The National Forum, i.e. The Municipal Managers Forum, facilitated by the Department of Cooperative Government and Traditional Affairs (COGTA) meets twice per annum. New legislation and its implications, as well as challenges for local government, e.g. financial sustainability, professionalism and oversight structures, are discussed.

The Municipality fosters relations with other spheres of government and participates in various intergovernmental activities to promote a closer working relationship between the various spheres of government. These relationships assist in enhancing the Government's services to the communities of George and promotes a more efficient use of resources and sharing of knowledge.

The Municipality faces severe constraints, especially in terms of funding and capacity and therefore effective service delivery is promoted through resources and capacity leveraged from partners.

2.10.2 Intergovernmental Partnering

a) Provincial Transversal Partnering

These partnerships exist between line function departments within the Municipality. The prevailing partnerships include:

- IDP and Budget Steering Committee.
- Project Committees in respect of drafting and amendment of the municipal SDF; restructuring and urban upgrade projects; and
- GIPTN.

Chief Audit Executive and Chief Risk Officer fora are held quarterly in conjunction with Provincial Treasury where all municipalities share best practices and consult on areas of improvement.

The finance department participates in fora including the Supply Chain Management Forum, the Municipal Property Rates Act Forum, the Management Accountants Forum as well as the Chief Financial Officer Forum.

George is represented on the Provincial IDP Managers Forum, the Provincial Public Participation and Communication Forum, all of which are facilitated by the Provincial Department of Local Government.

The Deputy Director: Spatial Planning on the task team set up by DEA&DP to revise the Provincial Spatial Development Framework (PSDF). Through this inter-governmental process, George Municipality can provide input into the format and substance of this document that will have a legal bearing on all local municipalities in the Western Cape.

b) Intergovernmental Partnering

The Municipality partners with other spheres of government in an ongoing effort to leverage financing, mandates and facilitate decision making. The existing partnerships include:

- Housing Department – partnerships with the Western Cape Provincial Government and National Housing authorities to collaborate on delivery and funding for subsidised housing projects and development of restructuring zones aimed at spearheading spatial transformation.
- Civil Engineering Services has ongoing partnerships with state and provincial authorities in efforts to leverage funding for the upgrade of infrastructure to sustain economic growth.
- Protection Services: The development and roll-out of the George Integrated Public Transport Network is a result of a continuing partnership with the Western Cape Provincial Government, with significant funding from national government.
- Local Economic Development actively participates in collaboration with the National Department of Rural Development in an initiative to establish Farmer Production Support Units within the municipal area, whose projects are funded by the National Department.
- Information, Communication & Technology partners with the Garden Route District Municipality & Western Cape Provincial Government in collaborating on implementing good governance as well as knowledge sharing.
- Planning and Development actively partners with the DEA&DP in the process of development of the Municipal Spatial Development Framework and Capital Expenditure Framework saves cost and contributes to the credibility of these frameworks.

Provincial and District Managers IDP Forums	Active
Provincial Community Development Worker Program	Active
Provincial Thusong Forum	Active
SALGA Working Groups	Active
Southern Cape Planners Forum	Active
Western Cape ICT Managers Strategic Forum	Active

c) Cross Boundary Partnership

Partnerships with other municipalities in the Garden Route District facilitate decision-making and serve as a valuable means for the exchange of knowledge and learning best practices. Prevailing partnerships include:

- /Participation in the IDP processes of neighbouring municipalities;
- Active participation in intergovernmental steering committees formed for the drafting of Municipal Spatial Development Frameworks (MSDFs) for our own and neighbouring municipalities; and
- Memoranda of agreement with four other municipalities whereby a Joint Municipal Tribunal has been established to leverage decision-making capacity and expertise in respect of non-delegated land development applications.

The demonstration of the importance of partnerships for the Municipality is illustrated in the table below.

Table 46: Municipal Partnerships

Name of Partner / Partnership	Purpose
Garden Route Skills Mecca	<p>Continue and accelerate collaboration and cooperation among all District skills development role players. Ensure that Skills Development leverages digital infrastructure as far as possible to ensure learning and process methods are and remain cutting edge.</p> <p>As far as possible, link Skills Development to Investment and Economic Development opportunities to the advancement for all.</p> <p>Ensure that all Skills Development processes in the Garden Route always proactively consider renewable energy. Engage with all willing partners, in particular the SETAs and the National Skills Fund, to explore the development and implementation of projects across the district.</p>
George Library / Unisa Partnership:	<p>Venture in annual events and programs. Training and support users; Distribution point of Unisa brochures, posters and announcements, Internet access and usage collaboration on courier service study space for Unisa students' collaboration on good governance collaboration via mobile library and service Reports, statistics and information sharing</p>
Informal Settlement Support Program	<p>There is no MOU/MOA for this forum. 2.10.3 Joint Project Sector Department Functionality

The functions of Government are divided between national, provincial, and local spheres. The Municipality shares its area and community with other spheres of Government and the various sector departments. It must work closely with the departments to ensure the effective implementation of various projects and functions. The table below provides details of such projects and functions.

Table 48: Joint Project Sector Department Functionality

Name of project/function	Expected outcome of the project	Involved sector department	Contribution of sector department
Illegal dumping awareness and cleaning	Raise awareness of the negative impacts of illegal dumping, and clear dumping hotspot areas as much as possible.	GRDM and George Municipality representatives from various directorates	GRDM social media artwork, signage
Integrated National Electrification Programme (INEP)	Electrification project of: Establish a 66/11kV substation in Thembalethu	National Department of Mineral Resources and Energy(DMRE)	Allocated funds of R3 074 783 incl VAT for Thembalethu
Funda Mzantsi Reading Championship	Addressing several SDG's; Rehabilitation and social reintegration of offenders at Correctional Service; Social cohesion, diversity and inclusiveness; Cultural enhancement and exchange; promoting African indigenous languages	National Library of South Africa, Correctional Service and George Municipality (different directorates)	Branding; Provided halls (Thembalethu and Conville) and hiring of facility for the main event/s; communication; security (Law enforcement officers) and sound at all the venues

2.10.4 Ward Committees

George Municipality has a Ward Committee System in place, which plays a crucial role in achieving the aims of local governance and democracy, as mentioned in the Constitution of 1996. A ward committee is independent of the Council and not politically aligned. The figure below depicts the main duties of the ward committees.

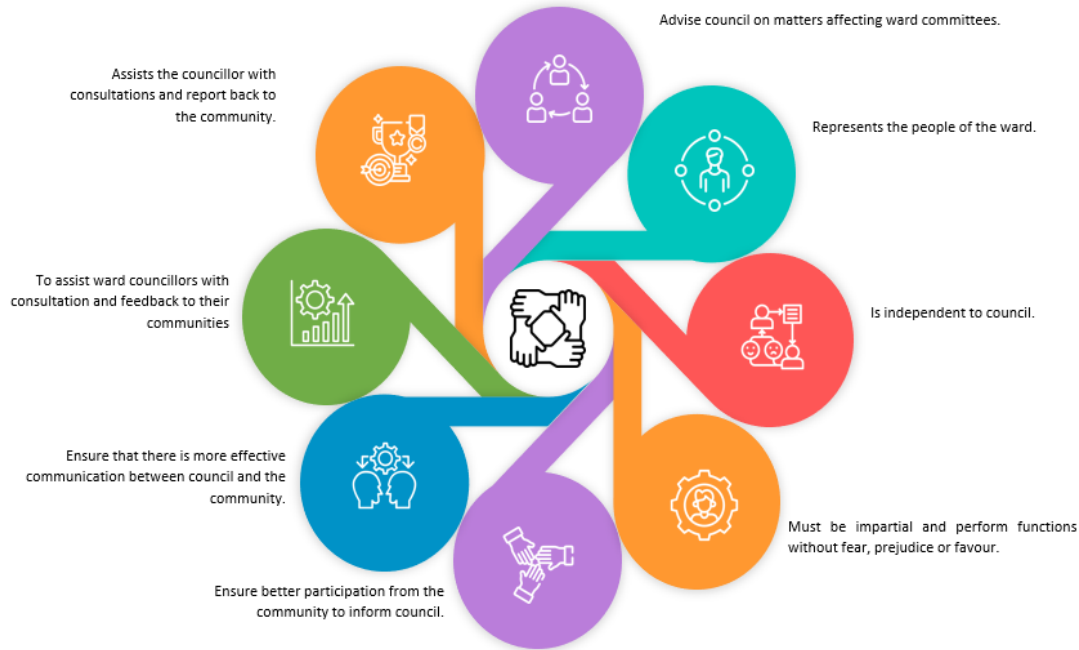

Figure 40: Duties of ward committees

A new system of democratic local governance was established in 1994 with the advent of democracy, which upholds a set of fundamental values and principles. Transparency, accountability, and an open and inclusive system of governance through community participation in governance, planning, and democratisation of development are examples of such values and principles. This undoubtedly elevated South Africa to the level of democratic governments worldwide and established it as a credible model for a decentralised system of government that is effective.

The perspective of participation continues to be a fundamental tenet of effective governance and is an essential element in the formulation of policies, budgetary matters, and development strategies. In accordance with Section 152 of the Constitution, community participation is fundamental to local government service delivery and other affairs. In a similar vein, the MSA and the Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998) provide the legislative framework for municipalities to form ward committees.

According to Section 42 of the MSA, a Municipality is required to engage the local community in the development, implementation, and evaluation of its performance management system. This engagement should be achieved through the establishment of suitable mechanisms, processes, and procedures as outlined in Chapter 4 of the aforementioned Act. Notably, the community should be granted the opportunity to contribute to the establishment of suitable key performance indicators and performance targets for the Municipality.

There is now widespread agreement that a ward committee is a committee that operates within a specific location and its boundaries align with those of the ward.

Ward committees should be elected by the constituents of the ward. The maximum number of members for a ward committee is 10, and women ought to be adequately represented. The ward councillor is a member and functions as the chair of the ward committee. While lacking formal authority, ward committees guide the ward councillor, who subsequently presents detailed recommendations to the council. The aforementioned committees fulfil a pivotal function in the formulation and annual revision of the Municipality's integrated development plan.

The ward committee assists the ward councillor by ensuring that they are updated on progress, involved in the formulation of development plans, and enable broader community involvement. The Municipality endeavours to guarantee that every ward committee operates at peak efficiency with regard to service delivery, IDP input, meeting organisation, information provision, and performance feedback to communities.

2.10.4.1 Functionality of Ward Committees

The purpose of a ward committee is to:

- establish formal communication channels between the community and Council;
- provide guidance to the Ward Councillor in identifying the needs and concerns of the community;
- aid the Ward Councillor in informing the community about their rights and responsibilities; and
- assist the Ward Councillor in consulting and providing feedback to the community.

Ward committees across all 28 wards of George Municipality were established in February 2022 and were all functional during the 2023/24 Financial year. The ward committee functionality was overseen by the Speaker's office and the Municipality provided administrative and financial support to ensure continued functionality.

2.10.4.2 IDP Participation and Alignment

The Administration reports quarterly to Council on the functionality of the 28 wards within the Municipality. The following criteria must be met to confirm public participation and strategic alignment.

Table 77: IDP Participation and Alignment

IDP Participation and Alignment Criteria		Yes/No
1	Does the Municipality have impact, outcome, input, and output indicators?	Yes
2	Does the IDP have priorities, objectives, KPIs, and development strategies?	Yes
3	Does the IDP have multi-year targets?	Yes
4	Are the above aligned and these can be calculated into a score?	Yes
5	Does the budget align directly with the KPIs in the strategic plan?	Yes
6	Do the IDP KPIs align with the Section 57 managers?	Yes
7	Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
8	Do the IDP KPIs align with the provincial KPIs on the 12 outcomes?	Yes

COMPONENT C: CORPORATE GOVERNANCE

Corporate governance refers to a set of processes, practices, policies, laws and stakeholders affecting the way an institution is directed, administered or controlled. The objectives that guide the institution and the relationships among its numerous stakeholders are also components of corporate governance.

2.11 Risk Management

Section 62 of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA), states that the Accounting Officer should take all reasonable steps to ensure that the Municipality has and maintains effective, efficient and transparent systems of financial and risk management and internal control, as well as the effective, efficient and economical use of the resources of the Municipality.

The Local Government: Municipal Systems Act (Act 32 of 2000) (Systems Act) enables Local Government to establish a simple framework for the planning, performance management, resource mobilisation and organisational change core processes that underpin the notion of developmental local government. The Act provides for legal matters pertaining to Local Government.

Other legislation such as the Local Government: Municipal Structures Act (Act 117 of 1998) (Structures Act) and the Municipal Finance Management Act (Act 56 of 2003) (MFMA) establish frameworks and legislation to regulate the internal systems and structures as well as to secure sound and sustainable management of the financial affairs of municipalities.

Section 154 of the Constitution obliges National and Provincial Governments to take part in cooperative government as well as to support and strengthen the capacities of municipalities to manage their affairs, exercise their powers and perform their functions.

This principle is further outlined in the Systems Act in Section 3 (2), which states that National and Provincial Spheres of Government must - within the Constitutional system of cooperative Government envisaged in Section 41 of the Constitution - exercise their executive and legislative authority in a manner that does not compromise or impede a Municipality's ability or right to exercise its executive and legislative authority.

The above-mentioned legislation clearly places the onus of service delivery on municipalities, which - through their leadership - are responsible for the promotion of the social and economic development of the community.

The role of local government leadership and the responsibility placed upon these leaders necessitates ethical values of responsibility, accountability, fairness and transparency as underpinning governance principles.

The King IV Report on Corporate Governance for South Africa, 2016 (herein referred to as "King IV Report") sets out the philosophy, principles, practices and outcomes that serve as the benchmark for corporate governance in South Africa.

2.11.1 Risk Management Overview

While conducting our day-to-day business operations, we are exposed to a variety of risks. These include operational and other risks that are material and require comprehensive controls as well as ongoing oversight.

To ensure business success, we have adopted an enterprise-wide integrated approach to the management of risks. By embedding risk management processes into key business processes - such as planning, operations and new projects - we are better equipped to identify events affecting our objectives and to manage risks in ways that are consistent with the approved risk appetite. To implement the enterprise-wide approach, we have taken several steps to reinforce a culture of disciplined risk-taking.

2.11.2 Risk Management Objectives

The objectives of risk management are to assist management with making more informed decisions which:

- Provide a level of assurance that current significant risks are effectively managed;
- Improve operational performance by assisting and improving decision-making and planning;
- Promote a more innovative, less risk-averse culture where taking calculated risks – in terms of pursuing opportunities to benefit the Municipality - is encouraged; and
- Provide a sound basis for integrated risk management and internal control as components of good corporate governance

2.11.3 Risk Related Strategies

The Risk Management Framework is reviewed annually. Any amendments are recommended to Council for approval. The Risk Management Framework includes the Risk Management Policy as well as the Risk Management Strategy and Implementation Plan.

Table 78: Risk Related Strategies

Framework	Status Quo
Risk Management Policy	Revised and amendments approved by the Executive Mayoral Committee on 19 June 2023
Risk Management Strategy and Implementation Plan	

2.11.4 Risk Management Process

The Risk Management Framework is reviewed annually. Any amendments are recommended to Council for approval. The Risk Management Framework includes the Risk Management Policy as well as the Risk Management Strategy and Implementation Plan.

The internal environment of George Municipality is crucial for risk management, providing discipline and structure. It influences the risk consciousness of its people and serves as the foundation for all other components of risk management. Objective-setting is a strategic process that establishes operations, reporting, and compliance objectives aligned with the Municipality's risk appetite. Event identification is the process of identifying potential events affecting George Municipality's ability to implement strategies and achieve objectives successfully. Risk assessments are conducted using risk rating scales for both inherent and residual basis, classifying risks into high, medium, and low risks.

Management determines how to respond to these risks, including avoid/terminate, reduce/treat, share/transfer, accept/tolerate, and exploit. Control activities are policies and procedures that ensure management's risk responses are carried out throughout the Municipality, at all levels and functions. These include approvals, authorizations, verifications, reconciliations, reviews of operating performance, security of assets, and segregation of duties.

Control effectiveness is assessed based on design effectiveness and operational effectiveness. The factor assigned to each rating indicates the extent to which the risk related to each control is not managed, i.e., residual risk exposure (inherent risk x control effectiveness). A rating table categorizes the various levels of residual risk, taking into consideration the risk appetite.

Controls are considered based on: Design effectiveness (Is the control "fit for purpose" in theory, i.e., is the control designed appropriately for the function for which it is intended?); and Operational effectiveness (Does the control work as intended?). The factor assigned to each rating indicates the extent to which the risk related to each control is not managed, i.e., the residual risk exposure (inherent risk x control effectiveness).

The following rating table categorises the various levels of residual risk, after taking into consideration the risk appetite.

Table 79: Risk Likelihood Rating Scale

a) Likelihood rating scale

Impact and Likelihood Rating		
Likelihood Grading		
1	Rare	The risk is conceivable but is only likely to occur in extreme circumstances.
2	Unlikely	The risk occurs infrequently and is unlikely to occur within the next three years.
3	Moderate/Possible	There is an above average chance that the risk will occur at least once in the next three years.

Impact and Likelihood Rating		
Likelihood Grading		
4	Likely	The risk could easily occur and is likely to occur at least once within the next 12 months.
5	Common/Certain	The risk is already occurring or is likely to occur more than once within the next 12 months.
Impact Grading		
1	Negligible	Negative outcomes or missed opportunities are likely to have a negligible impact on the ability to meet objectives.
2	Minor	Negative outcomes or missed opportunities are likely to have a relatively low impact on the ability to meet objectives.
3	Moderate	Negative outcomes or missed opportunities are likely to have a relatively moderate impact on the ability to meet objectives.
4	Major	Negative outcomes or missed opportunities are likely to have a relatively substantial impact on the ability to meet objectives.
5	Critical/Extreme	Negative outcomes or missed opportunities that are of critical importance to the achievement of the objectives.

The rating determines the risk exposure. Through this management gets to understand the extent to which potential events might impact their objectives on a scale from 1 as a minimum and 5 as a maximum.

b) Inherent risk exposure

Table 80: Inherent Risk Exposure Grid

Inherent Risk Exposure: the inherent risk exposure is determined by comparing the inherent risk rating against the risk appetite		
Inherent Risk Exposure		
Inherent Risk	Magnitude	Definition
14.1 - 25	High	Unacceptable level of risk. High level of control intervention is required to achieve an acceptable level of residual risk.
6.1 - 14	Medium	Unacceptable level of risk, except under unique circumstances or conditions. Moderate level of control intervention is required to achieve an acceptable level of residual risk.
1 - 6	Low	Mostly acceptable. Low level of control intervention required, if any.

The risk registers were updated to include organizational structure changes, alignment of strategic goals, and Key Performance Indicators (KPIs). KPIs with no risks were escalated to management to identify potential additional risks. A list of typical risks and fraud risks was updated to assist management in identifying additional risks. Risk owners updated the risk registers and reported quarterly on various aspects, including risk universe, risk profile, inherent and residual risks, strategic and operational risks, additional and deleted risks, reassigned risks, risk developments, treatment plans, exceptions, concerns, risks to escalate to management, risks exceeding the risk appetite, risks that materialized, new and emerging risks, cross-cutting risks, and top risks. The strategic risk register outlines focus areas, risk and mitigation measures taken to address identified risks within the organization.

2.11.5 Strategic Risks Identified

The table below depicts the summary output of the top risk analysis in terms of which directorate risks included in the risk register were associated with broader risk themes. Top risks and risk treatment plans are assessed and updated regularly.

Table 81: Risk Register

Risk Item	Risk Title	Risk Description	Inherent likelihood rating	Inherent Impact Ratings	Inherent risk rating
1	Financial Sustainability	Financial sustainability concerns of GIPTN with its municipal funds at the end of the contract or if the grant funding is held back	5	5	25
2	Recruitment, Selection and Appointments	Recruitment, Selection and Appointments of staff	5	5	25
3	Weakness in governance and political instability	Weakness in governance and political instability which impacts administrative stability: (e.g. motions to Mayor etc)	5	5	25
4	Attract investment and provide an enabling environment for growth in George.	Excessive Development Charges (DCs) / capital contributions make it expensive to build and invest in George (fails to attract development). Emerging risk: Auditor-General views that the income from the DCs should be kept separate and then accounted for in terms of the expenditure. Actual revenue far exceeds the budgeted revenue.	5	4	20
5	District Landfill	The current landfill site is at PETROSA, which is already operating at capacity, and is an unsustainable temporary solution until the new District Landfill Site is developed.	5	4	20
6	Climate change resilience and mitigation	Climate change resilience and mitigation	4	5	20
7	Infrastructure (network and bulk)	Maintenance and upgrading of infrastructure (network and bulk)	5	4	20
8	Loadshedding	The impact of load shedding on George Municipality varies between the various departments and business processes: (1) Water treatment plant: the purification of raw water is impacted which may result in the demand > supply. (2) Sewerage pumps (3) Communications (e.g. Protection Services staff; Disaster Management teams; general) (4) IT related / network accessibility (5) Traffic lights (6) Motor vehicle registration department (7) CCTV cameras (8) Impact on the electricity infrastructure and network: power surges (9) New wastewater treatment plant: requires oxygen - the threshold is 1 day without electricity (organisms will die)	5	4	20
9	Records and Information Management	(1) Inadequate storage of hardcopies: (i) Records stored in offices in departments (some offices are full of files). (ii) Records stored in containers which are not customised for archives needs. (2) Inadequate storage space in the Archives Section (i) The fireproof storeroom is too small.	5	4	20

Risk Item	Risk Title	Risk Description	Inherent likelihood rating	Inherent Impact Ratings	Inherent risk rating
		(ii) There are shelves of documents outside the fireproof storeroom because they do not all fit in the storeroom. (iii) These original documents cannot be destroyed yet due to regulations. 3. Non-compliance with the Archives Act, POPIA and other relevant regs and legislation and policies. 4. Missing/incomplete records (especially HR) 5. Inadequate electronically scanned records (especially HSPD) 6. Inadequate electronic record-keeping and archiving resulting in missing records and information.			
10	Water security and water management	Water security and water management	4	5	20
11	Electricity and energy	Emerging risk: Consumers defaulting from the electricity supply grid will result in: (1) Obsolete infrastructure (2) Increased costs to provide electricity to remaining consumers (3) Lost revenue	4	4	16

2.11.6 Anti-Corruption and Anti-Fraud

Section 83(c) of the MSA refers to the implementation of effective bidding structures to minimise the possibility of fraud and corruption, while the MFMA, section 112(1)(m) (i), identifies supply chain measures to be enforced to combat fraud and corruption, favouritism and unfair and irregular practices. Section 115(1) of the MFMA states that the accounting officer must take steps to ensure mechanisms are put in place and the separation of duties in a supply chain management system to minimise the likelihood of corruption and fraud.

Management and Council have taken ownership of combatting fraud and corruption throughout the Municipality.

The Municipality of George is committed to combating fraud and corruption through effective bidding structures and supply chain measures. The Anti-Corruption and Fraud Prevention Framework, adopted by the Council, aims to develop a climate where staff strive for the ultimate eradication of fraud, corruption, theft, and maladministration. The policy communicates the Municipality's commitment to eliminate fraud and reinforces existing regulations aimed at preventing, reacting to, and reducing the impact of such acts. Allegations of such acts are investigated and pursued to their logical conclusion, including legal action, criminal prosecution, and disciplinary action where warranted.

The Anti-Corruption and Fraud Prevention Strategy and Implementation Plan includes the establishment of an Anti-Corruption and Fraud Prevention Committee, a formal Fraud Management Committee (FMC), and ongoing fraud and corruption prevention activities.

Procedures put in place as a deterrent to mitigate key fraud risk areas include division of duties, internal audit review of processes and adherence, an Audit Committee that excludes politicians and officials as voting members, condemnation by the Mayor and Municipal Manager of corrupt practices, and involvement of police as soon as grounds for suspicion become evident.

The Municipality continues to roll out awareness campaigns and raise the level of fraud awareness among employees and other stakeholders. Workshops are held annually with Council and employees to inform them of the policy and enhance awareness within the Municipality. Fraud and corruption prevention media campaigns continued during the year to increase fraud awareness of Council, employees, the public, and other stakeholders. The Executive Mayoral Committee approved a revised Whistleblowing Policy on 19 June 2023, aligned with relevant legislation, regulations, and leading practice. The Fraud Hotline or tip-offline is fully functional and managed. A toll-free number and email service are available to members of the public to report any suspected fraudulent or corrupt activities.

The Protected Disclosures Act came into effect on 16 February 2001, and the Municipality strives to create a culture that facilitates the disclosure of information by staff relating to criminal and other irregular conduct in the workplace responsibly. The Whistleblowing Policy encourages and enables staff to raise concerns within the Municipality, providing avenues for staff to raise concerns, informing them on how to take matters further if dissatisfied with the response, and assuring them that they will be protected from reprisals or victimization for whistleblowing in good faith.

2.12 Anticorruption and Antifraud related strategies

Table 82: Anticorruption and Antifraud Strategies

Framework	Status Quo
Antifraud and Anticorruption Policy, Strategy, and Implementation Plan	Revised and amendments approved by Executive Mayoral Committee on 19 June 2023
Whistle Blowing Policy	

2.13 Functions of the Audit Committee

The Municipal Audit Committee’s objectives and functions are based on Section 166(2) (a-e) of the MFMA, further supplemented by the Local Government: Municipal Planning and Performance Management Regulation, as well as the approved Audit Committee Charter.

The objectives of the Municipality’s Audit Committee are to:

- Assist the Council in discharging its duties relating to the safeguarding of Council’s assets;
- Develop and oversee the operation of an adequate internal process and control system
- Oversee the preparation of accurate financial reporting and statements in compliance with all applicable legal requirements, corporate governance and accounting standards;
- Provide support to the Council on the risk profile and risk management of the Council; and
- Ensure that there is an internal audit function in place and that the roles of the internal and external audit functions are coordinated.

The Audit Committee performs the responsibilities assigned to it in terms of section 166(2) of the MFMA, which is further supplemented by the Local Government Municipal and Performance Management Regulations, 2001, as well as the approved Audit Committee Charter. In terms of Section 166(2) of the MFMA the Audit Committee is an independent advisory body which advises council, political office-bearers, the Accounting Officer and management staff of the Municipality on matters relating to:

- Internal financial control and internal audits;
- Risk management;
- Accounting policies;
- The adequacy, reliability and accuracy of financial reporting and information;
- Performance management;
- Effective governance;

- Compliance with the MFMA, the annual Division of Revenue Act (DoRA) and any other applicable legislation;
- Performance evaluation;
- Any other issues referred to it by the Municipality;
- Reviews the annual financial statements to provide the Council of the Municipality with an authoritative and credible view of the financial position of the Municipality, its efficiency and effectiveness as well as its overall level of compliance with the MFMA, the annual DoRA and any other applicable legislation;
- Responds to Council on any issues raised by the Auditor General in the audit report;
- Carries out such investigations into the financial affairs of the Municipality as the Council of the Municipality may request; and
- Performs such other functions as may be prescribed

The Audit Committee members are as follows:

Table 83: Members of the Audit Committee

Name of representative	Capacity	Meetings Attended during 2023/24 FY					
		25 August 2023	06 October 2023	04 December 2023	01 March 2024	19 April 2024	21 June 2024 continued on 26 June 2024
Mr E Le Roux	Chairperson	✓	✓	✓	✓	✓	✓
Mr K Olivier	Committee Member	✓	✓	✓	✓	Apology	✓
Mr G Mellett	Committee Member	✓	✓	✓	✓	✓	✓
Ms B Gulwa	Committee Member	Apology	✓	✓	✓	✓	✓

The Audit Committee is responsible for advising the Council, political office bearers, the Accounting Officer, and management staff of the Municipality on matters related to internal financial control, risk management, accounting policies, performance management, effective governance, compliance with the MFMA, the annual Division of Revenue Act (DoRA), and performance evaluation. They also review the Annual Financial Statements, providing an authoritative view of the Municipality's financial position, efficiency, effectiveness, and overall compliance with relevant legislation.

The committee responds to Council on any issues raised by the Auditor General in the audit report and considers and responds to the Final Management Report, Report of the Auditor-General on the Annual Financial Statements, findings of the Auditor-General on predetermined objectives and compliance with certain laws and regulations, and the Auditor-General's detailed management letter.

The committee conducts investigations into the financial affairs of the Municipality when requested by Council and performs other functions as prescribed. It reviews the Audit Committee Charter and proposes recommended amendments, approves three-year rolling Internal Audit and Annual Internal Audit Plans, and reviews all internal audit reports issued.

The committee also conducts assessments on the effectiveness of the Committee for review and comment by the Municipal Manager and presents them to Council. They also discuss the implementation of municipal Standard Chart of Accounts (mSCOA)-related reporting and hold ad hoc meetings with officials to address specific areas of concern.

In addition to these activities, the committee performs responsibilities in Performance Management, Internal Audit, Control Environment, Risk Management, External Audit, Compliance with laws, regulations, ethics, Fraud Management

and Investigations, Information Technology and related Governance, and Combined Assurance. Specific recommendations are made to Council for consideration and are included in the Annual Report.

2.14 Internal Auditing

In terms of Section 165 (1) of the MFMA, each Municipality must have an Internal Audit Unit. Section 165 (2) of the Act, gives guidance on what is expected of the internal audit unit regarding responsibility, functions and reporting requirements.

Section 165 (1) of the MFMA states that: Each Municipality and each municipal entity must have an internal audit unit.

The internal audit unit of a Municipality must prepare a risk-based audit plan and an internal audit programme for each financial year, and advise the Accounting Officer and report to the Audit Committee on the implementation of the internal audit plan and matters relating to:

- internal control;
- internal audit;
- accounting procedures and practice;
- risk and risk management;
- performance management;
- loss control;
- compliance with this Act, the Division of Revenue Act and any other applicable legislation; and
- Perform such other duties as may be assigned to it by the Accounting Officer.

The George Municipality’s Internal Audit Activity (IAA) is capacitated to provide independent, objective assurance and consulting services. Independence is maintained by being accountable to the Accounting Officer administratively and by functionally reporting to the Audit Committee. These reporting lines are clearly stated in the George Internal Audit Charter.

The IAA strives to provide value-added service to the Municipality providing workable and sustainable solutions. The George Municipality has a co-sourced IAA. During the period under review, the Chief Audit Executive (CAE) has made significant strides in improving and maintaining a functional IAA.

The CAE has also reviewed various strategic internal audit documents during the year under review. Internal audit engagements are conducted as stated in the audit methodology. Furthermore, progress in terms of the Risk- Based Internal Audit Plan was duly reported to the Audit Committee

Table 84: Internal Audit Highlights

Highlights	Description
CAE Forum & IIASA Participation	The Chief Audit Executive chairs the Western Cape Municipal Chief Audit Executive Forum and was appointed as a Non-Executive Director at the IIASA
Risk Based Audit Plan	97% of the approved Risk Based Audit Plan was completed
Ad Hoc Requests	The IAA accommodate most of the ad hoc management requests received
External Quality Assurance Rating	General Conformance (GC) rating was achieved (Highest rating)
Trusted Advisor	The Unit’s value proposition cuts across all the types of risks that the Municipality faces, including operational and strategic risks

2.15 Supply Chain Management

The George Municipality Supply Chain Management Policy's overall objectives are to:

- Ensure the efficient, effective and uniform planning for - and procurement of - all services and goods required for the proper functioning of the Municipality, as well as the sale and letting of assets that conform to constitutional and legislative principles. This is done while developing, supporting and promoting historically disadvantaged individuals, black economic empowerment, small, medium and micro enterprises (SMMEs) and preferential goals;
- Ensure the efficient, effective and uniform management and disposal of goods and assets;
- Ensure good governance through its SCM processes;
- Prevent SCM system abuse and resulting irregular expenditure;

The Municipality complies with the implementation of Section 112 of the Municipal Finance Management Act, No 56 of 2003 (MFMA).

2.15.1 Competitive bids exceeding R200 000

The following table details the number of Bid Committee meetings held for the 2023/24 financial year:

Table 85: Bid Committee Meetings

2.15.2 Awards made by the Bid Adjudication Committee

The ten highest bids awarded by the bid adjudication committee are as follows:

Table 86: Ten Highest Bids Awarded by Bid Adjudication Committee

Bid number	Title of bid	Directorate and Section	Successful Bidder	Value of bid awarded
T/ING/033/2023	Construction of Thembaletu West Pumpstation Building and Associated Civil Works	DS van Blerk; G Kwana; E Homveld; A Vyfer	Active Phambili Civils cc	R 9 921 395,00
T/ING/024/2022	Tender for the Upgrading of Kleinkrantz Sewer Gravity Main	HP Lategan; RC Rhodes; L Wildskut; K Lutchman; H Muller; JW Robertson	Willvest Twenty-Three (Pty) Ltd t/a Urhwebo E-Transand	R9 910 880,14
ENG003/2023	Engineering, Procurement & Construction of ground mounted 500 kilo Watt peak grid tied solar PV plant at Gwaing wastewater treatment plant	R van der Westhuizen; H Koekemoer	RWK Electrical	R8 719 567,72
T/ING/044/2023	Tender for the Construction of a Temporary Terminal Facility, Shelters and Associated Works for the George Integrated Public	WJ van Niekerk; Be Elev8 (Pty) Ltd	WJVN Civils (Pty) Ltd	R8 063 886,18

Bid number	Title of bid	Directorate and Section	Successful Bidder	Value of bid awarded
	Transport Network (GIPTN), George			
T/ING/040/2023	Tender for the Upgrading of Thembalethu Bulk Sewage Gravity Main: Phase 2	Jl Heurlin; W Buggwangu	Norland Construction (Pty) Ltd	R 6 881 292,48
T/ING/001/2024	Tender for the Manufacture, Supply and Delivery of 15 000l Combination Jet/Vacuum Unit	E Antezana	Shorts Nissan	R 5 252 616,95
T/ING/025/2023	Tender for the Upgrading of Industrial Water Pipeline, Denneoord	CM Mqoboli	Emihle Live (Pty) Ltd	R4 526 891,05
T/ING/007/2023	Tender for the Upgrading of the Bulk Electrical Ring Feed to Thembalethu Sewer Pump Station No. 6	JJ Bosman; HAR van Niekerk; K Lutchman	VE Reticulation (Pty) Ltd	R2 489 695,95
T/ING/037/2023	Tender for the Manufacture, Supply, and Delivery of Drain Cleaning (Jet Machine) Trailers	A Brown	Ian Dickie & Co (Pty) Ltd	R2 049 185,00
DPD040/2023	Appointment of a service provider to prepare an Integrated economic growth Strategy and Implementation Plan	JP Hoffman	H2P Project Management cc	R758 625,00

2.15.3 Awards made by the Accounting Officer

In terms of paragraph 5.2 of Council’s Supply Chain Management policy, only the Accounting Officer may award a bid which is over R 10 million. The authority to make such an award may not be sub-delegated by the Accounting Officer.

The table below indicates the bids awarded by the Accounting Officer are as follows:

Table 87: Awards made by the Accounting Officer

Bid number	Title of bid	Directorate and Section	Successful Bidder	Value of bid awarded
T/ING/006/2024	Tender for the Appointment of a Service Provider for the Rehabilitation of PW Botha Boulevard and Associated Works	NM van der Merwe; RJ Zamudio; K Lutchman; AO Rall	Entsha Henra (Pty) Ltd	R130 352 281,35
T/ING/024/2023	Construction of Pacaltsdorp West 14,5Ml Circular Reservoir, Pumpstation and Associated Infrastructure	CP Cavanagh; K Reeves; GC Zondi; BC Schnell; NB Sithole; MTM Mahlambi	Icon Construction (Pty) Ltd	R106 962 295,76
T/ING/039/2023	Tender for the Construction of New Thembalethu (East) Reservoir, Water Tower, Pumpstation and Associated Works	CP Cavanagh; K Reeves; GC Zondi; BC Schnell; NB Sithole; MTM Mahlambi	Icon Construction (Pty) Ltd	R106 586 336,03

T/ING/027/2023	Tender for the Upgrade of Thembaletu West Bulk Water Pipeline (In-situ Pipe Cracking)	SJ Efrat; MA Camarda; N van Rooyen	Trenchless Technologies (Pty) Ltd	R 13 966 316,31
T/ING/017/2023	Upgrading of Meul Sewage Pumpstation Phase 2, Portion 1: Rising Main and Civil Infrastructure, Parkdene, George	L Barends; K Mtingane; W Jerling; IPT van Heerden	Asla Construction (Pty) Ltd	R 13 046 856,07
T/ING/031/2022	Tender for the Upgrading of Groeneweide Park Bulk Water Pipeline	JW Robertson; HP Lategan; H Muller; RC Rhoades; L Wildskut; K Lutchman	Willwest Twenty-Three (Pty) Ltd t/a Urhwebo E-Transand	R 11 745 637,44
T/ING/052/2023	Refurbishment of Existing Sewage Treatment Ponds: Herold's Bay Sewage Treatment Works	MC Rennie; IW Ross; GA Rennie	Khubeka Construction cc	R 11 308 553,00

2.15.4 Appeal Lodged by aggrieved bidders

The table below indicates the total appeals lodged during the year under review.

Table 88: Objections Lodged

Date	Tender number	Description	Complainant	Complained	Outcome
19 July 2023	HS003/2023	Tender for the leasing of eight (8) community erven next to Rosedale (Reigerpark) Pacaltsdorp.	Pentecostal Protestant Church Calvary	Objected to the award of the tender and questioned why they were not considered.	Not successful. Their price was too high, to be considered.
20 July 2023	COM003/2023	Additions and alterations to the CCTV Command Centre, Phase 2.	MBA Construction (Pty) Ltd	Objected, that although they made a calculation error, they were not provided an opportunity to respond, that they are able to perform the work with the tendered price.	Not successful. Their low rates posed an unacceptable commercial risk to the Municipality.
01 September 2023	T/ING/002/2023	Tender for the appointment of a service provider for the supply, repair and maintenance of camera units for the Go-George bus fleet for a period of three (3) years.	AFSOL TMS Pty (Ltd)	They objected that they were not found successful, although they had the lowest price.	Unsuccessful, they did not receive the required points for functionality and could therefore not be evaluated on price and points.
11 September 2023	T/ING/015/2023	Tender for the appointment of multi-disciplinary professional engineering services: new permanent George Integrated Public Transport Network (GIPTN) bus depot.	SMEC South Africa (Pty) Ltd	They objected that their price was lower, than that of the successful tenderer.	After receiving the reasons why their tender was not successful, i.e. did not meet functionality scoring, they withdrawn their objection.
13 September 2023	T/ING/006/2023	Appointment of a professional team to provide marketing and	Makazukiswe Enterprise (Pty) Ltd	They objected to the awarding of this tender to	Unsuccessful, they did not receive the required points

Date	Tender number	Description	Complainant	Complained	Outcome
		communication services for the George Integrated Public Transport Network (GIPTN), for a period of three (3) years.		the successful tenderer.	for functionality and could therefore not be evaluated on price and points.
09 October 2023	T/ING/006/2023	Appointment of a professional team to provide marketing and communication services for the George Integrated Public Transport Network (GIPTN), for a period of three (3) years.	Dreamfuel Media CC.	They objected that their price was the lowest and was not appointed.	Unsuccessful. Although, their price was the lowest, the successful tenderer's total points were a slight margin higher, than that of the objector's point.
06 November 2023	COM018/2023	Tender for the appointment of a Service Provider to render a complete well equipped and suitably qualified lifesaving function in the greater George area for a period from date of appointment until 30 June 2026.	Lifesaving Medical Rescue Services and Training (Pty) Ltd	They objected that tender process was manipulated, the tender was not awarded through a proper bidding process and that the specifications were rigged.	Unsuccessful. Their grounds of objection were found not valid. Their bid was also found non-responsive as they could not adhere to the tender conditions.
12 November 2023	COM036/2023	Appointment of a contractor for the manufacturing and installation of fabricated 36-seater steel pavilions at the various fields.	Mr. Lionel Marshall Nkosi	Complaints about tender specifications and made allegations of corruption against municipal officials.	Unsuccessful. Not a tenderer to this tender and grounds found not valid. Tender also not awarded yet.
04 December 2023	ENG002 of 2023	Tender for the appointment of Consulting Engineers for professional engineering services for	Sekhukhune and Associates.	They objected to the way the evaluation of this tender was conducted.	Unsuccessful. They failed to submit the necessary documents required to qualify for pre-

Date	Tender number	Description	Complainant	Complained	Outcome
		various projects in the 2022/2023 3-year multi year budget.			qualification scoring.
18 December 2023	T/ING/024/2023	Tender for the construction of Pacaltsdorp West 14,5ml circular reservoir, pumpstation and associated infrastructure.	RWC Ruwacon	Objected, that they were incorrectly scored with the pre-qualification evaluation.	Unsuccessful. They failed to submit the necessary documents required to qualify for pre-qualification scoring.
01 February 2024	ENG005/2023	Tender for the engineering, procurement and construction of battery energy storage system at Gwaing wastewater treatment work, Outeniqua wastewater treatment work and civic centre building, including a 24-month operation and maintenance period.	Hamsa Consulting Engineers	Objected and requested information on criteria used to evaluate this tender.	Objection was withdrawn, after having received the information on why they were not considered.
16 February 2024	COM033/2023	Tender for collection of recyclable waste from households and businesses by means of blue bags, for period, from date of appointment until 30 June 2026.	Mzansi Afrika Consulting Services (Pty)Ltd	Objected, that their 3 reference letters were sufficient.	Objection was withdrawn, after having received reasons, why their reference letters could not be considered.
20 February 2024	HS031/2023	Appointment of a panel of Contractors for plumbing services at Municipal buildings and facilities, informal areas, and indigent	Nuticept (Pty)Ltd	Objected, that they had experienced delays from SARS and the CIDB portal and should not be penalised for not having a 2SO grading.	Not successful, as the minimum grading for this tender was a 2SO grading, and they failed to submit such.

Date	Tender number	Description	Complainant	Complained	Outcome
		households, as and when required, for a period of three years from the date of appointment until 30 June 2026.			
27 February 2024	COM033/2023	Tender for collection of recyclable waste from households and businesses by means of blue bags, for period, from date of appointment until 30 June 2026.	Waste Carriers (Pty) Ltd	Objected, that they did submit the required reference letters and was still found non-responsive.	Not successful, as the content of their submitted reference letters, did not refer to the required specification.
02 May 2024	T/ING/047/2023	Upgrading of Schaapkop pumpstation and associated infrastructure: Portion 2.	Matamela Consulting CC	Objected, that points were deducted from them in the evaluation process, without valid reasons.	Not successful. They did not provide sufficient proof, as required and did not meet the minimum score in the functionality phase.
18 June 2024	ENG002/2023	Quotations for projects under the tender for the appointment of Consulting Engineers for professional engineering services for various projects in the 2022/23 3-year multi-year budget.	BDE Consulting Engineers	Objected, that they had to use tender rates for quotations.	Not successful. It was communicated, that only tender rates should be used.

2.15.5 Formal Quotations (above R30 000 and below R200 000) Procurement Processes

The following table details the value of formal written quotations between R30 000 and R200 000 awarded during the 2023/24 financial year.

Table 89: Formal Quotations (above R30 000 and below R200 000)

Number of contracts awarded	Value of contractors awarded
56	R3 350 251.93

2.15.6 Deviation from normal Procurement Processes

Paragraph 36 of Council’s Supply Chain Management (SCM) Policy allows the Accounting Officer to deviate from the official procurement process. Deviations amounting to R37 445 010, were approved for 2023/24 as per the table below.

Table 90: Deviation from Normal Procurement Process

Directorate	Less than R30 000 (R)	Between R30 001 and R200 000 (R)	Between R200 001 and R2 000 000 (R)	More than R2 000 000 (R)
Civil Engineering Services	38 828.10	989 408.59	4 076 050.50	2 895 768.89
Community Services	124 893.51	295 919.96	4 842 415.50	0.00

Financial Services	8 280	332 812.51	431 460.68	5 279 959.38
Human Settlements, Planning and Development	36 066.85	128 529.57	0.00	0.00
Office of the Municipal Manager	0.00	455 237.45	205 431.75	0.00
Total	322 764.75	2 815 860.01	14 057 333.25	20 249 052.27

2.15.7 Logistics Management

The system of logistics management must ensure the following:

- The setting of inventory levels that include minimum and maximum levels as well as lead times wherever goods are placed in stock;
- The placing of manual or electronic orders for all acquisitions other than those from petty cash;
- Before payment is approved, certification by the responsible officer that the goods and services are received or rendered on time and are in accordance with the order, the general conditions of the contract and specifications where applicable and that the price charged is as quoted in terms of the contract;
- Appropriate standards of internal control and warehouse management to ensure that goods placed in stores are secure and only used for the purpose for which these were purchased;
- Regular checking to ensure that all assets - including official vehicles - are properly managed, appropriately maintained and only used for official purposes;
- Monitoring and reviewing of supply vendor performance to ensure compliance with specifications and contract conditions for goods or services;

- Each stock item at the municipal stores, Mitchell Street, is coded and listed on the financial system. Monthly monitoring of patterns of issues and receipts is performed by the storekeeper;
- Inventory levels are set at the start of each financial year. These levels are set for normal operations. If special projects are launched by departments, such information is communicated timeously to the Stores section so they can order in advance stock in excess of the normal levels;
- Internal controls are in place to ensure that goods and services received are certified by the responsible person, which is in line with the general conditions of the contract; and
- Regular checking of the condition of stock is performed.

As at 30 June 2024, the value of stock in the municipal stores amounted to R9 864 005.99. For the 2023/24 financial year, stock to the value of only R10 275.75 was accounted for as surpluses and R201 812.40 as deficits.

2.15.8 Supply Chain Management Performance Management

One of the most important key performance indicators in the SCM unit is that of turnaround time from the date that requests are received from departments until bids are adjudicated and awarded. The following table details the performance of each of the key performance indicators:

Table 91: Supply Chain Management (SCM) Performance Indicators

Key Performance Indicator	2021/22	2022/23	2023/24
Ensure that tenders are successfully finalised and awarded within the validity period of the tender to enhance the effective delivery of services	95%	95%	95%
Submit a report on the implementation of the SCM Policy within 10 days of each quarter.	Four reports	Four reports	Four reports
Compliance with the SCM Policy is measured by the limitation of successful appeals against the Municipality.	0 successful appeals	1 successful appeal	0 successful appeals

2.15.9 B-BBEE Compliance information

Section 121(3)(k) of the MFMA indicates that the annual report of a Municipality should include any other information as may be prescribed. The Broad Based Black Economic Empowerment (B-BBEE) Act (Act 53 of 2003; as amended by Act 46 of 2013) read in conjunction with the B-BEE Regulations of 2016 states in Section 13G (1) that all spheres of government, public entities and organs of state must report on their compliance with broad-based black economic empowerment in their Annual Financial Statements and Annual Reports. In accordance with the explanatory notice (Notice 1 of 2018) issued by the B-BBEE Commission, the following tables provide details on the Municipality’s compliance regarding broad-based black economic empowerment:

Total Procurement Spend			
v		Total Value Spend	R2 475 290 819
Total number of Exempt Micro Enterprises (EME’s) suppliers	Total value spend	% Black Ownership	% Black women ownership

2.15.10 Findings of the Auditor-General on Supply Chain Management and Contract Management (2023/24)

Improvements/response to 2023/24 audit findings regarding contract management:

Matter raised by the Auditor-General on Supply Chain Management and Contract Management during previous audits have been addressed. For the 2023/24 year the matters identified by the AGSA concerning Supply Chain Management and Contract Management are not material but will receive the required attention by management to strengthen the internal control environment.

2.15.11 Service Providers Performance

Section 76 (b) of the Municipal Systems Act implies that Key Performance Indicators should inform the indicators set for every municipal entity and service provider with which the Municipality has entered a service delivery agreement:

A ‘service provider’ means a person or institution - or any combination of persons and institutions – that provides to (or for the benefit of) the local community.

‘External service provider’ means an external mechanism referred to in Section 76(b) that provides service to a Municipality.

‘Service delivery agreement’ means an agreement between the Municipality, an institution or person mentioned in Section 76(b) in terms of which a municipal service is provided by that institution or person, either for its account or on behalf of the Municipality.

Monthly Supplier Evaluation Forms are in place for use by the Project Managers when evaluating the service received from all suppliers to George Municipality on contracts above R30,000 in value.

The Supplier Evaluation Forms are drafted by the Contract Management Unit (CMU) during the roll-out of each new contract and distributed during the initial activation. All Supplier Evaluation Forms must be completed and returned to the CMU monthly for the duration of a contract.

In cases where poor performance is identified the CMU will communicate with the User Department regarding the nature of the issues experienced. The best course of intervention action will also be determined based on this communication. The specific Service Level Agreement will also guide the appropriate course of action. If it is determined that the achieved performance constitutes a breach of contract (either through repetition or scale of the issues encountered) the Legal Department will be approached for intervention and remedial action.

2.16 By-Laws and Policies

Section 11 of the MSA gives Council the executive and legislative authority to pass and implement by-laws and policies. Below is a list of all the budget-related policies and by-laws developed and reviewed during the 2022/23 financial year.

Budget related policies reviewed in the 2022/23 financial year are listed below.

Table 92: Policies Reviewed

Policies Developed/Revised	Date Adopted/Reviewed	Public Participation Conducted prior to the Adoption of Policies
Asset Management Policy	31 May 2024	Yes
Budget Implementation and Monitoring Policy	31 May 2024	Yes
Cash Management and Investment Policy	31 May 2024	Yes
Cell Phone Allowance Policy	31 May 2024	Yes
Conferment of Aldermanship on serving Councillors	27 July 2023	No
Cost Containment Policy	31 May 2024	Yes
Customer Care, Credit Control and Debt Collection Policy	31 May 2024	Yes
Disaster Management, Corporate Disaster and Emergency Plan	25 March 2024	No
Funding Borrowing & Reserve Policy	31 May 2024	Yes
George LM Long Term Financial Plan	31 May 2024	Yes
Indigent Policy	31 May 2024	Yes

2.17 Municipal Website

The website is an essential component of the communication infrastructure and overall strategy of a Municipality. It enhances stakeholder engagement, functions as a mechanism for community participation, and enables the monitoring and evaluation of municipal performance by stakeholders. Municipalities are obligated to publish essential documents and information on their websites, as stipulated in Section 75 of the MFMA. This includes the IDP, the annual budget, adjustment budgets, and policies and documents pertaining to the budget.

Below is a website checklist to indicate compliance with Section 75 of the MFMA.

Table 94: Municipal Website Content

Description of Information and/or Document	Yes/No and/or Date Published
Municipal Contact Details (Section 14 of the Promotion of Access to Information Act)	
Full Council details	Yes
Contact details of the Municipal Manager	Yes
Contact details of the CFO	Yes
Financial Information (Sections 53, 75, 79 and 81(1) of the MFMA)	
Adjusted Budget 2023/24	Yes
Asset Management Policy	Yes
Borrowing Policy	
Budget and Treasury office delegations	Yes
Budget and Treasury office structure	Yes
Customer Care, Credit Control and Debt Collection Policy	Yes
Delegations	Yes
Draft Budget 2022/24	Yes
Funds and Reserves Policy	Yes
Grants-In-Aid Policy	No
Indigent Policy	Yes

Assurance Functions (Sections 62(1), 165 & 166 of the MFMA)	
Audit Committee Charter	Yes
Internal Audit Charter	Yes
Risk Management Policy	Yes

2.18 Communication

Local government has a legal obligation and a political responsibility to ensure regular and effective communication with the community. The Constitution of the Republic of South Africa Act 1996, section 152(1)(e), in setting out the objectives of local government, states that municipalities must “encourage the involvement of communities and community organisations in the matters of local government”. Section 160(7) of the Constitution further says that “a municipal council must conduct its business in an open manner, and may close its sittings, or its committees, only when it is reasonable to do so”.

The Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) MSA, section 4, encourages the involvement of communities in the affairs of their municipalities. As a local government, the Municipality has an obligation to act with high levels of transparency, accountability, openness, participatory democracy and direct communication with communities to improve the lives of residents. At the core of the Communication Policy, adopted by Council lies the notion of improved communication that facilitates public participation.

Members of the public can report faults or refer enquiries through an e-mail link on the website to a mailbox. This mailbox is monitored daily, and enquiries, compliments and complaints are forwarded to the relevant departments daily. The municipal website is updated with new and official notices, formal quotations, tenders, news stories, and vacancies as well as meeting agendas and minutes on an ongoing basis. The website is increasingly more user-friendly, and plans are already in place to simplify navigation and increase overall customer satisfaction by restructuring the website.

The municipal Facebook page and the Twitter account have been growing steadily and now reaches a much larger, ever-growing audience. Apart from being used to publicise municipal news stories, photos and videos, social media platforms are used to broadcast important alerts and notices. Traffic is also diverted to the website through the Municipality’s social media platforms. Municipal advertisements are regularly placed in the community and regional newspapers and contribute to building the Municipality’s brand. The Executive Mayor’s monthly newsletter, pamphlets, posters, notice boards and regular IDP/Ward meetings provide the Municipality with additional platforms for communicating with residents and other stakeholders.

Below is a communication checklist for compliance with the communication requirements.

Table 95: Communication Activities

DRAFT

CHAPTER 3: SERVICE DELIVERY PERFORMANCE

3.1 Overview of performance within the organisation

This section gives an overview of the crucial service achievements of the Municipality that were realised during 2023/24 in terms of the deliverables achieved that are linked to the key performance objectives and indicators in the IDP.

To improve performance planning, implementation, measurement and reporting, the Municipality implemented the following actions:

- Departmental operational plans (SDBIPs) were developed for monitoring and reporting on operational programmes. An electronic performance management system is in force within the Municipality. The identical system forms the basis of performance evaluations of the Municipal Manager and Directors; and
- The Municipality tried to follow the "SMART" principle while defining indicators and targets during the construction of the TL SDBIP, as well as the Departmental SDBIP. It was important to make sure that the targets were specific and time-bound to make them measurable.

The objectives of Local Government as enshrined in Section 152 of the Constitution of the Republic of South Africa, 1996, pave the way for performance management. The democratic values and principles in terms of Section 195 (1) of the Constitution of the Republic of South Africa, are also linked with the concept of performance management:

The promotion of efficient, economical and effective use of resources;

- Accountable public administration;
- Transparency by providing information;
- Responsiveness to the needs of the community; and
- Facilitating a culture of public service and accountability among staff.

The Local Government: Municipal Systems Act, No. 32 of 2000 (MSA) requires each Municipality to establish a performance management system. Furthermore, the MSA and the Local Government: Municipal Finance Management Act, No. 56 of 2003 (MFMA) require the municipal budget to be aligned with the Integrated Development Plan (IDP) and create a mechanism for the implementation of the budget against the IDP using the Service Delivery and Budget Implementation Plan (SDBIP).

In terms of Section 46(1) of the MSA, a Municipality must prepare for each financial year, a performance report reflecting:

- The performance of the Municipality and each external service provider during that financial year;
- A comparison of the performance with targets set for performance, as well as performance in the previous financial year; and
- Measures taken to improve performance.

3.2 Organisational Performance

Strategic performance indicates how well the Municipality is meeting its objectives (i.e., which policies and processes are working). All government institutions must report on strategic performance to ensure that service delivery is efficient, effective and economical. Municipalities must develop a strategic plan and allocate resources for implementation. This implementation must be monitored on an ongoing basis and the results must be reported on, during the financial year, to various role players to enable them to implement corrective measures timeously where required.

This report highlights the strategic performance in terms of the Municipality’s Top Layer SDBIP, performance on the National Key Performance Indicators as prescribed in Section 43 of the MSA and an overall summary of performance on municipal services.

The reviewed IDP and Budget for the financial year 2023/24 were approved by Council on 29 May 2023. The IDP and the performance management process are integrated. The IDP fulfils the planning stage of performance management. Performance management, in turn, fulfils the implementation management, monitoring and evaluation of the IDP.

The organisational performance is evaluated by a municipal scorecard (Top Layer SDBIP) at the organisational level.

The SDBIP is a plan that converts the IDP and budget into measurable criteria on how, where and when strategies, objectives and business processes of the Municipality are implemented. It also assigns the responsibility to directorates for the delivering of municipal services in terms of the IDP and budget. The 2023/24 Top Layer SDBIP was approved by the Executive Mayor on 12 June 2023 and the Revised 2023/24 TLSDBIP was approved by Council on 26 February 2024.

The following were considered in the development of the Top Layer SDBIP:

- Areas to be addressed and the root causes contained in the Management Letter of the Auditor-General, as well as the risks identified during the 2022/23 audit;
- Alignment with the IDP, National Key Performance Areas (KPA), Municipal KPAs and IDP objectives;
- Municipal Public Accounts Committee’s Oversight Report to Council on the Annual Report 2022/23; and
- The risks identified by the Internal Auditor during the municipal risk analysis.

The Municipality utilises an electronic web-based system on which Key Performance Indicator (KPI) owners update actual performance monthly. KPI owners report on the results of the KPI by documenting the following information on the performance system:

- The actual result in terms of the target set;
- A performance comment; and
- Actions to improve the performance against the target set if the target was not achieved.

It is the responsibility of the KPI owner to maintain a portfolio of evidence to support the actual performance results.

Both the Executive Mayor and the Municipal Manager duly signed off all the quarterly reports (as prescribed in S52 and S72 of the Municipal Finance Management Act, 56 of 2003) and subsequently submitted them to Council as prescribed by Section 52(d) and 72(1) of the Municipal Finance Management Act, 56 of 2003 (MFMA). The following table indicates the dates on which the reports were signed off.

Table 99: Quarterly Reporting

Period of Reporting	Date Signed
Quarter 1 (01 July 2023 – 30 September 2023)	17 October 2023
Quarter 2 (01 October 2023 – 31 December 2023)	25 January 2024
Quarter 3 (01 January 2024 – 31 March 2024)	16 April 2024
Quarter 4 (01 April 2024– 30 June 2024)	16 July 2024

3.3 Individual Performance (S57 Employees)

The MSA prescribes that the Municipality must enter into performance-based agreements with all Section 57 employees and that these agreements must be reviewed annually. The Municipal Performance Regulations for Municipal Managers and Managers Directly Accountable to Municipal Managers (Regulation 805, August 2006) sets out this process in detail.

Table 100: Performance Agreements Signing

Name	Position	Date Signed (Original Agreement)	Date Signed (Revised Agreement)
Dr M Gratz	Municipal Manager	31 July 2023	16 February 2024
Mr D Adonis	Director: Community Services	19 July 2023	29 February 2024
Mr R Du Plessis	Director: Financial Services	19 July 2023	29 February 2024
Mr J Koegelenberg	Director: Civil Engineering	19 July 2023	Unchanged
Ms K Moodley	Director: Corporate Services	19 July 2023	29 February 2024
Ms L Waring	Director: Human Settlements, Planning and Development	19 July 2023	29 February 2024
Mr B Mandla	Director: Electrotechnical Engineering Services	19 July 2023	Vacant

3.4 Strategic Performance: Top Layer (TL) (Service Delivery Budget Implementation Plan (SDBIP))

In the paragraphs below the performance achieved is illustrated against the Top Layer SDBIP as per the IDP (strategic) objectives. These five objectives are:

1. Affordable Quality Services;
2. Develop and Grow George;
3. Good Governance and Human Capital;
4. Participative Partnerships; and
5. Safe, Clean and Green.

The following figure explains the method used to measure the overall assessment of actual performance against targets set for the key performance indicators (KPIs) of the SDBIP:

Table 101: Performance Assessment Criteria

Category	Colour	Explanation
KPI not yet measured	NA	KPIs with no targets or actuals in the selected period
KPI not met	R	0% <= actual/target <= 74.999%
KPI almost met	O	75.000% <= actual/target <= 99.999%
KPI met	G	Actual meets target (actual/target = 100%)
KPI well-met	G2	100.001% <= actual/target <= 149.999%
KPI extremely well-met	B	150.000% <= actual/target

3.5 Overall Performance

The graph below displays the overall performance for the 2023/24 financial year as per Strategic Objectives:

Table 102: Actual Achievement for 2023/24

Table 103: Overall performance per strategic objective

George Municipality			Strategic Objectives				
			Develop and Grow George	Safe, Clean and Green	Affordable Quality Services	Good Governance and Human Capital	Participative Partnerships
R	KPI Not Met	5 (12.50%)	-	-	4 (16.67%)	1 (16.67%)	-

					Actual	Target			Actual	Actual	Actual	Target	Actual	R	Target	Actual	R
TL1	To manage the municipal finances according to the Municipal Management Act in an effective and efficient manner	The percentage of the municipal capital budget actually spent on capital projects by 30 June 2024 {(Actual amount spent on projects/Total amount budgeted for capital projects less savings) X100}	Percentage of the municipal capital budget actually spent on capital projects by 30 June 2024	Whole Municipal Area: All	64.05%	95%	95%	95%	11.50%	34.70%	51.20%	95%	55.72%	R	95%	55.72%	R
Performance Comment	<p>National Treasury allocated substantial additional grant funding to George Municipality over the past two financial years. In the 2022/23 year, George Municipality received R431.6 million in March 2023, which was quite late in the fiscal year to utilize these funds by 30 June 2023. As a result, the original capital expenditure budget was augmented from R548.6 million to R893.3 million for the 2023 financial year due to this extra funding. The R431.6 million received in March 2023 comprised:</p> <ul style="list-style-type: none"> • Public Transport Network Grant (PTNG) of R45.69 million, • Regional Bulk Infrastructure Grant (RBIG) of R134.2 million, • Municipal Disaster Recovery Grant (MDRG) of R237.5 million, and • Emergency Municipal Loadshedding Relief Grant of R14.2 million. <p>The RBIG allocation followed a request to National Treasury for a R134.2 million modification to annual cashflows over three years for BFI projects. This adjustment did not affect the overall RBIG grant total. However, as no response was received from National Treasury, the Civil Engineering Services (CES) directorate had to decelerate some project aspects in 2022 to remain within the available funding. The R134.2 million for adjusted cashflows was gazetted and transferred in March 2023, necessitating an Adjustment Budget process to incorporate it into the capital budget, enabling acceleration of the affected BFI projects.</p> <p>The MDRG relates to the significant storm damage experienced by George on 21 November and 6 December 2021. Covering 34 different projects, the grant application took considerable time to finalise before the National Disaster Management Centre transferred the funds to the municipality on 31 March 2023. Following an April 2023 Adjustment Budget, CES proceeded with consultant appointments concluded in May 2023. It was impractical to complete these 34 projects by 30 June 2023. Unspent 2022/23 funds were rolled over to the 2023/24 financial year; however, lengthy statutory approvals delayed certain projects, affecting their completion by 30 June 2024. The included project programs, linked to the disaster grant application and Business Plan approved by the National Disaster Management Committee, extended implementation timelines to 2025/26. Despite CES's efforts to expedite all projects, the anticipated full completion is now projected for 30 June 2025. Similarly, the Electrotechnical Services Directorate faced challenges meeting expenditure targets for their MDRG portion, leading to project completions scheduled for 2024/25. These difficulties—including obtaining necessary approvals—were frequently communicated to NDMC and discussed in various meetings with NT, COGTA, DEADP, DWS, SALGA, etc.</p> <p>The funds for PTNG and Loadshedding Relief Grants were fully expended within the 2023/24 fiscal year. Of the additional R134.2 million RBIG funding, R19.2 million was utilised, while R115 million was added to the 2023/24 expenditures for the BFI projects. Of the R237.5 million MDRG, R229 million was rolled over for use in the 2023/24 and subsequent financial years after extensive motivation to National Treasury.</p> <p>In the 2023/24 year, George Municipality received R439 million (excluding VAT) on 29 March 2024, again late in the fiscal year. Consequently, the original capital expenditure budget increased from R636.5 million to R1 437.4 million due in part to prior year rollovers and additional funding received.</p>																

Ref	Predetermined Objective	KPI Name	Unit of Measurement	Area	Past Year Performance		Original Annual Target	Revised Annual Target	Q1	Q2	Q3	Q4		Overall Performance for 2023/2024			
					Actual	Target			Actual	Actual	Actual	Target	Actual	R	Target	Actual	R
		<p>The R439 million allocated in March 2024 was for the Public Transport Network Grant (PTNG). Furthermore, George faced heavy rains in 2023, accumulating over 1200mm. Severe weather in April 2024 caused rainfall between 100mm and 220mm, resulting in delays across various projects. Despite this, by 30 June 2024, 110.63% of the original budget and 48.98% of the adjusted capital expenditure budget had been spent.</p> <p>Notably, the Civil Engineering Services (CES) Directorate achieved an unprecedented capital project expenditure of R704 million in the 2023/24 fiscal year—a staggering 606% increase since 2019/20, when only R99.6 million was spent. This upsurge in funding facilitated numerous large-scale complex projects despite minimal increases in project management resources.</p>															
Corrective Action		The KPI measuring capital expenditure will be revised to redefine its scope more realistically. A new target will be established for the original annual budget spend, and a separate KPI will be introduced to account for significant additional funding received during the financial year.															
TL3	To provide world-class water services in George to promote development and fulfil basic needs	Provision of basic service delivery to George Residents (NKPI Proxy – MFMA, Reg. S10(a))	Number of residential water meters which are connected to the municipal water infrastructure network	Whole Municipal Area: All	37 586	37 250	37 250	37 250	N/A	N/A	N/A	37 250	38 293	G2	37 250	38 287	G2
TL4	To provide sufficient electricity for basic needs	Provision of basic service delivery to George Residents (NKPI Proxy – MFMA, Reg. S10(a))	Number of residential electricity meters connected to the municipal electrical infrastructure network	Whole Municipal Area: All	47 555	44 467	44 467	48 580	N/A	48 580	N/A	48 580	45 881	O	48 580	45 881	O
Performance Comment		Due to an administrative error, the revised target is incorrectly reflected as 48 580, which was in fact the actual achievement as at end of Quarter 2. The correct target is 44 467 as reflected in the initially approved IDP and SDBIP for 2023/2024.															
Corrective Action		Actual performance of 45 881 against the correct target of 44 467 is an overachievement of the annual target. Additional internal control measures will be implemented to prevent similar administrative errors in future. A reduction in the number of residential electrical meters connected to the municipal infrastructure network is expected in the next financial year.															
TL5	To provide and maintain safe and sustainable sanitation management and infrastructure	Provision of basic service delivery to George Residents (NKPI Proxy – MFMA, Reg. S10(a))	Number of residential account holders which are billed for sewerage	Whole Municipal Area: All	39 014	38 085	38 085	38 085	N/A	39 489	N/A	38 085	39 790	G2	38 085	39 790	G2

TL14	To manage the municipal finances according to the Municipal Management Act in an effective and efficient manner	Achieve a payment percentage of 95% by 30 June 2024 {(Gross Debtors Opening Balance + Billed Revenue - Gross Debtors Closing Balance - Bad Debts Written Off)/Billed Revenue x 100}	Percentage of payment achieved by 30 June 2024	Whole Municipal Area: All	91.87%	95%	95%	95%	N/A	N/A	N/A	95%	92.89%	O	95%	92.89%	O
Performance Comment		The Collection rate for the year to date is below target mainly due to the impact of the rising cost of living caused by the underperforming national economy. The impact of load-shedding on the economy have resulted in significantly losses, contributing to increased unemployment and decreased household income levels. A number of mitigating measures are being undertaken to take mitigate this reality and to improve the collection rate															
Corrective Action		Various credit control actions are being strengthened, including the collection of arrear debts through prepaid meters by recovering up to 50% of electricity sales to settle outstanding account debt. The municipality is finalising the co-sourcing of the credit control function to complement the existing staff and improve overall effectiveness of credit control and debt collection actions. Smart water meters are being installed to improve the efficiency water meter readings and detect water leakages, this will reduce the number of queries relating to estimates and prevent debt from escalating due to water leakages															
TL20	To explore and implement measures to preserve resources and ensure sustainable development	Limit water network losses to less than 24% measured annually (limit unaccounted for water to less than 24% by 30 June 2024 {(Number of Kilotres Water Purchased or Purified - Number of Kilotres Water Sold) / Number of Kilotres Water Purchased or Purified x 100}	Percentage of water losses at 30 June 2024	Whole Municipal Area: All	27.22%	20%	<24%	<24%	N/A	N/A	N/A	<24%	20.78%	B	<24%	20.78%	B

Performance Comment		<p>Target not met due to the R505m received from the Department of Transport in March 2024. Unrealistic expectation to have the entire amount spent within 4 months. National Treasury has allocated substantial additional grant funding to George Municipality over the past two financial years. In the 2022/23-year, George Municipality received R431.6 million in March 2023, which was quite late in the fiscal year to utilize these funds by 30 June 2023. As a result, the original capital expenditure budget was augmented from R548.6 million to R893.3 million for the 2023 financial year due to this extra funding. The R431.6 million received in March 2023 comprised: Public Transport Network Grant (PTNG) of R45.69 million, Regional Bulk Infrastructure Grant (RBIG) of R134.2 million, Municipal Disaster Recovery Grant (MDRG) of R237.5 million, and Emergency Municipal Loadshedding Relief Grant of R14.2 million. The RBIG allocation followed a request to National Treasury for a R134.2 million modification to annual cashflows over three years for BFI projects. This adjustment did not affect the overall RBIG grant total. However, as no response was received from National Treasury, the Civil Engineering Services (CES) directorate had to decelerate some project aspects in 2022 to remain within the available funding. The R134.2 million for adjusted cashflows was gazetted and transferred in March 2023, necessitating an Adjustment Budget process to incorporate it into the capital budget, enabling acceleration of the affected BFI projects. The MDRG relates to the significant storm damage experienced by George on 21 November and 6 December 2021. Covering 34 different projects, the grant application took considerable time to finalise before the National Disaster Management Centre transferred the funds to the municipality on 31 March 2023. Following an April 2023 Adjustment Budget, CES proceeded with consultant appointments concluded in May 2023. It was impractical to complete these 34 projects by 30 June 2023. Unspent 2022/23 funds were rolled over to the 2023/24 financial year; however, lengthy statutory approvals delayed certain projects, affecting their completion by 30 June 2024. The included project programs, linked to the disaster grant application and Business Plan approved by the National Disaster Management Committee, extended implementation timelines to 2025/26. Despite CES's efforts to expedite all projects, the anticipated full completion is now projected for 30 June 2025. Similarly, the Electrotechnical Services Directorate faced challenges meeting expenditure targets for their MDRG portion, leading to project completions scheduled for 2024/25. These difficulties including obtaining necessary approvals were frequently communicated to NDMC and discussed in various meetings with NT, COGTA, DEADP, DWS, SALGA, etc. The funds for PTNG and Loadshedding Relief Grants were fully expended within the 2023/24 fiscal year. Of the additional R134.2 million RBIG funding, R19.2 million was utilised, while R115 million was added to the 2023/24 expenditures for the BFI projects. Of the R237.5 million MDRG, R229 million was rolled over for use in the 2023/24 and subsequent financial years after extensive motivation to National Treasury. In the 2023/24-year, George Municipality received R439 million (excluding VAT) on 29 March 2024, again late in the fiscal year. Consequently, the original capital expenditure budget increased from R636.5 million to R1 437.4 million due in part to prior year rollovers and additional funding received. The R439 million allocated in March 2024 was for the</p>

					Actual	Target			Actual	Actual	Actual	Target	Actual	R	Target	Actual	R
		approved budget less savings) x 100}															
Performance Comment		Target just not met, due to legislative and other delays. Legal Services introduced new requirements for the vetting of contract documentation that required adaptation by the legal service provider, and numerous iterations to resolve on a final procedure and documentation list. Issuing of tree permits by the DFFE has been an ongoing challenge with the DFFE not adhering to their approval timelines. This had a significant impact on the Eden Sewer P/S upgrade with the Contractor incurring standing time. Delays in Environmental approval and the issue of a Water Use Licences delayed construction implementation. The Dir: CES has been through 6 recruitment processes for the appointment of an additional Project Manager for the BFI/RBIG projects. The management of consultants and projects for these large and complex projects is a significant challenge, and with the general poor performance of consultants this has also had an impact on ensuring that internal processes can be executed within the condensed timeframe that the BFI grant expenditure timeframe allows. Spend R298M, original budget was R326M. This amount is more than any other department in George Municipality/ The CES total expenditure in 2021/22 was R368M BFI Achieved 94% expenditure - which is excellent.															
Corrective Action		The actual expenditure against the original approved budget would have reflected as 97,44%. The KPI will be revised to redefine its scope more realistically. A new target will be established for the original annual budget spend, and a separate KPI will be introduced to account for significant additional funding received during the financial year.															
TL26	To provide and maintain safe and sustainable sanitation management and infrastructure	Spend 95% of the approved capital budget on the rehabilitation and upgrade of the Sewerage Networks by 30 June 2024 {(Actual expenditure divided by the total approved budget less savings) x 100}	Percentage of the approved capital budget spent on the rehabilitation and upgrade of the Sewerage Networks by 30 June 2024	Whole Municipal Area: All	76.92%	95%	95%	95%	2%	15%	31.41%	95%	62.63%	R	95%	62.63%	R
Performance Comment		Target not met due to the following reasons: Position has been vacant for 4 months; Issuing of tree permits delaying process; Delayed in Environmental and Water Use License Approvals; Poor performance of consultants and Approval of contractual documents by legal delayed.															
Corrective Action		The reasons of delays are due to legislation, these external uncontrollable factors. The actual expenditure against the original approved budget would have reflected as 70,61%. The KPI will be revised to redefine its scope more realistically. A new target will be established for the original annual budget spend, and a separate KPI will be introduced to account for significant additional funding received during the financial year.

This amount is more than any other department in George Municipality/ The CES total expenditure in 2021/22 was R368M BFI Achieved 94% expenditure - which is excellent.</p>															
Corrective Action		<p>An SOP was created with a workflow and tracker system for the approval of legal documents. This has positively impacted on the process and significantly reduced the initial delays experienced. The Directorate meets regularly with DEADP to monitor approvals and resolve all matters that may impact on the delay in issuing of Environmental Approvals. The late issue of Tree Permits by the DFFE was escalated to the provincial Minister of Environmental Affairs and during a meeting with various sector departments that was chaired by the COGTA (this meeting was a MDRG, however the DFFE delays impacts on all capital projects) Bi-weekly meetings are held with problematic consultants' management to monitor performance. Monthly Performance Evaluations are also shared with consultants where necessary to alert harm to poor reports.</p>															

Ref	Predetermined Objective	KPI Name	Unit of Measurement	Area	Past Year Performance		Original Annual Target	Revised Annual Target	Q1	Q2	Q3	Q4			Overall Performance for 2023/24		
					Actual	Target			Actual	Actual	Actual	Target	Actual	R	Target	Actual	R
Actual expenditure 93.81% on original budget. The KPI measuring capital expenditure will be revised to redefine its scope more realistically. A new target will be established for the original annual budget spend, and a separate KPI will be introduced to account for significant additional funding received during the financial year.																	
TL18	To undertake regular human resource audits to determine skills gaps, staff diversity and develop skills programmes	The percentage of people from employment equity target groups employed (newly appointed) in the three highest levels of management in compliance with the Municipality's approved employment equity plan by 30 June 2024	The percentage of people from employment equity target groups employed (newly appointed) in the three highest levels of management in compliance with the Municipality's approved employment equity plan by 30 June 2024	70 Whole Municipal Area: All %	85%	70%	2	70%	N/A	N/A	N/A	70%	75%	G 2	70%	75%	G 2
TL19	To undertake regular human resource audits to determine skills gaps, staff diversity and develop skills programmes	Spend 95% of operational budget on training by 30 June 2024 {(Actual total training expenditure divided by total operational budget) x100}	Percentage of the Municipality's approved workplace skills budget actually spent on implementing its Workplace Skills Plan by 30 June 2024	Whole Municipal Area: All	0.24%	0.15%	98%	95%	N/A	N/A	N/A	95%	87.36%	O	95%	87.36%	O
Performance Comment		Target not achieved due to amendments that needed to be made to the training budget during the mid-year adjustment budget process to accommodate delays experienced in the supply chain management process when the tender for training service providers was done. Challenges were resolved but delayed the actual expenditure.															
Corrective Action		Training expenditure for the 2024/25 financial year will be expedited to ensure the full budget is utilised, now that the tender is awarded.															
TL37	To undertake strategic planning in order to address service delivery challenges in a coordinated manner	Submit the Draft IDP to Council by 31 March 2024	Number of Draft IDPs submitted to Council by 31 March 2024	Whole Municipal Area: All	1	1	1	1	N/A	N/A	1	N/A	N/A	N/A	1	1	G

3.7 Service Provider Performance

George Municipality evaluates all service providers who are contracted to supply goods and services or services. Formal scoring and reporting are required for all tenders and quotations above R30,000.

Section 121(3)(b) requires that performance reporting forms part of the Annual Report.

Supplier Performance Evaluation forms have been designed to report on supplier performance. These forms are created and distributed for each new contract activated by the Municipality. From these forms the supplier performance is scored, documented and reported on. In cases of poor performance, intervention takes place in the form of Supplier Performance Review Notices. Remedial measures and targets are requested from poor performing suppliers / contractors and in collaboration with the Legal Department the way forward is decided on based on the response and subsequent performance received.

All Directors receive a monthly summary of contracts under their control, and it is part of their KPI performance measures to ensure evaluations are done monthly. This strives to address the requirement of Section 116(2)(b): “monitor on a monthly basis the performance of the contractor under the contract or agreement.”

Please see below summarised extract from these consolidated reports for the period ending 30 June 2024.

Table 104: Service Provider Performance Per Directorate

Tender No	Description of services rendered	Successful Tender	Term of contract	Performance Comment

COM012/2022	Appointment of a service provider for the execution of pauper burials for a period of one (1) year	AVBOB Funeral Service	1 Year	Happy with supplier

Tender No	Description of services rendered	Successful Tender	Term of contract	Performance Comment
COM021/2022	For the supply, delivery and installation of poly prop skid unit with canopy and an integrated 600l tank	Ramcom Truck & Loadbodies	Once-off	delivery was made.
COM017/2022	Appointment of a Service Provider to conduct external audits at various waste disposal facilities	QPoint Group	Once-off	no issues with supplier
COM023/2022	Design, manufacturing and delivery of lifeguard tower	George Fibreglass	Once-off	concluded in December.
COM025/2022	Supply, delivery and installation of a 12m (40ft) storage container at Conville Swimmingpool	Kathaka RAW Enterprises (Pty) Ltd	Once-off	Completed Satisfied with supplier
COM003/2022	Supply, Installation and Maintenance of Street Refuse Bins, for period of three (3) years, from date of appointment	Combo Signs (Pty) Ltd	3 Years	appointment done from term.SLA to be signed by all parties. Service provider comply with all conditions
COM044/2022	Supply and delivery of second hand steel containers	Hermiserve (Pty) Ltd	Once-off	official order sent to the service provider on 01 November 2022. Delivered
COM054/2022	Service and calibration of equipment at George Municipality vehicle testing	Cinogen Trading t/a Fulcrum Technologies	1 Year	company assist as needed even telephonically
COM014/2022	Supply and Delivery of Home composter bins for three years	POSTWINK (Pty) Ltd	3 Years	happy with Supplier
COM010/2022	Provision and Transport of 30m skips form the uniondale waste transfer station	Just Breeze General Trading cc	3 Years	happy with Supplier
COM016/2022	Supply and Delivery of Bulldozer	Barlow	Once-off	order issued to supplier- ETA March 2023
COM037/2022	Supply and Delivery of 9mm Parabellum Pistols	Southern Sky Operations	Once-off	Happy with supplier
COM022a/2022	Supply, Installation, Commissioning and Maintenance of Fire-Resistant Public Address Evacuation System	Firewire System Solutions(Replaced with Com22b/2022)	1 Year	terminated.
COM022b/2022	Supply, Installation, Commissioning and Maintenance of Fire-Resistant Public Address Evacuation System	R&T Security Sysytems cc	1 Year	happy with supplier
COM020/2022	Supply and delivery of fire fighting hoses as and when required for a (3) year period	Memotek Trading cc	3 Years	Happy with supplier

Tender No	Description of services rendered	Successful Tender	Term of contract	Performance Comment
COM024/2022	Supply and delivery of ten (10) Gutterhung electronic swimming touchpads and accessories	Swimtronics (Pty) Ltd	Once-off	Service provider requested(invoiced) 80% claiming it to be in the Contract agreement. The request was denied and referred to SCM and the Contract Unit for further investigation/Action.
COM033/2022	Purchase and delivery of mobile toilet/trailer	African Renaissance Supplies	Once-off	exceptional performance
COM041/2022	Removal, supply, replacement and calibration of brake roller equipment at Vehicle Testing Station for a period of one (1) year	Maha South Africa (Pty) Ltd	Once-off	Happy with the supplier
COM057/2022	Manufacture, supply, deliver and installation of polypropylene canopy	Ramcom Truck & Loadbodies	Once-off	Canopy under construction
COM055/2022	Supply and delivery of software equipment for the upgrade of the existing CCTC Control Centre	Innovo Networks	Once-off	Happy with the Supplier.
COM015/2022	Appointment of consulting engineers for waste management infrastructure projects.	EAS Infrastructure Engineers	5 Years	Happy with the supplier
COM050/2022	Supply and delivery of bullet proof vest for a period of One year from date of Appointment	Ballistic Body Armour	1 Year	Happy with Supplier
COM034/2022	NRSC Testing Equipment	Truvelo Africa Electronics	Once-off	Supplier strggles with equipment for supply
COM011/2022	General building maintenance at George Main Library	Nqonka Construction CC	Once-off	Completed
COM046/2022	Maintanance,Repairs and services of the compactor and track sytem at the George Transfer station	Ice Gee Projects	1 Year	Happy with the Supplier
COM039/2022	Construction of Thembaletu Sportshall and Associated works	Matamela Enterprise CC	Once-off	Happy with the Supplier
COM002/2023	Supply and delivery of a Drone	Intergrum Global Solutions	Once-off	Completed

Tender No	Description of services rendered	Successful Tender	Term of contract	Performance Comment
COM007/2023	Appointment of Contractor for the supply and Commissioning in conjunction with existing appointed CCTV contractor for the period of Twelve Months	NAVIC(Pty) Ltd	Once-off	exceptional performance
COM059/2022	Supply and Delivery of street refuse Bins, as and when required for a period of one year from Date of Appointment	Ice Gee Projects	1 Year	Service provider couldn't deliver the street refuse Bins because of time constraints from both parties.
PS033/2021	Appointment of a service provider for the servicing and calibration of equipment at George Municipality Vehicle testing station	Cinogen Trading t/a Fulcrum Technologies	1 Year	Completed
PS040/2019	Supply and Delivery of Uniforms as and when required, for a period of three years from date of appointment	FG Uniforms	3 Years	Happy with the supplier.
PS001/2019	Repairs and Maintenance to existing tracking and camera units as well as the purchase of new units for municipal vehicles and Go George Buses	AFSOL Public Transport	3 Years	Happy with the supplier.
PS030/2019	Tender for the appointment of a professional team to provide marketing and communication services for GIPTN Projects for a period of three years from date of appointment	Rock Solid JV	3 Years	Happy with the supplier.
PS010/2020	Replacement of Fuel Monitoring system for a period of 3 years	Commix Vision	3 Years	Some delivery delays experienced
PS037/2020	Purchase and Maintenance of radio network for a period of three years, if and when required	J and E Communications	3 Years	Happy with supplier.
PS029/2019	Appointment for a suitable transportation planning consultant to prepare the George Comprehensive Integrated Transport Plan	Techso-Toplan-Lyners Consortium	3 Years	Exceptional system
PS027/2020	Supply, Maintenance, Repair and Calibration of digital speed and red - light violation and the management of a back office	Total Computer Services	3 Years	Exceptional performance
PS028/2020	Supply of Traffic and Law Enforcement Contravention System for a period of 3 years	Total Computer Services	3 Years	Exceptional performance
PS026/2020	Supply of Personal Protective Equipment for Fire Fighting for a period of three (3) years	Invuyani Safety CC (Replaced Blackbird Trading)	3 Years	Happy with supplier.

Tender No	Description of services rendered	Successful Tender	Term of contract	Performance Comment
PS009/2020	Supply and installation of standby generators for municipal facilities for a period of three (3) years	MDL Engineering Company (Pty) Ltd	3 Years	Exceptional performance
PS012/2020	Ad-hoc vehicle & equipment hire tender for the period of 3 years	Various	3 years	Minor issues with some suppliers but being managed
PS013a/2020	Servicing, maintenance and repairs of the municipal fleet which includes tyres, batteries, exhaust systems, radiators and branding, OHS Loading checking for load bearing equipment, small plant & vehicle upholstery, Vinyl and canvas works for period of three years	Golden Dividend 536 (Pty) Ltd t/a TATA Garden Route	3 years	Minor issues with some suppliers but being managed
PS034/2020	Provision of sanitising services at the Public Transport Facilities	Bidvest Services (Pty) Ltd	2 Years	Happy with supplier
PS019a/2021	Service, Maintenance and repairs of the Municipal Fleet	Various	3 Years	Minor issues with some suppliers but being managed
PS020/2021	Supply, fitment and maintenance of fire extinguishers for the municipal vehicles for the period of three (3) years	South Cape Fire Services CC	3 Years	No major issues experienced
PS022/2021	Appointment of a service provider for the branding of municipal vehicles for a period of three (3) years	Bendev (Pty) Ltd	3 Years	Some aspects of concern - being monitored
PS026a/2021	Fire Fighting Equipment for three (3) years	Marce Projects (Pty) Ltd	3 Years	No major issues
PS026b/2021	Fire Fighting Equipment for three (3) years	Fire Stuff 365 (Pty) Ltd	3 Years	Happy with the supplier.
PS026c/2021	Fire Fighting Equipment for three (3) years	Vanguard Fire & Safety Inland	3 Years	Happy with the supplier.
PS026d/2021	Fire Fighting Equipment for three (3) years	Fire Raiders	3 Years	No issues with supplier
PS028/2021	Fire Extinguishers for municipal buildings	CH Fire Services	3 Years	Happy with the supplier.
PS030/2021	Supply, Installation, Maintenance and Support Services for the existing municipal urban CCTV surveillance system	Suiderkruis Security Services	3 Years	Happy with the supplier.
PS017/2021	GIPTN Field Monitoring Services	SMEC South Africa (Pty) Ltd	3 Years	Happy with the supplier.
PS031a/2021	Provision of security services for various municipal sites for a period of three years - Area1	Vimtsire Protection & Security	3 Years	No major issues

Tender No	Description of services rendered	Successful Tender	Term of contract	Performance Comment
PS031b/2021	Provision of security services for various municipal sites for a period of three years - Area2	JFH Holdings	3 Years	Happy with the supplier.
PS031c/2021	Provision of security services for various municipal sites for a period of three years - Area3	Bokwe's Security Services	3 Years	Happy with the supplier.
PS032/2021	Routine Servicing, Maintenance and Repairs of Municipal Bus Fleet	Unitrans Passenger and George Link JV	3 Years	Happy with the supplier.
PS034/2021	Supply of Facilities management and guarding services for GIPTN	Bamogale enterprises	3 Years	No major issues
PS003/2022	Upgrade fence at SPCA	ICE Gee Projects	Once-off	Completed end of December 2022
DIRECTORATE: ELECTROTECHNICAL SERVICES				
ENG025/2012	Supply Of Prepayment Electricity Vending System& Service	ONTEC	3 Years	Happy with supplier.
ENG033/2018	Maintenance of standby generator & UPS	George Emergency Power Services	3 Years	Completed - satisfied
ENG027/2019	Store Material: Prepaid Meters	CONLOG	3 Years	Happy with supplier.
ENG035/2019	Removal of illegal Electrical connections in the Greater George Area	EDZ Electrical & Projects	3 Years	Happy with supplier.
ENG017a/2019	Provision of professional services for Electro-Technical Services	NEIL LYNERS & ASSOCIATES	3 Years	Some suppliers to be monitored
ENG031/2019	Apointment of a contractor for the electrification of Erf 325 East	MDL Engineering Company	3 Years	Satisfied with supplier delivery levels
ENG014a/2017	Supply of bulk fuel and oil for a period of five (5) years. Section A: Petrol & Diesel	Readyfuels CC (Was NCA Solutions & The Business Zone 1891 but terminated)	5 years	No major Issues
ENG018/2020	Appointment of contractor for the installation of a 66kV feeder bay at SS Proefplaas	MDL Engineering Company	Once-off	Satisfied with supplier delivery levels
ENG046/2019	Tender for the Engineering Procurement Construcion of 300kv Peak grid Tied Solar PV generating Plant , including 36 months operation and monitoring period	Besmandla	3 Years	Exceptional performance

Tender No	Description of services rendered	Successful Tender	Term of contract	Performance Comment
ENG007/2020	Appointment of a contractor for the construction of a new 66 kv substation	VE Reticulation (Pty) Ltd	Once-off	Work in progress, satisfied.
ENG019/2020	Supply and delivery of ripple control receivers	Memotek Trading cc	3 Years	Exceptional performance
ENG011a/2021	Monitoring and Armed Response at Electrotechnical Services and Main substations for a three (3) year period	LDVS Security Services (Replaced)	3 Years	Issues to address
ENG011b/2021	Monitoring and Armed Response at Electrotechnical Services and Main substations for a three year period	SS Salutions t/a Seal Security	3 Years	TERMINATED
ENG012/2021	Supply and delivery of stock:Readyboards for a period of three (3) years	Siyphambili Electrical & Industrial Supplies cc	3 Years	Happy with supplier
ENG016/2021	Installation of street lights at Uniondale waste water treatment plant	MTDJ Projects (Pty) Ltd	Once-off	store stock delivered on time. Satisfied with Contractor
ENG008a/2021	Supply, delivery and installation of power transformers in George for a three (3) year period, if and when required, from date of appointment	LH Marthinusen (Pty) Ltd	3 Years	Happy with supplier
ENG008b/2021	Supply, delivery and installation of power transformers in George for a three (3) year period, if and when required, from date of appointment	VE Reticulation (Pty) Ltd	3 Years	Happy with supplier
ENG010a/2021	Supply and delivery of street /area lighting equipment and associated stock items	MDL Engineering Company	3 Years	Generally happy with suppliers
ENG009a/2021	Supply & Delivery of Electrical Cables for three years	Universal Cables	3 Years	Generally happy with suppliers
ENG025/2021	Supply and delivery of hundred liter guroflex MV insulating compound or similar	Memotek Trading cc	Once-off	happy with the supplier.
ENG018/2021	Supply and Delivery of Virgin Mineral Oil and accessories	Transformer Field Services	3 Years	Exceptional performance thus far
ENG017a/2021	Supply and Delivery of Multifunction energy and Demand Meters for a period of three (3) years	Memotek Trading cc	3 Years	Generally happy with suppliers
ENG019a/2021	Supply and Delivery of Battery Tripping Units and Station Batteries for a period of three (3) years	Actom Electrical Products	3 Years	Generally happy with suppliers
ENG022/2021	Supply and delivery of a surge wave generator and surge	Memotek Trading cc	Once-off	happy with the supplier.

Tender No	Description of services rendered	Successful Tender	Term of contract	Performance Comment
ENG015/2021	Electrification metro Ground	MDL Engineering Company	2 Years	Transformers
ENG027a/2021	Supply and Delivery of Stock: Transformers & Minisubs for three (3) years	Actom Products	3 Years	happy with supplier
ENG027b/2021	Supply and Delivery of Stock: Transformers & Minisubs for three (3) years	SGB Smit	3 Years	store stock delivered on time. Awaiting delivery
ENG027c/2021	Supply and Delivery of Stock: Transformers & Minisubs for three (3) years	Greenro Solutions	3 Years	Happy with supplier. The Contract is replaced with ENG006/2022 tender for a three year Period
ENG005/2022	Appointment of a service provider for the OHS load checking of load bearing equipment for a period of one year	Preda Lifting & Inspection Services (Pty) Ltd	1 Year	contractor's performance is satisfactory
ENG020/2021	Electrical Construction and Maintenance work for a period of three (3) years	EJM Electrical cc	3 Years	CMU intervened. Some improvement experienced
ENG028/2021	Supply and Delivery of PPE as and when required for a period of three years	Let's Share Trading 54 CC	3 Years	Exceptional performance
ENG008/2022	Protection, testing and Maintenance of substation within George Municipal area, if and when required, for a period of three (3) years, from date of appointment.	EYA BANTU GROUP (PTY) LTD	3 Years	stores stock. No orders placed

COMPONENT A: BASIC SERVICES

This component includes the municipal functions, basic service delivery highlights and challenges, details of services provided for water, wastewater (sanitation), electricity, waste management, housing services and a summary of free basic services.

3.8 Municipal Functions

3.8.1 Analysis of Functions

The municipal functional areas are indicated below.

Table 104: Municipal Functional Areas i.t.o. the Constitution

Municipal Function	Yes / No
Constitution Schedule 4, Part B functions:	
Air pollution	Yes
Building regulations	Yes
Childcare facilities	Yes
Electricity and gas reticulation	Only electricity
Firefighting services	Yes
Local tourism	Yes
Municipal airports	No
Municipal planning	Yes
Municipal health services	No
Municipal public transport	Yes
Municipal public works only in respect of the needs of municipalities in the discharge of their responsibilities to administer functions specifically assigned to them under the Constitution or any other law	Yes
Pontoons, ferries, jetties, piers and harbours, excluding the regulation of international and national shipping and matters related thereto	No
Stormwater management systems in built-up areas	Yes
Trading regulations	Yes
Water and sanitation services are limited to potable water supply systems as well as domestic wastewater and sewage disposal systems.	No
Constitution Schedule 5, Part B functions:	
Beaches and amusement facilities	Yes
Billboards and the display of advertisements in public places	Yes
Cemeteries, funeral parlours and crematoria	Yes
Cleansing	Yes
Control of public nuisances	Yes
Control of establishments that sell liquor to the public	Yes
Facilities for the accommodation, care and burial of animals	Yes
Fencing and fences	Yes

3.9 National Key Performance Indicators – Basic Service Delivery

The following table indicates the Municipality’s performance in terms of the National Key Performance Indicators required in terms of the Local Government: Municipal Planning and the Performance Management Regulations of 2001 and section 43 of the MSA. These key performance indicators are linked to the following two National Key Performance Areas: Basic Service Delivery and Local Economic Development.

Table 105: Basic Service Delivery

KPA and Indicators				
Basic Service Delivery*		2021/22	2022/23	2023/24
Basic Service Delivery (BSD)	The percentage of households with access to basic levels of water	98%	37 586	38 293
	The percentage of households with access to basic levels of sanitation	98%	39 014	39 790
Basic Service Delivery (BSD)	The percentage of households with access to basic levels of electricity	100%	47 555	48 388
	The percentage of households with access to basic levels of solid waste removal	99.8%	40 452	41 368
Provide free basic services to indigent account holders	The number of indigent account holders receiving free basic water	11 521	10 488*	11 306
	The number of indigent account holders receiving free basic electricity	16 865	15 439*	17 018
	The number of indigent account holders receiving free basic sanitation	11 192	10 228*	11 089
	The number of indigent account holders receiving free basic refuse removal	11 291	10 318*	11 174
Local Economic Development (LED)	Create Full Time Equivalent (FTEs) through government expenditure with EPWP	823	344.55	354.52

**Actual lower due to ongoing verification of indigent account holders and data cleansing to remove non-qualifying applicants. Indigents must reapply annually to retain their indigent status. During the 2022/23 financial year roadshows were held to assist consumers and to solicit applications, and this will continue in the 2023/24 financial year. Indigent subsidies must only be provided to qualifying households to ensure that the equitable share allocation reaches those in need.*

3.10 Water Provision

George Municipality is required in terms of Section 18 of the Water Services Act, 1997 (Act No.108 of 1997), as well as the “Regulations relating to compulsory national standards and measures to conserve water”, as issued in terms of sections 9(1) and 73(1)(j) of the Water Services Act, to report on the implementation of its WSDP during each financial year and to include a water services audit in such an annual report.

The WSDP Performance- and Water Services Audit is designed to monitor the compliance of George Municipality with these regulations. The Water Services Act allows the audit to be used as a tool to compare the actual performance of George Municipality against the targets and indicators set in their WSDP. It also assists the communities within George Municipality’s Management Area and the Department of Water Services to assess how well the Municipality is performing relative to their stated intentions and their capacity.

The water services of George Municipality are managed in a financially sustainable manner, with a surplus generated on the operation and maintenance budgets for water and sewerage services for the last eleven financial years. The operation and maintenance budget allocated towards the refurbishment, replacement, and maintenance of the existing water and sewerage infrastructure however needs to be increased. A budget of approximately 2% of the total asset value per annum should be allocated towards the replacement of the existing infrastructure. In the case of the operation and maintenance of the systems, a budget of approximately 1% to 2% of the value of the system is typically required to ensure that the systems remain in good condition.

George Municipality also successfully completed various capital projects over the last financial year. The capital budget expenditure, for the 2023/24 financial year, was R257.736 million for the water infrastructure projects and R109.087 million for the sewerage infrastructure projects.

The implementation of George Municipality's Water Demand Management Strategy assisted in reducing the overall water requirements of the towns significantly. The overall raw water capacity for the George/Wilderness system has increased over the last twenty years, from 10.631 million Cubes/annum in 2003/04 to 21.33 million Cubes/annum in 2023/24. The Municipality is also committed to reducing its current NRW and water losses to acceptable levels. The overall percentage of NRW was 30.15% (system input – revenue water) and the percentage of Water losses was 18.56% (system input – authorised consumption) for the 2023/24 financial year. A slight increase of 1.63% in water losses from the 2022/23 financial year. The reason hereto mainly being that accurate monitoring of water losses is applied through bulk water and domestic water metering.

The Municipality continued with their WC/WDM measures to lower the current and future water requirements and actively plan for the augmentation of their existing water resources for the systems where the future water requirements will exceed the safe yields of the existing resources. The raising of the Garden Route Dam spillway by 2.5 meters was started on the 13th of May 2019 and completed in December 2019. The total storage capacity of the Garden Route Dam was increased by approximately 25% to 12.5 million m³. This project increased the safe yield of the George/Wilderness system.

Comprehensive operational and compliance water quality and final effluent monitoring programmes are implemented by George Municipality. The industrial effluent of all industrial consumers is also monitored by George Municipality. The Municipality performed mostly "Excellent" with regard to its water quality compliance for the last number of financial years, according to the SANS 241:2015 classification.

3.10.1 Water Treatment Works

There are 3 WTW's in the George system (including Wilderness), 1 each in Uniondale and Haarlem, and a filtration plant at Avontuur with the following capacities;

- George Old WTP: 20,50 ML/d
- George New WTP: 20,00 ML/d
- Ebb-and-Flow WTP: 1,700 ML/d
- Uniondale WTP: 1,500 ML/d
- Haarlem WTP: 1,000 ML/d
- Avontuur Filters: 1,260 ML/d
- Total capacity: 45,960ML/d

3.10.2 Reservoirs (Tanks and Water Towers)

There are 41 reservoir/tower sites in the GLM supply systems. The total storage capacity in the GLM reservoirs amounts to ±67,17 ML, which represents ± 45 hrs. of the present 2022/23 estimated AADD. The 3 water towers have a total capacity of ±1.5 ML.

3.10.3 Pump Stations

There are 31 pumping stations in the GLM supply systems. They can be classified as follows:

- Raw water pump stations (± 6)
- Borehole pumps (± 3)
- Supply pump stations (± 15)
- Booster pump stations to high-lying networks (± 3)
- Pump stations to towers (± 3)
- Private booster pump stations (± 1)

The pump stations to towers are downstream of the reservoirs and are mostly used in emergency situations only. Where possible, towers are filled directly utilising excess pressure and capacity in the bulk supply systems.

3.10.4 Pipelines

The GLM supply systems consist of 1050 km pressure pipelines. Approximately 812 km of pipelines have diameters of less than 200 mm Ø.

Asset Replacement Value, the year 2023/24 replacement value of the system (excluding raw water storage dams, weirs etc.) is estimated as follows:

- | | |
|----------------------------|-----------------------|
| • Boreholes: | Included in the below |
| • Mains: | R 13 034 853 |
| • Meters: | R 43 346 821 |
| • Pipelines: | R 80 605 401 |
| • Supply and Reticulation: | R 68 857 299 |
| • Pump Stations: | R 209 805 305 |
| • Reservoirs/Tanks: | R 274 418 256 |
| • Purification Works: | R 180 043 528 |
| • Plant and Equipment: | R 33 493 802 |
| • Total: | R 903 605 265 |

The World Bank advises maintenance of infrastructure to be approximately 2.0% of the replacement value (2019 WSDP CRC Value: R 2 564 369 000 for water infrastructure and R 2 673 301 000 for sewer infrastructure) annually. This implies that the total funds available for infrastructure maintenance be at least R104 753 400 per year for water and sewer infrastructure.

The current total operational budget for water services is also well above the recommended 2.0% best practice guidelines and stands at approximately R257.46 million for the 2023/24 financial year and annually increases in accordance with budgetary guidelines at or above inflation. The reason here is that the maintenance aspect of the water infrastructure was neglected for many years.

3.10.5 Total use of water by sector

George Municipality has a duty to prioritize making sure that sufficient and suitable investments are made to guarantee the gradual fulfilment of every person's right to at least a minimal degree of water and sanitation service within its area of control. Water Services Authorities are required to offer intermediate and higher levels of services (such as water on site) if it is practicable and financially viable to do so. While providing basic water services as the most crucial and urgent priority, they should also do so.

The George Municipality’s Indigent Policy incorporates impoverished homes, and all water services it offers to customers within its boundaries are governed by its tariff policy and tariff bylaws.

The Municipality has significant challenges in providing enough housing due to the vast number of individuals belonging to the lowest socio-economic classes who live in informal areas. The goal of George Municipality is to link every home to a waterborne sanitation system and a water supply within every home in the town.

Water connections and domestic waterborne sanitation facilities are supplied to all formal houses in the urban sections of the George Municipality's Management Area (higher level of service). There are ablution facilities and communal standpipes available in the informal settlements.

The table below reflects the water usage by sector usage within the Municipality.

Table 106: Water use by sector

Total Use of Water by Sector (cubic metres)					
Financial Year	Community	Other	Industrial	Domestic	Unaccountable Water Losses
2019/20	1 328 021	547 676	481 605	5 574 801	7 932 103
2020/21	1 224 811	576 265	439 786	5 743 247	2 593 528
2021/22	1 387 626	604 611	552 075	5 983 647	3 147 926
2022/23	1 476 736	608 925	672 145	5 935 124	2 412 177
2023/24	1 268 987	601 888	594 635	6 036 201	2 718 399

3.10.6 Water Provision Delivery Levels

Table 107: Water Provision delivery levels

Description	2021/22	2022/23	2023/24
	Actual	Actual	Actual
Household			
<i>Water: (above minimum level)</i>			
Piped water inside dwelling	40 541	41 556	42 366
Piped water inside yard (but not in dwelling)	20 455	20 365	21 284
Using public tap (within 200 m from dwelling)	6 830	8 395	8 887
Other water supply (within 200 m)	-	-	-
Minimum Service Level and Above Sub-total	67 826	70 316	72 537
Minimum Service Level and Above percentage	97%	98%	98%
<i>Water (below minimum level)</i>			
Using a public tap (more than 200 m from dwelling)	74	74	74
Other water supply (more than 200 m from dwelling)	27	27	27

Description	2021/22	2022/23	2023/24
	Actual	Actual	Actual
Household			
<i>Water: (above minimum level)</i>			
Piped (tap) water on community stand: distance greater than 1 000 m (1 km) from dwelling/institution	19	19	19
No water supply	1 931	1 330	1 048
Below Minimum Service Level Sub-Total	2 051	1 450	1 168
Below Minimum Service Level Percentage	3%	2%	2%
Total number of households	69 877	71 766	

3.10.7 Service Statistics – Access to water

Table 108: Access to water

Access to water			
Period	Proportion of households with access to water points*	Proportion of households with access to piped water	Proportion of households receiving 6 kl free
2019/20	9%	96%	100%
2020/21	10%	96%	100%
2021/22	10%	96%	100%
2022/23	12%	98%	100%
2023/24	12%	98%	100%

** Means access to 25 litres of potable water per day supplied within 200 m of a household and with a minimum flow of 10 litres per minute*

3.10.8 Water Provision: Highlights

The table below specifies highlights for the year.

Table 109: Water provision highlights

Highlight	Description
Bulk Raw Water Resource Study	The Civil Engineering Services Directorate embarked on the updating of the 2008 bulk raw water resource study. The study focuses on the 50-year raw water resource planning horizon while diversifying raw water supply sources. The study commenced in September 2022 and is earmarked for completion in 2024
Increasing the new Water Treatment Works capacity by 20MI/day	The new Water Treatment Works capacity increase from 20 to 40Mℓ/day commenced in February 2022 and is planned for completion in 2025
Replacement of bulk water meters and installation of pressure sensors	Replacement of existing bulk water meters with smart bulk water meters and incorporating the meters with the SCADA system. Smart readings ensure continuity in terms of flow data and live meter readings for future planning and early warning systems in case of bulk water pipeline failures
Implementation of backup generators	Installation of two 1 250 kVA gensets for raw water pumpstations at the Garden Route Dam with the funding of the BFI Grant
Haarlem & Uniondale WTW	Upgrade of process control buildings at each Water Treatment Works. Addition of backup generator units for each of these treatment facilities
Replacement of old infrastructure	Replacement of old fibre-cement water pipelines with new pipelines in various wards across the George Municipal Area
Smart water meters	The installation of smart water meters for every erf has commenced in George. This is a multi-year initiative
Bulk raw water pipeline upgrades	Various upgrades to our raw water supply pipelines as a preventative maintenance measure. This also limits raw water losses and enhances revenue (water in hand).

3.10.9 Water Provision: Challenges

The table below specifies the challenges.

Table 110: Water provision challenges

Challenge	Actions to address
Flooding events October 2023/April 2024	Disaster flooding events during 2023/24 had a severe impact on the bulk water infrastructure. This created challenges for the Directorate, resulted in more manpower being needed and overtime expenditure
Blue Drop accreditation	Various legal and legislative requirements were neglected in previous years. The Directorate appointed consultants to assist the GM with updating the water safety plans and to perform water treatment plant audits as part of the Blue Drop assessment process as required by DWS. Many of the Blue Drop requirements are being addressed in house by the Directorate, including various infrastructure audits. The aim is to achieve a maximum possible score during the next assessment period
Staff capacity	The department is understaffed, and the process of filling vacant positions is slow. The Municipality are in a process of compiling a new organizational structure to address shortfalls and constraints
Budget constraints	Adequate budget to address the numerous needs is always a concern. There are also expenditure constraints
Expansion of George	The rapid expansion of George results in higher water demand. Peak season adds more stress to the infrastructure capacity
Loadshedding	Implementation of backup generation and renewable energy at critical infrastructure. The

Challenge	Actions to address
	Directorate also applied for exemption from Eskom for the raw water supply systems and this was granted during March/April 2022. The Directorate also applied for funding from the emergency load shedding relief grant for the implementation of backup generation units at critical infrastructure facilities. The application was approved, and the projects are scheduled for completion in August 2024

3.10.10 Water Provision: Employees

The table below indicates the employees within the section.

Table 111: Total employees Water Services

Job level(T-grade)	2022/23	2023/24 Number			Vacancies (as a % of total budgeted posts)
		Budgeted posts	Employees	Vacancies	
0-3	1	1	1	0	0%
4-6	74	72	63	9	7.32%
7-9	22	21	21	0	0%
10-12	30	27	22	5	4.07%
13-15	1	-	-	-	0%
16-18	1	2	2	0	0%
19-20	-	-	-	-	0%
Total	129	123	109	14	11.38%

3.10.11 Capital Expenditure 2023/24: Water Services

The table below reflects the capital expenditure for the 2023/24 financial year.

3.11 Wastewater (Sanitation) Provision

The focus for the 2023/24 financial year was to implement the demands of the George Municipality’s masterplan, fulfilling the development needs for the George Municipality’s vision. The existing sewer models, master plan models and reports are updated annually as part of a bureau service, which is aligned with the SDF.

Since 2008, the South African Water Sector has been at the forefront in the development of incentive-based regulation (IBR) via the Blue Drop and Green Drop Certification Programmes in terms of the Water Services Act, (Act 108 of 1997, Sections 82d, e, and f. The initiative aims to concentrate on enhancing efficiency, compliance, and performance.

The Green Drop Certification Programme was designed to serve as a stimulus for change, a catalyst to establish motivation and leadership in the water sector regarding the management of wastewater services. The Green Drop Certification is awarded to wastewater systems that obtain scores of 90% when compared to the criteria set for wastewater management. This assists George Municipality with striving for improvement in its management of wastewater as part of the incentive-based regulation approach. The wastewater risk abatement plans (W2RAPs) updates are in process and will be concluded during the 2023/24 financial years. These updates will form part of the next Green Drop Assessments.

The table below specifies the different sanitation service delivery levels per household for the 2021/22, 2022/23 and 2023/24 financial years.

Table 113: Sanitation service delivery levels

Description	2021/22	2022/23	2023/24
	Actual	Actual	Actual
Household			
Sanitation/sewerage (above minimum level):			
Flush toilet (connected to sewerage)	53 895	54 688	56 283
Flush toilet (with septic tank)	5 969	6 101	6 235
Chemical toilet	18	18	18
Pit toilet (ventilated)	811	811	811
Other toilet provisions (above minimum service level)	7 726	8 284	9 088
Minimum service level and above subtotal	68 419	69 902	72 435
Minimum service level and above percentage	98%	97%	98%
Below minimum service level:			
Pit toilets without ventilation	655	655	655
Bucket toilet	155	155	155
Other toilet provisions (below minimum service level)	157	157	157
No toilet provisions	491	897	303
Below minimum service level subtotal	1 458	1 864	1 270
Below minimum service level percentage	2%	3%	2%

3.12 Wastewater (Sanitation) Provision: Highlights

The table below specifies some of the highlights for the year under review.

Table 114: Wastewater (Sanitation) provision highlights

Highlight (s)	Description
Upgrade of Outeniqua Wastewater Treatment Works with 10Mℓ/day	The Outeniqua Wastewater Treatment Works 10Mℓ/day capacity increase was successfully commissioned during March 2023
Upgrade of Gwaiing Wastewater Treatment Works (WWTW) with 10Mℓ/day	The master plan for the upgrade of the Gwaiing WWTW commenced during January 2023. The plan is under development for strategic guidance on the capacity and process upgrade requirements
Installation of back-up generators at critical sewer pump stations	The project for the installation of multiple back-up generators at critical sewer pump stations was successfully concluded during July 2022. The Directorate continues to implement back-up generators at critical sewer pump stations
Upgrade of Meul, Schaapkop, and Eden sewer pump stations	These pump stations are under various phases of upgrade and will be concluded over the next few financial years. The upgrades are part of the BFI grant projects. A delay was experienced on the Schaapkop Phase 1 and is being addressed
Upgrade of sewer depot facilities	The sewer depots are upgraded (still ongoing) to improve operations and delivery service. The upgrades also result in better material and quality control
Upgrade of telemetry and SCADA systems	Telemetry and SCADA systems were upgraded at the sewer treatment plants and critical sewer pump stations (on going). This enables the Directorate to respond to overflows or failure of any of the pump station equipment
Donga rehabilitation at Gwaiing WWTW	Donga rehabilitation at Gwaiing WWTW owing to flood damage. This saved the chlorine contact tank from failure and encroachment on the plant’s maturation ponds
Demolish chlorine building at Gwaiing WWTW	The existing chlorine storage building at Gwaiing was demolished after written approval from the Council and building control. The building was a home of illegal occupants and a risk for the Municipality
All sewer pump station audits	All sewer pump stations require audit and started during the 2021/22 financial year. The audits were concluded during April 2023. The audit outcomes are now implemented
Upgrade of security measures at sewer pump station and treatment facilities	New fencing and pepper spray facilities were implemented at critical pump stations and wastewater treatment facilities

3.13 Wastewater (Sanitation) Provision: Challenges

Table 115: Wastewater (Sanitation) Provision challenges

Challenges	Actions to address challenges
Flood Events October 2023/April 2024	Disaster flood events during 2023/24 had a severe impact on the sewer infrastructure. This created challenges for the Directorate and resulted in more manpower and overtime expenditure being required
Improve Green Drop Accreditation	Updates required by DWS have fallen behind. W2RAP updates and process audits on all wastewater treatment plants are in progress and will be concluded during the second half of 2024
Staff capacity	Currently, this Department is understaffed, and the filling of vacant positions is slow
Budget constraints	Sufficient budget is always a concern
Expansion of George	The expansion of George results in additional effluent generation. Peak season adds more stress on infrastructure capacity with increased demand
Loadshedding	Implementation of back-up generation and renewable energy at critical infrastructure. The Directorate also applied for exemption from Eskom for the raw water supply systems and this was granted during March/April 2022. The Directorate also applied for funding from the emergency load shedding relief grant for the implementation of backup generation units at critical infrastructure facilities. The application was approved, and the projects will be concluded during August 2024.

3.14 Wastewater (Sanitation) Provision: Employees

The table below indicates the employees within the section.

Table 116: Total employees Wastewater Sanitation Services

Job level(T-grade)	2022/23	2023/24

3.16 Electricity

The 2023/24 financial year was a challenging year for the Directorate due to some critical positions that become vacant early in the financial year, such as the Director position. This placed additional strain on the limited resources to fulfil their obligations.

The Directorate has been able to fill most of its key positions and continues to do its best to fill all vacancies. This drive has already resulted in a positive impact on service delivery improvement strategies. The ongoing maintenance to address the historical backlog is yielding the desired outcomes, however, the increase in theft and vandalism especially during loadshedding continues to put the resilience of the network at risk.

We have completed 2MWp PV installations to assist with efficiency and sustainability. The department also achieved in the approximately 85% spending of its capital budget, which is used to relace and upgrade infrastructure.

The Directorate has continued to monitor the performance of installed uninterruptable power supply (UPS) units at traffic light intersections ensuring these continue operating during loadshedding. This innovative approach to resolving traffic congestion is bearing fruit and the streetlights division is investigating other alternate solutions to ensure that shared infrastructure services benefit the community.

The first phase of the MV Master Plan was approved by Council in the 2022/23 financial year and the plan was continued in the 2023/24 financial year. The second phase of the 11kV Master Plan focus on all areas within the George Municipal area of supply that was not covered by the first phase. Due to the scope, this will only be completed in the 2024/25 financial year. This plan has been expedited rather than doing it in more phases as it will assist the Directorate in creating a sustainable and more reliable electricity infrastructure.

The impact of climate change and the environment at large plays a pivotal role in the reliability of services and the performance of infrastructure. The Municipality received additional funding relating to the storm damage in the previous financial year. The MRDG funding provided the additional resources that has been allocated to the upgrade of damaged infrastructure from the previous year. The department experienced delays in execution but most of the scope is completed and the benefits thereof realised.

The maintenance of servitudes is a challenge in the outer reaching communities. More collaboration between all stakeholders is required for a complete solution. In line with international norms and practices the Municipality has embarked on a maintenance program for the primary substations focussing on primary switchgear of which 91% is completed and the remaining units will be addressed in the new financial year. The focus for the new year is the secondary equipment and the eradication of oil units in a phased approach in line with the Master Plan.

Loadshedding remains a challenge and affects every sphere of daily operations and living. Thus, the Municipality has embarked on several initiatives to assist the residents and businesses of the George Municipality.

George Municipality has commissioned the following plants in this financial year to reduce their energy consumption as well as diesel usage in the buildings.

- The Outeniqua Wastewater Treatment facility’s 400 kWp PV plant was commissioned in September 2023.
- The Gwaing Wastewater Treatment facility’s 500 kWp PV plant was commissioned towards the end of March 2024.
- The 1000 kWp or 1 MWp solar farm on Erf 464. The plant was commissioned by the end of April 2024 and the power is connected to the grid to reduce the municipal bulk purchases.
- The 12MWp PV plant is currently placed on hold due to funding constraints. The project is being developed to a state of implementation readiness so that it can be handed over to an Independent Power Producer (IPP) if the Municipality chooses to move forward in that direction.
- The following municipal buildings have been commissioned:
 - Electrotechnical Services – 20kWp
 - Tourism Building – 4kWp
 - Blanco Motor Vehicle Registration – 3kWp

Battery Energy Storage Systems (BESS) is currently in construction for the Civic Centre, as well as the Outeniqua and Gwaing Wastewater Treatment Works. This will allow the PV plants to continue to generate energy even during loadshedding and for the storage system to support the supply to the building /works when the Eskom network is not available. This battery energy storage will also counter the high cost of running generators. The costs of running generators are exorbitant and currently totals approximately R148 000 per day in fuel alone at Stage 4, with the fuel costs even higher when Stages 5 and 6 are implemented.

3.16.1 The Electricity Service Delivery Statistics

The table below reflects the different service delivery standards for electricity within the Municipality and includes informal areas.

Table 118: Service Delivery Levels: Electricity

Description	2021/22	2022/23	2023/24
	Actual	Actual	Actual
Household			
Energy (above minimum level):			
Electricity (at least minimum service level)	1 048	3 974	3 646
Electricity - prepaid (minimum service level)	49 732	49 893	52 248
Minimum service level and above subtotal	50 780	53 867	55 894
Minimum service level and above percentage	86,19%	94,9%	93.5%
Energy (below minimum level):			
Electricity (< minimum service level)	0	0	0
Electricity - prepaid (< min. service level)	0	0	0
Other energy sources	0	0	0
Below minimum service level subtotal	0	0	0
Below minimum service level percentage	0	0	0
Total number of households	58 966	57 447	57 793

3.16.2 Electricity: Highlights

The table below reflects some specific highlights for the 2023/24 financial year.

Table 119: Electricity highlights

Highlights	Description
Electrification	<p>Informal Electrification: The following electrification projects were completed in the financial year:</p> <ul style="list-style-type: none"> • Telkom Electrification is 100% complete • Sityebi-tyebi Electrification is 100% complete • Dameni Electrification is 100% complete <p>The electrical contractor has been appointed to attend to the next phase of 500 residential units (Phase 5) for the electrification of the informal areas in Themablethu. Orders have been placed for the material and construction will commence in the 2024/25 financial year.</p> <p>Formal Electrification: The designs for Area 1 of the Themablethu UISP project were completed and some of the material was procured. The SCM process is in the final stage to appoint a contractor for the formal electrification construction works</p>
Substations	<p>The following 66/11kV substation projects are currently under construction:</p> <ul style="list-style-type: none"> • The final commissioning for the new 66/11kV substation in Themablethu is almost completed and the substation is ready to be energised, but the energising of the 66kV supply to the substation has been delayed due to informal housing under the 66kV power lines • Strengthening project at Glenwood Substation, with additional capacity being brought into the 3rd bay, to cater for anticipated growth • Strengthening project at Protea Substation, with additional capacity established by increasing the transformer capacity, to cater for anticipated growth. • Upgrading and reconfiguring of George substation • Establishment of transformer capacity at Proefplaas substation • Establishment of transformer capacity at Haroldsbay substation <p>The Municipality started with the establishment of a firm supply at the Main 132kV Schaapkop substation. This is currently in the design phase and the tender will be advertised in the 2024/25 financial year.</p> <p>There is a current problem with informal structures under the 66kV overhead line supplying the Themablethu substation that is causing a delay with the energizing of this substations which in turn have a knock-on effect on most of the other substation projects</p>
Solar PV Plants	<p>The following PV Solar Plants were commissioned:</p> <ul style="list-style-type: none"> • Outeniqua WWTW – 400kWp plant • Gwaing WWTW – 500kWp plant • Electrotechnical Building – The plant is commissioned and operational • MVR Building – The plant is commissioned and operational • Tourism Facility – The plant is commissioned and operational • 1MWp PV Plant <p>The larger PV installation is planned to supply George. The 12MWp PV Plant is currently placed on hold due to funding constraints. The project is being developed to a state of implementation readiness so that it can be handed over to an Independent Power Producer (IPP) if the Municipality chooses to move forward in that direction</p>

3.16.3 Electricity Challenges

The table below specifies challenges for the 2023/24 financial year.

Table 120: Electricity challenges

Challenges	Issues to address
Loadshedding	Loadshedding impact on the revenue and infrastructure
Theft and vandalism	Theft and vandalism of infrastructure results in extended power outages and wastage of resources, through repetitive outages

Challenges	Issues to address
Ageing infrastructure	Cable and switchgear replacements at a medium voltage level, to create a more sustainable network
Key personnel	Retaining key personnel within the operation and maintenance, as well as Engineering Services and accelerated filling of vacancies with suitable and competent replacement when an incumbent leaves the organisation
Unregistered SSEG	By law to include embedded generation in its clauses, to enforce the registration of all systems with the Municipality before commission, as well as address all historical connections retrospectively

DRAFT

3.16.4 Electricity: Employees

The table below indicates the number of employees within the department.

Table 121: Electricity employees

Job level (T-grade)	2023/24				
	2022/23	Budgeted posts	Employees	Vacancies	Vacancies (as a % of total budgeted posts)
0-3	15	13	10	3	1.85%
4-6	50	43	34	9	5.56%
7-9	46	43	40	3	1.85%
10-12	38	38	32	6	3.70%
13-15	20	20	16	4	2.47%
16-18	5	5	3	2	1.23%
19-20	-	-	-	0	0%
Total	174	162	135	27	16.67%

3.17 Waste Management (Refuse Collections, Waste Disposal, Street Cleaning and Recycling)

3.17.1 Waste Management

Waste management is defined as “The collection, transportation, and disposal of garbage, sewage, and other waste products. Waste management encompasses the management of all processes and resources for the proper handling of waste materials, from the maintenance of waste transport trucks and dumping facilities to compliance with health codes and environmental regulations.”

Core proposed sub-functions within the mSCOA framework include:

- Recycling;
- Solid waste disposal;
- Solid waste removal; and
- Street cleaning.

The Municipality developed the Integrated Waste Management Plan (IWMP), Solid Waste By-Laws and Waste Minimisation Plan to set standards for the waste management services. The Integrated Waste Management By-law were reviewed and aligned with the District By-law and with the National Environmental Management Act, (Act No. 59 of 2008).

George Municipality strives to achieve targets set by the National Government for refuse collection, the management of waste disposal facilities, street cleaning and waste minimisation.

The Municipality is implementing the three-bag system to promote the division of organic waste, the sorting of waste at source and the reduction of waste to landfills. All different types of bags are collected on the same day.

Refuse is collected curb side in all residential areas in the municipal area. The Municipality does not sub-contract refuse collection. Refuse bags are delivered every quarter and ward councillors are involved in the distribution of bags in the informal settlements. Refuse is collected weekly at businesses and in cases where these require additional collection, arrangements with the Municipality are made.

Domestic waste is disposed of at the George Waste Transfer Station, as well as at the Uniondale Waste Transfer Station. Waste is then transported for disposal at the Petro SA landfill site in Mossel Bay. The Uniondale landfill site has been fully rehabilitated and decommissioned during the financial year.

The Gwaing Waste Disposal Facility is the only operational landfill site within the municipal area. In terms of the Department of Environmental Affairs and Development Planning's compliance audit, the management of the facility has been improved. Previously the site scored 33% and in the last compliance audit, the site scored 64%. Five monitoring boreholes, fencing and a guard house were constructed at the facility.

In fighting illegal dumping and ensuring that the communities are residing in a clean and healthy environment, the Municipality hires, monthly, two pieces of heavy machinery and six tippers' trucks to clean and clear refuse dumps in the informal settlements. Additionally, nine ward-based coordinators and 84 EPWP street cleaners were appointed to cleanse streets. There are also street cleaners in the central business district (CBD).

3.17.2 Implementation of the 3rd Generation Integrated Waste Management Plan (IWMP)

During the financial year the following deliverables of the IWMP were implemented:

- Two (2) refuse compactors were procured;
- Two (2) skip trucks were procured;
- Two tipper trucks were procured;
- One (1) TLB was procured;
- One (1) bakkie was procured
- Phase A of platform 1 was completed;
- Environmental external audits were conducted at all waste disposal facilities;
- The fence was installed at the Gwaing landfill site as part of the rehabilitation plan;
- Clean-up campaigns were done; and
- Compost bins for household composting were issued to the public.

3.17.3 Waste Management Highlights

The table below reflects the highlights of waste management for the 2023/24 financial year.

Table 123: Waste Management highlights

Highlights	Description
Funding for the finalisation of the compost plant was approved by the Department of Fishery, Forestry and Environment (DEFFE). Service providers were appointed by DEFFE	A funding application was submitted to the DEFFE for the finalisation of the current construction of the compost facility. Funding has been approved for - and will be rolled out over 18 months
Appointment of 225 EPWP workers through the Cleaning & Greening project of DEFFE	Four sessions were arranged in the financial year where the community was invited to dispose of household hazardous waste in a proper manner
Open day for the collection of household hazardous waste	Four sessions were arranged in the financial year where the community was invited to dispose of household hazardous waste in a proper manner
Beautification of illegal dumping site	Twenty-one areas in George were beautified by the EPWP workers
External audits	External audits were conducted at the waste disposal facilities and the waste transfer stations
Rollout of Home Composting Bins	Home composts were distributed to homeowners who applied for the home compost bins as part of the minimization of organic waste

3.17.4 Waste Management: Challenges

The table below reflects on the challenges experienced by waste management during the 2023/24 financial year.

Table 124: Waste Management challenges

Challenges	Actions to address
Illegal dumping – appointment of Environmental Educators	Appointment of workers to conduct awareness programmes
Illegal litter pickers at the landfill sites	Formalisation of litter pickers at the Gwaing landfill site

3.17.5 Waste Management Service Delivery Levels

The table below indicates the different refuse removal service delivery standards within the urban edge area of the Municipality.

Table 125: Waste Management Service Delivery Levels

Description	Households		
	2022	2023	2023/24
	Actual	Actual	Actual
	No.	No.	No.

3.18 Integrated Human Settlements

3.18.1 Housing Development

The Human Settlements Department of the Municipality is located within the Directorate: Human Settlements, Planning and Development and Property Management. The department is primarily responsible for the development of new housing opportunities, facilitating access to social and affordable housing and the upgrade of informal settlements with the aim to formalise these settlements. It further manages the municipal housing pipeline and human settlement plan. In addition, the Section also manages the Housing Demand Database and the provision, maintenance and monitoring of basic services within informal settlements.

The Housing Demand Database (waiting list) – which is linked to the Department of Infrastructure (DOI) database indicates George Municipality has 20 190 families who are officially captured on the Housing Demand Database. The breakdown of the various income categories is as follows:

Table 128: Housing Demand Database

Income	Total on the housing demand database
R0 -R3 500	17490
R3501 -R7 000	1829
R7 001 – R15 000	739
R15 001 – R 22 000	97
R22 001 and above	35

The database is reviewed continuously throughout the year. This review involves removing duplications, applicants who have subsequently acquired ownership or received a subsidy, applicants who have moved from the area and relocated elsewhere in the country, or deaths in cases of sole applicants. This impacts the totals on the waiting list and the reduction of the total.

Table 129: Housing Waiting list

Financial year	Number of housing units on the waiting list	% Housing waiting list increase/decrease
2019/20	18 586	8.16
2020/21	18 659	0.4
2021/22	18 577	(0.43)
2022/23	18 759	0.98
2023/24	20190	7.09

3.18.1.1 Human Settlements Projects and Initiatives

Metro Grounds Housing Project: The Metro Grounds Housing Project is approved for 436 BNG housing opportunities. The construction of the top structures commenced on 01 September 2022 with a total of 31 houses handed over to approved beneficiaries. Construction of the remaining top structures are in the final stages of completion.

Thembaletu UISP Housing Project: The project is an approved multi-year project which will provide approximately 4 350 families with a serviced site that has access to water, sanitation and electricity. For the year under review, planning on the remainder of the land earmarked for future development has taken place. A contractor was appointed for the roadworks in Area 1 of the project.

Erf 325 Housing Project: This is a catalytic project funded and managed by the Provincial Department of Infrastructure (previously Department of Human Settlements). The project was initially approved for approximately 2096 housing opportunities which includes various housing typologies and programmes, including GAP/Finance Linked Individual Subsidy Programme (FLISP), Breaking New Ground (BNG) and housing units for military veterans and units for persons with disabilities. A total of 1091 units were completed, and 791 houses were handed over to qualifying beneficiaries. For the period under review 1 house had been handed over with several houses being rectified because of vandalism.

Human Settlements Plan: Land identified in the Human Settlements Plan for future human settlements development was approved by Council. The process to compile and prioritise a housing pipeline is in process.

Interim Basic Services: The Department of Infrastructure approved funding for the planning of Interim Basic Services in Thembaletu. The Planning has been completed and a project application for funding has been submitted to DOI for the implementation of the project. The resolution for project implementation has not been received by DOI

Alternative Sanitation Solution: After the conclusion of the pilot project, one service provider was appointed for the implementation of the alternative sanitation solution in informal settlements. Municipal funding was utilised to install 43 units including the units installed during the pilot. Further funding was requested from the DOI for the rollout of the project over a period of three years, but this funding was not approved. The implementation of this project is to fundamentally reduce the number of chemical toilets in informal settlements which currently has a huge financial impact on the municipal budget, and to provide a more dignified means of sanitation for inhabitants residing in the informal settlements.

Construction of stormwater channels and retaining walls in various areas in George: The Department of Infrastructure approved funding for the construction of retaining walls in various erven in George. A survey was conducted by an

appointed Consulting Engineer to determine erven with stormwater problems. A total of 154 erven was completed during this financial year.

Provision of Basic Services (Taps and Toilets) in Informal Settlements: During the 2023/24 financial year seven (7) additional toilets were installed in Begonia Street (Touwsrante Informal Settlement) and forty-three (43) alternative sanitation flush toilets were installed in various informal settlements. A total of 40 taps were installed in various informal settlements in terms of the national norm.

Housing Consumer Education: A total of three (3) workshops were held with a total of thirty-one (31) beneficiaries who were educated in homeownership, the security of tenure, issues of inheritance and drafting of a will.

Social Housing: The Crocodile Farm has been identified as the first Social Housing Project to be launched. The environmental impact assessment (EIA) has been approved and an item is prepared and will be submitted to Council to request approval to prepare terms of reference and call for proposals from social housing institutions and other development agencies to implement the development of this project, including the management of the social housing units.

Informal Settlements: There are currently fifty-three (53) informal settlements in the George Municipal Area. All informal settlements have access to basic services on a shared basis. However, in some settlements where land has been invaded, basic services (taps and toilets) have not been provided in terms of the national norm owing to funding limitations. One of the biggest challenges the Municipality faces is ongoing land invasion. The provision of basic services is extremely difficult owing to the location of these settlements, as well as a lack of sufficient and appropriate space for this infrastructure and associated amenities. In most cases the ownership of the land vests with other spheres of government posing further prolonged processes.

The roll-out of access to basic services (ABS) in informal settlements is a continuous programme that deals with the upgrading and installation of communal services in informal settlements.

Assistance during Emergencies, Fire, and Floods: The Department of Human Settlements assists the Section: Disaster Management in emergencies by verifying the data that is collected about the disaster victims against the data obtained during period surveys. These emergencies are mostly fire incidents in informal settlements and/or in the backyards of formal housing units. These incidents to a lesser extent also include flooding incidents and excessively strong winds. The Municipality responds by providing a 4 x 5 emergency structure to qualifying beneficiaries. The National Department of Human Settlements provided thirty-three (33) families with material assistance in terms of their Emergency Housing Guidelines. During the year in review, a total of eighty-seven (87) emergency structures were provided to beneficiaries by the Municipality who found themselves homeless owing to emergency situations. A total of two hundred and twenty (220) fire cases were reported.

Title deeds: In collaboration with the Provincial Department of Human Settlements, the Title Deed Restoration Project continued with the aim of transferring old housing stock to the rightful owners. Since its initiation (1 April 2016) a total of 2472 properties were transferred. In the 2023/24 financial year 664 transfers were registered.

3.18.1.2 Human Settlements: Highlights

The table below specifies the highlights of the 2023/24 financial year.

Table 130: Human Settlements highlights

Highlights	Description
Implementation of alternative pilot project	33 toilet units were installed by the appointed contractor
Construction of stormwater channels and retaining walls	154 erven completed

Highlights	Description
Metro Grounds Housing Project	31 houses handed over to beneficiaries
Erf 325 Housing Project	1 house handed over to beneficiary
Provision of basic services in informal settlements	7 flush toilets and 40 taps installed

3.18.1.3 Human Settlements: Challenges

The table below specifies the challenges of the 2023/24 financial year.

Table 131: Human Settlements Challenges

Challenges
Access to funding to improve basic services and the maintenance of these services in informal settlements
Vandalism and theft of basic services infrastructure in informal settlements
Land invasions on portions of land earmarked for human settlement development which delay implementation of projects

3.18.1.4 Human Settlements Service Delivery Levels

The Housing Demand Database (waiting list) – which is linked to the Provincial Department of Human Settlements - is reviewed regularly. This review involves removing duplications, applicants who have subsequently acquired ownership or received a subsidy, applicants who have moved from the area and relocated elsewhere in the country, or deaths in cases of sole applicants. This impacts the totals on the waiting list and in the reduction of the total.

The table below shows a 7.09 % increase in the number of people on the housing waiting list. There are currently approximately 20 190 persons on the housing demand database awaiting a housing opportunity.

There has been an increase in the waiting list which can be attributed to the commencement of the waiting list drive to various areas in George

Table 132: Housing Waiting list

Financial year	Number of housing units on the waiting list	% Housing waiting list increase/decrease
2019/20	18 586	8.16

3.19 Free Basic Services and Indigent Support

a) Access to Free Basic Services

The following table shows the percentage of indigent households that have access to free basic municipal services. In accordance with the approved indigent policy of the Municipality, all households earning less than **R 4 560** (two state pensions) per month will receive free basic services as prescribed by national policy.

The table below indicates the number of households receiving free basic services.

Table 135: Access to Free Basic Services: Indigents

George Municipality provides free basic services to households where the household income does not exceed two times the state pension amount. Consumers in informal settlements with a pre-paid meter will qualify automatically without application for the indigent subsidy.

The full criteria to qualify for indigent support are as follows:

- Household income must not exceed 2 x state pension;
- Electronic application form is captured
- Must be a full-time occupant;
- May not own any other property in SA;
- Property must be used for residential purposes only;
- Minors/guardians must provide motivation/documentation; and
- Any other supporting documentation relating to the above.

Level of subsidies provided:

- Water: 100% subsidy on the basic charge and 6kl per month (per household);
- Electricity: 100% subsidy on the basic charge (20Amp and higher) and up to 70kWh per month (per household);
- Eskom supply area: Free 50kWh units per month;
- Refuse removal: 100% subsidy per month; and
- Sewerage disposal: 100% subsidy per month.

COMPONENT B: ROADS, TRANSPORT and Stormwater

3.21 Roads

This component includes roads, transport, traffic engineering and wastewater (stormwater drainage).

3.21.1 Roads Overview

The National Land Transport Act 5 of 2009 (NLTA) places responsibility for the provision of public transport with local municipalities. The NLTA further determines that George Municipality qualifies to prepare a Comprehensive Integrated Transport Plan (CITP). The CITP is currently under development.

The George Roads Master Plan study aims to address the rapid growth of the population, with an estimated population of 310 000, in the Municipality of George. This growth will bring new opportunities and challenges, including increased traffic volumes on major travel corridors. The plan focuses on transportation planning, identifying, planning, and guiding the design of roads infrastructure and facilities needed to serve this population.

The plan forms an integrated part of the IDP for George and should be included in the IDP and spatially reflected in the Spatial Development Framework (SDF) of George. It will be implemented through mechanisms such as capital budgets, project development, impact levies, transportation modelling, arterial management plans, transportation studies, traffic systems management (TSM), and design or practice guidelines.

The key to the success of the George Roads Master Plan is managing travel demand and infrastructure supply to the road network. A comprehensive travel demand management strategy is required to reduce the number of vehicles using the road system while providing a wide variety of mobility options. Most residents still travel by private motor vehicle or minibus taxi, causing local congestion and low-level pollution. The introduction of the Go George Public Transportation system has reduced the reliance on minibus taxis as many residents have started using the system.

The George Roads Master Plan aims to minimise future need for new and widened roads while avoiding levels of congestion that would have unacceptable implications for George's quality of life. It does so by analysing future travel demand, providing strategic links where they are most needed, and recommending the application of traffic systems management for maintaining favourable operating conditions on the existing road network.

The 2005 roads master plan based their planning on a 10-year planning horizon, or until the population estimate has been reached, which was considered the most reasonable planning horizon for the study. The plan also sets ambitious

objectives for walking and cycling and a modal shift towards public transport. The plan is currently under review as part of the Comprehensive Infrastructure Plan for the city of George to ensure alignment with current and future projected needs.

Road and stormwater asset management is essential to achieve the maximum life expectancy of these assets. The roads maintenance and rehabilitation priorities are determined by means of a Pavement Management System (PMS), based on the condition of the road. The implementation of these priorities is subject to Council funding approval. The main challenges to overcome, which will significantly improve service delivery, are the difficulty in procurement of services and adequate funding.

3.21.1.1 Roads Highlights

Table 141: Roads highlights

Highlights	Description
Tabata Street (Phase 1 to 2)	Completion of the road pavement upgrade and provision of universally accessible sidewalks (1 190 m, 1 190 m x 2 sidewalks)
Golf Street (Phase 1)	Completed with the road pavement upgrade and provision of universally accessible sidewalks (670m, 670m x 2 sidewalks)
Golf Street (Phase 2)	Commencement with the road pavement upgrade and provision of universally accessible sidewalks (670 m, 670m x 2 sidewalks)
Ngcakani Street (Phase 1A)	IUDG project: Completed with the road pavement upgrade and provision of universally accessible sidewalks (450 m, 450m x 2 sidewalks)
Ngcakani Street (Phase 1B)	IUDG project: Commencement with the road pavement upgrade and provision of universally accessible sidewalks (490 m, 490m x 2 sidewalks)
Ngcakani Street (Phase 2)	Completed universally accessible sidewalks (840m x 2)
Rooidraai Road	Phase 1 is well advanced and Phase 3 in construction. Phase 2 commences in the new financial year which will complete the rebuilding of this key link road. Partially funded from MDRG
Delville Park Roads	Phase 1 completed and Phase 2 in construction. Phase 3 commences in the new financial year which will complete the rebuilding of these roads, sidewalks and associated stormwater
Bank Street	Construction commenced and will be completed early in the new financial year
Nqwemesha Street	IUDG project: Upgrade of 450m of gravel street to paved surfacing due to steep gradient which resulted in severe erosion of street surface
Reseal of Roads	Reseal of various roads in accordance with the Pavement Management System (PMS)
Paving of roads	Upgrade of various gravel roads in previously disadvantaged areas

3.21.1.2 Roads Challenges

Table 142: Roads Challenges

Challenge	Issues to address
Staff capacity	Currently, this Department is understaffed, and the filling of vacant positions is slow
Budget restraints	PMS and Stormwater Maintenance Plans indicated priorities for repairs/upgrades, but there is insufficient budget. The budgetary requirement for the rehabilitation/rebuilding of various public transport routes is beyond the financial capacity of the Municipality and grant funding received remains inadequate
Expansion of George	This results in more road users, putting the road infrastructure under further pressure
Access to adequate/decent gravel	The quality of materials is a cause of great concern since most of the quarries in the

quarries	region are depleted
----------	---------------------

3.21.2 Public Transport

The National Land Transport Act 5 of 2009 (NLTA) places the responsibility for the provision of public transport with local municipalities. The Municipality further has competence for public transport as provided for in Part B of the Constitution, which remains a priority objective given that a high-quality, affordable transportation system is key to overcoming spatial barriers and promoting inclusive accessibility, especially where it is challenging to redirect private investment patterns towards disadvantaged areas.

Within the NLTA there are 28 public transport responsibilities that stretch over the breadth of the various modes of services, including rail (urban commuter transport, long-distance commuter travel, intercity travel) and road-based transport (scheduled and unscheduled urban, rural, and inter-city services such as metered taxis, minibus-taxis, e-hailing, scheduled bus services, and non-motorised transport).

With this, the Municipality’s immediate focus is to consolidate its key public transport responsibilities into a function that performs an integration role across the current municipal departments supporting public transport. The aim is to ensure that the Municipality delivers a sustainable and accessible integrated inter-modal public transport network, including pedestrians, cyclists and public transport services. Enabling a transformed society through safe, reliable and affordable access to services and opportunities for work, learning and recreation. This focus is enabled by key functions, including policy and strategy, planning, integrated public transport network oversight, regulation, liaison, and network operations.

A key priority is the George Integrated Public Transport Network (GIPTN), which was formed through a partnership between the Municipality and the Western Cape Mobility Department and has facilitated the implementation of the GO GEORGE bus service for the community of George. The first phase of the service was rolled-out in December 2014, followed by two additional phases in February and May 2015. A subset of Phase 4 (Phase 4B) was successfully rolled-out in March 2020, and the first routes of Phase 4A were rolled-out in November 2023. The delivery of this scheduled bus service is primarily funded through national and provincial grants, with fare revenue, interest on grants, and a rates contribution from the Municipality supporting the project’s income source.

The above objectives and actions are captured in the Municipality’s updated CIP which is currently being finalised to provide a strategic planning framework for the development of public transport solutions in George. As a legislative requirement, the CIP is intended to coordinate the comprehensive implementation of strategic objectives in accordance with the municipal functions stipulated through the National Land Transport Act. The updated CIP will include a renewed focus on accessibility, non-motorised transport and public transport and includes the development of a transport model, transport register and Operating License Plan.

3.21.2.1 Public Transport: Highlights

The table below specifies the highlights for the 2023/24 financial year.

Table 149: Public Transport Highlights

Highlight	Description
Finance	<p>During the period under review, an infrastructure funding application was submitted to the Department of Transport (DoT) to address the GIPTN infrastructure backlogs (specifically relating to road network upgrade).</p> <p>This application was successful and resulted in DoT providing R505 million that would be used towards addressing the infrastructure needs on the network of routes. Following the in-year allocation, the Municipality undertook a coordinated procurement process to ensure that the necessary commitment was obtained from contractors to commence construction in the new financial year.</p> <p>The average monthly revenue increased from R5.4 million in the 2023/24 financial year to R6.2 million before the rollout of Phase 4A in November 2023. After the Phase 4A rollout, the average revenue increased further, and by the end of the 2023/24 financial year, it had reached a monthly average of R6.8 million.</p>
Contract Management	<p>Formalised contract management policies and structures were put in place and are under continuous refinement.</p> <p>The 2023/24 year marked the 10th year of the Operator Contract with the Vehicle Operating Company, ending in November 2026. This year also marked the formal process initiation for the transfer of the Sprinter Fleet of 35 vehicles from the MoG to the Operator. The process is in its final stages and will conclude during the 2024/25 financial year.</p> <p>Beyond 2026 contractual planning has also commenced.</p> <p>Subsidiary and supporting contracts were also included in the formal contract compliance matrix:</p> <ul style="list-style-type: none"> Field Monitoring (new contract under draft for 2025-2027)

Highlight	Description
	<ul style="list-style-type: none"> Facilities Management and Guarding (new contract under draft for 2025-2027) On-bus CCTV monitoring Communications and marketing Fleet Service Maintenance and Repair will conclude in 2025. The aim is to transfer all remaining fleet to the operator before the end of the current Fleet SMR contract
IFM (Fare Management system) /ITS (Tracking system)	<p>June 2024 marked four years since the implementation of the No Cash on Bus Policy that was initiated in June 2020 as a safety measure in response to the unfolding dynamics of the COVID-19 pandemic. The Policy entailed the suspension of cash sales on buses and required all passengers to make use of pre-purchased transit products to access the bus service. The implications of this Policy resulted in the GO GEORGE bus service being fully cashless.</p> <p>Given the successful adoption among passengers, the Policy has remained in place during the 2023/24 financial year and is aimed to continue in 2024/25.</p> <p>The notable success of the 2023/24 financial year was the increase in the number of vendor outlets from 24 in June 2020, 56 in June 2021, 80 in June 2022, 95 in June 2023 and 168 in June 2024. This substantial and steady growth in the vendor network represents a 72% annual increase in the participation of local businesses. The participation of vendor outlets remains an important objective of the project. It aligns the success of the project with the promotion of local businesses in George.</p> <p>An extensive vendor footprint is crucial as it allows GO GEORGE passengers to top-up at convenient locations near their homes, places of work and other areas of interest. This is especially significant with Phase 4A – Thembalethu having successfully rolled-out in November 2024. The vendor network has increased considerably and accounts for 75% of the products and trips sold.</p> <p>Further successes were observed in the increase of passenger trips during the financial year, with average trips per month recorded at 493,137 (439,442 in the 2022/23 financial year). This increase reflects a 12% increase from the previous financial year and has largely been attributed to the gradual recovery from the COVID-19 pandemic and the roll-out of the Phase 4A – Thembalethu routes.</p> <p>Given the GIPTN fare structure, passengers continued to benefit from the travel discounts when two or more trips were purchased. While the single off-board trips were still sold, over 93% of trips sold in the financial year were through multi-journey trips. This meant that over 90% of passengers benefit from travel discounts when using the service</p>
Infrastructure	<p>Ngcakani Street Phase 2: Upgrade of the road including universally accessible sidewalks.</p> <p>Golf Street Phase 1 and 2: Completion of road upgrades, including universally accessible sidewalks.</p> <p>Commencement of upgrades to the Garden Route Mall Terminal & Transfer Location, York Hostel Transfer Location and York Street Bus Stop Shelters.</p> <p>Continuous maintenance of Phase 4A infrastructure</p>
Fleet	<p>The maintenance contract for the GIPTN fleet was awarded to a new service provider during the 2021/22 financial year. The appointment of the new service provider led to significant improvements in the out-of-service ratio for the GIPTN fleet. This success has carried through into the 2023/24 financial year.</p> <p>The Municipality and the Provincial Government are in the process of finalising the transfer of the 35 sprinters to George Link in terms of the Operator Contract</p>
Operating Licences	<p>Engagements with industry and community stakeholders continued in preparation for the roll-out of services to Phase 4A, Thembalethu. As part of the process, operators with GIPTN agreements were requested to come forward to begin the relinquishment proceedings of their operating licenses as the GIPTN intensifies its efforts towards a safe and successful roll-out of services to the community of Thembalethu. A total of 81% of all 4A operating licences have been successfully relinquished.</p> <p>A municipal Operating Licence Application Committee was formalised and several processes were implemented to better investigate, consider and make recommendations on every Operating Licence application submitted to the Transport Authority</p>
Industry & Stakeholder Engagement	<p>Engagements with stakeholders during the 2023/24 financial year took place with a focus on encouraging the dissemination of accurate information related to the GIPTN and the overall public transport environment in the Municipality.</p> <p>The engagements in 2023/24 with leaders of the minibus taxi associations in Thembalethu and representatives of the George Community Forum continued in the lead-up to the roll-out of the first route of Phase 4A in order to ensure a safe and stable public transport environment</p>
Planning	<p>During the period under review, the service provider appointed to conduct a full review of the CIP completed most of the document and traffic model. A multi-disciplinary team representing various</p>

Highlight	Description
	<p>stakeholders both within the Municipality and externally regularly engaged to workshop and review progress.</p> <p>An internal Infrastructure Planning Task Team was established to ensure continuous internal alignment of transport planning matters between the GIPTN, as well as the municipal engineering and planning departments.</p> <p>Significant results were achieved with the completion of the revised Macro Transport Socio-Economic Study (MTSES) and extensive insights were gained into various planning elements</p>
Marketing and Communication	<p>Outreaches were developed that specifically focused on key events such as Mandela Month, Youth Month, and various sporting and other programmes. General campaigns focused on road safety, passenger, and pedestrian safety, universal accessibility and disability awareness and vandalism.</p> <p>GO GEORGE hosted a comprehensive Transport Month (October 2023) communication and engagement campaign and disability rights awareness month campaign (November 2023). A focused marketing and communications campaign was conducted in the months leading up to and following the roll-out of Phase 4A routes in November 2023. Electronic engagement with passengers was intensified and formalised through the newly established Passenger Forum, which serves as a focus group to test passenger behaviour, monitor customer care experiences and convey key operational concepts</p>
Universal Accessibility (UA)	<p>Universal Access Plan: The July 2024 Universal Access Design Plan (UDAP) was adopted by the GIPTN Management Committee on 17 July 2024. The June 2024 UDAP Report notes additional requirements as set out in the National Land Transport Strategic Framework (2023-2028), the approved (2023) National Spatial Development Framework and the requirements outlined in the National Land Transport Amendment Act, promulgated on 11 June 2024.</p> <p>The purpose of the UDAP is to create a plan, in line with the NLTA Amendment Act (Act 23 of 2023) that is closely aligned with the network operational plan, through which the principle of “Seamless Transportation for All” ensures that all passengers can be accommodated in all facets of the Travel Chain. It informs the development and implementation of an accessible transportation system that addresses universal accessibility requirements in infrastructure provision, operational responses as well as complementary elements of the public transport system. Given the incremental roll-out of the GIPTN system, this will be an iterative process.</p> <p>Application of Universal Principles & Guidelines: All current road upgrade designs are checked for universal access compliance prior to and during construction. The recommendations contained in the DOT draft NTR-1 Requirements for Pedestrian Crossings have been applied, where appropriate, within a constrained urban environment. This ensures that the principles of universal accessibility are incrementally introduced while at the same time capacitating both municipal employees and design consultants.</p> <p>User group testing of the Market Street rehabilitation has been undertaken by an internationally graded Universal Access Consultant with two groups of persons with disabilities allowing the testing and effectiveness of the wayfinding elements introduced – with a positive response.</p> <p>GIPTN Universal Accessibility Acceptance: The June 2024 UDAP has been extended to include a “Service Quality Section” that has drawn from the universal accessibility responses contained in the 2023 Metropolitan Transport and Economic Survey where high satisfaction was recorded for the universal accessibility of the GIPTN system</p>
Operations	<p>The GIPTN continued to strengthen its operational and monitoring capabilities to ensure that the GO GEORGE bus service delivers exceptional service to passengers. The reporting period saw a complete recovery in terms of revenue and passenger numbers, following the Covid-19 pandemic.</p> <p>On 5 November 2023, the first stage of Phase 4A was successfully rolled-out with an extended Route 18A/B Thembalethu – Blanco. The roll-out saw an increase in revenue and passenger numbers, and community support for this service has been amazing. The VOC has been operating for more than nine years and has expressed confidence in its organisational readiness for further Phase 4A implementation.</p> <p>Three operational facilities for Thembalethu were established in preparation for the roll-out of Phase 4A. The facilities allowed for the placement of the kiosks as well as providing staff facilities and a security presence.</p> <p>Traffic congestion associated with the N2 Thembalethu bridge upgrade delayed the roll-out of the remaining routes. The roll-out saw an increase in revenue and passenger numbers.</p> <p>The Garden Route Mall Facility is in the process of being upgraded, along with the York Hostel bus stops in Market Street in preparation for the remaining Phase 4A routes to be rolled-out.</p> <p>The current driver complement is adequate to support current and future operations. The attrition rate is considered normal at around 2 drivers per month on average. There is currently no implementation of long-term training programmes (i.e., refresher, attrition, and staff development programmes). However,</p>

Highlight	Description
	at the current attrition levels, it is difficult to maintain a replacement driver programme. A refresher training programme is however required
Safety and Security	<p>The Municipality continued implementing measures to reduce illegal public transport operations in George, in addition to supporting the efforts to ensure a safe roll-out of Phase 4A of the bus service.</p> <p>The GIPTN Management Committee approved the Safety and Security Plan and actively promoted the implementation of the measures highlighted in the Plan. This includes the capacitation of the Public Transport Enforcement Unit to improve the enforcement of public transport services, particularly on GIPTN routes.</p> <p>Furthermore, the Municipality successfully championed the development of the Public Transport By-Law, which aims to strengthen the enforcement of public transport services and ensure a safe and efficient experience for the greater George community</p>

3.21.2.2 Public Transport: Challenges

The table below depicts the challenges for the 2023/24 financial year.

Table 150: Public Transport Challenges

Challenges	Actions to address
Finance	<p>The in-year funding was received towards the end of the third quarter, which placed the infrastructure implementation team under extreme pressure to spend it by the end of June. Further funding applications submitted to DoT and the Province have made note of this and proposed that the annual base allocations be increased. The allocated R505 million funding will be subject to approval of a roll-over request.</p> <p>Other grant funding opportunities are also being explored that could alleviate the shortfall that currently exists specifically in terms of road rehabilitation and depot and other public transport facilities infrastructure. GIPTN will continue to motivate for DoT PTNG and discretionary funds for additional capital projects. The WCMD will continue to provide funding support in terms of the IGA while the agreement remains in place. Additional sources of funding and the roll-out of Phase 4A continue to be prioritised</p>
ITS/IFM	<p>As of June 2024, over 150,000 smart cards have been sold since the implementation of the AFC System in November 2018. The sale of smart cards continued at an increased rate. While it was positive that passengers continued to purchase smart cards to use the service, it is important to note that the smart cards are subsidised for passengers and each purchase resulted in a revenue loss for the Municipality. Measures have been undertaken through the proposed smart card increase in the 2024/25 tariff proposal with the intention of reducing the revenue loss while considering affordability.</p> <p>The loadshedding severity decreased in the latter part of the 2023/24 financial year, which decreased connectivity complaints due to network outages disrupting vendor terminals during loadshedding. However, mitigation measures remain in place to supplement services in response to loadshedding-related outages in the future</p>
Infrastructure	<p>Although the GIPTN planning allowance for heavy vehicle wear-and-tear was made in 2008, several of the bus routes, especially those that carry a substantial number of large buses, are showing signs of pavement distress and structural failure. This is a major concern, as it can lead to buses being damaged, and the quality of service being negatively impacted.</p> <p>Infrastructure budget constraints remained a reality and while the Municipal Pavement Management System indicated priorities for road repairs/upgrades, insufficient budget meant that projects could not be undertaken or had to be partially completed and/or projects had to be reprioritised. Further to this, the GO GEORGE infrastructure provision and maintenance projects had the same outcome.</p> <p>While the R505 million allocation goes a long way to support critical GIPTN infrastructure projects, there is a continuing need to obtain further funding to support additional projects across the network as the service expands.</p> <p>In terms of continued vandalism of shelters, vandalism-proof design options continued to be investigated and tested in several areas where services are provided</p>
Fleet	<p>The appointment of a new service provider has led to an improved turnaround time for unplanned repairs, accidents, and routine maintenance, leading to greater fleet availability to support the service. However, the increasing incidents of vandalism and stoning on GO GEORGE buses create increased pressure on the</p>

Challenges	Actions to address
	<p>availability of buses. A reward system has been introduced to encourage members of the public to come forward and report such incidents.</p> <p>The fleet availability is also affected by the current congestion over the Thembaletu bridge, where additional buses are released to mitigate service delays. The completion of the construction over the bridge is anticipated to alleviate the congestion challenges and the fleet requirements are continuously monitored</p>
Industry/Stakeholder Engagement	Achieving support from industry and stakeholder representatives remained a continuous process and engagements have been arranged as required to ensure clarity and alignment among all stakeholders as the roll-out progresses
Operations	<p>Traffic congestion associated with the N2 Thembaletu bridge upgrade delayed the roll-out of the remaining routes of Phase 4A.</p> <p>The enforcement of unlicensed minibus taxi operators was a prevalent issue during the 2023/24 financial year. This was particularly evident through the obstructive actions taken by individuals linked to these groups. These include several arson attempts on the operational facilities constructed in Thembaletu to support the operations once the service had rolled-out; intimidation of contractors, GO GEORGE Champions and drivers working in Thembaletu in the lead-up to and after the roll-out. However, following the roll-out, these incidents dramatically reduced.</p> <p>Vandalism of new standard shelters continued. Different options for alternative shelter materials that are more vandalism-proof have been investigated and tested. However, further mitigation measures need to be investigated. Given the high occurrence of vandalism, glass has not been placed in the new shelters until a decision is made regarding alternative materials. Additionally, a rewards-based scheme is being piloted for people providing evidence where incidents have occurred. Bus accidents and the stoning of buses are still a challenge</p>
Safety and security	<p>Illegal minibus taxi operators also continued to operate illegally along GIPTN routes and elsewhere across the Municipality.</p> <p>Safety and security challenges were compounded by a lack of municipal enforcement resources, including people and equipment, while renewed efforts were put in place to improve the responsiveness of the municipal enforcement and Public Transport Enforcement Unit, as well as effective reporting.</p> <p>The finalisation of procurement and installation of equipment for the Public Transport Enforcement Unit remains a priority which needs to be fulfilled in terms of the approved Safety and Security Plan</p>

3.21.2.3 Capital Expenditure 2023/24

The table below depicts Capital Expenditure for the 2023/24 financial year.

Table 151: Public Transport capital expenditure 2023/24

3.22 Stormwater Drainage

The operation of the stormwater network is conducted with the use of a management system which enables the Planning and Maintenance Section to locate shortcomings. It also enables this section to perform efficient maintenance on the stormwater network.

3.22.1 Stormwater Highlights

The table below depicts some of the highlights for the 2023/24 financial year.

Table 152: Stormwater highlights

Highlights	Upgrade of Existing Stormwater Network
Nqwemesha Street	IUDG project: Upgrade of existing stormwater network
Ngcakani Road (Phase 1A)	IUDG Project: Upgrade of existing stormwater network
Ngcakani Road (Phase 1B)	IUDG project: Upgrade of existing stormwater network
Rooidraai Road	Upgrade of existing stormwater network

Highlights	Upgrade of Existing Stormwater Network
Golf Street	Upgrade of existing stormwater network
Tabata Street (Phase 1 to 2)	Upgrade of existing stormwater network
Upgrade Tabata Street Stormwater: Ph1 and 2	Upgrade of existing stormwater network

3.22.2 Stormwater Challenges

The table below depicts some of the challenges for the 2023/24 financial year.

Table 153: Stormwater challenges

Challenge	Issued to address
Budget constraints	PMS and stormwater maintenance plans indicated priorities for repairs/upgrades, but there is insufficient budget
Addressing stormwater backlogs in previously disadvantaged areas and upgrade of overcapacity systems	MIG stormwater projects to be implemented in 2023/24
Staff Capacity	Currently, this Department is understaffed, and the filling of vacant positions is slow

3.22.3 Stormwater infrastructure

The table below reflects the total kilometers of stormwater maintained and upgraded as well as the kilometers of new stormwater pipes installed.

Table 154: Stormwater infrastructure

Financial Year	Total km stormwater measures	Km new stormwater measures	Km stormwater measures upgraded	Km stormwater measures maintained
2019/20	400.2	0	2	402.2
2020/21	402.2	0.4	2.7	405.3
2021/22	405.3	0	6.4	411.7
2022/23	411.7	0.5	3	415.2
2023/24	415.2	4.5	4	419.7

3.22.4 Stormwater: Employees

Table 155: Stormwater employees

Job level (T-grade)	2022/23	2023/24			
		Budgeted posts	Employees	Vacancies	Vacancies (as a % of total budgeted posts)
	Number				
0-3	-	-	-	0	0%
4-6	17	28	25	3	7.50%
7-9	6	9	9	0	4%
10-12	2	3	3	0	0%
13-15	-	-	-	0	0%
16-18	-	-	-	0	0%

Job level (T-grade)	2022/23	2023/24

COMPONENT C: PLANNING AND ECONOMIC DEVELOPMENT

3.23 Planning and Development

The Directorate: Planning and Development was amalgamated with the Human Settlements Directorate and is now known as the Directorate: Human Settlements, Planning and Development and Property Management. It entered the 2023/24 financial year with stability and functionality in its top management structure with its main functions divided into four sub-departments, each headed by a deputy director, of which one position is vacant.

a. Town Planning

The operational capacity in Town Planning and Environmental Management has been addressed through the continued filling of vacancies and the release of funds to secure additional positions and increase the capacity within the department for enforcement of by-laws and legislation.

The Municipality has advanced to a predominantly paperless system with the result that all land development, building plans, transfers, environmental and other applications processed by the Directorate are submitted online and processed electronically. Over the past financial year, improvements were applied to the modules to enhance oversight and improve the accuracy of data required for reporting.

With the capacity gained in the planning division, the focus during the past financial year was on increasing the capacity in the new division for litigation and compliance. A manager has been appointed and three new inspectors will be appointed in the coming year. A critical assessment of the operating procedures relating to enforcement revealed inefficiencies where cost saving measures could be applied. The controls and oversight over the enforcement and compliance processes have been improved and the department is working on developing a module to improve the workflow and timelines in processing complaints and transgressions, which is anticipated to be operational by the end of the next financial year.

b. Spatial Planning, Strategic Projects and Environment

The Spatial Planning Division is the custodian of the Municipal Spatial Development Framework (MSDF). The Amended George MSDF (2023) was adopted, following required consultation processes, including input via an Intergovernmental Committee, concurrently with the adoption of an amended IDP in May 2023. The MSDF, being a core component of the IDP was reviewed, as part of the IDP review process, during the 2023/24 Financial year. The MSDF Review Report was presented to Council in June 2024.

The mainstreaming of the MSDF, to ensure that Spatial Development Strategies and Policies, as well as structuring elements, are considered in sectoral plans and guide public and private development, is key. To this end consultation and input from relevant departments in the 2023 MSDF amendment, the input of municipal departments in the review of the projects included in the Draft Capital Expenditure Framework list of projects, comments on land use applications, both at pre-application stage and during the application circulation process, and inputs on draft strategic documents such as the CIP (Comprehensive Integrated Transport Plan) and George Integrated Economic Growth and Development Strategy (GIEG&DS) disseminated the spatial development intent expressed in the MSDF. The MSDF is available for public view on the municipal website and is graphically included on the Municipal Viewer.

Performing the MSDF in-house not only supports a better understanding and application of spatial planning principles in development within the sections of the HSP&D Department and other municipal and provincial departments, but also allows for the continual update of technical base data, via our Geographic Information System (GIS). Data, such as the updated Coastal Management Line can promptly be assimilated in the information layers which advised development decisions, without requiring an amendment of the MSDF.

The capacity within the Spatial Planning team has been increased with the permanent appointment of a Spatial Planner and a Manager, to augment the capacity of the Senior Spatial Planner.

The Implementation Plan linked to the MSDF includes various catalytic projects aimed at implementing initiatives identified in various strategic documents, to accrue socio-economic benefit to George. The intent is to enhance the value and ready municipal property for use/development by completing the required technical processes. In addition to facilitating the implementation of projects by mandated provincial- and national departments, the Spatial Planning Directorate has been instrumental in.

Project Description	Status
<p>Social Housing: Crocodile Farm Project (Part of Erf 464 George) – Planning application and Basic Assessment</p>	<ul style="list-style-type: none"> a. The following technical processes have been concluded: ennoblement process is near concluded, including: <ul style="list-style-type: none"> I. Geotechnical Investigation (2022) II. Traffic Impact Assessment (2023) III. Services Report (2023) IV. SHRA Feasibility Report. (2023) V. Zoning approval (2023) VI. Social- and High-Density Housing Design Guidelines adopted (2023) VII. Environmental authorization (Issued on 5 March 2024. No ap-peals received). b. The Land surveyor appointed, and survey completed. Surveyor General approval of diagrams awaited. c. The completed technical work, to the value of R1 154 615, is considered an investment incentive. The work completed by the Municipality contributes to the de-risking of the proposed development and will aid the selected Social Housing Institution in bringing the project to ground in a short timeframe. d. The Human Settlements Department is in process of submitting an Item to Council relating to the release of both the social housing component of the project and the commercial component. e. The land use preparation approvals allow for 500 social housing rental units, 100 bonded rental units and 4000m² commercial, social, consulting rooms, retail.
<p>Application: Portion of Erf 464 George – proposed tertiary facility and mixed-use development (George Dam Development)</p>	<ul style="list-style-type: none"> a. The development is envisaged as a mixed-use development including residential units, residential erven, open spaces and recreation areas and areas for tertiary education and learning facilities. b. Technical studies were concluded, and a Town Planning application submitted. c. Environmental authorization was obtained. An appeal was received and dismissed. (2023) d. The Water Use License application was approved, but an appeal was received (2023) e. Planning process halted awaiting decision by the Department of Water and Sanitation (Water Tribunal).
<p>Neighbourhood Development Partnership Programme (NDPP): Thembalethu Node 1 (Ilisoletu) –</p>	<ul style="list-style-type: none"> a. The aim of the project is to attract investment to the area previously identified as a mixed-use node in Thembalethu and to stimulate socio-economic development and to create a more active, functional node. 11 Interrelated investment projects were identified. b. The Investment Plan was approved by National Treasury and the George Municipal Council and finalized in September 2023. c. An Interim Area Management Committee was established in January 2024 and sit monthly. d. Funding was allocated and released by National Treasury (NT) in the FY2023/2024 for the conclusion of the Investment Plan and the completion of Components of Projects 1 (Access Investigation and design of Nelson Mandela Boulevard) and Project 7 (Recreation route and Market). These components were completed and 98,3% spending achieved. e. In addition to project funding provided by George Municipality and NT, two investors have been secured, with lease agreements in process.
<p>Gwayang Mixed Use Development: Industrial, social, commercial and residential uses.</p>	<ul style="list-style-type: none"> a. A team of professionals has been appointed (Jan 2024), following from the adopted concept plan and previous technical studies (Environmental Sensitivity, Geotech, Traffic Impact Assessment, Outline Services Report, Phasing Concept, Urban Design), to proceed with the Environmental Impact Assessment, Water Use License Application and Town Planning Application. b. The project is envisaged to include Industrial erven, mixed use commercial erven, erven for residential and social supportive functions on 181ha.
<p>Metro Industrial Development</p>	<ul style="list-style-type: none"> a. The current process relates to the finalization of a draft layout, based on environmental and engineering input, and specifically new input relating to the design position of the Rand Street Extension. The layout allows for an educational facility and 19 relatively small Industrial erven on 19,8ha.

Project Description	Status
	<ul style="list-style-type: none"> b. The following supportive studies have been completed (June 2024): <ul style="list-style-type: none"> I. Updated Environmental Sensitivity Report (Screening has been submitted to WC: DEA&DP: EIMS), II. Engineering Outline Services Report, III. Traffic Impact Assessment. c. The process of formal Planning Application and application for Environmental Authorization to follow
George Heritage Strategy and Precincts	<ul style="list-style-type: none"> a. The George Heritage Strategy and concept Precinct Plans for delineated areas in Pacaltsdorp and the CBD, have been completed and were presented to stakeholders, Heritage Western Cape and the Municipal Council and Directors in workshops. In October 2023 the Municipal Council adopted the Strategy and Road Map and supported the draft Precinct plans. Sanction was provided for the Heritage Overlay Process to follow. b. The Overlay Process is managed in-house with support from specialists involved in the drafting of the Strategy and Precinct Plans and the grading of the inventory. c. Heritage Western Cape (HWC) supported the draft Heritage Inventories for the two precinct areas during the Inventories, Grading and Interpretation Meeting (IGIC) held on 9 February 2024 d. The Draft Overlay and Guidelines for the two precinct areas have been drafted and will be presented to Council prior to the initiation of the public participation process.
Sweetpea Project	<ul style="list-style-type: none"> a. The Sweetpea project relates to 106 residential opportunities and a sport and recreation open space. b. Amended Traffic Impact- and Access Studies were required and were completed in June 2024. c. The Municipality is completing the planning application in-house to enable the release of land. The presentation to the Pre-Application Committee has been completed. d. The submission of a formal application is underway.
St Mark's Square upgrading	<ul style="list-style-type: none"> e. St Mark's Square is a component of the Public Transport network of the George and contributes to the provision of parking space in the CBD. f. A Traffic Impact Assessment was finalized, and a concept design plan concluded g. The conclusions of the study will be presented to Council.
Outeniqua-Groeneweide Precinct Planning	<ul style="list-style-type: none"> a. An Environmental Site Sensitivity Report, with supporting specialist studies were concluded in March 2024 for part of Erf 464 George, south of Kingswood and north of the R102. b. Pockets of land have been identified, based on the environmental studies, which may be suitable for development. Approximately half of the 36ha site has been earmarked as wetland and wetland buffer area. c. The completion of further technical studies, such as Traffic and Transportation investigations, and the refinement of a Precinct Plan has been budgeted for in 2024/25.

The review and amendment of the 2019 Municipal Spatial Development Framework (MSDF) was performed in-house. The Directorate benefits from support from the Western Cape Provincial Government, whereby knowledge and capacity are shared to enable this process. The MSDF amendment included significant work in refining the Capital Expenditure Framework, which will be applied to guide the allocation of funds toward achieving optimal results in restructuring and fiscal sustainability.

Performing the MSDF in-house demands significant capacity, which is currently limited, yet the department concluded this process successfully. It resulted in significant savings that would otherwise have been spent on consultants and has confirmed the need for raising the capacity in the Spatial Planning division. A manager for this division will be recruited in the new financial year.

The Division initiated new projects to secure industrial rights with the intention of releasing properties for industrial development and job creation. National Treasury afforded a grant under the Neighbourhood Development Partnership, through which a selected precinct in Thembaletu has been re-imagined and a pipeline of projects were identified as a strategic intervention in the regeneration of the neighbourhood.

The Natural Resource Management department reports under the Spatial Planning Division. An environmental officer has been appointed during the 2021/22 financial year and the Department is making good strides in improving the tools and systems needed to ensure efficient environmental management processes. The environmental officer received training

and was certified as an EMI and underwent training as a Peace Officer. The Directorate has witnessed the benefits presented by its ability to coordinate the environmental, land use and construction mandates under the banner of one Directorate. This is proving to strengthen our ability to enforce the policy and objectives of our MSDF across the disciplines.

The Natural Resource Management section resorts under the Spatial Planning Division. A new Environmental Officer was appointed during the financial year and is currently the only post filled within this section. The section is responsible for overseeing compliance to South Africa’s comprehensive Environmental Legislation and Policies and contributing to the realisation of Section 24 of the Constitution. Another responsibility of this section is the administration of the Sensitive Coastal Area Regulations in the Outeniqua Sensitive Coastal Extension Area. Table 158 lists the number of applications processed to authorised developments subject to the regulations The Environmental Officer successfully completed training as an Environmental Management Inspector and will be designated as such in terms of Section 31C of the National Environmental Management Act 107 of 1998.

The section is also overseeing the development of River Maintenance Plans (MMPs) for the Gwaing, Skaapkop and Meulen Rivers. The Riverine MMPs will facilitate the undertaking of specified listed activities under the Environmental Impact Regulations, 2014, enabling the required work to proceed without the need for a full EIA, if these activities comply with the approved MMP. This project will establish baseline conditions for the ecological and biodiversity status of these watercourses and identify actions needed to minimize impacts on critical ecological infrastructure and improve their present ecological status for greater climate resilience. The project is slated for completion in the 2024/25 financial year.

The section is also currently working on the development of a climate action plan for the Municipality in response to the promulgation of the Climate Change Bill. This plan aims to increase the resilience of settlements, infrastructure and ecological assets to ongoing and predicted climate change impacts in the region.

One inspector is currently employed in the section, and it is the intent to appoint more officials in the coming financial year. The division concluded the process of developing Protected Area Management Plans for the three conservation sites under Municipal jurisdiction. In this process, new areas were identified that should be included in the boundaries of the conservation area, which will go a long way in protecting strategic water source areas.

Table 158: Summary of OSCA applications processed over the past financial

Process	2021/22	2022/23	2023/24
Applications received in the reporting period	53	62	36
Outcomes issued in the reporting period	51	48	26

b. Development Management

The Development (Land-Use) Management Division works closely with its fellow departments to ensure that the regulatory environment relating to land development remains resilient, efficient and conducive to supporting good quality environments within which to live, work and relax. The by-laws developed and applied by this Division are the instruments that bring the objectives of the MSDF - and the norms and standards sought through planning law - to the ground.

The Division currently employs six registered planners. The senior planner post and the assistant planner post was vacated in 2024. Both posts have since been filled with the incumbents starting in the 2024/25 financial year, with the result that all funded posts in this Division will then be filled. The staff complement of the Division has increased from five technical staff members in the previous years to eight technical staff members. All the technical staff received training and certification as peace officers. The workload remains high as application volumes are high.

The Division remains heavily reliant on internships funded from the National Treasury’s ISD Grant to build capacity. It is noteworthy to mention that six (6) of the interns that completed the three (3) experiential training program have since found employment in the Town Planning Department.

The application processes in the Division are fully digitized and procedures are paperless. Application files are saved and maintained digitally. The review, advertising, adoption and promulgation of George Integrated Zoning Scheme by-law was concluded in October 2023. A further amendment of said by-law through the addition of overlay zones for Uniondale, Haarlem and Thembalethu will be concluded in the new financial year.

In September 2023, the Division also submitted the George Municipality: Backyarder Housing Strategic Framework to Council for adoption. The final list of interventions / programs for implementation of the strategy will be submitted to the Council in the new financial year.

c. Land Use Statistics

Table 159: Number of land use applications finalised

d. Building Control

The Building Control Section deals with building activities, which entails new buildings, additions and alterations to existing buildings as well as temporary structures and the activities associated thereto.

All municipalities administer the National Building Regulations and Building Standards Act, 1977 (Act 103 of 1977), the regulations embodied in the Act and the South African Standard Code of Practice (SANS 10400 for the application of the regulations). The purpose is to ensure that buildings are designed and built in such a manner that people can live, learn, work and play in a healthy and safe built environment. Municipalities’ by-laws must manage the way in which land and structures within their area of jurisdiction are used, as well as how construction activities are executed.

The National Building Regulations determine that no person may erect, alter, add on or convert a building without the prior approval of the local authority. Building plans are assessed against the requirements of the building standards, regulations, any other applicable legislation, and 23 sections of the SANS 10400, that deal with various aspects of a building.

Once building plans are approved, the building inspectors carry out three compulsory inspections, namely:

- The inspection of all foundation trenches and the positioning of the building on site;
- The inspection of all new drainage installations; and
- On completion of a building, a final inspection (completion) is carried out as no building may be occupied without a certificate of occupation.

Prior to the issuing of the certificate of occupation, the building inspector ensures compliance with the structural aspects, fire installation, health requirements, electrical installation, roads and stormwater requirements, drainage installation, energy efficiency of the structure and compliance with the approved building plan. Furthermore, it is the responsibility of the building inspector to address illegal structures and unsafe structures, be a witness in court cases on behalf of Council, implement legal action when required, control building rubble, enhance public safety, assist the public and professionals with information on building control-related matters and perform administrative tasks associated with these functions.

Local authorities act in the interest of the owner when carrying out the compulsory inspections and have no financial or any other interest in such buildings. For this reason, the owner of a building must appoint his/her own clerk of works to inspect and control the quality and workmanship of the building work. There is thus no obligation on the Council’s building inspectors to control the quality of workmanship and materials, but the owner must be informed by Council of poor-quality workmanship and/or materials when observed.

The Building Control office now runs all its application processes electronically and all technical staff can conduct their operations on- and off-premises. These advancements in the systems and technology used by the section have improved the efficiency of records-keeping, accurate reporting as well as the ability to track and monitor the progress of applications. The section has made great strides in addressing backlogs.

During the 2023/24 financial year, the Building Control office implemented the reviewed Outdoor Advertising Bylaw, Problem Premises Bylaw, as well as the Building Control Bylaw. These bylaws are tools that will enable the Municipality to introduce fines related to illegal construction and occupation of premises.

To the end of the financial year, a major tragedy befell the George community. On 6 May 2024, a building under construction collapsed and the community suffered unprecedented loss of life.

The Building Control Section was extensively involved in the rescue operation, providing technical support to the Mayor, Municipal Manager as well as the rescue team.

Table 164: Building plans applications processed

Application type	Total	Area	Value
New Applications Received	1 853	293 065	R2 217 277 695.00

e. Investment Property Management

Property management is prescribed by legislation, i.e., the MFMA, Municipal Systems and Structures Acts, Municipal Asset Transfer Regulations, and Supply Chain Management Regulations. The Investment Property Management section is responsible for recommending, administering and managing the acquisition, enhancement, alienation, leasing and utilisation of Council-owned investment immovable properties and rights in such properties and includes:

- **Contract administration:** Management of contracts (deeds of sale, lease agreement) for investment properties based on Council's policies and resolutions; and
- **Property administration:** Ensuring compliance with legislated processes pertaining to the disposal of and management of municipal fixed land assets and buildings utilised for investment and revenue generation to ensure achievement of the strategic objectives of the Municipality.

Table 172: Property Management section overview

Activity/Operation	Outcome/Results
Investment properties sold 01 July 2023 to 30 June 2024	R3 964 275.84 plus VAT
Properties leased 01 July 2023 to 30 June 2024	R3 341 580.80

Total reports to Council	17
Application received 01 July 2023 to 30 June 2024	

Applications for the alienation of Council properties	93
Applications for leasing of Council properties	48

3.24 Economic Development

Economic Development commits local government, the private sector and the civil society organizations the opportunity to work together in finding ways of dealing with challenging socio-economic issues and build a sustainable economy. It aims to create jobs by growing the economy and in the process reduce poverty.

Local Government as the closest sphere to the people has a constitutional mandate to undertake a developmental approach when implementing policies. Therefore, through LED local government can meet the basic needs of the people by establishing (whether directly or indirectly) that will create jobs and alleviate poverty in a sustainable manner. Maximum economic growth can be achieved by streamlining LED throughout the municipal efforts in service delivery.

The current economic realities at all levels of the economy signify a shift in normality considering the waves of economic recovery to the negative effects of the loadshedding. The potential to turn around these major threats to the economy of George Municipality requires the council to implement targeted strategies tailored to specific local contexts. In addressing these major challenges, a special focus must be placed in the rural areas of George Municipality such as Haarlem, Uniondale and Touwsrante. Economic infrastructure, access to basic socio-economic services, access to opportunities etc. Education and skills development are fundamental for economic growth. However, the quality of education and the mismatch between skills demanded by the job market and those possessed by the workforce remain challenges. The Municipality will continue to address the skills through bespoke programs.

The Municipality continues to focus on creating an enabling environment for economic growth, attracting investment, fostering entrepreneurship, and addressing challenges to build a more resilient and prosperous local economy. George Municipality collaborates with various stakeholders, including government bodies, private sector entities, NGOs, and community organizations, to drive economic development initiatives. These partnerships facilitate resource sharing, knowledge exchange, and the implementation of joint projects aimed at economic growth.

George Municipality boasts a diverse economic landscape that includes sectors such as agriculture, tourism, manufacturing, retail, and services. The economy of the George municipal area was valued at R22.8 billion with sectors such as finance (32.2 per cent), trade (16.8 per cent) and manufacturing (14.8 per cent) leading the way in terms of GDP contributions (MERO, 2023-2024:48. The larger municipal area, in turn, has a thriving agriculture sector specializing in mixed farming and non-perennial crops.

Efforts to attract businesses and industries to George Municipality have been ongoing. The Municipality provides support for small and medium-sized enterprises (SMEs), promoting entrepreneurship and innovation, facilitates skills development initiatives, supports local business formations. Initiatives to diversify the economy and create employment opportunities are continually being explored.

The Municipality launched several economic development initiatives and interventions. It adopted a two-pronged strategy, concentrating on SMME capacity-building to provide an environment that is conducive to the operation of commercial firms, as well as the facilitation of key initiatives to support specific sectors and joint/ collaborative initiatives. These actions included:

- The Start-Up Tribe Online Entrepreneurship Academy
- George Skills Indaba
- Flame Programme
- Supplier Day
- The NHBRC Technical Training Contractor Development
- The Global Entrepreneurship Week (GEW)

- The Informal Trading Activities in the CBD
- CBD Regeneration
- Bicycle Distribution Project
- The Entrepreneurs Competition by George Business Chamber
- The Worker Collection Point

3.24.1 Economic Development: Highlights

DRAFT

The table below indicates the highlights within the Section: Economic Development.

Highlights	Description
Start-Up Tribe (Online Entrepreneurship Academy)	To provide online entrepreneurship education and training to entrepreneurs. The aim is to provide easy access to entrepreneurship education and possibly upgrade the platform to an online incubation centre
George Skills Indaba	Facilitate and coordinate skills development initiatives to support the economic sectors of George with vocational and technical skills. Key role players in the training and development space in George convene on a quarterly basis to present opportunities, developments and challenges faced by these organizations. 20 organizations participated with different opportunities presented with new developments and launches of new skills centres
Flame Programme	Provides SMMEs business development, access to markets, access to funding and access to mentorship for 15 months. There are currently 26 entrepreneurs participating on phase 1 of the programme
Men on the Side of the Road	Create a legitimate and conducive space for men on the side of the road work seekers to access work opportunities and employers to access work seekers quicker and efficiently. There are currently 45 men on the side of the road, and 91 men are not yet recorded as they have been avoiding any paperwork
NHBRC (National Home Builders Registration Council) Technical Contractor Development	The technical training for building contractors equips emerging contractors in the building industry with technical knowledge on building matters. This is a 5-day training course also covering Health and Safety and 17 contractors benefited. This is a partnership between NHBRC, George Municipality and Western Cape Department of Infrastructure. Some of the key stakeholders include the South African Revenue Services (SARS) and the Construction Industry Development Board (CIDB)
Thembalethu Farmer Production Support Unit (FPSU)	Considering the major urban farming land in certain areas of George the Thembalethu FPSU have been one of the key projects in assisting the Thembalethu Farmers to acquire a lease agreement (portion 197) for farming projects. The Department of Agriculture, Land Reform and Rural Development and Western Cape Department of Agriculture have been cooperating on this project and they are currently busy with the environment impact assessment- Agricultural Project Site. There are 5 cooperatives linked to this initiative ranging from crop and livestock production
The Global Entrepreneurship Week (GEW)	George Municipality in partnership with SUFF Academy and the Western Cape Department of Economic Development and Tourism (DEDAT) successfully launched the Global Entrepreneurship Week (GEW) from the 13-18 November 2023. There were 190 SMMEs in attendance from the Garden Route municipalities. This was the first of its kind in the Western Cape and will be hosted in George until 2025
Informal Trader at George CBD	To coordinate and facilitate the informal trading activities taking place in the CBD and manage leases and payments of tariffs. Furthermore, to support and empower the sector with business acumen skills. There are currently 96 demarcated trading spaces in the CBD, and training and roadshows have been conducted with the informal traders
CBD Regeneration	Facilitation and coordination of a safer, cleaner city with well maintained and upgraded infrastructure. One of the activities includes the Monthly CBD walk-about with key departments or sections of the Municipality directly involved in the delivery of services in the CBD. Collaboration with the George Chamber remains an integral part of this initiative to ensure high level coordination and reporting of complaints
Bicycle Distribution Project	Creating bicycle mobility to support key sectors of the community such as SMMEs, neighborhood watches and youth cycling clubs. Seventy (70) bicycles were donated and distributed to SMMEs, neighborhood watches and bicycle youth clubs in George
Thembalethu I-Hub	The iHUB as business incubator renders support to young grassroots-innovators with the needed infrastructure, industry collaborations, enterprise supplier development linkages, access to funding linkages, mentoring and coaching, and potential partners or investors. The iHUB helps enterprises take on the challenge of township transformation in specific industries and business sectors and creates innovative solutions to those challenges
The Entrepreneurs Competition	This is a six-month business development/access to markets/ mentorship programme for SMMEs. It accommodates 20 finalists and the top 3-win tangible prizes and the runner-up finalists, get free 12months membership benefit to the George Business Chamber

Table 173: Economic Development Highlights

3.24.2 Economic Development Initiatives

In the year under review, the Municipality has put a high priority on the capacitation of entrepreneurs in the George municipal area. Initiatives focused on skills development, vocational training, and education aimed at addressing the skills gap and enhancing employability among residents. Collaboration with SEDA, SANRAL, FNB and OLD MUTUAL and Skills Africa contributes to building a skilled workforce. The Municipality has focused on the following interventions in the financial year under review.

Table 174: Economic Development Initiatives

Intervention	Partnership	Number of People who participated
The Start-Up Tribe	The Start Up Tribe, Western Cape Department of Economic Development and Tourism (DEDAT)	24
George Skills Indaba	Garden Route District Municipality and all other participating organizations	28
Flame Programme	ASISA Foundation, Mossell Bay Municipality and Kamva Capital	26
Men on the Side of the Road	George Private Employers	45
Building Technical Training Contractor Development	National Home Builders Registration Council (NHBRC) & Western Cape Department of Infrastructure	17
Thembalthu FPSU (Environment Impact Assessment- Agricultural Project Site)	Department of Agriculture, Land Reform and Rural Development	20
The Global Entrepreneurship Week (GEW)	Suff, George Municipality, Garden Route District Municipality, Hessequa Municipality, Kannaland Municipality, Unisa, Nyda, NDA, and Seda	190
The Informal Trading Roadshow	Western Cape Informal Traders Coalition	36
CBD Regeneration	George Municipality (All Directorates)	30
Bicycle Distribution Project	Bicycle Empowerment Network (BEN), Garden Route Skills Mecca, Western Cape Department of Mobility	70
Thembaletu iHub	Nelson Mandela iHub - Darryl	160
The Entrepreneurs Competition	George Business Chamber, ACSA (Airport Company South Africa)	18

3.24.3 Economic Development: Challenges

Below are the challenges regarding the implementation of the Economic Development Strategy (EDS):

Table 175: Economic Development Challenges

Challenges	Issues to Address
Lack of capacity in the Economic Development Section	Invest in LED Human Resources to capacitate the realization of its functions and mandate. Provide capacity based on the community and business needs
Insufficient funding of economic development initiatives	Invest enough funding for sustainable economic development initiatives to maximize impact and ensure quality service delivery

Challenges	Issues to Address
Area-specific approach given the vast area and different characteristics of the different areas	The destination marketing approach must ensure the inclusion of all corners of the Municipality’s outreach.
The growing wave of extortion crimes (Protection Fee) the biggest threat to businesses	Adopt an intense crime intelligence approach to prevent and deal with these crimes. Invest enough money into Business Crime Intelligence
The matching of relevant skills to the market and high youth unemployment remains major risks	Invest in a data driven solution to guide all key sectors of the economy on where the skills gaps are and match that with the current supply through the skills mecca. Investing on periodic comprehensive skills audits to feed off the markets
Lack of business intelligence or data driven economic development strategy	Adopt and invest in building a business intelligence driven LED with a special focus on economic data management strategy to support key sectors, investors and exporters
Lack of local export profile	Establish a local export profile to shape the export potential of George and integrate with the regional export profile for better coordination

3.24.4 Capital Expenditure 2023/24: Economic Development

The table below gives a brief description of all the challenges within the Section: Economic Development and Tourism during 2023/24.

Table 176: Capital Expenditure 2023/24 Economic Development

Capital Expenditure 2023/24 Economic Development				
Capital projects	2023/24			
	Budget	Adjustment budget	Actual expenditure	Variance from adjustment budget

3.24.5 Tourism

Tourism as a sector, in the past year, has outperformed both mining and agricultural in its contribution to the GDP, and is recognised as a priority sector of the South African economy. According to the United Nations World Tourism Organization, Tourism is defined as a social, cultural, and economic phenomenon which entails the movement of people to countries or places outside their usual environment for personal or business/professional purposes. These people are called visitors (which may be either tourists or excursionists; residents or non-residents) and tourism has to do with their activities, some of which involve tourism expenditure (UNWTO, 2023). Modern tourism is closely linked to development and is a key driver for socio-economic progress, producing economic and employment benefits. According to the Stellenbosch Business School, **for every 30 new tourists to a destination one new job is created**. As a significant economic development stimulator, the Tourism section does not necessarily show an income for the Municipality but stimulates

the local economy through a variety of businesses through corporates, but primarily hundreds of SMME's that provide services to the Tourism Ecosystem.

a) Accommodation Occupancies in George Municipality: A Steady Recovery

Accommodation occupancies in George Municipality have shown a consistent upward trend, indicating increased demand for the destination, and expanding economic opportunities. In 2019, which is considered a pre-pandemic benchmark year, the average accommodation occupancy rate was 43%. Due to the global pandemic, this figure dropped sharply to 29% in 2020. However, recovery began in 2021, with the year ending at an average occupancy rate of 39%. By 2022, George surpassed its 2019 occupancy levels, achieving an average of 45%. This growth continued in 2023, with occupancy rates increasing by another 3%, reaching 48% for the year. The positive trend has persisted in 2024, with an average occupancy rate of 49% recorded for the first six months.

Occupancy is monitored based on the number of available properties and rooms. In terms of supply, the average number of properties listed on online travel agencies (OTAs) was 1,339 in 2019. This figure dipped slightly to 1,326 by the end of 2023 but has since rebounded, averaging 1,373 properties in the first half of 2024.

b) International Visitor Trends

International arrivals to George Municipality also demonstrated a strong recovery in 2023, despite global travel numbers not fully returning to pre-pandemic levels across major source markets. In 2019, international visitors to George Municipality accounted for 39% of total arrivals. This share fell to 24% in 2020 and further to 17% in 2021 due to the pandemic. However, international arrivals rebounded swiftly in 2022, reaching 35%, and by the end of 2023, they exceeded 2019 levels, averaging 43%. This upward trend continued into the first half of 2024, with international arrivals averaging 47%.

George's top five source markets pre-pandemic were South Africa, Germany, the United Kingdom, the United States, and the Netherlands. These markets remained consistent until the end of 2023, maintaining the same ranking. Additionally, tourism operators have noted increased interest from Middle Eastern visitors during the winter months. This trend is further supported by a rise in Arabic reviews of local attractions on Google, possibly due to alternative booking methods such as tour operators.

c) Market Research

Research remains a critical element in strategic planning for marketing and promotion. The department continues to use the Online Tour Operator (OTA) research platform to monitor trends and seasons, as well as booking lead times and source markets. Regular statistic sources were developed and recorded, and reports were generated and distributed to take the country and destination level insights into account.

In addition, relationship have been forged with the Department of Economic Development and Tourism Western Cape to obtain Hotel Statistic for the area (although not many hotels in George participate) and the George Airport to monitor and evaluate available statistics.

d) Tourism marketing

Destination marketing is critical to the economic stimulation of the area, to create positive associations about George in the minds of travellers, and to provide a coordinated marketing effort of the tourism offerings at the destination level – rather than by individual experience.

If the destination is not a desirable place, no matter how great a tourism product is, it cannot thrive because it is not supported by complimentary services. Similarly, if the destination is not kept in the minds of potential travellers, their

attention is diverted to other options. George Municipality has a wealth of small tourism providers offering outdoor, sports, gastronomy and arts, culture, and heritage related activities.

A campaign was developed to find a worthy brand for the destination, and to this end, the 'George, Naturally' Concept was born and developed. The groundwork for the development of the new brand was completed and will be rolled out over the next year.

A seasonal campaign ensured that the department managed to show outstanding results for the past year, resulting in one of the busiest high seasons in the history of George, with an average occupancy rate of season more than 70%. This is the magic number in terms of investors considering building and developing additional products in any area. We hope to improve even more in the new year.

e) Stakeholder relations

A process of updating all member details and information, as well as signing up new stakeholders, are a busy year for the tourism officer charged with this project. It is time-consuming and painstaking, and will continue through the next year, when the process will start all over again.

Another successful Stakeholders Conference was held, with Fancourt at the main sponsor. The stakeholder relations are difficult to maintain as small businesses can seldom leave their business to attend events and meetings, but the conference was sold out and was lauded by all participants

A member's newsletter is sent out once per month, and a WhatsApp group is another method of communication.

f) Visitor Information Centres

The George Visitor Information Centre had a devastating fire on the last day of the financial year, but two centres were in operation over the entire year. Support software is effective in managing, recording, and servicing tourism related queries in a professional and timely manner. A website live chat module is in effect so that web visitors can also be assisted while browsing the website.

Pre-built templates are used to communicate standardised information. The department has also purchased paid licences for ChatGPT, and the combination allows for better quality control through consistent messaging in all communications from the offices.

All queries which require further action are logged and responses can be reviewed, which assists with training, and is a context reference on any come-back queries, which can be handled by multiple agents.

g) Film and Events

The section’s strategy to attract and support events for recovery was to focus on leveraging events, as well as developing George as a film-friendly destination.

The section supported numerous events with financial, as well as ‘in-kind’ support, totalling an investment by the Municipality of R1 million, continued the positive contribution of attracting tourists to the area. Events are correspondingly valuable to the destination as they contribute to the positioning of the key tourism themes and create an association with George within a particular mindset – for example, trails or surfing. The destination also benefits from the event exposure gained in the media.

The Events Steering Committee is an established weekly meeting of key internal role players, to facilitate ease of doing business with George Municipality.

The section also provided support to local film producers, at no additional cost other than human capital.

a) Bookings and Applications

Further local stakeholder and customer support is delivered through event posters and banner bookings, as well as Tourism Road Signage applications.

3.24.6 Tourism: Highlights

The table below depicts the highlights for the section: Tourism for the 2023/24 financial year.

Table 177: Tourism Highlights

Highlights	Description
Expedia Digital Marketing Campaign	Promotion of the destination to US travellers showing travel intent signals on live booking platform, Expedia, via banner advertisements and a landing page
Trade Shows	Promotion of the destination to the tourism trade at World Travel Market Africa (Cape Town) and International Golf Travel Market (Portugal)
Development of ‘George, naturally’ Brand	Development of ‘George, naturally’ slogan and new brand aesthetic for Tourism’s marketing materials
Film Advertising	In-house promotion of the destination to film producers for the first time via the Locations Africa Film Fam, and advertisements placed in the Filmmakers Guide to the Western Cape and Creative Locations
Festive Season Campaign	Activation event ‘Opening of the Season’ with the Mayor of George, various activations at tourist hotspots, holiday guide advertising in local media, development and distribution of festive season brochure, participation in Mayoral Roadblock and distribution of tourism maps to local tourism stakeholders for dispersal to their clients
Visitor Information Centre Upgrades	Promotional table, maps and marketing board placed at the African Aloe Café in Uniondale, aesthetic upgrades to the George and Wilderness Visitor Information Centre including striking light installations, various plants and holders, new reception desk, and reconfiguration of signage
Event Support	Distribution of R1 million in event support, including partnerships with higher level sporting events such as the MUT by UTMB, Tent pegging World Cup, U18 Craven Week and George Tens
Marketing Materials	Annual updates to marketing materials including the George, Wilderness and Uniondale tear off maps, digital brochure, updates to the website, the printing and production of various event and promotional items (fence wrap, gazebos, promo tables, tablecloths, chairs, banner wall, x-banners, caps, golf brochure and presentation, uniforms, bid template, trade show presentation, cell phone pouches, and more)
Social Media Channels	New content generated by Travel bug Rose, and weekly promotion of George, Wilderness and Uniondale on Facebook and Instagram
Advertising	Advertising promoting the destination at the George Airport, Rove SA

3.24.7 Tourism: Challenges

The table below reflects the challenges for the section: Tourism for the 2023/24 financial year.

Table 178: Tourism challenges

Challenges	Actions to Address
No permanent Info Desk staff	Employ 3 customer service agents to man the information desks if the budget is made available
Insufficient budget to run mass media campaigns	Leverage affordable marketing opportunities and events to positively promote the destination
Overtime of staff due to events and demand upon the section	Keep managing overtime responsibly to ensure harmony in the office

3.24.8 Total Employees: Economic Development

The table below reflects the employees within the Economic Development section for the 2023/24 financial year.

COMPONENT D: COMMUNITY AND SOCIAL SERVICES

This component includes libraries and archives, museums arts and galleries, community halls, cemeteries and crematoria, childcare, aged care, social programmes and theatres.

3.25 Libraries

Despite the mayhem and stressful situation that the failure of the SLIMS library application brought about to our services, all staff members of George Libraries continued to form strong and collaborative relationships with different communities, the Education Sector, Department of Correctional Service, National Library of South Africa, numerous other organs of state, NGO's, NPO's, as well as provincial structures and services. The result of this repurposed effort had definite benefits as the public had access to the latest information and technology and enjoyed the benefits of a learning society by providing places and spaces for community programmes, as well as community involvement.

George Libraries ensured that services were rendered in clean, safe, and harmonious environments. It was a privilege for all staff members to be of service and to ensure that the cultural, educational, informational, and recreational needs of all the citizens of George, surrounding areas, including all the people who visited these areas, were addressed. The aim of all these efforts was to ensure that all communities were given the opportunity to rediscover the beneficial role that libraries play in our society.

The Municipality has 11 libraries, located in Avontuur, Blanco, Conville, George, Haarlem, Noll, Pacaltsdorp, Thembaletu, Touwsrante (new library being constructed), Uniondale, Waboomskraal. Uniondale is one of the oldest libraries.

3.25.1 Libraries: Highlights

The table below specifies the highlights for the 2023/24 financial year.

Table 181: Library highlight

Highlights	Description
Uniondale Library obtained a mini library for the Blind	This service will be of benefit to the visually impaired and ensure that they become part of the information society
George Libraries celebrated Library Week	The theme for this year was: Libraries foster social cohesion
Eleven Year Beyond Youth volunteers joined George Library Service (as from May 2024)	Year Beyond is a youth service partnership between the Western Cape Government, Community Chest of the Western Cape, Michael and Susan Dell Foundation and numerous NGOs. It aims to provide 18- to 25-year-olds with a meaningful work experience and a pathway to further studies or work while at the same time encouraging a culture of active citizenship and volunteerism
The annual Funda Mzantsi Reading Championship	This addressed the literacy skills of different communities

3.25.2 Libraries: Challenges

The table below specifies the challenges for the 2023/24 financial year.

Table 182: Library challenges

Description	Actions to address
Load shedding	George Library obtained an inverter
Staff shortage	George and Pacaltsdorp Libraries made use of EPWP workers to clean the libraries

3.25.3 Service Delivery Levels: Libraries

The table below specifies the service delivery levels for the 2023/24 financial year.

Table 183: Library Service Delivery Levels

3.26 Community Halls, Facilities and Thusong Centres

Community hall facilities and Thusong Service Centres are one-stop, integrated community development centres, with community participation and services relevant to people’s needs. Based on the Batho Pele Principles, these centres aim to empower the poor and disadvantaged through access to information, services and resources from government, non-governmental organizations, parastatals, businesses, etc.

The objectives of the community halls, facilities and Thusong Centres are:

- To bring government information and services closer to the people
- To promote access to opportunities as a basis for improved livelihoods
- To promote cost -effective, integrated, efficient and sustainable service provision to better serve the needs of citizens
- To build sustainable partnerships with government, business, and civil society
- To create a platform for greater dialogue between citizens and the three spheres of government.

The Thusong Centre model revolves around a Six-Block service model i.e. Government, Social and Administrative Services, Office Services, Education and Skills Development Services, Local Economic Development (LED) Services, Business Services and Communication opportunities, and Information and Communication activities.

The Department of Local Government officially held a site visit at the Rosemore and Pacaltsdorp areas to look for a suitable site to establish a Satellite Thusong Centre. Pacaltsdorp was identified as the most suitable area, because of the existing building which was used by the Post Office. The community input at the IDP meetings in Pacaltsdorp expressed the need for a Thusong Centre in their area, to bring services closer to the people instead of them having to travel to town.

At the Provincial Thusong Provincial Forum meeting in Saldanha Bay on 28 February -1 March 2023, funding was approved for a satellite Thusong Centre in George and the establishment of a Pacaltsdorp Satellite Thusong Centre would be funded with a Provincial Grant

3.26.1 Community Hall, Facilities and Thusong Centres: Highlights

The table below specifies the highlights for the 2022/23 financial year.

Table 186: Community Halls, Facilities and Thusong Centres highlights

Highlights	Description
Safety at George Municipal Civic Centre	Installation of Beta fencing at Civic Centre
Alarm systems were installed at various community halls	To cut the cost of security guards
Successfully hosted a book reading event called Funda Mzantsi at Conville Hall and Themba lethu Hall in October 2023	Book reading event by inmates
Thusong Centre Outreaches and door-to-door campaigns	Areas: Rosemoore, Pacaltsdorp, Blanco, Haarlem and Uniondale. Municipal and government services and awareness programmes on women and child abuse, alcohol abuse and educational programmes
Establishment of Pacaltsdorp Thusong Satellite Centre	Taking services to the people. Enhancing service delivery
National Outstanding Thusong Satellite Award	Held in Bloemfontein on 18 April 2024- Award received by Adam Lewie (Thusong Co-ordinator)

3.26.2 Community Halls, Facilities and Thusong Centres: Challenges

The table below specifies the challenges for the 2023/24 financial year.

Table 187: Community Halls, Facilities and Thusong Centres challenges

Challenges	Action to address
Vandalism at the community halls	Alarm system was installed
Insufficient inventories in halls	Will be addressed in the 2023/24 budget

Challenges	Action to address
Insufficient budget for maintenance at community halls	Will be addressed in the 2023/24 budget
Thusong Centres: <ul style="list-style-type: none"> • Security at Thusong Centres • Vandalism at buildings • Human Resources and Maintenance • Budget 	Thusong Centres: <ul style="list-style-type: none"> • Appoint law enforcement during the day • Fencing around buildings • Structure to be amended • To make provision for the above

3.27 Community Development

Community Development includes the development and implementation of effective community-based projects and programmes that address social needs within the broader George and its surrounding areas, including the Uniondale and Haarlem areas.

The section responsible for Community Development within the Municipality consists of four sub-sections, namely:

- Gender/Disability Development;
- Youth Development;
- HIV/Aids;
- Community Projects (ECD, Hope, Pauper Burials, Disasters, Soup Kitchens); and
- Community Food Gardens.

Gender and Disability: To mainstream gender and disabilities and include persons with disabilities in developmental programmes. The Developmental Plan integrates disability components into the budget, programmes, policies and strategies:

- Awareness (Events);
- Skills development;
- Disability audits; and
- Disability awareness and skills development.

Youth Development: To facilitate and coordinate the strengthening of youth issues within George to have empowered young people who can realise their full potential to make a meaningful contribution to the development of South Africa. The Municipality embarked on the following programmes:

- Awareness (Events);
- Job readiness;
- Career expos;
- Online applications;
- Food Gardens; and
- Jobseekers.

HIV and AIDS Section: The Municipality contributes towards the reduction in the prevalence of HIV and AIDS in the George municipal area through:

- Awareness and education (Door-to-Door, Media);
- Treatment and care (support groups, ARVs, OVC); and
- Special events (World Aids Day, Khomanani Day, International Candlelight Day).

Community Projects: Developing and implementing effective community-based projects and programmes, focusing on children and vulnerable adults, that address social needs in the broader community of George and its surrounding areas, including the Uniondale/Haarlem area through programmes such as:

- Project Hope (People living on the street);
- ECDs.
- Disaster assistance;
- Nutritional centres (soup kitchens);
- Aftercare skills development; and
- Pauper burials investigations.

3.27.1 Community Development: Highlights

The table below specifies the highlights for the 2023/24 financial year.

Table 190: Community development highlights

Highlights	Description
PROJECT HOPE (People who are homeless)	<p>Programme aimed at addressing the social challenges that people living on the street face daily. This programme entails:</p> <ul style="list-style-type: none"> • 3 persons acquisition of identity documents • 4 were reunification • Provision of necessities such as toiletries and clothing; 30 received toiletries • Typing of CVs and distributing these to local businesses. 50 people received CV. • Woman’s Day function for women living on the street; and 20 women were at the function • Regular information sessions with regards to social challenges, 12 trainings have been done • Thus far no persons received identity documents, 5 people gained accommodation, 6 people received employment opportunities, and 3 people received accredited computer training

3.27.2 Community Development: Challenges

The table below specifies the highlights for the 2023/24 financial year.

Table 191: Community Development challenges

	Actions to address
Staff shortage	EPWP appointments, but the Uniondale/Haarlem challenge is still active
Shortage of transport	One vehicle purchased in 2022/23 FY. No vehicle purchased in 2023/24 FY. Shortage persists

3.27.3 Service Delivery: Community Development

The table below specifies community development service delivery.

Type of service	2021/22	2022/23	2023/24
Soup kitchens established or supported	116 soup kitchens, the number decreased owing to the increase in food prices	116 soup kitchens. The number of soup kitchens decreased due to an increase in food prices	116 Soup kitchen, no new kitchen open, just replacements could be done
Initiatives to increase awareness of child abuse	<p>When schools give permission to enter the schools, aftercare programmes take place at two schools.</p> <p>Awareness sessions continue at pre-schools and primary school.</p> <p>We support 28 ECD centres throughout the George area, which include Uniondale/Haarlem</p>	<p>When schools give permission to enter the schools, aftercare programmes are held at 2 schools.</p> <p>Awareness sessions continue at pre-schools and primary school.</p> <p>We support 27 ECD centres throughout the George area, which includes Uniondale/Haarlem</p>	<p>We support 27 ECD centres with maintenance, paving, plumbing, repairing of electric wiring. been done at some centres.</p> <p>Awareness session in conjunction with different stakeholders take place regularly at ECD’ s and 4 schools were target with the aftercare program.</p> <p>2 aftercare programmes conjunction with churches’ take place</p>

Type of service	2021/22	2022/23	2023/24
Youngsters educated and empowered	<p>The information for Opportunities for the Youth continues through social media and Info at area offices. Recycling programmes have been established as part of skills development (Wilderness Heights and Newdawn Park).</p> <p>Skills and discipline programmes through the Sports for Change programme at Pacaltsdorp and HTS.</p> <p>Arts and craft skills training (knitting and beadwork) at Themba lethu and Imizamo Yethu High schools (aftercare program).</p> <p>Basic cooking lessons in conjunction with stakeholders (AKTV)</p>	<p>The information for Opportunities for the Youth continues through social media and Info at Area Offices Recycling programmes have been established, as part of skills development. (Wildernis heights and Newdawn park).</p> <p>Skills and discipline programmes through the Sports for Change program at Pacaltsdorp and HTS.</p> <p>Arts and craft skills training (knitting and beadwork) at Themba lethu and Imizamo Yethu High Schools (Aftercare program)</p> <p>Basic cooking lessons in conjunction with stakeholders (AKTV).</p> <p>16 June 2023 program - approximately 850 youngsters, attended a District Youth Expo in George</p>	<p>The information for Opportunities for the Youth continues through social media and Info at Area Offices Recycling programmes have been established, as part of skills development. (Wilderness heights, Themba lethu, Pacaltsdorp, CBS and Newdawn park).</p> <p>Arts and craft skills training (knitting and beadwork) at Themba lethu and Imizamo Yethu High Schools (Aftercare program)</p> <p>Basic cooking lessons in conjunction with stakeholders (AKTV) in Pacaltsdorp.</p> <p>16 June 2024 program - approximately 50 youngsters, attended Life skills training programs, at the George Museum</p>
Initiatives to increase awareness of disability and Gender/Women empowerment	<p>Information and Awareness regarding GBV, Gender and Disabilities have been communicated through social media as well as the G & D forums</p>	<p>Information and Awareness regarding GBV, Gender and Disabilities have been communicated through social media and the G & D forums.</p> <p>Golden games took place where we reached 300 elderly people</p>	<p>Information and Awareness regarding GBV, Gender and Disabilities have been communicated through social media and the G & D forums</p>
Initiatives to increase awareness of HIV/AIDS	<p>In conjunction with different stakeholders, the following programmes continue in the community:</p> <ul style="list-style-type: none"> • Education and Awareness • Support groups (HCH, CRC) • OVC programmes (Orphanage Vulnerable children) <p>SHE programmes (Social Health Empowerment)</p>	<p>In conjunction with different stakeholders, the following programmes continue in the community:</p> <p>Education and Awareness Support groups (HCH, CRC)</p> <p>OVC programmes (Orphanage Vulnerable children)</p> <ul style="list-style-type: none"> • SHE programmes (Social Health Empowerment) 	<p>In conjunction with different stakeholders, the following programmes continue in the community:</p> <ol style="list-style-type: none"> 1. Education and Awareness (Door to door, HCT outreaches, Safes paces, take place in all communities 2. four Support groups been establish doing needlework, beadwork (HCH, CRC), selling their staff at the community markets of LED. 3. Seven OVC (Orphanage Vulnerable children support groups been assist, with cooking skills, book reading, skills training camps. <p>SHE programmes (Social Health Empowerment, this program ensures the Health of LGBTQI)</p>
Initiatives to increase awareness of substance abuse as well as high drug and alcohol-related crimes	<p>Two training sessions took place in conjunction with SAHARA.</p> <p>Awareness sessions in the communities are ongoing.</p>	<p>Two training sessions took place in conjunction with SAHARA Awareness sessions in the communities are ongoing.</p> <p>World No-Tobacco Day was held in conjunction with LDAC</p>	<p>Planet Youth, surveys at schools</p> <p>Drug awareness door to door sessions conjunction with SANCA, SAHARA</p> <p>SAHARA drugs support groups weekly, at community services.</p> <p>June 25 drug awareness day 250 persons reached</p>
Special events hosted (World)	<p>Human Rights Day took place in the form of a PRIDE parade.</p>	<p>Human Rights Day took place in the form of a PRIDE Parade.</p>	<p>Pride Parade – July 2024, 600 persons reached</p>

Type of service	2021/22	2022/23	2023/24
Aids Day, World Disability Day, Youth Day, 16 Days of Activism against Women abuse and Khomanani Day)	International Candlelight Day was commemorated in conjunction with the Department of Health, and different stakeholders at Harry Comay Hospital. International Nurses Day has been held at the Blanco Community	International Candlelight Day was commemorated in conjunction with, the Dept of Health, and different stakeholders at Harry Comay Hospital International Nurses Day was held at the Blanco community	Youth day – 16 June 50 Youth reached International Food Day – 16 October 120 Homeless persons reached World AIDS day – 1 Dec 550 persons reached 16 Days of Activism -25 Nov to 10 Dec 23 289 persons reached
Pauper burials		129 Pauper burials were investigated	34 Pauper burials were investigated
Disaster assistance		940 Fire/ flood incidents were assisted with food hampers, blankets, and mattresses	159 Disasters, were assisted
Municipal Crèche Programme	Currently, 28 ECD centres have been monitored and evaluated by Community Development.	There are currently, 27 ECD centres, that have been monitoring and evaluating. Creches have been maintained in conjunction with the maintenance team	Currently we have 27 official ECD's that been maintain by the Municipality, Two ECD''s been unofficial
Vegetable gardens established	Seven community food gardens with the aim of providing fresh produce to crèches and soup kitchens. These gardens are in the following areas: <ul style="list-style-type: none"> • Touwsrante – two; • Borchards – two; • New Dawn Park – one; • Andersonville – one; and • Kleinkrantz – one Currently, there are two new community gardens in Rosedale	Nine (9) community food gardens with the aim of providing fresh produce for creches and soup kitchens, have been established. These gardens are in the following areas: <ul style="list-style-type: none"> • Touwsrante - 2 • Borchards - 2 • New Dawn Park – 1 • Andersonville – 1 • Klein Krantz – 1 Two new community gardens were established in Rosedale. The gardens have been monitored by EPWP appointed peer educators	No budget for the Garden project for 2023/24

Table 192: Community Development service delivery

3.27.4 Capital Expenditure 2023/24: Community Development

The table below reflects the Capital expenditure for Community Development for the 2023/24 financial year.

Table 193: Capital Expenditure 2023/24 Community Development

Capital Expenditure 2023/24: Community Development				
Capital projects	2023/24			
	Budget	Adjustment budget	Actual expenditure	Variance from adjustment budget
BLANCO CRECHE - CLEARVIEW FENCING	200 000	0	0	0
CHRIS NISSAN CRECHE: PAVING	50 000	46 000	42 732	3 268
MINA MOO CRECHE - NEW CRECHE	200 000	0	0	0
SANDANEZWE CRECHE: EXTENTION OF BUILDING	200 000	0	0	0
SIEMBAMBA CRECHE - INSTALLATION OF ELECTRICAL FENCING	200 000	4 000	0	4 000

Total all	850 000	50 000	42 732	7 268

3.28 Cemeteries

The Municipality operates five cemeteries, namely, York Street, Themba lethu, Touwsrante n, Uniondale and Blanco. There are also non-operational cemeteries in Uniondale, Rosemoor, Hope Street, Themba lethu and Pacaltsdorp.

Shared services team maintains the cemetery in Uniondale and there is a team maintaining the cemeteries in George. The Municipality approved the by-laws for the cemeteries and crematoria in 2010. The Cemeteries and Crematoria By-law has been reviewed in 2023.

George Municipality is currently investigating viable land for the expansion and additional land for cemeteries in George and Uniondale.

3.28.1 Cemeteries: Highlights

The table below indicates the highlights for the 2023/24 financial year.

Table 194: Cemeteries highlights

Highlights	Description
Fencing of Blanco Cemetery, Uniondale and Haarlem	Palisade fencing in Blanco Cemetery, Uniondale Lyonville and Haarlem cemetery was installed to prevent vandalism of tombstones and safeguarding the cemetery
Environmental studies for suitable land in Uniondale	There are various environmental studies that were undertaken on land that belong to the Department of Infrastructure. The studies undertaken so far have positive results in relation to the suitability of the land for the establishment of a new cemetery

3.28.2 Cemeteries: Challenges

The table below indicates the challenges for the 2023/24 financial year.

Table 195: Cemeteries challenges

Challenges	Actions to address
Capacity and Human Resources- There is not enough manpower to do the maintenance of all the cemeteries, there is one team with 6 small plant operators, and they are not able to service each Cemetery on time before the grass and weeds become long.	Making use of EPWP employees to assist in the cemeteries. Herbicide application to inhibit regular growth of grass and weeds

Challenges	Actions to address
York Cemetery at almost full capacity	Investigations underway to source and obtain available alternative land that is suitable for the establishment of a new cemetery

3.28.3 Service Statistics: Cemeteries

Table 196: Service Statistics: Cemeteries

Type of service	2021/22	2022/23	2023/24
Inhumations	1 178	743	1 021
Pauper burials	42	52	28

3.28.4 Total Employees: Cemeteries

The table below indicates the total number of employees in the Section: cemeteries or the 2023/24 financial year.

Table 197: Total employees: Cemeteries

Job Level(T-Grade)	2023/24				
	2022/23	Budgeted posts	Employees	Vacancies	Vacancies (as a % of total budgeted posts)
	Number

FENCING - CEMETERIES	1 400 000	1 374 876	1 374 665	211
Total all	2 150 000	1 374 876	1 374 665	211

COMPONENT E: ENVIRONMENTAL PROTECTION

3.29 Environmental Protection

Beaches under the jurisdiction of George Municipality are maintained and cleaned daily. Wilderness Beach, Herold's Bay, Victoria Bay retained its full blue flag status while Leeintjiesklip beach remained pilot blue flag status. The Blue Flag season starts from the 01 December – 31 January. There are teams responsible for the cleanliness of the beach, picking up litter, cleaning the braai spots and cleaning of ablution facilities in the beach area and the caravan camps in Gwaing and Herold's Bay caravan camp. Gwaing Beach was also awarded as Green Coast site, which is a WESSA recognition award that is developed for wild, less developed coastal areas that aim to protect species, habitats and cultural heritage.

George Municipality has a total of 150 parks and open spaces. These are maintained on a regular basis (18 cutting cycles per year) by private contractors. Landscaping in the urban area of the George Municipality is ongoing. There are dedicated teams responsible for the management of trees in George. The Tree Committee has regular engagements and plays an advisory role in the management of trees.

Alien clearing is ongoing on land infested by alien vegetation. George Municipality has an Alien Vegetation Management Plan and clearing is done as per the priority rating in the Management Plan. The total hectares cleared for the 2023/2024 financial year was 305 hectares. Initial and Follow Up clearing was done.

The Municipality has been selected to take part in the **Low Carbon and Climate Resilient Water and Wastewater Management co-beneficial programme**. This initiative primarily promotes urban development and infrastructure services, including emphasising water and wastewater services.

- Enhancing the utilisation of energy and promoting the use of sustainable energy sources in the management of wastewater;
- Resilience to climate change impacts; and
- Responsiveness towards marginalised populations

Land use, population expansion, the rising occurrence of disasters, and water security are significant factors influencing both climate change and development in the city. The Municipality has three primary natural disaster challenges: floods, fires, and water scarcity events (droughts). These disasters have a direct impact on citizens, the environment, and both private and municipal/public finances. Some of the main environmental challenges include limited water resources, loss of biodiversity, occurrences of floods and droughts, inadequate waste management, and degradation of land. The Municipality is currently undergoing a process of recuperation following the significant inundations that occurred in November/December 2021, which impacted all neighbourhoods inside the city of George.

The predictability, unpredictability, and severity of rainfall during shorter time periods are increasingly common, rendering prior monthly averages inadequate as a reliable reference. The Municipality must diversify its water supply as it can no longer only depend on natural water and other resources. This has become a growing priority. To provide a sustainable, fair, and cheap water supply for all people, it is crucial to make efficient use of drinkable water, reduce individual water consumption, and minimise overall water losses and non-revenue water. This is particularly important given the significant influx of immigrants and semi-permanent residents.

The country has long been troubled by its energy supply and reliance on natural resources. The Municipality's primary objective is to enhance energy resilience and decrease energy usage. Due to its topography, the Municipality has a significant number of sewer pump stations, with a total of over 160 pump stations (including 116 municipal stations and different private stations), making it one of the highest in the country in terms of quantity. An in-depth examination is required to enhance energy efficiency and reliability, resulting in the development of a feasible and actionable strategy with clearly defined outcomes. The malfunctioning of sewer pump stations presents a significant threat to the ecosystem and susceptible communities located downstream of these stations, since they rely on the rivers for recreational activities,

washing, and bathing. This poses potential health and environmental hazards. The most susceptible villages are located south of the N2 highway and in the downstream areas of river systems. Failures in water pump stations jeopardise the long-term availability of safe drinking water for communities.

The responsibility for providing both potable water and sanitation services, which are considered fundamental human rights, lies with the local government. The Municipality faces a growing challenge in providing a sustainable sanitation service that not only ensures the dignity and health of residents but also operates and maintains the service effectively to prevent environmental pollution. This challenge is further intensified by energy insecurity and immigration, which have led to the rapid expansion of informal areas.

The water and sanitation issues encountered by the Municipality are not exclusive to Local Government in attaining the objectives of the national water and sanitation goals.

The neighbourhoods and settlements that are most badly affected are those that are impoverished and informal. These areas need to be transformed to become more resilient to climate change. We need capacity building and assistance in developing urban planning strategies that are resilient to climate change, together with the creation of practical measures to achieve favourable results.

To enhance the city's ability to enhance urban planning, administration, and disaster response to floods, it is necessary to construct a flood line determination that identifies flood hazard zones, considering the several rivers within the urban area of the Municipality. The study must encompass an analysis of the failure, overflow, and saturation of the stormwater system under different rainfall events. This analysis aims to determine the specific points at which the system will fail, leading to the flooding of areas beyond the river flood lines. Pre-emptive disaster warnings can notify inhabitants in susceptible regions while enhancing land use management and zoning can greatly enhance flood catastrophe resilience.

The 2022-2027 Integrated Development Plan (IDP) focuses on tackling the difficulties posed by Climate Change and expresses the desire to initiate the construction of a Climate Change Plan, starting in the year 2023/24. The Municipal Spatial Development Framework (MSDF) outlines the concepts of climate change adaptation, as well as the associated hazards, mitigation strategies, and vulnerabilities. Some of the measures pertaining to the built environment have been included in the Zoning Scheme By-Law. The Greenbook, published in 2019 under the title "Adapting Settlements for the Future," offers planning tools to aid in the adjustment of settlements to the effects of climate change and extreme events. However, the Municipality needs assistance to formulate reliable plans that can be easily implemented, with a specific focus on addressing the difficulties faced in informal settlements and impoverished neighbourhoods. Disasters and climate change events, such as floods and the risk of heat/fire, have a significant impact on informal areas that lack sufficient finance due to the status of the occupied land and limited access to basic services due to legislative restrictions.

The Municipality has introduced several climate change initiatives, which are yet to be integrated into a formal climate change strategy and action plan. Additionally, the Municipality has just filled out a questionnaire for the Carbon Disclosure Project, which outlines the numerous activities undertaken by the Municipality. The activities demonstrate evident and bolstered political and administrative guidance and endorsement for climate change adaptation. However, the Municipality lacks the coherence of a comprehensive strategy to assess predetermined objectives in comparison to the progress and accomplishments made.

The Municipality has recognised the necessity of prioritising specific climate change initiatives to enhance resilience in the four primary areas, as well as others, encompassed by the GIZ-DWS support initiative.

- Water and wastewater services: identification and reduction of non-revenue water through physical interventions, systems, and training.
- Enhancing the energy efficiency of sewage and water pump stations as well as water/wastewater treatment facilities to promote the use of renewable energy sources in wastewater management.

- Enhancing climate resilience through the identification of flood lines, flood hazard zones, and saturation levels of stormwater systems, as well as the mapping of stormwater patterns.
- Addressing the needs of vulnerable populations: enhancing climate resilience in informal settlements and improving waste management;
- Efficient waste management;
- Aid in the formulation of a top-tier strategy and action plan for climate change resilience, encompassing specific and feasible objectives that can guide budget allocation and funding requests;
- Development of viable ideas suitable for funding and support in identifying and applying to possible funders;
- Dissemination of knowledge and provision of training; and
- Education provided by the government to the general population

The 2022-2027 Integrated Development Plan (IDP) focuses on tackling the difficulties posed by Climate Change and aims to initiate the construction of a Climate Change Plan, starting in the year 2023/24. The Municipal Spatial Development Framework (MSDF) outlines the concepts of climate change adaptation, as well as the associated hazards, mitigation strategies, and vulnerabilities. Some of the measures pertaining to the built environment have been incorporated into the Zoning Scheme By-Law. The Greenbook, published in 2019 under the title "Adapting Settlements for the Future," offers planning tools to aid in the adjustment of settlements to the effects of climate change and extreme events. Nevertheless, the Municipality needs assistance in formulating reliable plans that can be easily transformed into actionable measures, with a specific focus on tackling the difficulties faced in informal settlements and impoverished neighbourhoods. Disasters and climate change events, such as floods and the risk of heat/fire, have a significant impact on informal areas that lack sufficient finance due to the status of the occupied land and limited supply of essential services due to legislative limits.

3.29.1 Highlights: Environmental Protection

The table below depicts the highlights of the Environmental Protection section for the 2023/24 financial year.

Table 199: Environmental Protect highlights

Highlights	Description
Three Full Blue Flag Status for Herold’s Bay and Wilderness beach, Victoria Bay and Pilot Blue Flag Status for Leentjiesklip	In 2023/24 George Municipality obtained two blue flag status for Wilderness and Herold’s Bay and awarded full status for the first time for Victoria Bay and Pilot status for the first time for Leentjiesklip beach. This means that the beaches are compliant with Environmental Management, Environmental Education, Water Quality, and cleanliness of the beach areas.
Green Coast Award for Gwaing beach	This award means that Gwaing beach meets the environmental management and sound eco tourism activities as per the WESSA criteria for this recognition..
Fencing Cemeteries	Three cemeteries were fenced with palisade fencing, i.e Blanco cemetery , Lyonville in Uniondale and Haarlem cemetery..

3.29.2 Challenges: Environmental Protection

The table below reflects the challenges of the Environmental Protection section for the 2023/24 financial year.

Table 200: Challenges in environmental protection

Challenges	Description
Vandalism	Vandalism in ablutions in the beach area is a challenge. Vandalism in the cemeteries and the Gwaing Caravan camp stores.
Available land for the establishment of a new cemetery.	The current cemetery at full capacity and there is a challenge in identifying suitable land the establishment of a new cemetery for George.

3.30 Pollution Control

The Constitution of the Republic of South Africa (Act 108 of 1996) provides the legal basis for allocating powers to different spheres of government and thus, institutional regulation of pollution. The Bill of Rights provides that everyone has the right to an environment that is not harmful to their health or well-being. The objectives of the National Environmental Management: Air Quality Act (NEM: AQA), Act 39 of 2004 is to protect the environment by providing reasonable measures to safeguard air quality as well as to prevent air pollution, and to give effect to Section 24 (b) of the Constitution.

The Act requires municipalities to adopt AQMPs and is very specific in its definition of the goal of an air quality management plan. Of specific importance are the following:

- The improvement of air quality;
- Reducing negative impacts on human health and the environment;
- Addressing the effects of fossil fuels in residential applications;
- Addressing the effects of emissions from industrial sources and any point or non-point sources of air pollution;
- Implementing the Republic’s obligations in respect of international agreements; and
- Giving effect to best practices in air quality management.

3.30.1 Service Statistics Pollution Control

The table below depicts the service statistics regarding Pollution Control.

Table 201: Service Statistics Pollution Control

Performance indicators	2021/22	2022/23	2023/24
Noise nuisance complaints	47	51	26
Air pollution complaints	12	35	24
Complaints regarding overgrown erven	276	452	348
Number of complaints received	380	288	399
Percentage of complaints resolved	97%	96%	97%
Number of environmental sessions held	5	4	4
Issue of business & entertainment licenses	9	38	33
Recording of animal complaints	45	36	45
Pauper burials	42	52	28

3.31 Air Quality

The George Municipal Air Quality Management Plan (AQMP) has been developed and approved by Council. The plan is aligned with the Municipality’s IDP. The Municipality is currently busy with the review of the AQMP together with other B-Municipalities in the Garden Route District. A service provider was appointed by Garden Route District Municipality.

The Municipality have also reviewed and promulgated the Air Quality Management By-law. Fines have been determined by the public prosecutor for infringements of the Air Quality Management By-law, which is enforced by the Municipality when necessary.

According to the National Environmental Air Quality Act, Act, No. 39 of 2004 (NEM: AQA), air quality monitoring is a local Municipality function. The Garden Route District Municipality manages the licensing of facilities in terms of the listed activities promulgated in the Regulations.

Recommendations on the performance of pollution control overall:

- The lack of sufficient funding for the implementation of the Air Quality Management Plan - as well as a lack of capacity in terms of human resources - remain a challenge;
- The Department of Environmental Affairs and Development Planning’s (DEADP) continuous monitoring station is situated on Nelson Mandela Boulevard and measures Volatile Organic Compounds (VOCs), carbon dioxide (CO2) and hydrogen sulphide (H2S);
- The Municipality has procured a vehicle emissions device and will - in collaboration with the Traffic & Law Enforcement Departments - conduct regular testing operations; and
- The Municipality implemented the passive sampling project. Regular sampling will be conducted where needed.

A total of twenty-four (24) complaints pertaining to air pollution were received for the 2023/24 financial year.

Table 202: Air Pollution Complaints

Type of Complaints	Number of Complaints
Fumes	17
Smoke	6
Dust	1

Noise Pollution: The Municipality designated a noise control officer in terms of the Western Cape Noise Control Regulation, 2013. The function of the designated officer is to administer the regulations for the Municipality. The Municipality also handles noise complaints in terms of the George Municipal Public Nuisance By-Laws. Such complaints are handled by the Law Enforcement Section of the Municipality. The Municipality received twenty-six (26) complaints for the 2023/24 financial year. The complaints ranged from noise emanating from machinery, and generators owing to loadshedding.

Business Licensing: The Municipality - in terms of the Business Act, 1991 - must administer the Act. The Administration of the Business Act is under Community Services. There are two Environmental Health Practitioners administering the Act. In terms of the Legislation, there are categories of licenses issued by the Municipality. These are:

- Business Licence;
- Entertainment Licence; and
- Hawker’s Licence.

For the 2023/24 financial year, the following licenses were issued by the Municipality.

Table 203: Business licensing issued

Type of licence	Number
Hawkers License	9
Business License	21
Entertainment License	3

COMPONENT F: SECURITY AND SAFETY

3.32 Traffic and Licensing

The Municipality aims to ensure the safety of all residents and visitors on roads to the Greater George Municipal Area through dedicated and committed traffic law enforcement services. Municipal law enforcement officers work closely with the South African Police Services (SAPS) to combat crime while traffic law enforcement officers assist and collaborate with these agencies. Integrated and joint operations are held to prevent the increase of crime in the Greater George Municipal Area through appropriate planning and action. The willingness of the community to report crime assists and benefits the respective law enforcement agencies in the fight against crime.

Traffic and licensing services aim to provide a professional and courteous service to all road users – as well as the community of George - by promoting road safety and creating a safe road environment through effective management, visible policing, community education, protection, and law enforcement.

3.32.1 Traffic and Licensing: Highlights

The table below reflects the highlights for the section: Traffic and Licensing for the 2023/24 financial year.

Table 204: Traffic and licensing highlights

Highlight	Description
Increased capacity	Two more staff members were trained as Grade A Examiners of Vehicles. Four clerks were appointed at the Motor-vehicle Registration Division to improve services and reduce waiting periods. Two Examiners of vehicles were appointed for roadworthy testing at the Vehicle Testing Centre. Six additional Traffic Officers were appointed for the execution of the National Road Traffic Act and National Land Transport Act
Opening of DLTC in Uniondale	This facility is graded as a Grade E Centre which provides for conversions of driving licenses (old ID, foreign licenses)/renewals of driving license cards/temporary licenses/duplicate learners/driving licenses) for the areas of Uniondale and Haarlem
Opening of a Junior Traffic Training Centre	The purpose of the centre is to raise awareness of road safety. The facility has a miniature track where children of all ages are given the opportunity to practice their skills gained in the classroom on a terrain before being exposed to real-life traffic situations
Taxi impoundments	A total of 330 taxis were impounded for operating contrary to permit, court interdict, no permit and unroadworthy
Traffic fine payment collection	Fine collection had an increase of 21.69% from the previous financial year

3.32.2 Traffic and Licensing: Challenges

The table below reflects the challenges for the section: Traffic and Licensing for the 2023/24 financial year.

Table 205: Traffic and licensing challenges

Challenges	Actions taken to address
Upskilling of personnel	More staff to be trained as examiners of driving licenses and examiners of vehicles
Filing space	Not adequate space for filing as required per Legislation. Building transferred and to be upgraded and utilised as archive facility. Following financial year to address building plans
Shortage of Traffic Enforcement personnel (all hours of the day)	Microstructure is being reviewed and motivation for budget submitted
Shortage of Examiner of driving licenses	Motivation for budget submitted

3.32.3 Service Statistics: Traffic and Licensing

The table below reflects the service statistics for the section: Traffic and Licensing for the 2023/24 financial year.

Table 206: Service Statistics: Traffic and licensing

Details	2022/23	2023/24
Number of road traffic accidents during the year	453	426
Number of traffic officers in the field on an average day	11	18
Number of traffic officers on duty on an average day	13	30
Motor vehicle licenses processed	83 558	87 136
Learner driver licenses processed	4755	3179
Rand value of fines collected	R9 958 545.70	R7 856 135.60
Complaints received by traffic officers	355	460
Special functions - escorts	144	194

3.32.4 Total Employees: Traffic and Licensing

The table below reflects the total employees for the section: Traffic and Licensing for the 2023/24 financial year.

Table 207: Total Employees Traffic and licensing

Job Level (T-Grade)	2022/23	2023/24			
		Budgeted posts	Employees	Vacancies	Vacancies (as a % of total budgeted posts)
	Number

3.33 Law Enforcement

Law Enforcement is responsible for applying municipal by-laws and ensuring the Council’s objective of Keeping George Green, Safe and Clean is adhered to. Objectives and priorities are to follow up all complaints as soon and best possible, as well as to issue fines to transgressors and ensure static security at the Municipal Court. Safeguarding the officials from other Departments - such as Environmental Health and Building Control - while carrying out their duties in volatile areas.

There is close collaboration with SAPS with regards to the safety of citizens and the prevention of crime. Joint operations with SAPS - as well as work done in the Municipal CCTV Control Room, are contributing factors to the successful combating of crime.

3.33.1 Law Enforcement: Highlights

The table below reflects the highlights for the section: Law Enforcement for the 2023/24 financial year.

Table 209: Law Enforcement highlights

Highlights	Description
Good and efficient service delivery could be rendered to the public despite staff shortage	Complaints were handled as quickly and effectively as possible
Protest marches were managed with less damage to structures, municipal infrastructures, and the community in general	The triangle meetings stipulated regulations and responsibilities which vastly improved relationships within the community
Great success with the arrest of cable thieves	Arrests were made especially along the N2 corridor & overgrown areas
Illegal electrical connections and electricity theft were effectively managed owing to improved operational planning and actions	Combined operations between departments and SAPS had a major impact on the reduction of illegal connections and electricity theft. However, much more intervention is required to prevent or reduce the theft of electricity. Visible policing, disconnections and removal of illegal wiring are required
New vehicles have shortened reaction time & increased patrol time less break time.	Dedicated vehicles (4x4) have given access to remote areas.
The CCTV Unit contributed to the reduction in crime and criminal activities. This included giving valuable video footage to SAPS to solve crimes.	The effectiveness of the CCTV cameras assisted in monitoring the Public Transport Route, as well as monitoring hot spots and other areas where criminal activities and accidents or incidents took place.

Highlights	Description
Areas where illegal dumping took place were vigorously patrolled daily.	The patrols led to a reduction in dumping issues during the day but increased when officers were not on duty, i.e., after hours and at weekends. However, concerned members of the public and other interested groups – like neighborhood watch groups. - reported on the illegal dumping or tried to deter the alleged wrongdoers.
Major highlights of the year are always a safe Festive Season when more tourists and visitors come to the city.	The successful interaction between various Law Enforcement Agencies, SAPS, and Fire and Traffic Departments creates a safer holiday and festive environment with fewer criminal activities every year.

3.33.2 Law Enforcement: Challenges

The table below reflects the challenges for the section: Law Enforcement for the 2023/24 financial year.

Table 210: Law Enforcement Challenges

Challenge	Description
Staff shortages	Urgently require additional staff as George has grown exponentially and with the current staff capacity, the required high standard of services cannot be delivered
Lack of powers to perform better without opening the Council to civil claims	Municipal Police Complement will be better suited for George as it is heading towards becoming part of a Metro. The Legal Services Section is looking into the proposed new fines
Misunderstanding of communities of the law enforcement powers	Law Enforcement can only execute municipal by-laws. It is extremely important for Law Enforcement staff to explain the extent of our juridical restrictions. We need to improve community communications and community workshops to explain what law enforcement obligations are for the community
Political interposition	Disruptions in the relationship between politicians and the voting citizens. There is a major lack of information-sharing among voters on politicians' performance and what they can or cannot do. Law Enforcement must always ensure the safety of staff and infrastructure
Protest marches	Communities marched more than expected, with major issues with housing and electricity-related services

3.33.3 Service Statistics: Law Enforcement

The table below reflects the service statistics for the section: Law Enforcement for the 2023/24 financial year.

Table 211: Service statistics for Law Enforcement

Service	2022/23	2023/24

3.34 Fire Services and Disaster Management

The roles and responsibilities of a fire service must reflect the evolving nature of responsibilities and expectations that the society has for their fire service. The Municipality is responsible for the provision of a fire service in its area of jurisdiction which includes the following:

- coordination and regulation of the local authority fire services, designated fire authorities and volunteer fire associations;
- development of a specialised fire services capacitated to deal with specialised fire risks prevalent in the area such as veld, chemical and informal settlements fires, etc

- development of a specialised dangerous goods incident response capacity, to perform incident mitigation and stabilization as well as an oversight of cleaning operations;
- development of specialised rescue services capacity, focussing on the rescue disciplines that are prevalent in the area of jurisdiction as a priority;
- coordination of the standardization of infrastructure, vehicles, equipment and operational procedures of the fire service;
- facilitation and coordination of the training and development of firefighting practitioners;
- developing and facilitating the implementation of standardised municipal by-laws;
- Coordinate planning for the provision of fire safety and prevention;
- Implementation and development of mutual aid agreements between the local fire services, designated fire authorities, Fire Protection Associations and volunteer fire associations;
- Implementation, development and support of community based fire safety and prevention programs;
- conducting regular and random fire safety inspections at any premises where the Chief Fire Officer or his or her designatory deems necessary;
- providing advice on the means of escape from buildings and other property in case of fire;
- fighting and extinguishing fires by ensuring to have sufficient staff, equipment and vehicles at its disposal to deal with the fire risks in its area of jurisdiction – a risk based approach;
- call taking and dispatching facilities, training personnel to manage incoming calls and dispatching firefighting crews;
- participation in special events planning; and
- provision and support in the implementation of the Disaster Management Act, 2002 (Act No. 57 of 2002).

The discipline of disaster management is referred to by several different titles. Disaster risk management, emergency management, civil safety, crisis management, or civil protection are a few of those titles. Our goal is to increase community involvement in disaster management even though community members have different viewpoints on disaster risk and differ in terms of age, gender, education, and social class.

A community-based disaster management and risk reduction planning process will help to bring the community's understanding of risks together, as well as in preparation, mitigation, and prevention efforts.

The community members are the primary players and drivers of community-based disaster management, and they also benefit directly from its development and reduction of catastrophic risks. These are the fundamental components and aspects of community-based disaster management.

- Giving priority to the individuals, families and groups most in need within the community. In urban areas, these include the urban poor and the informal sector; in rural areas, they include subsistence farmers, fishermen, and indigenous people. The elderly, disabled people, women and children are also at risk due to their vulnerability in the society.
- Following an assessment of the community's disaster risk (hazards, vulnerabilities, capabilities, and perceptions of disaster risk), particular risk reduction strategies are determined and implemented.
- Acknowledgment of coping strategies and abilities - CBDM Mitigation enhances and fortifies pre-existing abilities and coping mechanisms.
- The objective is to create community resilience to disasters, by enhancing awareness, capacity and reducing specific vulnerabilities.
- Linking catastrophic risk reduction with development - challenges susceptible situations and sources of vulnerabilities.
- Outsiders have supportive and enabling roles.

3.34.1 Fire Service and Disaster Management: Highlights

The table below reflects the highlights for the Section: Fire and Disaster Management for the 2023/24 financial year.

Table 214: Fire services and disaster management highlights

Highlights	Description
Upgrade of fire stations	Budget provided for the maintenance of all fire station facilities to improve the endurance of fire service infrastructure
New Vehicles added to our fleet	Fire service had only one addition to the fleet for the financial year namely major fire pumper, imported from Rosenbauer, Austria
Vehicle refurbishment	Refurbishment of the Toyota Land Cruiser with the latest in poly prop technology
Drone technology	Two members of the service were sent for drone pilot licensing and are now qualified drone pilots
Vacancies	Several vacancies were filled, as well as a new Platoon Commander and complement our shift numbers with eleven members per shift currently

3.34.2 Fire Services and Disaster Management: Challenges

The table below reflects the challenges for the section: Fire and Disaster Management for the 2023/24 financial.

Table 215: Fire and Disaster Management challenges

Challenge	Description
Staff complement will still have to be increased to compensate for the ever-increasing risk and incident rate because of the growth and expansion of George	Available vacancies are advertised and filled but additional staff must be budgeted for.
Staff training is delayed due to limited staff complement	Untrained staff and lapsing certification are increasing risk of litigation to the Municipality. Increasing staffing levels will mitigate this challenge.
New staffing regulations are delaying and preventing new appointments	Staffing regulations must be reviewed to be in line with industry standards or exemption should be considered from the regulation
Emergency service fleet is aging and maintenance expenses on old vehicles with prolonged repairs are increasing	Limited response capabilities are a direct consequence of prolonged maintenance repairs. Ageing fleet are being replaced with new vehicles according to SANS 10090 regulations, as far as budget allows

3.34.3 Service Statistics: Fire Services and Disaster Management

The table below reflects the service statistics for the section: Fire and Disaster Management for the 2023/24 financial.

COMPONENT G: SPORT AND RECREATION

3.35 Sport and Recreation

The Municipality is responsible for the management and maintenance of 13 sports grounds in the municipal area. It is the Municipality’s goal to create a healthy lifestyle for all our residents by offering a wide range of well-maintained and managed sports facilities.

The Sports Development Section aims to deliver sustainable and affordable sports services to contribute to the reconstruction and development of the George community.

3.35.1 Sports and Recreation: Highlights

The table below depicts the highlights of the Section: Sport and Recreation for the 2023/24 financial year.

Table 218: Sport and Recreation highlights

Highlights	Description
Establishment of the George Municipal Sport Council	The Municipality facilitated the establishment of the George Municipal Sport Council. This body is representative of the end users of the George Municipal Sport infrastructure. It serves an important advisory role to the George Municipal Council regarding sport related matters
Hosting of a Netball World Cup 2023 Fan Park at Rosemoore Stadium	The Municipality hosted a fan park during the 2023 Netball World Cup at the Rosemoore Sport Facility where all the matches were televised, and netball tournament were hosted for schools, clubs and social clubs

3.35.2 Sports and Recreation: Challenges

The table below depicts the challenges of the Section: Sport and Recreation for the 2023/24 financial year.

Table 219: Sport and Recreation challenges

Challenges	Description
Old dilapidated infrastructure	The Municipality developed and adopted a Sport Infrastructure Master plan to address the infrastructure and funding backlogs
Vandalism of sport facilities	The Municipality has collaborated with neighbourhood watches-Ward 17. Furthermore, an armed response has been appointed. We've established sports committees made up of community members to assist/collaborate with the Municipality in managing and safeguarding the facilities

3.35.3 Service Statistics: Sport and Recreation

The table below reflects the Section: Sports and Recreation Service statistics for the 2023/24 financial year.

Table 220: Service statistics sports and recreation

Type of service	2022/23	2023/24

COMPONENT H: CORPORATE POLICY OFFICES AND OTHER SERVICES

This component includes the office of the Municipal Manager corporate policy offices, financial services, human resource services, ICT services and property services.

3.36 Office of the Municipal Manager

The office of the Municipal Manager includes the following functions:

- Communications;
- Risk and Internal Audit;
- Legal Services; and
- Information Technology (IT) Services.

3.36.1 Office of the Municipal Manager: Highlights

The table below reflects the highlights of the Office of the Municipal for the 2023/24 financial year.

Table 224: Office of the Municipal Manager highlights

Highlights	Description
Increased management capacity	For the first time in many years, there were no vacancies in the management team as at 30 June 2023
Progress with the BFI projects	George was the first non-Metro to receive the Budget Facility Infrastructure Grant (BFI) for the refurbishment as well as the construction of new Water and Wastewater infrastructure. The projects are progressing well which will ensure that George has sufficient water purification capacity in the future
Rollout of renewable energy projects	Several renewable energy projects commenced during the 2022/23 financial year. Various municipal buildings now have solar panels. The Outeniqua Wastewater Treatment Works solar panels have also been installed; the construction of a 1 MW plant is well underway. Solar panels have been installed at some traffic lights. Many more renewable projects are in the pipeline
Unqualified Audit with no findings	George Municipality received a clean audit for the third year in a row. This is a direct consequence of improved administrative processes
Management of a very successful 2022/23 festive season	A Festive Season Monitoring Committee was established which met daily from 1 December to the first week in January. This greatly improved the safety and security on the beaches and contributed to a good experience for visitors by ensuring a high standard of service
Automation of all building control and land use applications	The automation of these processes has considerably reduced the turnaround time and efficiency of the processes
Updating of by-laws	Several by-laws were reviewed and updated for the year under review making George improve governance and address gaps and concerns in previous by-laws
Internal Audit Awareness Month	During May 2024 the Internal Audit Department hosted a successful Internal Audit Awareness Month Campaign, strengthening the awareness of IA within all municipal departments.
Capacity increase for communication team	The appointment of a social media officer by the Municipality adds a new dimension to its communication efforts, strengthening its social media presence and solidifying its digital engagement with the community.
Communication Policy Development	The Communication Department has reviewed its Communication Policy and initiated the process of developing stand-alone policies, including a Crisis Communication Policy and a Social Media Policy. These efforts aim to enhance the effectiveness and clarity of communication practices within the Municipality. The policies must be workshopped with Council prior to adoption.

3.36.2 Office of the Municipal Manager: Challenges

The table below reflects the challenges of the Office of the Municipal for the 2022/23 financial year.

Table 225: Office of the Municipal Manager challenges

Challenges	Action to address
Late receipt of grants	Some grant funding was only received on 31 March 2023. The amount was more than R 250 million. As this entailed more than 35 projects, it was impossible to spend the grant funding by the end of the financial year, 30 June 2023. This gives a skewed picture of poor capital expenditure. All projects are well underway, and expenditure is on track

Challenges	Action to address
Increased immigration and growth impacting service delivery	The latest Census figures have shown that George’s population grew by 100 000. George is now the largest town in the Western Cape outside of the Metro. Infrastructure will need to be able to provide basic services to an increased number of residents. Master Plans are in place and these infrastructure projects will need to be fast-tracked to ensure adequate infrastructure for a growing city
Ability of the consumer to pay for services	Besides the more stringent credit control measures, the Municipality strives to ensure that all services are cost reflective. The weak economy and unemployment rate make it difficult for some consumers to pay their municipal accounts. George Municipality has one of the biggest and most comprehensive indigent support packages. Verification of indigents is done frequently
Loadshedding	The financial cost of loadshedding, including mitigating infrastructure damage, loss of working hours, high diesel cost of running generators and the negative effect on businesses affecting their ability to pay remains a huge challenge. Many businesses and households have installed solar panels, meaning a loss in electricity sales. The Municipality is trying to roll out projects to mitigate loadshedding subject to financial constraints
Shortage of skills	There is a general shortage of skills in certain categories, particularly technical fields. Some posts are vacant due to a shortage of suitable candidates. The Municipality continually strives to appoint competent and qualified people to all posts
Legislation delaying implementation of renewable projects	Various aspects of the MFMA make it cumbersome and lengthy for a Municipality to purchase energy from private persons/businesses who wish to sell electricity to the Municipality. A request for exemption has been sent to National Treasury

3.36.3 Total Employees: Office of the Municipal

The table below reflects the total employees of the Office of the Municipal for the 2023/24 financial year.

Table 226: Total employees Office of the Municipal Manager

Job Level (T-Grade)	2022/23	2023/24

3.37 Corporate Services (Administration -Committee Services, Records Management and Telecommunication)

Administration (Committee Services, Records Management and Telecommunication sections) aims to provide effective records management and telecommunications throughout the entire Municipality and ensure adherence to all relevant legislation related to the function.

3.37.1 Corporate Services (Administration- Committee Services, Records Management and Telecommunication: Highlights

The table below reflects the highlights of the Corporate Services (Administration-Committee Services, Records Management and Telecommunication for the 2023/24 financial year.

Table 228: Corporate Services (Administration- Committee Services, Records Management and Telecommunications highlights

Highlights	Description
The Back-scanning of all HR Related records	This is to ease administrative transactions for HR officials to gain easy access to all HR Related information and to ensure that information is securely preserved within the system
Systematic Disposals	Systematic disposals were carried out by obtaining approval from the Western Cape Provincial Archives. This is to reduce the storage space for records and for George Municipality to accommodate future hard copy information which is gathered from the citizens of George
Enforcing of a Central Data Repository	To ensure that all information which is administratively created is digitally preserved which allows easy access and retrieval of these records which speeds up all administrative processes and responses to the citizens of George and business relationships
Implementation of an Automated Call Attender	Automated Call Attender reduced the pressure by directing the caller direct to the respective Directorate/ Department who will be attending to the specific service request or enquiry
Digitalization of all paper-based records	The George Municipality is embarking on a digitalization process. The successes in this have allowed the Municipality to become a paperless environment and it also reduced the costs of printing and procuring of photocopy paper

3.37.2 Corporate Services (Administration- Committee Services, Records Management and Telecommunication: Challenges

The table below reflects the challenges of the Corporate Services (Administration-Committee Services, Records Management and Telecommunication for the 2023/24 financial year.

Table 229: Corporate Services (Administration- Committee Services, Records Management and Telecommunications challenges

Challenges	Action to address
The demand for the Language/Interpretation services during meetings was a challenge	The Unit would be attempting to appoint an Interpreter who can also translate into Afrikaans
Inadequate sound recording equipment in the Council Chambers	The Unit will be procuring new mikes/sound systems in the new FY
Vacancies at the Committee Services Unit	The filling of two (2) vacancies with suitably qualified staff ensured that quality service was successfully concluded during the reporting period

3.37.3 Total Employees: Corporate Services (Administration- Committee Services, Records Management and Telecommunication

The table below reflects the total employees of the Corporate Services (Administration-Committee Services, Records Management and Telecommunication for the 2022/23 financial year.

3.38 Financial Services

During the 2021/22 to 2023/24 Medium-Term and Revenue Framework (MTRF), the following was taken into account:

- Constraining fiscal environment and in particular the stagnant growth in the local South African economy
- National and Provincial Priorities;
- Policies on tariffs and service charges;
- Determination of prudent levels of cash revenue;
- The need to grow George; and
- Prioritising infrastructure development.

Council accepted and reviewed the Long-Term Financial Plan and all budget-related policies. The Long-Term Financial Plan of the Municipality does not only highlight some of the material, financial and other issues identified but also makes very specific proposals and recommendations regarding future financial management. Some priorities are highlighted below:

- The Municipality needed to focus on its core functions. During the February 2024 Adjustments Budget, the Budget Committee and Portfolio Councillors - in conjunction with the heads of departments - scrutinised the Budget to effect all possible savings and to align the capital budget to achievable goals;
- The need to maximise income through efficiencies and the way we do business was investigated before we decided to increase our rates; and
- A revenue enhancement project is ongoing to ensure that all consumers are billed correctly and are contributing to the Municipality's income as set out in our tariff policy.

Special focus is placed on credit control measures to maintain and improve George Municipality's debt collection and subsequently the payment ratio. Greater emphasis was placed on improving our cash management practices, within the legal prescripts, to improve our liquidity position; and integrating SMART technologies to improve the accuracy and efficiency of our business processes to build the foundations toward George becoming a SMART city

3.38.1 Service Statistics: Procurement Services

The table below reflects the service statistics of procurement services for the 2023/24 financial year.

3.39 Human Resources Services

The Human Resources section is responsible for ensuring the organisation’s most valuable asset, its employees, is taken care of. Enhanced staff performance is a fundamental part of the achievement of the Municipality’s primary service delivery objectives. It continually strives to promote a culture of good governance and an environment where the needs of employees can be addressed in a manner that is conducive to the persistent advancement of the interests of our local communities.

The Human Resources functions include but are not limited to, administration of employee benefits, recruitment and selection of competent staff, organisational efficiency improvement, employment equity, training and development of staff, sound labour relations, occupational health and safety, individual performance management and general support services to enhance staff capacity in the process of realising organisational strategic objectives of service delivery to the community.

The Human resources include:

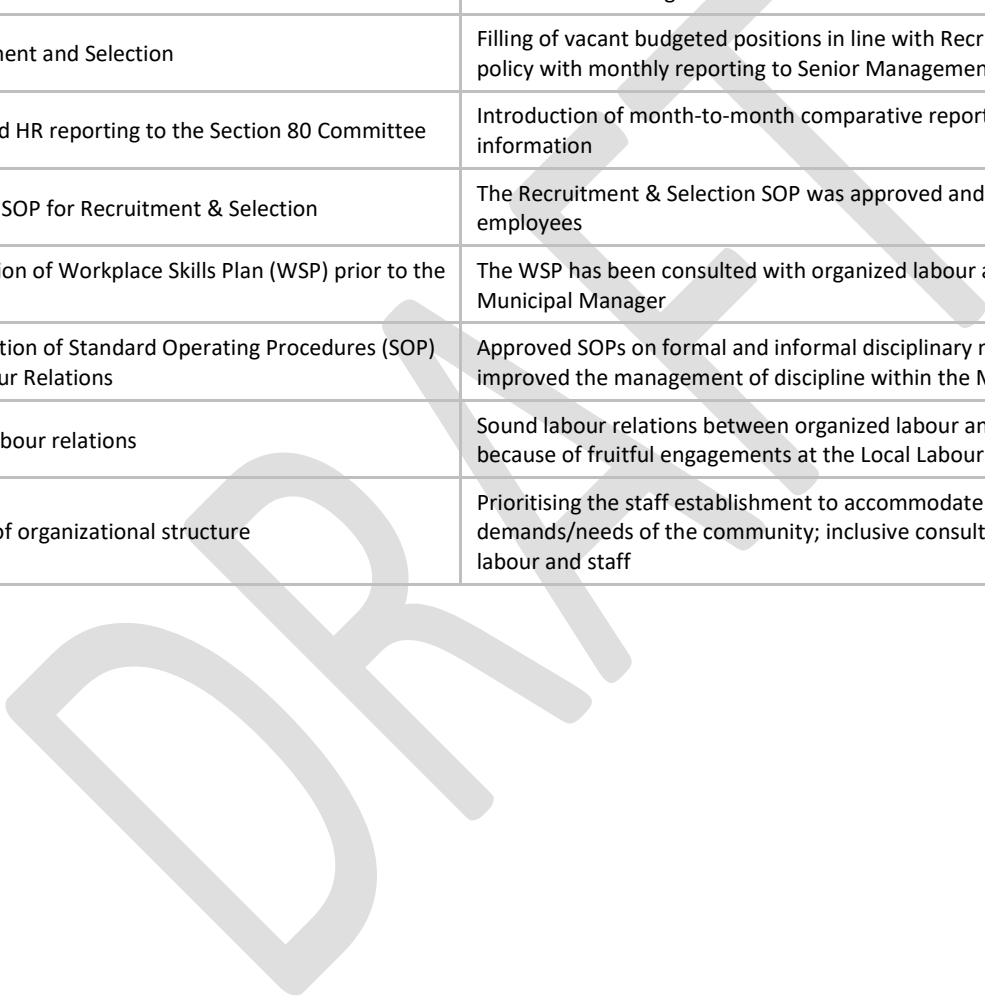

- Labour Relations;
- Recruitment and Selection;
- Training and Development;
- Employee Assistance;
- Occupational Health and Safety;
- Strategic Human Resource Management
- Employment Equity; and
- All Human Resources Administration

3.39.1 Human Resources: Highlights

The table below reflects the highlights of the Human Resources section for the 2023/24 financial year.

Table 237: Human Resources Highlights

Highlight	Description
Task Job Evaluation Process (Virtually and face to face)	Evaluation and Auditing of Job Descriptions as part of the Provincial job evaluation structure. Task Provincial Audit sessions are attended by the relevant officials within Human Resources
HR Remuneration	Payroll Administration within Human Resources
Benefits Administration	Termination/ Leave Administration and further development of the Leave system
Municipal Staff Regulations	Significant progress in the implementation phase of the Municipal Staff Regulations
Individual Performance Management	Significant progress in the implementation and roll-out of Individual Performance Management to all staff
Recruitment and Selection	Filling of vacant budgeted positions in line with Recruitment and Selection policy with monthly reporting to Senior Management
Improved HR reporting to the Section 80 Committee	Introduction of month-to-month comparative reports with essential HR information
Develop SOP for Recruitment & Selection	The Recruitment & Selection SOP was approved and workshopped with employees
Finalisation of Workplace Skills Plan (WSP) prior to the deadline	The WSP has been consulted with organized labour and approved by the Municipal Manager
Introduction of Standard Operating Procedures (SOP) for Labour Relations	Approved SOPs on formal and informal disciplinary matters which have improved the management of discipline within the Municipality
Sound labour relations	Sound labour relations between organized labour and the employer because of fruitful engagements at the Local Labour Forum
Review of organizational structure	Prioritising the staff establishment to accommodate service delivery demands/needs of the community; inclusive consultation with organized labour and staff

3.39.2 Human Resources: Challenges

The table below reflects the challenges of the Human Resources section for the 2023/24 financial year.

Table 238: Human Resources challenges

Challenge	Actions to address
Integrated Electronic Human Resources System	Implementation/development of a seamless integrated Human Resources System with roll out of all modules, including an automated Recruitment and Selection System: <ul style="list-style-type: none"> • Collaborator; • SAMRAS; • IGNITE; • Time and Attendance System;
Implementation of Individual Performance Management scorecards for all employees due to employees not being familiar with the electronic system	Regular training and awareness sessions for officials on the performance management system
Inadequate Staff Establishment	Service provider was appointed to address the current inadequate staff establishment

3.39.3 Total Employees: Human Resources

3.40 Information and Communication Technology (ICT) Services

The ICT department continues to be a pivotal enabler of organisational change and service delivery within the public sector. At the corporate governance level, there is increasing recognition that IT services and systems are essential components of the municipal service delivery value chain.

The ongoing alignment of ICT services and systems with the strategic objectives of the Municipality, alongside directives from the National Government and the Western Cape Provincial Government, places significant demands on the department's resources. This document aims to outline and describe the Municipality's IT Strategy, ensuring alignment with the Municipality's strategic goals. Special attention is given to identifying new requirements and opportunities for ICT to meet the needs of the Municipality and management.

Successful implementation of the Integrated Development Plan (IDP) and achievement of the Municipality's strategic goals rely heavily on the effective management of critical resources, including finances, personnel, and information technology. Essential ICT-related services crucial for the

Municipality's core and supporting operations include:

- Business Continuity & Disaster recovery management
- Data recovery & storage
- Email and internet services
- End-user support for ICT environment
- ICT contract management
- ICT planning
- ICT risk management
- Provision of network, wireless networks, and telephony services

a) Highlights and Challenges :

The section has noted the following challenges and highlights:

Highlights:

- **Digital Transformation Initiatives:** Significant progress in the implementation of digital transformation projects aimed at enhancing service delivery and operational efficiency.
- **Cybersecurity Enhancements:** Upgraded cybersecurity measures to protect sensitive municipal data and infrastructure against increasing cyber threats.
- **Smart City Projects:** Initiated smart city projects, incorporating IoT devices and advanced data analytics to improve

municipal services.

Challenges:

- **Limited Budget:** Budget constraints continue to limit ICT infrastructure, software, systems, training, and personnel capacity.
- **Legacy Systems:** Outdated systems hinder the integration of new technologies, leading to inefficiencies and compatibility issues.
- **Cybersecurity Threats:** Ongoing susceptibility to cyber threats requires continuous improvement of security measures.
- **Data Management:** Managing large volumes of data generated by various departments remains complex, requiring robust data governance and storage solutions.
- **Interoperability:** Ensuring seamless communication and integration between different ICT systems used by various departments is a constant challenge.
- **Digital Inclusion:** Bridging the digital divide and ensuring equitable access to digital services remains challenging, especially in economically disadvantaged areas.
- **Citizen Engagement:** Implementing effective ICT tools for citizen engagement and feedback requires careful planning to ensure inclusivity and accessibility.
- **Infrastructure Maintenance:** Maintaining and upgrading ICT infrastructure, including networks, servers, and hardware, is an ongoing challenge, particularly with limited resources.
- **Smart City Integration:** Integrating smart city technologies into existing infrastructure while ensuring security and privacy is complex.

3.41 Legal Services

Legal Services provide legal advice and support to Council and Administration. This involves general legal support, administering of legislation, vetting of contracts and documents as well as litigation management. This Section plays a vital role in protecting the Municipality’s interests.

The Section: Legal Services in conjunction with user departments ensures and manages the implementation, monitoring, evaluation and reporting on key service delivery objectives with respect to Legal Services.

The main objectives are as follows:

- Advise and manage litigations instituted by the Municipality and against it;
- Provide legal advice, opinions and input on policies, contracts, agreements, memorandums, legislation, by-laws and authorities;
- Advising Council on items submitted to meetings;
- Ensuring by-laws are promulgated after consultation with user departments and approval by Council; and
- Attend to new legislation and proclamations for comment as and when required.

The table below indicates the total number of employees in the Section: Legal Services.

Table 244: Total number of employees in the Section: Legal Services

Total	9	8	1	11.11%

3.42 Municipal Court

The Municipal Court fulfils the function of enforcing the Municipality’s By-Laws and plays a pivotal role in adhering to the National Road Traffic Legislation. Municipal and Provincial Traffic fines are also attended to by the Municipal Court. This culminates in the adherence to the Municipal and Constitutional Mandate ensuring a governable community, focused on compliance. Attention is also given to the training of officials from the relevant sections.

The Municipal Court was established to:

- Support and secure good governance;
- Ease the burden on regular courts;
- Increase the speed of services;
- Allow for more successful prosecutions by applying specialist knowledge;
- Improve communications between the by-law prosecutors and enforcers;
- Support by-law enforcement; and
- Ensure a user-friendly court;

Magnolia Ridge Properties 77 (Pty) Ltd	This matter relates to the use and zoning of erven. Application for Special Leave to Appeal on behalf of the Municipality was lodged at the Supreme Court on 19 June 2023 and granted on 11 September 2023. The date of the hearing of the Application for Special Leave to Appeal is awaited
Construction of Nelson Mandela Boulevard	The matter relates to claims against both the contractor and principal agent based on the contracts between the parties and defective works as well as a claim against the principal agent for over-certification. Matter needs to be set for pre-trial
N Landu	This matter is a damages claim against the Municipality for an injury sustained when a minor's hand was injured when the rear loading mechanism of one of the Municipality's refuse compactors allegedly closed on the minor's left hand. Waiting for taxed costs to bring the matter to finality
Royal Haskoning	This matter, now in the commercial court, is a claim for damages due to the professional negligence of the consulting engineer in respect of the construction of a reservoir at the George Old Water Treatment Works. After statements have been filed, the matter can proceed to trial
K Langeveldt	This is a review application by a previous employee to have his dismissal set aside and declared unlawful
P Ntlama	This is a damages claim against the Municipality in respect of alleged damages caused to the Applicant's vehicle when accidentally driving into a pothole

COMPONENT G: MISCELLANEOUS

3.43 Extended Public Works Programme (EPWP)

One of the Government's main initiatives, the Expanded Public Works Programme (EPWP), aims to alleviate poverty and increase income by finding temporary employment for unemployed people. The EPWP is a national initiative that includes State-Owned Entities and all spheres of Government. In the short- to medium-term, the programme offers a crucial route for absorbing labour and transferring income to low-income households.

EPWP projects employ workers on a temporary or ongoing basis with the Government, contractors, or other non-governmental organisations under the Ministerial Conditions of Employment for the EPWP or learnership employment conditions.

The EPWP creates work opportunities in three main sectors, namely infrastructure, environmental and social by:

- Increasing the labour intensity of government-funded infrastructure projects;
- Creating work opportunities through the Non-Profit Organisation programmes and Community Work Programmes;
- Creating work opportunities in a public environment programmes; and
- Creating work opportunities in public social programmes.

The EPWP can provide poverty and income relief through temporary work for the unemployed to carry out socially useful activities. These EPWPs would be designed to equip participants with skills and work experience, which will enhance their ability to earn a living in the future.

3.44 Extended Public Works Programme (EPWP) Work Opportunities

The table below specifies the work opportunities achieved for the 2023/24 financial year either funded out of Municipal Funding (MF) or EPWP Incentive Grants (IG).

COMPONENT J: ORGANISATIONAL PERFORMANCE SCORECARD

3.45 Performance Management

Performance management is a process that measures the implementation of an organization's strategy, as outlined in the Integrated Development Plan (IDP). It is a management tool that ensures efficiency, effectiveness, and impact of service delivery by municipalities. At the local government level, performance management is institutionalized through legislative requirements, allowing for the measurement of targets met in line with strategic goals. Section 152 of the Constitution of the Republic of South Africa, 1996, addresses the objectives of local government and paves the way for performance management. The concept of an accountable government is crucial for meeting the needs of George.

The Municipal Services Authority (MSA) mandates the establishment of a performance management system and an Integrated Development Plan (IDP) that must be aligned with the municipal budget. The budget's performance must be monitored quarterly using the Service Delivery and Budget Implementation Plan (SDBIP). The council is informed of the quarterly progress against set targets. Regulation 7(1) of the Local Government: Municipal Planning and Performance Management Regulations of 2001 outlines a framework for a Municipality's performance planning, monitoring, measurement, review, reporting, and improvement processes. Performance management is relevant to the organization, employees, external service providers, and municipal entities, reflecting the linkage between the IDP, Budget, and SDBIP.

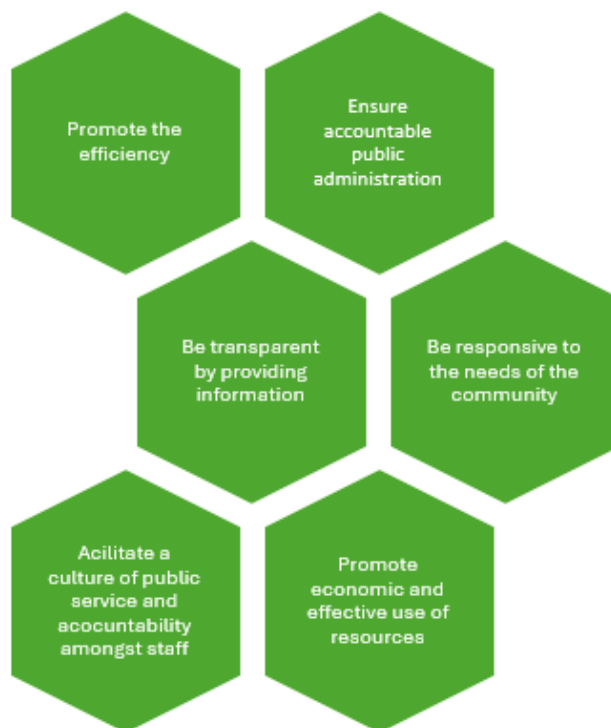

Figure 41: Performance Manganement

3.45.1 Legislative requirements

In terms of section 46(1)(a) of the MSA, a Municipality must prepare a performance report for each financial year that reflects the Municipality’s and any service provider’s performance during the financial year. The report must furthermore indicate the development and service delivery priorities the performance targets set by the Municipality for the following financial year, and measures that were or are to be taken to improve performance.

3.45.2 Organisational performance

Strategic performance assessment is crucial for municipalities to ensure efficient service delivery and effective policies. Government institutions must report on this to monitor and implement corrective measures. Municipalities must develop strategic plans and allocate resources for their implementation, with results reported to various stakeholders during the financial year. This report focuses on the Municipality's Top-Layer Service Delivery and Budget Implementation Plan (SDBIP), high-level strategic objectives, and performance on National Key Performance Indicators. The Performance Management Policy is currently under review to align with new staff regulations 809.

3.45.3 Service Delivery and Budget Implementation Plan

The organisational performance is evaluated using a municipal scorecard (Top-Layer SDBIP). Performance objectives, as reflected in the municipal scorecard, are required to be practical, measurable and based on the key performance indicators.

The SDBIP is a tool that converts the IDP and budget into measurable criteria of how, where and when the strategies, objectives and normal business processes of the Municipality are implemented.

It also allocates responsibility to directorates to deliver the services in terms of the IDP and the budget.

The purpose of performance reporting is to report specifically on the implementation and achievement of IDP outcomes. This section should provide an overview of the achievement of a Municipality in terms of the strategic intent and deliverables achieved as stated in the IDP. The Top-Layer (strategic) SDBIP is the Municipality’s strategic plan and shows the strategic alignment between the different documents (IDP, Budget and Performance Agreements).

The organisational performance is evaluated by means of a Municipal Scorecard (TL SDBIP) at an organisational level and through the Service Delivery and Budget Implementation Plan (SDBIP) at departmental levels.

The SDBIP is a plan that converts the IDP and Budget into measurable indicators of how, where and when the strategies, objectives and normal business processes of the Municipality are implemented. It also allocates responsibilities to directorates to deliver the services in terms of the IDP and Budget.

MFMA Circular No. 13 is a clarification of the Municipal Budget and Reporting Regulations, Schedule A 1, GenN 393 in GG32141 of 2009 and prescribes that the:

- IDP and budget must be aligned;
- The budget must address the strategic priorities;
- SDBIP should indicate what the Municipality is going to do during the next 12 months; and
- SDBIP should form the basis for measuring the performance against goals set during the budget / IDP processes.

3.45.4 Monitoring of the Service Delivery and Budget Implementation Plan

Municipal performance is measured as follows:

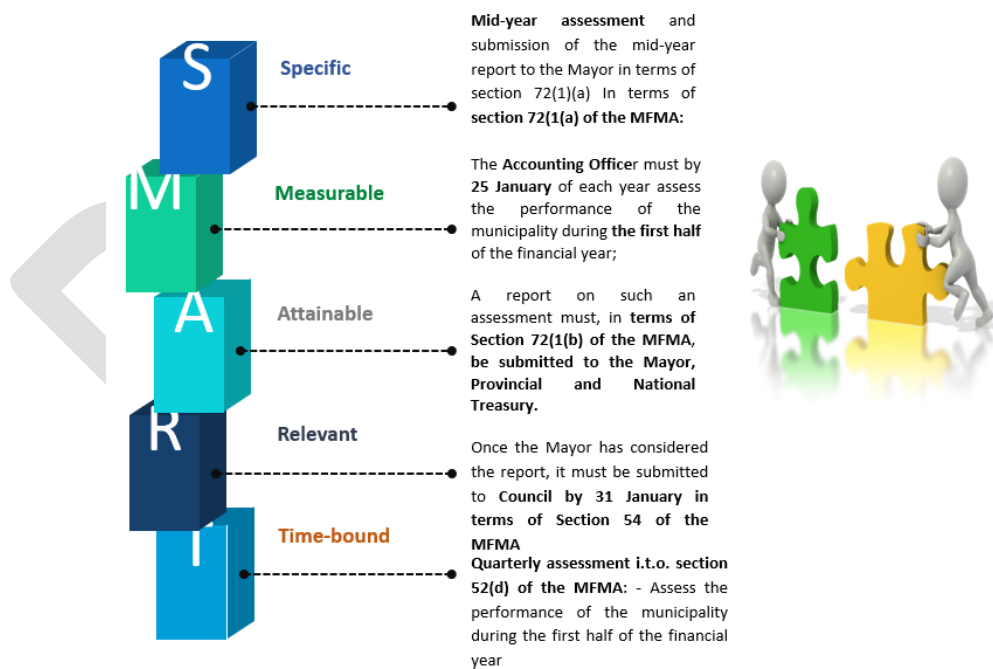

Figure 42: Municipal Performance measurement

3.45.5 Overall Performance per Municipal Strategic Objective

The Annual Performance Report for 2023/24 was submitted to the Municipal Council, as well as the Auditor General in terms of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA), Section 46(1) and (2) and is attached to this Report as Annexure D.

3.46 Developmental and Service Delivery Priorities 2024/25

The main development and service delivery priorities for 2024/25 as captured in the Municipality’s Top Layer Service Delivery Budget Implementation Plan (SDBIP) are depicted below.

CHAPTER 4: ORGANISATIONAL DEVELOPMENT PERFORMANCE

4.1 Introduction to the Municipal Workforce

The George Municipality currently employs 1327 officials (excluding non-permanent positions) plus four permanent directors and one contract Municipal Manager, 1332 officials who individually and collectively contribute to the achievement of the Municipality's objectives. The primary objective of Human Resource Management is to render an innovative Human Resource service that addresses both skills development and administrative efficiency.

The table below reflects on the Key Performance Indicators (KPIs) linked to the National Key Performance Area (NKPA): Municipal Transformation and Organisational Development.

Table 258: Municipal Transformation and Organisational Development

Indicator	2021/22	2022/23	2023/24
The number of people from Employment Equity who are target groups employed (newly appointed) in the three highest levels of management in compliance with the Municipality's approved Employment Equity Plan by 30 June	70.00%	85.00%	73%
The percentage of a Municipality's budget spent on implementing its Workplace Skills Plan (WSP)	0.29%	0.16%	107%

Explanatory note for Employment Equity: The calculation of 73% was from appointments of July to December 2023 where five (5) of the seven (7) appointments were from EE ($5/7 \times 100 = 71\%$). Then from January to June 2024 three (3) of the four (4) appointments were from EE ($3/4 \times 100 = 75\%$). Total percentage is $71+75 = 146/2 = 73\%$

Explanatory note for WSP: The KPI for the budget spent on implementing the WSP has been amended for 2023/24 therefore the percentage hugely differs. Previously the calculation was based on the Personnel budget of the Municipality while now it is compared to the actual budget for training

4.2 B-BBEE Compliance Performance Information

Section 121(3)(k) of the MFMA indicates that the Annual Report of a Municipality should include any other information as may be prescribed. The Broad-Based Black Economic Empowerment (B-BBEE) Act (Act 53 of 2003; as amended by Act 46 of 2013) read in conjunction with the B-BEE Regulations of 2016 states in Section 13G (1) all spheres of Government, public entities and organs of state must report on their compliance with Broad-Based Black Economic Empowerment in their Annual Financial Statements as well as their Annual Reports. Under the explanatory notice (Notice 1 of 2018) issued by the B-BBEE Commission, the following table provides details on the Municipality's compliance concerning Broad-Based Black Economic Empowerment which only focuses on the organisational aspect of the compliance reform. It should be noted that a consultant is currently in the process of doing an in-depth rating of the B-BBEE compliance in terms of supply chain and socio-economic activities.

A B-BBEE Compliance Report is a comprehensive outlook on how a measured entity implements Broad-Based Black Economic Empowerment as guided by the requirements of the Codes of Good Practice (the Codes). The main purpose of these reports is for the B-BBEE Commission to monitor Broad-Based Black Economic Empowerment compliance both in the public and private sector, including the levels of transformation and extent to which benefits of economic transformation accrue to the black persons benefiting from various Broad-Based Black Economic Empowerment initiatives in compliance to the objectives of the B-BBEE Act.

The Employment Equity Act (1998) Chapter 3, Section 15 (1) states that Affirmative Action measures are designed to ensure that suitably qualified people from designated groups have equal employment opportunities and are equitably represented in all occupational categories and levels in the workforce of a designated employer.

4.3 Employment Equity

The Employment Equity Act (1998), Chapter 3, section 15 (1), states that affirmative action measures are measures designed to ensure that suitably qualified people from designated groups have equal employment opportunities and are equitably represented in all occupational categories and levels in the workforce of a designated employer. The national performance indicator also refers to the “number of people from employment equity target groups employed in the three highest levels of management in compliance with a Municipality’s approved employment equity plan” The following table provides clarity on employment equity.

Grand total	278	443	4	69	183	290	4	61	1 332

4.7 Vacancy Rate

The approved organogram for the Municipality had 1541 budgeted posts (permanent 1534 + six permanent directors and one contract Municipal Manager) for the 2023/24 financial year. The actual positions filled are indicated in the tables below by post-level and by functional level. A total of 209 posts were vacant at the end of 2023/24, resulting in a vacancy rate of 13.56%. Below is a table that indicates the vacancies in the Municipality.

Table 266: Vacancy rate

Per post level		
Post Level	Filled	Vacant
Top management (directors + MM)	5	2
Senior management (19+)	3	1
Middle management (14-18)	79	19
Skilled (9-13)	370	67
Semi-skilled (4-8)	817	108
Unskilled (1-3)	58	12
Total	1 332	209
Per functional level		
Functional area	Filled	Vacant
Office of the Municipal Manager	13	4
Financial Services	144	14
Corporate Services	165	26
Human Settlements, Planning & Development	119	7
Community Services	394	55
Electrotechnical Services	144	35
Civil Engineering Services	353	68
Total	1 332	209

4.8 Turnover rate

A high staff turnover may be costly to a Municipality and might negatively affect productivity, service delivery as well as institutional memory/organisational knowledge. Below is a table that reflects the turnover rate in the Municipality over the past two years.

Table 267: Turn-over Rate

Financial year	Total no. of appointments at the end of each financial year	New appointments	Number of terminations during the year	Turnover rate
2021/22	1 263	127	96	7.60%
2022/23	1 293	136	96	3.17%
2023/24	1 332	173	83	6.96%

Calculation for turnover rate is the difference between new appointments and terminations of 2023/24 as a percentage of 2022/23 (the previous financial year) total appointments at the end of that financial year.

4.9 Managing the Municipal Workforce

Managing the municipal workforce refers to analysing and coordinating employee behaviour.

An occupational injury is a personal injury, disease or death resulting from an occupational accident. Compensation claims for such occupational injuries are calculated according to the seriousness of the injury/disease and can be costly to a Municipality. Occupational injury will influence the loss of man hours and therefore financial and productivity performance.

The table below provides the total number of injuries in the respective directorates.

Table 268: Injuries per Directorate

Directorates	2022/23	2023/24
Office of the Municipal Manager	1	1
Financial Services	5	2
Corporate Services	6	16
Human Settlements, Planning & Development	11	3
Community Services	87	68
Electrotechnical Services	16	16
Civil Engineering Services	59	56
Total	185	162

4.10 Sick Leave

The number of sick leave days taken by employees has service delivery and cost implications. The monitoring of sick leave identifies certain patterns or trends. Once these patterns are identified, corrective action can be taken.

The table below provides the total number of sick leave days taken within the respective directorates.

Table 269: Sick Leave

Directorates	2022/23	2023/24
Office of the Municipal Manager	96	121
Financial Services	1 770	1 738
Corporate Services	2 059	1 872
Human Settlements, Planning & Development	1 224	1 229
Community Services	3 340	3 253
Electrotechnical Services	1300	792
Civil Engineering Services	3 355	2 990
Total	13 146	11 993

4.11 Human Resources Policies and Plans

Policies and plans provide guidance for fair and consistent staff treatment and a consistent approach to the management of staff.

The table below shows the status of the Human Resources policies and plans:

Table 270: Approved Policies for the year under review

Approved policies	
Name of policy	Date approved/revised
Acting Allowance Policy	30 May 2022
Bursary Policy	13 June 2024
Education Training and Development Policy	30 June 2022
Employment Equity Policy	10 June 2022
Exit Policy	10 June 2022
Induction Policy	10 June 2022
Performance Management Policy	10 June 2022
Probation Policy	10 June 2022
Recruitment and Selection Policy	19 June 2023
Reward and Recognition Policy	30 June 2022
SHE Policy	30 June 2022
Strategic Talent Management Framework Policy	30 June 2022
Task Job Evaluation Policy	30 May 2022
Time and Attendance Policy	24 February 2022
Work From Home Policy	01 March 2022

4.12 Capacity Building of the Municipal Workforce

Section 68(1) of the MSA states that a Municipality must develop its human resources capacity to a level that enables it to perform its functions as well as exercise its powers in an economical, effective, efficient and accountable way. For this purpose, the human resources capacity of a Municipality must comply with the Skills Development Act (SDA), 1998 (Act No. 81 of 1998), and the Skills Development Levies Act, 20 1999 (Act No. 28 of 1999).

4.13 Skills Matrix

Training for the 2023/24 financial year saw an increase in full credit-bearing programmes. In compliance with the NQF levels. This allows for the portability of training accredited training programs and qualifications. Discretionary allocations awarded to the George Municipality by the LGSETA allowed officials access to learnerships. Skills Programmes and Apprenticeships.

The table below indicates the number of employees who received training as per the Workplace Skills Plan of 2023/24.

Table 271: Number of employees that received training

Management level	Gender	Number of employees identified for training at the start of the year	Number of Employees that received training
Legislators, Senior Officials and Managers	Female	0	-
	Male	0	-
Professionals	Female	35	35

Sub-total	Female	287	283
	Male	390	374
Total		677	657

4.14 Skills Development – Training Provided and Budget Allocation

The Skills Development Act, of 1998 (Act No. 97 of 1998) and the MSA, require that employers supply employees with the necessary training to develop their human resource capacity. Section 55(1)(f) states that as head of administration, the Municipal Manager is responsible for the management, utilisation and training of staff.

The following accredited training was provided to employees during the 2023/24 financial year:

- First Aid in the workplace
- Municipal Minimum Competency Level (MFMA)
- Water and Wastewater Process Control Supervision
- Road Construction
- SAMTRAC Safety Management
- Microsoft Office (Word, Excel & PowerPoint)
- Examiner of Driving Licences
- Crowd Control Management
- TLB Operator

- Advanced Driving
- Fire Arms Regulation 21

4.17 Employee Wellness

George Municipality is committed – through the Employee Wellness Programme - to improving the morale of its employees. Employees with personal and work-related difficulties are assisted with counselling and are also sent for counselling assistance to experienced service providers.

A three-year tender has been issued to appoint service providers to render medical, counselling and supporting services to employees. The tender was active from February 2023 until February 2026. The Service Providers have specific competencies and are utilised accordingly.

Employees have access to the EAP office personnel via their supervisors. The EAP personnel will then make referrals to the service providers to assist employees.

Services available to employees are:

- Wellness day
- Counselling for alcohol/drug dependency;
- Counselling for alcohol/drug dependency per group;
- Trauma counselling;
- Trauma Group counselling;
- Debriefing counselling;
- Group Debriefing counselling;
- Bereavement counselling;
- Group Bereavement counselling;
- HIV/Aids counselling;
- Work and Family problems-related counselling;
- Work and Family problems related group counselling;
- Conflict Resolution per official;
- Group Conflict Resolution;
- Drug/Alcohol/Pharmacy Drug dependency tests;
- Assist with Capacity investigations;
- Assist with Disability applications;
- Assist with Death benefit applications;
- Assist with Dread disease applications;
- Services rendered after disciplinary hearings;
- Insurance verifications before deductions; and
- Advice to Supervisors and Managers relating to any difficulties is available.

Table 275: Wellness Programme implementation

Projects	Totals
Conflict / Work Related (HRMA)	121

4.18 Internship and In-service Training

The Municipality collaborates with tertiary institutions to provide a workplace experience to graduates in a structured manner, ranging from TVET Colleges, various SETAs and universities. The fields of study ranges from Public Management, Engineering (Civil and Electrical) Laboratory Services, Accounting, Auditing Human Resources Services Planning and Development. The table below indicates the number of interns and in-service trainees who received experience in the year under review.

Table 276: Intern and Inservice Training

Directorate	Gender	Number of interns and in-service trainees within the department	Number of interns and in-service trainees absorbed within the department

DRAFT

5.5 Asset Management

George Municipality has an Asset Unit in place which handles all matters about the financial classification and accounting of/for assets, as required by Section 63 of the MFMA. The Asset Unit falls under the Finance Directorate, and it is their duty to ensure all municipal assets are accounted for in accordance with relevant legislation.

All Departments remain the custodians of the assets under their control and should take the required steps to safeguard as well as effectively manage and maintain their assets.

George Municipality has an Asset Management and Accounting Policy (reviewed annually) which outlines the following:

- Roles and responsibilities of various role players, i.e., Directors, CFO, Municipal Manager, Budget Office and Asset Unit;
- Acquisitions & disposal of assets;
- Verification process relating to assets
- Financial classification of assets;
- The fixed asset register – required fields, information, and layout;
- The useful lives allocated per asset type; and
- All operating procedures relating to Asset Unit functions.

5.6 Repairs and Maintenance

Description	2022/23	2023/24	
	Actual	Actual	% Increase/ (Decrease)
Repairs and Maintenance Expenditure	234 260 233	223 729 358	-5%

5.7 Financial Ratios Based on Key Performance Indicators

Table 289: Liquidity Ratio

Basis of Calculation	Norm	2021/22	2022/23	2023/24
Current Assets/ Current Liabilities	1.5-2: 1	2,06	1,50	1,33
Current Assets less debtors > 90 days/ Current Liabilities		1,96	1,10	1,10
Monetary Assets/ Current Liabilities		1,26	0,98	1,01

5.8 IDP Regulation Financial Viability Indicators

Table 290: IDP Regulation Financial Viability of Indicators

Description	Basis of Calculation	2021/22	2022/23	2023/24
Cost coverage	(Available cash + Investment - Unspent grants)/monthly fixed operational expenditure	3.14 months	2.19 months	2.44 months
<p>The norm is 1-3 months. This ratio gives an indication of the Municipality's ability to meet at least its monthly fixed operating commitments from cash and short-term, investment without collecting any additional revenue during that month. The monthly cost coverage is within the norm. It will take 2,44 months for George Municipality to cover expenditures out of available cash and liquid assets.</p>				
Total outstanding service debtors to revenue	(Total outstanding service debtors)/annual revenue received for services	12.10%	13.72%	13.37%

Description	Basis of Calculation	2021/22	2022/23	2023/24
Measures how much money is still owed by the community for water, electricity, waste removal and sanitation as compared to how much money has been paid for these services.				
Debt coverage	(Overdraft + Finance lease obligation + Borrowings) / (Total operating revenue - Conditional grants) x 100	17.52%	14%	22.68%
If the result of the Ratio Analysis indicates less than 45% then the Municipality still has the capacity to take increased funding from borrowings, however, this should be considered within the cash flow requirements of the Municipality.				

5.9 Borrowing Management

5.11.2 Basic Services Infrastructure Backlogs

Owing to the lack of affordable accommodation for many families the Municipality is seeing an increase in people living together as one family unit. The migration of immigrants from other provinces has resulted in a significant increase in backyard dwellers, posing a social and economic dilemma. Children who reside in their parents' backyards put additional strain on existing resources.

Infrastructure is already overburdened, and it will be unable to meet the increased demand as the population grows. Pipes and other infrastructure are more prone to breaking. The necessity of adequate housing and the elimination of backlogs in proper housing facilities cannot be overstated. Our Municipality is now sponsoring numerous housing initiatives to provide adequate housing. The Indigent Policy was revised and updated to allow backyard inhabitants to apply for a subsidy to get free electricity units of 70 kilowatt hours and 6 kiloliters of water. This will benefit underprivileged areas by lowering the cost of housing and basic services.

George Municipality has been successful in providing power to all formal residences. However, there has been a significant increase in informal structures over the last 12 months. In the immediate term, the Electrotechnical Department will not be able to electrify all the new informal structures. The electrification of new housing projects in Thembaletu and Pacaltsdorp will be prioritised to give formal housing opportunities for individuals living in shacks. Electrification funding, on the other hand, remains a challenge.

5.11.3 Expenditure on Municipal Infrastructure Grant (MIG)

Total	375 138 001	490 542 089	338 550 953	69%

5.11.4 Basic Services and infrastructure backlogs - Overview

Out of the various Master Plans revised, various infrastructure backlogs and upgrades were identified which will be required to meet current and future development needs. Budgetary provisions will be made accordingly.

The service level above minimum standard can be interpreted as the backlogs to upgrade current households above minimum standard to households supplied with water inside dwelling.

In terms of the definition of backlogs for the minimum standard water supply, major backlogs exist in terms of dilapidated infrastructure and the bulk services to provide for future development and current provision of water and sanitation.

Total	333 116 002	467 834 014

5.17 Municipal Cost Containment

5.17.1 Municipal Cost Containment Measures

Municipal Cost Containment Regulations (MCCR)

National Treasury first published the draft MCCR for public comment on 16 February 2018, with the closing date being 31 March 2018. Comment/input hereon was received from the Department of Cooperative Governance and Traditional Affairs, SALGA, municipalities, and other stakeholders. After extensive consultation and consideration of all comments received, the MCCR were finalised and promulgated on 7 June 2019 in the Government Gazette, with the effective date being 1 July 2020.

5.17.2 Municipal Cost Containment Policy

The MCCR does not apply retrospectively, hence, contracts concluded prior to 1 July 2020 will not be impacted and/or applicable in this context. However, if municipalities and municipal entities decided to extend current contracts, these would have to be aligned with the principles outlined in the MCCR and SCM Regulations.

Regulation 4(1) of the MCCR requires municipalities and municipal entities to either develop or review their cost containment policies. The MCCR require municipalities to adopt the cost containment policies as part of their budget related policies

5.17.3 Municipal Cost Containment Measures and annual cost saving measures

The effective implementation of the MCCR is the responsibility of the municipal council and the municipal accounting officer. In terms of the cost containment framework provided in the MCCR, which is consistent with the provisions of the MFMA and other government pronouncements, the following cost savings for the financial year are disclosed:

CHAPTER 6: AUDITOR GENERAL AUDIT FINDINGS

6.1 Introduction

This chapter provides the details on the audit outcomes for the past two financial years with the corrective steps implemented.

COMPONENT A: AUDITOR-GENERAL OPINION 2022/23

The Constitution S188 (1) (b) states the functions of the Auditor General include the auditing and reporting of the accounts, financial statements, and financial management of all municipalities. MSA section 45 states the results of performance measurement must be audited annually by the Auditor General.

6.2 Auditor General Report 2022/23

Report of the auditor-general to the Western Cape Provincial Parliament and the Council on George Municipality.

Report on the Audit of the Financial Statements

Opinion

1. I have audited the financial statements of the George Municipality set out on pages 6 to 144, which comprise the statement of financial position as at 30 June 2023, statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the George Municipality as at 30 June 2023 and its financial performance and cash flows for the year then ended in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 05 of 2022 (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
4. I am independent of the Municipality in accordance with the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matters

6. I draw attention to the matters below. My opinion is not modified with respect to these matters.

Restatement of the corresponding figures

7. As disclosed in note 49 to the financial statements, the corresponding figures for 30 June 2022 were restated as a result of errors in the financial statements of the Municipality at, and for the year ended, 30 June 2023.

Material impairments

8. As disclosed in note 37 to the financial statements, the Municipality provided for the impairment of receivables from exchange transactions, amounting to R87 million (2021-22: R45 million).
9. As disclosed in note 37 to the financial statements, the Municipality provided for the impairment of receivables from non-exchange transactions, amounting to R63 million (2021-22: R52 million).

Underspending capital expenditure

10. As disclosed in note 52 to the financial statements, the Municipality has materially underspent the budget for capital expenditure by R424 million (2021-22: R37,2 million). The underspending was due to various reasons as explained in note 65 to the financial statements.

Underspending operating expenditure

11. As disclosed in note 52 to the financial statements, the Municipality has materially underspent the budget for operating expenditure by R360 million (2021-22: R243,3 million). The underspending was due to various reasons as explained in note 65 to the financial statements.

Material Losses

12. As disclosed in note 55 to the financial statements, the Municipality incurred a 27,22% (2021-22: 25.05%) water loss during distribution.

Other matters

13. I draw attention to the matter below. My opinion is not modified with respect to this matter.

Unaudited disclosure notes

14. In terms of section 125(2)(e) of the MFMA, the particulars of non-compliance with the MFMA should be disclosed in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

Unaudited supplementary schedules

15. The supplementary information set out on pages 145 to 147 does not form part of the financial statements and is presented as additional information. We have not audited these schedules and, accordingly, we do not express an opinion on them.

Responsibilities of the accounting officer for the financial statements

16. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the GRAP and the requirements of the MFMA and Dora; and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
17. In preparing the financial statements, the accounting officer is responsible for assessing the Municipality's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the Municipality or to cease operations or has no realistic alternative but to do so.

Responsibilities of the auditor -general for the audit of financial statements

18. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

19. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the Audit of the Annual Performance Report

20. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected objective presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
21. I selected the following objective presented in the annual performance report for the year ended 30 June 2023 for auditing. I selected an objective that measures the Municipality's performance on its primary mandated functions and that is of significant national, community or public interest.

Objective	Page numbers	Purpose
Strategic Objective 3 – Affordable Quality Services	12-29	To deliver affordable quality services.

22. I evaluated the reported performance information for the selected objective against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the Municipality's planning and delivery of its mandate and objectives.
23. I performed procedures to test whether:
- the indicators used for planning and reporting on performance can be linked directly to the Municipality's mandate and the achievement of its planned objectives;
 - the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements;
 - the targets can be linked directly to the achievement of the indicators and are specific, time-bound and measurable to ensure that it is easy to understand what should be delivered and by when the required level of performance as well as how performance will be evaluated;
 - the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents;
 - the reported performance information is presented in the annual performance report in the prescribed manner; and
 - there is adequate supporting evidence for the achievements reported and for the measures taken to improve performance.
24. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.
25. I did not identify any material findings on the reported performance information for the selected objective.

Other matter

26. I draw attention to the matter below.

Achievement of planned targets

27. The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance.
28. The Municipality plays a key role in delivering services to South Africans. The table that follows provides information on the achievement of planned targets and lists the key service delivery indicators that were not achieved as reported in the annual performance report. The reasons for any underachievement of targets/ measures taken to improve performance are included in the annual performance report on pages 12 to 29.

Strategic objective 3: Affordable quality service

Target Achieved: 40%		Budget Spent: 87%
Key service delivery indicator not achieved	Planned target	Reported achievement
Strategic Objective 3 – Affordable Quality Services	12-27	To deliver affordable quality services.
TL34: Provide free basic water to indigent account holders	11 500	10 488
TL35: Provide free basic electricity to indigent account holders	16 500	15 439
TL36: Provide free basic sanitation to indigent account holders	11 500	10 228
TL37: Provide free basic refuse removal to indigent account holders	11 500	10 318

Report on compliance with legislation

29. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the Municipality's compliance with legislation.
30. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
31. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the Municipality, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
32. I did not identify any material non-compliance with the selected legislative requirements.

Other Information in the Annual Report

33. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and those selected objectives presented in the annual performance report that have been specifically reported on in this auditor's report.
34. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
35. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected objectives presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
36. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal Control Deficiencies

37. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
38. I did not identify any significant deficiencies in internal control.

Other Report

39. I draw attention to the following engagements conducted by various parties. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.
40. As a result of S106 investigations into allegations and other misconduct, further investigations are being conducted by an independent consultant at the request of the Municipality. At the date of the auditor's report, the investigation is still in progress.

Auditor General

Cape Town

30 November 2023

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Annexure to the auditors report

The annexure includes the following:

- The auditor-general's responsibility for the audit
- The selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected objectives and on the Municipality's compliance with selected requirements in key legislation.

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for the selected objective and on the Municipality's compliance with respect to the selected subject matter.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Municipality’s internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made
- conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the Municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor’s report. However, future events or conditions may cause a Municipality to cease operating as a going concern
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Compliance with legislation – selected legislative requirements

The selected legislative requirements are as follows:

• Legislation	• Sections or regulations
Municipal Finance Management Act 56 of 2003	Section 1 – paragraph (a), (b) & (d) of the definition: irregular expenditure Section 1 – definition: service delivery and budget implementation plan Sections 11(1), 13(2), 14(1), 14(2)(a), 14(2)(b), 15, 24(2)(c)(iv), 29(1) Sections 29(2)(b), 32(2), 32(2)(a), 32(2)(a)(i), 32(2)(a)(ii), 32(2)(b) Sections 32(6)(a), 32(7), 53(1)(c)(ii), 54(1)(c), 62(1)(d), 62(1)(f)(i) Sections 62(1)(f)(ii), 62(1)(f)(iii), 63(1)(a), 63(2)(a), 63(2)(c), 64(2)(b) Sections 64(2)(c), 64(2)(e), 64(2)(f), 64(2)(g), 65(2)(a), 65(2)(b), 65(2)(e) Sections 72(1)(a)(ii), 112(1)(j), 116(2)(b), 116(2)(c)(ii), 117, 122(1) Sections 126(1)(a), 127(2), 127(5)(a)(i), 127(5)(a)(ii) Sections 129(1), 129(3), 133(1)(a), 133(1)(c)(i), 133(1)(c)(ii), 170

DRAFT

COMPONENT B: AUDITOR-GENERAL OPINION 2023/24

6.3 Auditor General Report 2023/24

Report of the auditor-general to Western Cape Provincial Legislature and the council of George Municipality

Report on the audit of the financial statements Opinion

1. I have audited the financial statements of the George Municipality set out on pages 6 to 165, which comprise the statement of financial position as at 30 June 2024, statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.

2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the George Municipality as at 30 June 2024 and its financial performance and cash flows for the year then ended in accordance with Standards of Generally Recognised Accounting Practice (GRAP) and the requirements of the Municipal Finance Management Act 56 of 2003 (MFMA) and the Division of Revenue Act 5 of 2023 (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.

4. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matters

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

7. As disclosed in note 49 to the financial statements, the corresponding figures for 30 June 2023 were restated as a result of errors in the financial statements of the municipality at, and for the year ended, 30 June 2024.

Material impairment

8. As disclosed in note 37 to the financial statements, the municipality provided for impairment of receivables from exchange transactions, amounting to R100 million (2022-23: R87 million)

9. As disclosed in note 37 to the financial statements, the municipality provided for impairment of receivables from non-exchange transactions, amounting to R35 million (2022-23: R51 million).

Underspending of capital expenditure

10. As disclosed in note 52 to the financial statements, the municipality has materially underspent the budget for capital expenditure by R780 million (2022-23: R386 million). The underspending was due to various reasons as explained in note 64 to the financial statements.

Underspending of operating expenditure

11. As disclosed in note 52 to the financial statements, the municipality has materially underspent the budget for operating expenditure by R227 million (2022-23: R347 million). The underspending was due to various reasons as explained in note 64 to the financial statements.

Material losses

12. As disclosed in note 55 to the financial statements, the municipality incurred 20.78% (2022-23: 27.22%) water loss during distribution.

Other matters

13. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited disclosure notes

14. In terms of section 125(2)(e) of the MFMA, the particulars of non-compliance with MFMA should be disclosed in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on them.

Unaudited supplementary schedules

15. The supplementary information set out on pages 166 to 168 does not form part of the financial statements and is presented as additional information. We have not audited these schedules and, accordingly, we do not express an opinion on them.

Responsibilities of the accounting officer for the financial statements

16. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the GRAP and the requirements of the MFMA and Dora; and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

17. In preparing the financial statements, the accounting officer is responsible for assessing the municipality's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

18. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

19. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report. This description, which is located at page seven (7), forms part of our auditor's report.

Report on the audit of the annual performance report

20. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected objective presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.

21. I selected the following objective presented in the annual performance report for the year ended 30 June 2024 for auditing. I selected an objective that measure the municipality's performance on its primary mandated functions and that is of significant national, community or public interest.

Objective	Page numbers	Purpose
Strategic objective 3: Affordable quality services	14-27	To deliver affordable quality services

22. I evaluated the reported performance information for the selected objective against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the municipality's planning and delivery on its mandate and objectives.

23. I performed procedures to test whether:

- the indicators used for planning and reporting on performance can be linked directly to the municipality's mandate and the achievement of its planned objectives
- all the indicators relevant for measuring the municipality's performance against its primary mandated and prioritised functions and planned objectives are included
- the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements
- the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated
- the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents
- the reported performance information is presented in the annual performance report in the prescribed manner and is comparable and understandable
- there is adequate supporting evidence for the achievements reported and for the measures taken to improve performance.

24. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.

25. I did not identify any material findings on the reported performance information for the selected objective.

Other matter

26. I draw attention to the matter below.

Achievement of planned targets

27. The annual performance report includes information on reported achievements against planned targets and provides measures taken to improve performance. This information should be considered in the context of the material findings on the reported performance information.

28. The table that follows provides information on the achievement of planned targets and lists the key service delivery indicators that were not achieved as reported in the annual performance report. The measures taken to improve performance are included in the annual performance report on pages 14 to 27.

Strategic objective 3: Affordable quality services

Targets achieved: 89%		
Budget spent: 81%		
Key service delivery indicator not achieved	Planned target	Reported achievement
TL4: Number of residential electricity meters connected to the municipal electrical infrastructure network.	48 580	45 881

Report on compliance with legislation

29. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the municipality's compliance with legislation.

30. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.

31. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the municipality, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.

32. I did not identify any material non-compliance with the selected legislative requirements.

Other information in the annual report

33. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and those selected objectives presented in the annual performance report that have been specifically reported on in this auditor's report.

34. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.

35. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected objectives presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

36. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

internal control deficiencies

37. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.

38. I did not identify any significant deficiencies in internal control.

Other reports

39. I draw attention to the following engagement which did not form part of my opinion on the financial statements, assessment of performance information and compliance with laws and regulations:

40. Stemming from section 106 investigations, into allegations and other misconduct of municipal officials, further investigations are being conducted by the Directorate for Priority Crime Investigation. At the date of the auditor's report the investigation is still in progress.

Auditor General

Cape Town
30 November 2024

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Annexure to the auditor's report

The annexure includes the following:

- The auditor-general's responsibility for the audit
- The selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected objectives and on the municipality's compliance with selected requirements in key legislation.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made
- conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the municipality to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a municipality to cease operating as a going concern
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Compliance with legislation - selected legislative requirements

The selected legislative requirements are as follows:

Legislation	Sections or regulations
Municipal Finance Management Act No. 56 of 2003 (MFMA)	Section 1 Section 11(1), 13(2), 14(1), 14(2)(a), 14(2)(b), 15, 24(2)(c)(iv), 28(1), 29(1), 29(2)(b) Section 32(2), 32(2)(a), 32(2)(b)(i), 32(2)(a)(ii), 32(2)(b), 32(6)(a), 32(7), Section 53(1)(c)(ii), 54(1)(c) Section 62(1)(d), 62(1)(f)(i), 62(1)(f)(ii), 62(1)(f)(iii), 63(2)(a), 63(2)(c), 64(2)(b), 64(2)(c), 64(2)(e), 64(2)(f), 64(2)(g) Section 65(2)(a), 65(2)(b), 65(2)(e), 66(1)(b) Section 72(1)(a)(ii) Section 112(1)(b), 116(2)(b), 116(2)(c)(ii), 117 Section 122(1), 126(1)(a), 127(2), 127(5)(a)(i), 127(5)(a)(ii), 129(1), 129(3) Section 133(1)(a), 133(1)(c)(i), 133(1)(c)(ii) Section 170, 171(4)(a), 171(4)(b)
MFMA: Municipal Investment Regulations, 2005	Regulations 3(1)(a), 3(3), 6, 7, 12(2), 12(3)
